April 1786.

Pap. 1808.—As in 1808, passed in this Session of Parliament, had enabled the Company to unite in the same person the Office of Governor General and Commander in Chief, and Lord Cornwallis having undertaken the office of Governor General, we think it may be attended with beneficial consequences at this time to invest his Lordship with the supreme power, both Civil and Military.

The Offices of
Govr. Gen. and
Comr. in Chief
occasionally be
united.

M. C. 20th
April 1787.

The Military establishment of this Presidency affords few gratifications out of the line of regular succession; the public good requires that such as do exist should be considered as the rewards of professional merit, and not be granted by partial favor; an adherence to this principle, under a Government subject to continual variations in the constituent member, may be most reasonably expected by suffering the distribution to flow through the Commander in Chief alone, by conceding to him the exclusive management of the detail in all the military appointments.

G. O. G. G.
23d June 1801.

The Governor General in Council deeming it to be essential to the establishment of a proper and uniform system of discipline among the several Corps of the Army that the authority and order of the General Officer holding the commission of Commander in Chief for the time being, should at all times have full effect, as well in all Forts and Garrisons as at the other stations of the army; His Excellency in Council accordingly desires, that the Commander in Chief will be pleased to issue such orders and directions as he may think proper respecting the regimental detail and discipline, and the review and inspection of the troops at the Presidency, including those in the Garrison of Fort William, and at the Cantonments of Barrackpore; and the Officer Commanding the Garrison at Fort William and the Town Major are directed to obey such orders as they may receive from the Commander in Chief according to the tenor of this order.

Comr. in Chief

tails, discipline,
&c of Troops
in Fort Will-
am.

G. O. G. G.
16th April
1810.

The Governor General in Council understands that the returns of the Company's troops belonging to the Presidencies of Fort St. George and Bombay are not regularly furnished to the Commander in Chief in India. His Excellency in Council deems it to be absolutely necessary, that the Governor General and Commander in Chief should at all times possess the means of knowing the actual strength, as well as the distribution of the military force belonging to the other Presidencies; and therefore orders, that the Governments of Fort St. George and Bombay be directed to instruct the Officers commanding the troops under their respective Presidencies to transmit regular monthly returns of the Company's troops to the Commander in Chief in India. These returns to be accompanied with statements showing the distribution of the different corps at the several Presidencies; and any material change or alteration which it may at any time be found necessary to make in the distribution of the army is to be reported immediately to the Commander in Chief in India.

Returns & re-
ports of Troops
at Fort St. George
and Bombay to be
made in Comr.
in Chief in In-
dia.

It being of the greatest importance to the security of the British possessions in India that a regular and uniform system of discipline and subordination should be established and maintained among the troops of his Majesty and of the Honorable Company; His Excellency in Council directs that the General Officers upon the staff commanding stations or districts, serving under the Presidencies of Bengal, Fort St. George and Bombay, shall inspect and review the corps under their respective commands annually, under such directions and at such times of the year as the Commander in Chief in India may think proper, and that such General Officers shall report to the Commander in Chief in India, through the proper channel, the particular state of the discipline and efficiency of the several Regiments and corps under their respective commands for the information of the Governor General in Council.

All Troops at
the several Pre-
sidencies to be
annually re-
viewed under
the orders of
the Comr. in
Chief in India.

Proc. G. G.
18th Novr.
1807.

His Excellency Lieutenant General Hewitt is to be considered as having assumed the office of Commander in Chief from the time of his arrival at Fort St. George, and consequently the right of appointing his personal staff, which otherwise was to be continued from the same period.

Period at which
the Comr. in
Chief assumed

Statement of camp equipage, cattle & attendants, &c. for the Comr. in Chief & Staff attached. The Governor General in Council directs that the following revised statements of camp equipage, cattle and attendants, &c. &c. for his Excellency the Commander in Chief and Officers on the General Staff, be published in General Orders.—(vide Form No. 1.) G. O. C. G. 10th Jan. 1812.

Strength of Escort ordered for Comr. in Chief on a tour of inspection. Major General St. Leger will be pleased to give directions for the formation of an Escort of Native Cavalry and Infantry to accompany the Commander in Chief; the former to consist of 60 rank and file, the latter of 200 rank and file, with such proportion of Commissioned Officers as the Major General may think proper. G. O. C. C. ad Off. 1808.

Allowance fixed for Mily. Secy. to Comr. in Chief. The Governor General in Council adverting to the orders of the Vice President in Council of the 16th April 1799, respecting the compensation of 2000 Rupees per month granted to the Commander in Chief's Military Secretary, in place of the emoluments which he formerly derived from the Military Dawk beyond the provinces; his Lordship observes that the allowance of 2000 Rupees per month was intended to be continued as a permanent allowance, in order that the important office of Military Secretary to the Commander in Chief might always remain on the same scale of emolument, as that which had been annexed to it previous to the separation of the profit of the Military Dawk beyond the provinces, and of the consequent annexation of the profits derived from that Dawk to the General Revenues of the Post Office. Proc. C. G. 19th Mar. 1801.

Office establishment of Mily. Secy. to Comr. in Chief how charged. The actual expence which Lieutenant Colonel Lake may incur, on account of the establishment of his office as Military Secretary to the Commander in Chief, is to be charged in a monthly contingent bill attested in the usual manner. Proc. C. G. 23d Jan. 1806.

Salary to Persian Interpreter to the Comr. in Chief. Extract from the Table of Monthly Salaries and Allowances, annexed to the Code of Bengal Military Regulations, published under the Authority of Government first of January, 1791.

“ Persian Interpreter to the Commander in Chief, St. Rs. 666 10 8.”

Allowed the full Batta & House-rent of his Rank. The Persian Interpreter to the Commander in Chief is entitled to draw full Batta in M. C. 16th June 1786.

No. of Aids-de-camp fixed for the Comr. in Chief. The Governor General in Council considering the very great increase to the army of this and the other Presidencies since the Regulations of 1786, fixing the number of Aids-de-camp to be allowed to the Commander in Chief, is pleased to determine that his Excellency be allowed three Aids-de-camp to enable him to carry on the duties of his station. Proc. G. G. 16th Nov. 1807.

Additional Aid-de-camp when allowed. We do not object to an additional Aid-de-camp being allowed to the Commander in Chief under the circumstances stated; nor to a fourth being added when on service in the field, or on a tour of inspection of the Army. Let. C. D. 6th Feb. 1810.

Salary to Aids-de-camp to the Comr. in Chief. Extract from the Table of Monthly Salaries and Allowances, annexed to the Code of Bengal Military Regulations, published under the Authority of Government first of January, 1791.

“ Aid-de-camp to the Commander in Chief,

Staff allowances, &c. and House-rent, St. Rs. 324.”

Batta fixed for Aids-de-camp to Comr. in Chief. Aids-de-camp to the Commander in Chief are allowed the full Batta of their rank in garrison and cantonments; and, when not entitled to higher Batta from their rank in the army, are permitted to draw that of Captain. M. C. 16th June 1786.

Uniform ordered for Aids-de-camp to Comr. in Chief. Aids-de-camp to the Commander in Chief to wear the uniform of the corresponding rank in the King's service with a Spaulder. G. O. 11th July 1787.

Provl. Comr. in Chief when to be appointed & his allowance fixed. If, by the death of the Commander in Chief in India, or by his resignation of that office before a successor shall arrive, it shall be found necessary to appoint a Provincial Commander in Chief at your Presidency, the Officer so appointed shall receive 2000 Sicca the allowances of his rank, until a new Commander in

Ordered, that the Provincial Commander in Chief be informed that it has not been the practice of the service to consider the temporary appointment of a Major General, either on his Majesty's or the Company's Staff, to be Provincial Commander in Chief, as constituting a vacancy on that Staff, which was considered to be equally complete as if that Officer was executing the duties of the command to which he had been specially and permanently appointed.
- G. O. G. G.** 20th Feb. 1807. The Right Honorable Lord Lake, Commander in Chief, having taken his departure from Fort William for the purpose of returning to Europe, and Major General Dowdeswell being the Senior General Officer on the Staff of this Presidency, the Governor General in Council directs that all reports and returns of the troops under the Presidency of Bengal be transmitted to Major General Dowdeswell until further orders.
- G. O. G. G.** 16th March, 1807. Major General Dowdeswell, appointed by the special orders of Government to command the troops at the Presidency Station, and also to be Provincial Commander in Chief, will be pleased to preside at the Military Board, and also to direct the details of the troops at the Presidency Station. The Governor General in Council is pleased to authorize Major General Dowdeswell, Provincial Commander in Chief, to appoint a Secretary to assist him in carrying on the details of the Army.
- Let C D** 21st April, 1809. PAR. 231st. The Provincial Commander in Chief cannot be considered as standing in all respects in the same situation with the Commander in Chief in India, nominated by us; we therefore direct that the full staff allowance be not granted in future to the Secretary of the Officer holding that appointment.
- G. O.** 6th Dec. 1790. Earl Cornwallis having taken his departure from this Presidency in order to proceed to Fort St. George; all returns and reports of the Army are, during his Lordship's absence, to be made to Colonel McKenzie, the senior Officer under this Presidency. As Colonel McKenzie will require the assistance of an additional Staff to carry on the details of the Army he will nominate to the office of Secretary any Officer whom he may think proper to select for that appointment.

plate Regiments to the Cavalry, and complete Battalions to the European and Native Infantry; drafts are to be made from the old Corps, as a foundation for the additional levies in proportion to the excess of those levies, and the old Corps will make good their respective deficiencies in consequence of the Drafts by Recruiting, so that the same proportion of one Company of Artillery and Artillery Leaders, of one Regiment of Cavalry, and one Battalion of European or Native Infantry, shall invariably remain the same in the old and new corps.

New establishments when to commence.

All new Establishments made by the Board are to be understood to take place from the 1st day of the month, following their publication, unless the date of their commencement shall be expressed in the order. C. O. C. C. 14th Sep 1778.

System of Field Exercise to be observed in the Army.

It being expedient and necessary for the service that one uniform system of field exercise and movements should be practised in the Army throughout India; and the Regulations established for His Majesty's Forces, being founded on just and true principles, easy in attainment and simple in execution, the Commander in Chief in India has resolved that copies of them be circulated to the different Divisions, Stations and Corps of the Army, and orders that they may be invariably practised and adhered to by His Majesty's and the Honorable Company's Forces, under his command. The Commander in Chief directs, as the only deviation from the Regulations now to be adopted, that the Army in India continue to form two deep, the Officers and Sergeants not posted in the ranks forming a third, to be considered as the supernumerary rank; the corps will, however, occasionally practise their exercise and movements three deep.—Such orders and regulations as do not militate against the rules now established will continue in force, but all such as may be found to interfere with or counteract their effect and operation are to be considered as cancelled and annulled. The Commander in Chief calls in a particular manner on Officers, commanding Stations and Corps, for their strenuous efforts, that the Troops under their command are regularly trained and instructed in the system now ordered.

C. O. C. C. 14th Sep 1794.

Forbidding any deviation from the System ordered to be observed.

An uniform system of discipline founded on just principles, being so indispensably necessary to the efficiency of an Army, the Commander in Chief is pleased to direct that the Rules and Regulations laid down for the Formation, Field Exercise and Movements of His Majesty's Forces, be rigidly adhered to by the whole of the Army serving under this Presidency, and that no deviation be made therefrom without his sanction.—Any alterations which may have been introduced, are ordered to be laid aside immediately, and the Commander in Chief demands a strict compliance with this order in future.

C. O. C. C. 30th Sep 1801.

New manual & Platoon exercise introduced.

The Commander in Chief is pleased to recall and cancel the Manual and Platoon exercises as now practised in this Army, and to direct the Regulations to be established in their stead, as ordered by the King on the 1st November, 1804; and to which was added His Royal Highness, the Duke of York's observations, and extracts from the Rules and Regulations for the Formation, Field Exercise and Movements of His Majesty's Forces; with a system of rifle exercise annexed; copies whereof will immediately be circulated from the Adjutant General's Office, by His Excellency's command to all General Officers, commanding Districts, to Officers in command of Stations and Detachments, Regiments and Battalions, to the end that the Drills of every Regiment on this establishment be conducted hereafter in strict conformity thereto.

C. O. C. C. 21st Nov. 1807.

Orders for the Superintendence of Drills.

The Commander in Chief deprecating the practice of punishing Soldiers with a censure at the pleasure of individuals, situated with the instruction of Recruits at the Drill, or on any other occasion whatsoever, to be liable to serious objection, is pleased to forbid such an irregular practice, and to call upon Officers, commanding Regiments and Battalions, to enforce a strict observance of this order in future.—It is the particular duty of Adjutants to superintend the drills of their respective Corps, which should never be without the attendance of the Adjutant or that of an European Commissioned Officer, to be appointed for the duty, in case of the Adjutant's unavoidable absence.

SALUTES.

M. C. 5th Aug. 1779.

To the Governor General 15 guns.

To the Vice President and Deputy Governor 17 guns.

Resolved, that the following regulations for salutes from the military be observed: Generals of horse and foot to be saluted with 17 guns; Lieutenant General, being Commander in Chief, with 17, otherwise 15 guns; Major General, being Commander in Chief, with 15, otherwise 13 guns; Brigadier General, being Commander in Chief, with 13, otherwise 11 guns.

Regulations for Mily. Honors & Salutes; also personal Guards to Genl. Officers.

Resolved, that the following rules for military honors from Guards be observed:

BY INFANTRY.

Generals of horse and foot upon all occasions to have the march beat to them and to be saluted by all Officers, the colours excepted. They are likewise entitled to a guard of a Captain, Lieutenant, Ensign, and 50 men, with colours and standard.

Lieutenant Generals of horse and foot upon all occasions to be saluted by all Officers; they are to have three ruffles given them, and are entitled to a guard of a Lieutenant and 30 men.

Major Generals to have two ruffles given them, and are not saluted by any Officer; they are entitled to a guard of an Ensign and 30 men. Brigadiers to have one ruffle, and are entitled to a guard of a Serjeant and 12 men. A Lieutenant General, who is Commander in Chief, is to have the same respect paid him on all occasions as a General of horse and foot. A Major General as a Lieutenant General, and a Brigadier as a Major General.

BY CAVALRY.

A General of horse and foot is to be received with swords drawn, kettle drums beating, trumpets sounding, and all the Officers to salute, except the Cornet bearing the standard. A Lieutenant General to be received with swords drawn, trumpets sounding twice the trumpet flourish, as in drawing swords, and all the Officers to salute, except the Cornet who bears the standard. A Major General to be received with swords drawn, one trumpet of each squadron sounding, no Officers to salute. A Brigadier General to be received with swords drawn, no trumpet to sound or Officer to salute.

Returns of brigades & detachments and copies of orders issued at Stations to be sent monthly to Head-quarters.

Monthly returns of brigades, detachments and independent corps, together with copies of all orders issued to the Troops by their several commanding officers, are directed to be sent to the Commander in Chief as soon as possible after the expiration of every month; also returns of all elephants, camels; draft and carriage cattle, that are attached to them; or at the several Stations of the Army. When from any cause they are prevented from being dispatched in due time, the commanders of brigades and commanding officers of corps are to report it by letter; they are likewise to report by letter all material occurrences that may have happened in the course of the month, relative to their corps not specified in their returns.

G. O. 14th Dec. 1780.

Monthly returns of corps and Stations when transmitted, their forms &c.

The monthly returns of corps and other monthly papers for Head-quarters, with exception to the general returns of artillery from the Presidency and in the Field, are to be always dispatched by officers, respectively, on the first of every month. The Station returns will consequently only include in detail the corps and departments present at the Station. The corps dependant to be entered under a general head, as for instance; "First Battalion 12th Regiment at Secroa and Byram Ghaut." The latter are always to express, in addition to the report of aircars due to corps, the date to which the Staff, Magazine, Hospital and every other Department have actually received pay. G. O. C. C. 9th April 1787.

Rules for the preparation of monthly returns of corps.

The want of accuracy which appears in many of the monthly returns received at the Adjutant General's Office, obliges the Commander in Chief to call upon the commanding Officers of corps for a more strict attention to this necessary part of their duty: every corps has its adjutant, whose immediate business it is to superintend the preparing of the returns and carefully to examine them before they are presented to the commanding Officer for signature, and in proof of having done so, his name should be affixed at the bottom; but the commanding Officer being responsible for the accuracy of the returns which he transmits, it is also particularly incumbent upon him minutely to inspect them before he gives them the sanction of his name. The form at present in use is approved, and the following particulars are to be observed. That the returns correspond with the muster rolls by including in figures all the men whose names appear in the latter. That recruits be included among the effectives. That effective Staff be distinguished from non-effective. That supernumeraries be separate from the fixed establishment. That alterations and casualties be carefully noted in columns under that head, and the causes, whether of increase or decrease, be explained in remarks at the foot of the return.—That wanting to complete in every rank be specified in the column, under that denomination, and that the period to which the corps is paid be inserted at the bottom of the return. After this injunction the Commander in Chief expects that the returns will be free from errors, and has positively directed the Adjutant General to notice to him any inaccuracy that may appear in returns transmitted to his office, in order that the officers by whom they are signed may receive some mark of disapprobation.

The Commander in Chief directs the following mode of circulating General Orders to be observed in future.

Directions for circulation of General orders.

to the army and for the transmission of reports, applications, &c.

General Orders will be transmitted to the principal stations from the Adjutant General's Office, and are to be circulated by Majors of Brigade to the out-posts dependant on the several stations, respectively.

All returns, reports, and applications from the army are directed to be forwarded to the Adjutant General at Head-quarters, for the purpose of being submitted to the Commander in Chief; those from out-posts through the Commanding Officers of the station and division to which they belong. In all cases of emergency the senior Officer on the staff is to report direct to Head-quarters, as well as through the Commanding Officer of the station.

Regulations for the circulation of General orders, transmission of reports, applications &c. during the absence of the Commander in Chief from the Presidency.

The Commander in Chief being about to proceed to the Upper Stations of the army on the public service, resolved, that the Military details be carried on during his absence from the Presidency as follows:—Reports and applications in cases of emergency, where delay may be productive of injury or inconvenience to the service, are to be forwarded to the Secretary to Government in the Military Department, and a report thereof transmitted to Head-quarters for the information of the Commander in Chief. On other occasions all reports and applications are to be transmitted to the Acting Adjutant General at Head-quarters. Resolutions of Government which require immediate execution, and the communication of which in the usual manner through the Commander in Chief may be productive of delay, will be transmitted direct from the Secretary to Government to the Commanding Officers of the stations which they may concern, and are to be carried into immediate effect; duplicates of them will at the same time be forwarded to the Acting Adjutant General at Head-quarters, for the information of the Commander in Chief. The resolutions of Government on ordinary occasions will be transmitted to the Acting Adjutant General at Head-quarters, to be by him circulated to the several stations of the army with the orders of the Commander in Chief respecting them. The orders which the Commander in Chief may have occasion to issue to the troops at the Presidency, including Barrackpore, will be forwarded to the Town Major of Fort William for publication, with the previous approbation of the Right Honorable the Governor General in Council. The orders of the Commander in Chief will be transmitted direct from Head-quarters to the Officer commanding in the field and to the Commanding Officers of the four principal stations of the army within the provinces, to be by them published to the troops under their immediate command and circulated to the respective dependencies. All reports and applications are to be forwarded in the usual manner to Commanding Officers of stations, who, according to the nature of them, will transmit them to the Commander in Chief, or direct to the Secretary to the Government in the Military Department. All reports and papers requiring the Commander in Chief's inspection or decision are to be forwarded to the Acting Adjutant General at Head-quarters. General Orders of the Governor General in Council intended for publication to the army will be circulated to the several stations from the Adjutant General's Office at the Presidency. Applications from Officers to go to sea for the recovery of their health are, in cases of urgency, to be forwarded to the Assistant Adjutant General at the Adjutant General's Office, who will transmit them to the Secretary to Government; and Commanding Officers of stations being satisfied of such urgency are authorized to permit the sick Officers to repair to the Presidency, reporting these instances to the Acting Adjutant General at Head-quarters.

G. O. G. G.
1st July 1808.

General orders how issued in the interval between the departure of Commander in Chief from India and arrival of Provincial Commander in Chief at the Presidency.

The Governor General in Council adverting to the present situation of Major General Dowdeswell, Provincial Commander in Chief, who is not expected to reach the Presidency before the 8th or 10th of the ensuing month, deems it to be proper, with a view to obviate any inconvenience which might arise to the public service by the delaying to issue any orders to the army during the interval between the period of the departure of the Right Honorable the Commander in Chief from Fort William, and the arrival of Major General Dowdeswell at the Presidency, that such orders as would otherwise fall to the province of Major General Dowdeswell, and as may become necessary and that cannot be delayed without inconvenience to the public service or to individuals, shall be issued in the name of and by the Governor General in Council until the arrival of Major General Dowdeswell at Fort William. The Governor General in Council resolves that all letters or applications received by the Adjutant General during the period above mentioned, which require immediate consideration and orders, be forwarded by

that Officer to the Secretary to the Government in the Military Department. That all General Orders of Government which may be issued during the above period of time shall be transmitted as usual to the Adjutant General at Calcutta, and copies of all such orders shall be forwarded by him to the Commanding Officers of stations and posts to which General Orders are usually sent from Head-quarters.

G. O. C. C. 6th July 1807. A copy of all General Orders will be forwarded from the Adjutant General's Office to the Officer commanding at Futtyghur, who after publishing them at that station will order them to be forwarded without delay to the Officer commanding at Bareilly, whence they are to be forwarded to Moradabad, for publication at both those places, and then to be returned and deposited in the office of the Staff Officer at Futtyghur for the time being, and on all occasions of relief to be made over to the senior Staff Officer of the relieving corps or corps. The date of receipt of all General Orders at Bareilly and Moradabad is to be recorded on the back of them.

Directions for the circulation of General orders, at Futtyghur, Bareilly, & Moradabad,

All General Orders will be circulated to the posts of Etawa and Mynpoory, by the Major of Brigade at Cawnpoor. at Etawa and Mynpoory.

G. O. C. C. 16th Apl 1809. On the return to Cawnpoor of Major General St. Leger and the Deputy Adjutant General of the army, the rules and regulations which were in force for the circulation of General Orders are to be reverted to under the following arrangements. During the continuance of Head Quarters in the Field all General Orders by the Commander in Chief will be sent direct to the Officers commanding the 1st and 2d divisions of the Field army, as well as to the other stations, as now in force. All Government General Orders are to be transmitted from the Adjutant General's Office at the Presidency, as directed by General Orders issued by the Commander in Chief on the 2d July 1808. From the Deputy Adjutant General's Office at Cawnpoor all orders will be transmitted as heretofore, viz. those by Government and the Commander in Chief to Bundelkund and to Futtyghur, and those by Government to Meerut also, whence as soon as published the copy received from the Deputy Adjutant General is to be forwarded to the Officer commanding the 2d division of the Field army. From the Brigade Major's Office, of each division of the Field command, all orders are to be transmitted to the several out-posts and dependencies respectively. All occurrences and reports extra to the common routine of the service, and especially any movement of troops and the progress of the service or duty on which they may be employed, are to be reported direct to Head-quarters, as well as to the officer commanding in the Field.

Regulations for the circulation of General orders in the field command, transmission of reports, &c.

G. O. C. C. 1st June 1806. The following directions for acknowledging the receipt of General Orders are to be observed in future. From all principal and other stations where they may be public Staff Officers, a separate list of all General Orders received during the preceding month is to be sent to the Adjutant General's Office the 1st of each month. From all stations, detachments, or corps, where there may be no public Staff, the General Orders received during the month are to be described on the back of the monthly returns. The acknowledgments in both cases are to express as follow :

Regulations for acknowledging receipt of General orders, & public letters from Head-quarters.

<i>Date of General Orders.</i>		<i>Received and published to the Station or Corps.</i>	<i>Subjects.</i>
By the Government.	By the Commander in Chief.		

The 1st column is just to express the heads of orders. On occasions of emergency a memorandum will be annexed to General Orders requiring it to be acknowledged on receipt.

All public letters from Head-quarters are to be acknowledged on receipt by the officers to whom they may be addressed.

Proc. C. G. 4th Aug. 1803. All official letters to the Government must be transmitted, conformably to the public regulations on that subject, through the channel of His Excellency the Commander in Chief.

All official letters to Govt. to be transmitted through the Commander in Chief.

G. O. C. C. 6th Oct. 1806. No applications or references to the Right Honorable the Commander in Chief, from any person belonging to the troops in the Field, will be received at Head-quarters if not from officers.

Applications from officers

will be returned if not forwarded, through the prescribed channel. transmitted through the officer commanding in the Field, and the same rule will be observed with respect to all references and applications from officers, &c. at the other stations and dependancies, which may not be forwarded through the prescribed channel.

Receipt of all letters on Military subjects to be acknowledged. The Commander in Chief directs that the receipt of all orders and letters on Military subjects be immediately acknowledged, and the subject mentioned in a summary manner. G. O. C. C. 6th Mar. 1786.

All official reports to bear the day and hour of dispatch. It is to be considered a standing regulation that all official letters or reports, sent to Headquarters, are to bear, not only the usual date of the place and day of the month, but the hour at which they are dispatched is also to be specified. G. O. C. C. 30th Sept. 1804.

When Troops are detached on service, the flank companies to be formed into battalions. Whenever a Brigade is ordered to be detached on Service, the Grenadiers of the Battalions composing the Brigade are to be formed into Battalions, and to have two Battalion Guns, attached to each, with a proper proportion of European Artillery and Artillery Malcars. M. C. 2nd May 1780.

Biennial relief of troops serving beyond sea. Government have determined that the troops of this Presidency serving beyond sea, shall be relieved every two years. Proc. V. P. 31st Aug. 1829.

Regulations for troops embarking on foreign service. The following General Regulations (including those published in Minutes of Council of the 24th June 1799), for victualling European and Native Troops, as well as for preserving the health, discipline and efficiency of Native Troops embarking from this Presidency on foreign service, or serving on board ship, are directed to be carried into effect, and to be strictly attended to. G. O. C. C. 15th 1801.

For preserving and restoring health, &c. Ordered, with a view to preserve the health of troops proceeding from Bengal by sea, and to take proper care of them when sick, that the following rules, recommended by the Medical Board, be strictly attended to in future.

Ordered, that the medical officers appointed for the service shall, in all practicable cases, be men of experience and activity, possessing competent knowledge of the language and customs of the native troops, and that the earliest notice shall be given to those medical gentlemen of their destination or appointment for such service, that they may have sufficient time to provide themselves with proper servants, and to equip themselves well in other respects.

That previously to the embarkation of the troops, a medical examination shall take place under the superintendence of the Medical Board; and that no man in fever or flux be permitted to proceed.

That particular care be taken to prevent the men from being crowded in the floops or boats on their passage down the river; and also to prevent their being exposed to the weather, or sleeping in wet cloaths.

That directions be given to the commanders of the ships on which the troops may be embarked, that, as often as it may be necessary to cover the hatchways, when at sea, with tarpaulins, they be raised when the weather will permit, from the grating, with small spars, or capstan bars, in order to prevent the stagnation of air below the deck.

That the water for the troops be at all times filled from the river above Calcutta, in preference to being filled at the fort; and that, in the rainy season, a short period be allowed for the grosser parts to subside, previous to its being put into casks for use.

Ordered, with a view to preserve the water sweet and pure, that the casks intended for water, for the use of the troops, be fired on letting ~~up~~, until a sharry coat be formed over the whole of the inner surface.

That care be taken to instruct the officers of the troops and transports with the important advantages of opposing every disease, especially fever and flux, in the earliest stage; and to remove the mistaken and fatal idea that it is ^{unmanly} to complain or take medicine, until the patient's head is fixed upon his pillow. A vigilant and discerning Surgeon will readily discover the first dawning of these diseases by various circumstances, that cannot be perceived or comprehended by a common observer; and by an early and liberal application of medicine, will be able to stop their progress at once, or render their future course free of danger. In this important part of his duty, therefore, he ought to meet with every assistance and no discouragement.

It being now established by incontestable proofs, that nothing contributed more effec-

tually to retard the diffusion and progress of contagion than the immediate separation of the sick from those who are well, an apartment is to be appropriated for this purpose in all practicable cases.

Upon the first appearance of any acute infectious disorder on board of any vessel in which there may be no surgeon, a signal (previously concerted) should be made to the hospital ship, if there is one in the fleet, and the diseased men removed to her; if there is no hospital ship, to such ship as the surgeon of the corps, to which the sick man or men belong may be on board of.

Where there is a surgeon or assistant surgeon on board, he is to examine the men occasionally at morning or evening parade: and to observe in general, if there be any appearance of disease amongst them.

That as it appears to be sufficiently established by experiment, that fumigations with nitric acid, instituted by Doctor Smyth, and still more those proposed by Doctor Cruickshank, with oxygenated muriatic acid gas, have the power to prevent the diffusion of contagion; ordered, that the practice be introduced into transports carrying troops from Bengal to foreign service, and wherever else there may be reason to apprehend the production, or existence of contagion; that, to accomplish this purpose, the surgeon or captain of every ship shall apply to the apothecary of the general dispensary, for the materials and necessary instructions for conducting the process, and that a particular report of its effects shall be made by the surgeons to the Medical Board.

The materials for fumigation may also be brimstone with saw dust, or brimstone thrown over any lighted substance; nitre, to which a little vitriolic acid is added; or common salt with the same addition of vitriolic acid. Gun-powder wetted or the heated logger head in the pitch pot. The time of fumigating between decks to be immediately after the hammocks are brought up and the bunks cleaned.

As every ship ought and generally is supplied with the means of effecting the foregoing purposes, no excuse will be admitted for any neglect on so important a head.

That surgeons employed on foreign service shall in future give a description of the diseases they meet with in foreign parts, and shall make a faithful report of their observations and practice to the Medical Board; especially respecting diseases that are little known; such as the plague and dreadful ophthalmias of Egypt, and the fevers of Batavia, &c. concerning which little or no useful information has been obtained.

That a stock of lime juice shall be provided on every transport going to any considerable distance, for the use of the lascars and native troops in case of scurvy.

That every surgeon or captain, proceeding to sea with native troops, shall provide themselves with a copy of Doctor Hunter's instructive Essays on the Diseases of Indian Seamen.

A sentry is constantly to be placed at the caboose, or one on each side, if the number of troops on board the ship is sufficient to admit of it, with orders not to allow fire of any kind to be taken from the caboose without permission.

The Native commissioned officers are to consider it their special duty to see that every possible precaution is taken to guard against fire, carefully and frequently impressing on the minds of the non-commissioned officers and sepoy the fatal consequences that might ensue to the safety of the whole from any negligence in this particular.

All lights are to be extinguished at eight o'clock at night, except the lights over which there may be sentries; the European Officer's lights to be extinguished at ten o'clock, unless the commanding Officer on board should think proper to give his permission, occasionally, for a longer time.

No lights to be suffered on any account amongst the Native commissioned, non-commissioned officers and privates, except in lanterns; nor amongst the European commissioned officers, except in lamps or shades.

No smoking to be allowed between decks in fair weather, nor, if possible, at any other time; as however a deprivation of this indulgence might be severely felt by the Native troops during a long continuance of bad weather, the commanding Officer is at liberty to grant it, at his own discretion, taking care that it be done at a stated hour, and for a limited time, in the presence of, and under the immediate inspection of, a commissioned European Officer (if there be one on board,) otherwise of such Native commissioned or non-commissioned officers as he may order for the duty.

That the following tables or tables of provisions for the purposes of the above-mentioned officer or soldier, and for a Hindoo and Mussulman Sepoy, on board ship, be ordered for the use of the troops proceeding from Bengal by sea, subject to such further regulation as the Government may hereafter show them to require.

By order of His Excellency the Vice President in Council,

C. W. GARDINER,

COUNCIL CHAMBER, 28th March, 1811.

Acting Secy. to Govt. Mil. Dept.

of M. B. Ordered, that the Garrison Store-keeper be directed to prepare and send on board each 24th Jan. 1811 Transport, engaged to convey Troops on this and any succeeding Expeditions, the un-mentioned Articles.

FOR EVERY HUNDRED MEN, EUROPEANS OR NATIVES.

Twenty Brooms, twenty Deck Scrapers, one Grindstone for sharpening the Scrapers, two Holy Stones for rubbing the Deck.

FOR EVERY TWENTY NATIVES.

One leather Bucket to contain three pints, with a wooden Snetcher, and sufficient Line to draw water for ablution.

be distributed with the same ration. A hammock, for the purpose of taking care of the patient, will be allowed to each sick. The patient should be placed in bales between decks for the purpose of frequent inspections.

That in all cases, as hereafter specified, where it shall be thought necessary to provide hammocks for native troops, a quantity of tea, in the proportion of one chest for every two hundred men per month, be also provided, to be served out at the discretion of the officer commanding the troops, to the sick in general, and, to the other men, when from the badness of the weather, or other causes, they may be unable or disinclined to partake of their usual food.

It being satisfactorily established, that hammocks materially conduce to the preservation of the men's health; ordered, that they be accordingly allowed to all native troops, when proceeding by sea from Bengal on distant expeditions, and that the commissary of stores be directed to make up 2,000 to be kept in store for occasional demands. Hammocks are not to be provided for native troops sailing during the north-east monsoon, and victualled for less than two months.

With a view to adopt every practicable measure which may contribute to the accommodation and comfort of the native troops, it is hereby ordered, that whenever native troops are victualled for more than one month, casts of cow-dung and earth are to be embarked on board of each ship, in proportion to the number of Hindoos embarked, for the purpose of plastering the separate chokah or incle in the caboose, in which the different casts of that persuasion dress their victims. Caboose for Hindoos will not be limited to any particular number, but as many provided as may be necessary, and can be conveniently stowed.

Proc. G. C. His Lordship in Council is pleased to order, that a quantity of lime or lime juice, according to the exigency of each particular case, be in future supplied to all troops proceeding on sea voyages likely to exceed two months, in the proportion of 25 quarts to every hundred men.

Proportion of lime juice allowed to troops proceeding on sea voyages.

Ref. In. M. B. Ordered, that the Garrison Store-keeper be directed to provide a quantity of fuel adequate to that of flour and raisins in the proportions prescribed by the regulations for victualling European troops on board ship for the use of His Majesty's 15th Regiment of Dragoons.

Proportion of fuel allowed to Eur. troops proceeding on ship board.

Ref. In. M. B. Approved the proposition of the Garrison Store-keeper for the supply of wooden bowls and tin mugs to European corps on ship board, in the proportion of one of the former to every five men, and one pint tin mug to each man, in addition to the earthen bowls and dishes allowed them.

and of wooden bowls and tin mugs.

Proc. G. C. His Lordship in Council acquiesces in the proposition of the Military Board for supplying to the Native Christian followers, attached to troops, &c. proceeding to sea, provisions, &c. of the same description as are usually furnished for the consumption of such of the followers who are Mahomedans.

Rations of provisions to be supplied to native Christian followers on ship board.

Proc. G. C. The Governor General in Council was pleased to sanction, on the 23d ultimo, the supply of havresacks to the European troops under orders to embark on foreign service, at the rate charged by the agent of the contractor for the supply of military stores, viz. one Rupee for each.

Havresacks supplied to Eur. troops proceeding on foreign service.

G. O. V. P. With a view to prevent the troops sustaining hardship, and being exposed to the hazard of arriving at their destination, in a sickly, and, consequently, an inefficient state, by being too much crowded on board of transports; ordered, that, in every practicable case, the regulated tonnage be never less than a ton and half for the accommodation of one man.

Tonnage.

G. O. C. C. The extent of the armament now fitting out for foreign service at this Presidency, rendering it necessary, in order to enable Government to estimate the requisite tonnage for the same, that the officers and troops to be employed on the Expedition should be attended with as few followers, and be as lightly equipped with baggage, as possible; the Commander in Chief is pleased to direct the following proportions of baggage and followers, to be allowed to officers and troops on this occasion, to be published in General Orders.

Proportions of baggage & tonnage for baggage allowed to Eur. Officers proceeding on foreign service.

With the view to enable officers the better to accommodate themselves to the foregoing scale, the Commander in Chief strongly recommends to the officers of the detachment of Artillery and Volunteer Battalions to adopt early and efficient arrangements for the formation of a mess in their respective corps, for which purpose an allotment of tonnage will be made on account of messes as follows, viz.

For the messs of the Officers of a Volunteer Battalion.....	} For Messs Stores—Tons 15, Servants for the mess .. 6.
For the messs of the Officers of the Artillery Detachment.....	} For Messs Stores—Tons 8, Servants for the mess .. 4.

The men are to wash their feet every morning; for which purpose there must be two tubs of salt water in readiness upon the fore-castle by sun-rise. The native troops (Hindoos in particular) being fond of bathing, little regulation, it is imagined, is necessary to enforce a practice, so congenial to their habits, and so essential to health and cleanliness; care must be taken that it is not neglected by the Mussulmans, amongst whom the practice is not so prevalent. They should be required to wash their bodies all over once or twice a week at least.

Continued.

Commanders of ships and transports must take care that the Necessaries are constructed in the most secure manner possible, otherwise the troops will be averse to use them, particularly in tempestuous weather, and be thereby exposed to great hardship and loss of health. Great attention must also be paid to the cleanliness of the Necessaries; buckets of water are to be thrown down frequently in the day to prevent the soil from sticking to the sides of the ships.

In cases where hammocks are allowed to the Native Troops, they must be brought up on deck every morning, if the weather will permit, by six o'clock. To obviate any objections on the part of the men to bring up their hammocks, founded on the erroneous supposition of its being incompatible with their duty, as soldiers, it must be fully explained to them on going on board, and previous to the hammocks being delivered out, that if they wish to avail themselves of the indulgence which Government has been pleased to grant to them, it is expected and required, that they bring up, take down, and sling their own hammocks, in the same manner as is done by European troops in the same situation, and as they themselves do in respect to their camp equipage on shore, in the packing, pitching, and loading of which, they are bound by the regulations of the service to assist.

No separate births by hanging blankets, curtains, &c. to be allowed on board the ships, as they materially obstruct the free circulation of air.

The impropriety of washing between decks in transports, and even sprinkling them with vinegar, when there are no port holes, through which streams of air might in dry weather pass, and carry off the moist vapour, thereby occasioned, being now recognized by the best medical authorities in Europe, it is ordered, that, in place of washing, the decks be scraped and dry rubbed, once or twice a day, and that vinegar be no longer used in sprinkling the decks, but by adding to it some tar or pitch in the tar kettle.

The decks may be washed with quick lime once or twice a month in dry weather, and then only.

Should the troops be disembarked with a view to their refreshment, or for other reasons, at any intermediate port at which they may touch, every vessel and transport must be thoroughly cleaned and fumigated, and the hold, decks, &c. washed with quick lime, before the troops shall be re-embarked. This being an indispensable precaution, it is enjoined to the commanders of the Company's ships on which troops may be embarked, as well as to the masters of hired transports, to have a quantity of quick lime, sufficient for the purpose, on board their ships.

Flags being held in extreme aversion by the Native troops of both persuasions, and particularly by the Mussulmans, who consider them as symbols of idolatry, it is ordered,

as polluted, by being enclosed in the same precincts, with such unclean animals, it becomes very difficult to prevent the admission of them on board the same ships, with the troops: Commanders, and masters of ships, and transports, are therefore desired not to admit them when they can be dispensed with, without any material inconvenience.

The whole to be divided into three watches, both European officers (of a sufficient number be on board) and native officers and men. The watch gives all sentries, small guards, &c.

Discipline.

An European officer of the day to be appointed, to whom the subadar of the watch will make his reports, and the European officer to be the commanding officer, if there be a superior officer on board.

The whole watch to be always on deck, except when rain obliges them to go below for shelter; and in fine weather, every man should be upon deck the whole day.

The troops to parade on the poop or quarter deck, at six o'clock in the morning, when every man must appear as clean as his situation will allow; his hands, face, and feet washed, and his hair well cleaned.

The officer of the day is always to attend parade; he is likewise to be present when the rations are serving out; and it is to be his special duty to see that they are served out in kind, quality, and quantity, exactly conformable to the regulations on that head, reporting to the commanding officer, when he has done so; and also, if he should have observed any neglect in victualling the troops, or any badness in the provisions laid in, or on any matters whatever touching the conduct, either of the garrison store-keeper, or contractor, who may have supplied the provisions, or of the masters or crews of the vessels, towards the troops. The commanding officer will, if necessary, make representation on any of these points to the General, or other Officer Commanding in Chief, on arriving at the place of destination, or sooner, if practicable.

The subadar of the watch is to be always present, and to give directions at the bringing up of the hammocks, cleaning the decks, &c. &c. which, when done, he is to report to the officer of the day.

The men are to parade again, if the weather permits, at half an hour before sun-set, quite clean, as to their persons. At sun-set the hammocks are to be taken down.

At nine o'clock in the evening, every man is to be in his berth, except the men on watch.

Exercise being of the utmost consequence, in maintaining the health and strength of the soldier, the men are to be drilled as often as the weather will permit.

It is to be clearly understood by all commanders and masters of ships and transports, on board of which troops may be embarked, that the Troops are subject only to the orders of their immediate officers, and to the rules and articles of war, prescribed for the government of the land forces; except, however, in cases where they may be serving as marines, on board any of His Majesty's ships of war, or the Honourable Company's armed vessels, when they are of course to obey the orders of the captain or commanding officer of the ship, and to be considered as the same light as His Majesty's land forces are when serving as marines on board any of His Majesty's ships.

The native troops are, however, in all situations and upon all occasions to be treated, as well by the Captain of the ship, as by all other officers and people belonging to her, with the utmost attention and humanity, and with the respect and regard due to the government under which they serve.

No duties, unusual for soldiers to perform, are to be exacted from them, nor are they to be ill used, or punished, for not expressing an inclination to perform them; nor, on any account, to be struck by any of the officers, petty officers, or seamen. Every deviation from these rules and orders is to be particularly reported by the officer commanding the troops on board the ship, through the proper channel, for the information of the Governor General in Council.

Troops serving as marines are, when sick or wounded, to be treated with the same care by the surgeon of the ship that the seamen are.

It being of the greatest consequence to the due observance of the foregoing regulations, and in order to realize the advantages expected from them, that the troops on board should be commanded by officers possessing some experience of the service, and such qualifications of a knowledge of the language, and of the character and habits of the native troops, whenever native troops shall be on

efficiency towards maintaining and restoring the peace to their situation on board of ship, suitable selected in all cases in which the Commander in Chief shall be of opinion that such selection is proper and practicable (by the commanding officer of the station, or detachment, from whence the troops may proceed) and ordered for the service; and one officer, so qualified, shall be kept on board every ship, on which one or more companies may be embarked.

All officers are carefully to bear in mind the objects which the foregoing regulations have in view, and are by every means in their power to contribute to promote them. By strict attention to the preceding regulations and by treating the soldiers, native, with temper and with every indulgence consistent with the principles of subordination and discipline, and with the rules and practice of the service, well founded hopes may be entertained, that the health, discipline, and efficiency of the native troops, will be preserved during the longest voyage.

In order that Government may be apprised of the conduct of all commanders and masters of vessels on board of which troops may be embarked, the officers in command of troops on board of each vessel are required, on the debarkation of the troops, to report through the proper channel, for the information of the Governor General in Council, how far the Commanders of the vessels have attended to the public regulations, in the conduct observed by them towards the officers and troops, during the time they remained on

Instructions to
officers com-
manding Troops
embarked in
Indians the Ho-
norable Com-
pany's ships.

Herewith you will receive a code of regulations to be observed by troops embarked on board of transports, for service in India; but, as the situation of troops embarked on board of the Honorable Company's ships, is in some measure different, you must be careful not to attempt to enforce any of those regulations that may interfere with the system laid down by the commanders of the Honorable Company's ships for the regularity and discipline of their respective ship's companies.

The following instructions, which it has been thought necessary to give, in addition to those before mentioned, will not be found liable to any such interference, and must therefore be strictly adhered to by you.

The officers belonging to the troops will choose their berths on board the ship according to seniority; and no officer is to quit the ship without leave of the officer commanding the troops.

You are to pay the greatest attention to every requisition consistent with the good of His Majesty's and of the Honorable Company's service, made to you from the Captain, or chief officer of the ship, and to enforce the strictest obedience to all these orders from every non-commissioned officer and soldier under your command; you are most particularly to prohibit all non-commissioned officers and soldiers from impeding, directly or indirectly, any of the petty officers or others in the execution of their respective duties; you are to forbid the officers and soldiers under your command from entering into any altercation or argument whatever, with any person belonging to the ship's company. If the soldiers think themselves aggrieved by any of the officers or men belonging to the ship, they are at a proper time to make their complaint to you, and upon an application from you to the Captain or chief officer of the ship, it will be their duty to embrace the earliest opportunity to have the complaints investigated, and the grievances redressed. And although you will discourage and prevent any frivolous complaints from the non-commissioned officers and men, it will be your indispensable duty to see that the most prompt justice is done to them, in regard to the quality and quantity of their provisions, and (as before mentioned) never allow the troops to enter into any altercation with any person belonging to the ship, but direct the soldiers to make their complaints to you at a proper time, that you may represent them, if well grounded, to the Captain or chief officer.

A sufficient guard is to be mounted immediately on the detachment getting on board ship; which guard is to be relieved daily, so long as the ship shall remain in harbour. Sentinels from the guards are to be placed at the gangways, or wherever the Captain or chief officer shall appoint. No soldier is to be suffered to go on shore on any pretence whatever while you remain in harbour, unless such a measure shall be deemed by you to be indispensibly necessary, and every precaution is to be taken to prevent liquor being brought into the ship. On your proceeding to sea the subaltern officers and men

are to be divided into watches with the ship's company, according to the printed regulations referred to in the first paragraph of these instructions.

Should there be three officers, the guard while in harbour to be an officer's guard. Should it be necessary to hold a court martial on board, and to inflict punishment, you will apply to the Captain of the ship to know at what time, and in what part of the ship such punishment is to be inflicted. Should the Captain or commanding officer of the ship be desirous of deferring the execution of the punishment, you are accordingly to comply, so long as he shall deem it expedient and proper to postpone the punishment.

The men, if Europeans, are to be formed into messes, six to a mess.

The soldiers' hammocks are to be brought upon deck every morning and stowed in the nettings, or such other places as the Captain of the ship or commanding officer on board shall appoint; and every precaution taken to comply with your orders in the printed instructions relating to cleanliness of the people between decks, &c.

G. O. V. P. 9d
January 1810.

The Vice President in Council is pleased to direct, that in addition to the rules and regulations established by Government, under date the 15th August 1805, for victualling and preserving the health, discipline and efficiency of European and Native troops embarking from this Presidency, the following regulations shall have effect from the 1st instant:

Allotment of Troops to Ships and report of their Embarkation and accommodation by a Staff Officer detached for that purpose.

1st. That whenever any embarkation of European or Native troops shall be ordered from this Presidency, the Marine Board be required, under the authority of Government, on receiving a report of the numbers, cast, &c. intended for embarkation, to make an allotment of the troops and followers to a ship or ships; which having done, the Marine Board is then to allot specifically by instructions to the Captain or Master of each ship or vessel, the situation and space which is to be assigned for the use of the troops, on their ships or vessels respectively.

2d. That a copy of those directions and arrangements, on being received by Government, be forwarded from the Military Department to the Commander in Chief, or, in his absence, to the officer commanding at the Presidency station, who will cause copies of the distribution and allotment of accommodation to be furnished to the Senior Military Officer, proceeding on the ship or ships respectively.

3d. On the troops proceeding to embark they are to be accompanied by a Staff Officer from the Presidency, such Staff Officer, as can be best spared at the time, being selected for this special service. It will be the duty of the Staff Officer to visit personally every ship, on which the Troops may be embarked, and to see the accommodation occupied by the Troops according to the distribution which shall have been previously made under the authority of Government, with copies of which he is to be furnished; to remain at the place of anchorage until the ship or ships shall be finally dispatched; and to collect written reports from the Senior Military Officer on each ship, stating the accommodation and arrangement made on board of each, for the berths and cooking places of the Troops.

4th. From these reports, and his own personal inspection, a general report is to be submitted on his return to Calcutta, through the Officer commanding at the Presidency, for the information of the Commander in Chief and of Government.

5. The reports by the Senior Military Officers on ships, respectively, are also to detail generally the description and quantities of provisions and of water actually on board each ship for the use of the troops, and the situation in which these articles have been stowed; a direction on which head, is also to form part of the instructions to be furnished to Captains or Masters of ships by the Marine Board.

6. These rules are to be invariably attended to and carried into effect on every occasion of the embarkation of troops, European or Native, from this Presidency, however limited may be the number of troops ordered to embark.

G. O. G. G.
19th November
1810.

The Right Honorable the Governor General in Council is pleased to direct, that in addition to the Rules prescribed by the 3d and 4th Paragraph of the General Orders by Government, under date the 2d January 1810, relative to the Embarkation of Troops from this Presidency, the following Regulations shall have effect from the 1st Instant.

1st. That the written Report, directed to be made by the Senior Military Officer on board each ship to the Staff Officer appointed to superintend the Embarkation, shall likewise contain Embarkation Returns of the Officers, Troops, and Followers, on board each ship, together with the names and rank of the European commissioned Officers.

Additional orders relative to the Reports of the embarkation and accommodation of Troops proceeding on Service by Sea.

3d. The original Reports thus furnished, to be sent for deposit in the Adjutant General's Office, with the general report directed to be made by the Staff Officer superintending the Embarkation.

Staff Officer superintending the Embarkation, more effectually to fulfil the important duty required of him, a Pilot Schooner, or other suitable Vessel, will be provided for his use, on an application being made to Government for the purpose by the Adjutant General or by the Officer Commanding, at the Presidency, in the Commander in Chief's absence.

4th. That whenever the number of Troops to be embarked, the season of the year or other circumstances shall render such a measure advisable, the Staff Officer superintending the Embarkation shall, with the sanction of Government, proceed to the anchorage of the ships some days previous to the departure of the Troops from Fort William, in order to report the progress made in the preparations for the reception of the Troops on board the respective transports: such report to be transmitted to the Adjutant General as often as circumstances will permit.

His Lordship in Council enjoins the strictest attention to the foregoing Regulations, and also to the 2d Article of those published in General Orders of the 2d January 1810, which directs, that copies of the Allotment, made by the Marine Board, of Troops and Followers to each ship shall be furnished to the Senior Military Officer proceeding on ships respectively. (*For the Embarkation Returns, &c. vide Forms Nos. 10, 11 & 12.*)

Allowance to Purser or Masters of Transports for taking charge of Provisions for Troops.

The Governor General in Council is pleased to grant to the Purser, or Masters (when there is no Purser) of Transports which may be hired by the Government for the service of the Expedition now in progress, an allowance of eight sicca annas per day for every 25 Europeans, or under; and four sicca annas per day for the same number of Natives, as a remuneration for their trouble and responsibility in the custody of the Provisions for the Troops embarked on their respective ships.

G. O. G. G.
15th Feby.
1811.

This allowance will not be paid to the Purser or Masters until the expiration of the term for which the Transports are engaged, and the account of the receipt and expenditure of the Provision Stores shall be adjusted.

Any wastage of Provisions, which may occur on board of Transports, is to be ascertained by a committee of Survey, and the Proceedings of the Committee, signed by the President and Members, are to be the Voucher to the Officer in charge, for writing off in his Books the quantity deficient.

Rules for preservation of Surplus Provisions on board of Sloops by Troops embarking or disembarking.

The following extracts from the resolutions of the Military Board are directed to be strictly attended to.

G. O. C. C. and
July 1808.

Resolution of the Military Board, dated 1st June, 1808.

Agreed, that all Officers, whether European or native, in command of Detachments on board of sloops, be directed to prevent the Troops under their command from carrying off any of the stores or provisions, which may remain unexpended on board such sloops at the time of the Detachments quitting them, unless such stores and provisions are necessary for the use of the detachments, and that, in that event, the Commanding Officer of the detachment is to deliver to the Serang of the Sloop a receipt for such articles as he may think it necessary to carry away, which is to be delivered by the Serang to the Garrison Store-keeper.

Proportions of Officers' Establishment, camp Equipage, &c. allotted to different descriptions of Troops proceeding on Foreign Service.

The following establishments of artificers, work people, and camp equipage, &c. are fixed for the troops under orders of embarkation on foreign service.

Regulations for the payment of family money to the dependants, followers, &c. of European Officers. European commissioned and non-commissioned Officers, proceeding with the Expedition, who may be desirous of assigning a portion of their allowances for the support of their dependants, or of the families of their followers in Bengal, during their absence, are authorized to grant Family Certificates for that purpose, under the same arrangement with regard to the documents, to be furnished to the Military Auditor General and Superintendent of Family Money, as prescribed for Native Troops by the General Orders of the 28th March, 1808. G. O. G. G.
March 1, 1811.

Paymaster of Family Money appointed to superintend the payment. Lieutenant Nott, of the 20th Regiment Native Infantry, is appointed to superintend the distribution of family money to the dependants, servants, or followers of European Officers, as well as those of Native Troops.

Lieutenant Nott will draw the family allowances, authorized under this order, in a bill, distinct from the payment to the families of Native Troops, the amount of which, when paid, will be charged by the Paymaster at the Presidency to the debit of the Paymaster of the expedition, who will be responsible for the recovery of the amount by corresponding stoppages from the pay of the Officers concerned, respectively.

Rolls of family payments will therefore be prepared, in the present instance in triplicate, one copy for the Military Auditor General, and two copies to be forwarded to

Lieutenant Nott, who will countersign one of these copies, and transmit it for the guidance of the Paymaster of the expedition.

G. O. G. G.
28th March,
1808.

The Right Honorable the Governor General in Council is pleased to establish the following Rules for the distribution of Family Money on account of Native Troops, &c. proceeding on Foreign Service.

Regulation
for the deduction
on and pay-
ment of family
money on ac-
count of Native
Troops pro-
ceeding on Fo-
reign service.

When Troops are about to proceed on Foreign Service, Rolls according to Form No. I. of such men as are desirous of leaving a portion of their pay to their Families in Bengal, are to be prepared in duplicate by Officers commanding companies, one to be forwarded to the Military Auditor General, and one to the Officer appointed to superintend the distribution of Family Money in Bengal.

Officers commanding companies will also prepare and deliver to the Officer appointed to superintend the distribution of Family Money, a Certificate according to Form No. II. applicable to each person entitled to receive Family Money, and to which is to be subjoined such further information as the circumstances of individuals may suggest, tending to prevent imposition and to secure the benefit intended by the Certificate to the proper person.

The amount of Family Money payable in Bengal shall be noted on the Muster Rolls opposite to the name of each man from whose pay a corresponding stoppage is to be made, and in case a man should wish to withdraw the stipend he had assigned, the same is to be notified on the Muster Roll.

All Casualties of men from whom deductions are made on account of Family Money, are to be immediately reported without waiting for the period of Muster by commanding Officers of Companies to the Officer appointed to superintend the distribution of Family Money, and by the latter to the Military Auditor General. Correct Monthly Rolls of all Casualties are also to be transmitted along with the Muster Rolls to the Military Auditor General. These Casualty Rolls are to be prepared according to Form No. III.

The Family Money of men on Foreign Service, to be drawn monthly in abstract by the Officer appointed to superintend its distribution, and to be transmitted by him through the Paymaster at the Presidency, for audit.

The abstract, when audited, will be returned to the Paymaster with instructions to furnish the Officer appointed to superintend the distribution of Family Money, with assignments, to the amount of the audited abstracts drawn upon the Collectors of Districts, where persons entitled to receive Family Money may reside. On the receipt of those assignments, the Officer appointed to superintend the distribution of Family Money shall annex to each a particular detail of the sums to be paid to each person corresponding with the Certificate in possession of the person who is entitled to the Payment, so as to enable the Collectors without any difficulty to make a proper distribution of the amount of the assignment. The Collectors will be instructed to acknowledge the receipt of assignments from the Officer appointed to superintend the distribution of Family Money; in case however of omission, the Officer is to remind the Collectors thereof.

The Family Money is to be drawn two months in arrears, and the Officers in charge of Companies will annex to their Monthly Abstracts the deduction which has been made from each man on account of Family Money, the total of which he will deduct from the amount of his abstract, and the remainder only is to be charged by the Paymaster on his disbursements.

To prevent Government being subjected to double charges on account of Family Money, it is to be particularly explained to Troops proceeding on Foreign Service, that after they have left the Presidency, they will not be permitted to withdraw the stipend assigned by them to their respective families, until the officer in command of the company shall have received an acknowledgment from the Officer appointed to superintend the distribution of Family Money, of their desire or wish to that effect having reached him, nor shall the stoppage from the pay of the men be discontinued, until such notification shall be received by the Officer commanding the company. It will therefore be the duty of the Officer appointed to superintend the distribution of Family Money in Bengal to acknowledge his receipt of applications of this nature without any delay, and whatever may appear to have been stopped from the Soldier, in excess to the amount which shall have been reported by the Officer appointed to superintend the distribution of Family Money to have been paid to his family, is to be drawn in the next Abstract of the Company under the head "Arrears," accompanied by an Extract of the Letter from the Officer appointed to

superintend the distribution of Family Money, notifying the period from which the stoppage should cease.

Any over payment which may happen to be made to the Family of a man deceased, shall be recovered from the balance of arrears which may be due to such man at the time of his decease, and the commanding Officer of the Company will hold in his hands the arrears of such men, until due advice of payments to the Family of the deceased shall have been received from the Officer appointed to superintend the distribution of Family Money.

The foregoing directions are to be considered applicable to all Native Troops and public Establishments proceeding on Foreign Service.

G. O. G.
10th August
1810.

In accordance to the Regulation by General Orders under date the 28th March 1810, respecting the payment of Family Money, the following Regulation is to be strictly attended to, whenever the case may occur.

Regulations relative to the family certificates of men removed from one Company to another, while on Foreign Service.

In the event of soldiers while on Foreign Service being removed from one Company to another, the Officer, from whose Company the transfer is made, shall without the least delay forward a Casualty Roll, and the Officer into whose Company such men are received, shall transmit a Family Certificate Roll in duplicate; one to the Military Auditor General, and one to the Officer appointed to the distribution of Family Money, carefully inserting the sums, &c. and opposite each man's name noting the number of his certificate.

G. O. G. G.
11th August
1810.

In addition to the Regulations respecting Family Money, published in General Orders under dates the 28th March 1808, and 10th August 1810, and in order more clearly to mark the identity of the Family Tickets, and to obviate as far as possible the inconvenience liable to arise to the individuals concerned from one ticket being mistaken for another of a corresponding number, it is now directed, that there shall not be granted from any Corps two tickets of the same number: for this purpose it becomes necessary to assign to each Company of a Corps certain numbers to be considered as the peculiar and appropriate numbers for the Family Tickets of that Company. Conformably to this arrangements the following assignment of Numbers is made to Companies respectively:

Family Tickets of each Corps to be differently numbered.

The Tickets of Men of the Right Grenadier Company to be numbered from 1 to 150
..... 1st Battalion Company, 151 " 300
..... 2d 301 " 450
..... 3d 451 " 600
..... 4th 601 " 750
..... 5th 751 " 900
..... 6th 901 " 1050
..... 7th 1051 " 1200
..... 8th 1201 " 1350

Do of Men of Left Grenadier Company, or men of the Light Company in Corps having only a Grenadier and a Light Company, as in the case of the Native Volunteer Battalions now forming, 1351 " 1500
In Corps having two Grenadier and one Light Company, then the Light Company to be considered as the 1st Battalion Company, and the Family Tickets numbered accordingly.

M. C. 3d Mar.
1790.

The Native Troops proceeding on service are to be informed it will be in their option to chuse at which of the collectorships their families shall be paid; but no subsequent alteration can be made in the station they first make choice of.

Native Troops may chuse the collectorship their families are to be paid at, but are not subsequently to alter it.

Proc. V. P.
12th Dec 1809

The Military Paymaster General will issue instructions to the Paymasters to grant in future drafts for the family money due to each individual, instead of including that for several persons in one draft.

Separate drafts to be granted for the family money of each individual.

G. O. G. G.
15th July
1808.

The Governor General in Council is pleased to direct that the Regulations of Government dated the 28th March last, which provided for the payment of Family money, on account of Native Troops shall be applied in all cases to the payment of Family money, on account of European Troops of this Presidency, when employed on foreign service.

Regulations for the Payment of Family Money to Natives extended to European Troops.

The Family money of European Troops on foreign service is accordingly to be drawn by the officer at the Presidency, Lieutenant Nott, who is appointed to superintend the payments to the Families of Native Troops in conformity to the 5th Article of the Regulations of the 28th March last.

1803.

The Commander in Chief congratulates the brave army under his command on the brilliant success of yesterday. The steady gallantry with which they bore and advanced in the midst of a most severe and destructive fire reflects the highest credit on the courage and discipline of the whole. The Commander in Chief considers the alacrity and spirit with which the troops entered into action immediately after completing a march of 18 miles, and the patience with which they underwent the severe fatigue to which they were exposed in the field from 11 o'clock in the forenoon until near sun-set in weather so unusually and intensely hot, as doing them the greatest honor. An extra dram to be served to the European troops immediately. The Commander in Chief authorizes 200 Rupees to be presented to each Regiment of Native Cavalry and Battalion of Native Infantry, and proportionately to the Companies of the 17th Native Infantry, of Gohundase and Gun-salcars, as a Zeefiat in testimony of his approbation of their conduct.

vice, and that this official rank will terminate and cease with the office; the names of such officers holding staff appointments are to be inserted in their proper places in the general list of the Army, and remain while in office at the bottom of the list of these ranks by which they may be respectively denominated in consequence of their staff appointments, expressing however opposite to their names these words, "temporary rank annexed to staff appointments;" but officers holding equal or superior rank to that which may be annexed to their staff appointments are to be put in the list of the Army in their own places, only inserting opposite their names the Staff Offices which they hold.

Commissions not granted to officers acting in superior ranks.

Resolved, that commissions be not granted to officers who may be appointed to act in ranks superior to that which they actually possess in the Army, subject to the confirmation of the Court of Directors: but it is ordered that such officers do, by virtue of their appointment from Government, take post in the Army in those ranks in which they shall be respectively appointed to act, from the date of such appointments.

M. C. 3d Dec. 1790.

Staff Officers to be on the strength of regt. and promoted in regimental succession.

All Staff Officers whatever are to be on the strength of the regiments or battalions and promoted accordingly; and not by any brevet or temporary rank they may hold in consequence of civil employments or staff appointments.

Let. C. D 8th January 1796.

Not to receive a double allowance of batta.

Staff Officers are not to receive a double allowance of batta, but may draw the batta established for their highest rank.

Reports to be made on occasions of the nomination of acting staff.

The Commander in Chief is pleased to republish the following extract of Minutes of Council, dated the 1st May 1798. "In all cases where it may be practicable without inconvenience to the public service, application is to be made to the Commander in Chief for the nomination of acting staff previous to such appointments being made." In addition to the foregoing, His Lordship directs, that whenever the urgency of the public service may render necessary a deviation from the rule prescribed, a copy of the order on the occasion be forwarded on the day of its date for his Lordship's information. Without attention to this point the order will not be confirmed.

Allowance how drawn by Staff Officers on leave, and officers acting in their absence.

The Vice President in Council is pleased to pass the following order. That when Staff Officers shall be absent with leave by Government or the Commander in Chief, on sick certificate or on duty, such Staff Officers shall continue to draw the personal or staff allowance of the appointment; and the officer doing the duty during the absence of the proper Staff Officer to draw all other allowances whatsoever appertaining to the office, whether for house-rent or for office tent, for horses or candles, for stationery and writers, or any other establishment; when Staff Officers shall be absent with leave by Government or the Commander in Chief, on account of their private affairs, then the officer doing the duty to draw all the office allowances as above, and the proper Staff Officer to receive the personal or Staff allowance, during such absence for any period not exceeding six Months; after which the whole of the personal or staff allowances, as well as those for office and establishment, to be drawn by the officer doing the duty until the proper Staff Officer shall resume the duties of his office. The operation of the rules prescribed with regard to Staff Officers absent on account of their private affairs is not to be considered as extending to the case of leave granted to the Cape, nor elsewhere beyond the other Presidencies in India.

G. O. V. P. 20th March 1810.

Allowances granted to Officers acting for

The Governor General in Council is pleased to determine, that when Staff Officers are ordered on any separate duty, for the performance of which they receive a higher staff Allowance than that annexed to their permanent appointment, they shall draw the former

G. O. C. G. 8th September 1810

allowance only, and the latter shall be drawn by the Acting Staff Officer, until the expiration of the temporary service on which the Officer holding the appointment may be detached.

ordered on duties for which they receive separate allowances.

Let C. D. 7th Sept. 1808. **PARA. 131st.** Officers nominated to situations, who from attention to other duties in which they are engaged cannot at the time of nomination immediately enter upon the functions of such offices, are not to receive the salaries or allowances annexed thereto, which are to be given to those who act temporarily during the absence of the Nominees.

Officers nominated to Staff situations not to receive the allowances until they assume the duties of their office.

Proc. G. G. 6th June 1808. The Governor General, on a consideration of the case of Captain Fogo, is pleased to authorize a separate Staff allowance to that Officer of 4 Rupees per day, as a Major of Brigade, until the date of the Army, to which he was attached, breaking up; the establishment of office and allowance for a horse and office tent, and also the regulated Staff allowance, will, however, be passed to Lieut. Hawkins from the period of his appointment to be Brigade Major, on Captain Fogo being disabled by his wound from continuing to perform the duties of that situation.

Allowances granted to Staff Officers disabled by wounds and to officers acting in their absence.

G. O. G. 15th Jan. 1807. With a view to prevent any deviation from the spirit of the regulations of the 30th November, 1792, and of the 19th of December, 1796, and 12th April, 1804, by which officers in the Military branch of the Service are indulged with permission to proceed to the Cape of Good Hope and eventually to Europe, in cases of certified sickness, without forfeiting the personal allowances of their rank in the event of their remaining at those places, as prescribed by the regulations; and in conformity to the principle prescribed by the Hon'ble the Court of Directors, by which Officers holding Staff appointments, or other employments out of the line of their Regimental duty, are required to relinquish such appointments, on their quitting the Presidency to which they belong with the permission of Government, and the Commander in Chief to proceed to Europe: The Governor General in Council deems it to be proper to notify in public orders that, when Officers holding Staff appointments, the command of Independent or irregular Corps, or other employments out of the line of their Regimental duty, shall embark under the permission of Government, to proceed to the Cape and "*eventually to Europe*," or to St. Helena, and "*eventually to Europe*," such appointments or commands, &c. will be considered as vacant from the date of the dispatch of the ships, on which the Officers shall respectively embark, according to the general rules of the service in such cases.

Officers holding Staff appointments and the command of independent Corps &c. proceeding on leave to the Cape and St. Helena, and "*eventually to Europe*" vacate such appointments from the date of embarkation.

G. O. G. 14th Aug. 1806. The Governor General in Council deeming it to be highly improper that any Officer holding a Staff appointment at an army station, or an Officer who may be employed in the capacity of personal staff to the commanding Officer at such stations, should act as agent for a contractor, is pleased to direct that this practice (which is evidently so much at variance with the established principles of controul) shall be hereafter discontinued, and every Officer holding a Staff appointment is hereby positively prohibited from undertaking such an agency.

Staff Officers not to officiate as agents for Contractors.

G. O. G. 23d April 1807. The Governor General in Council is pleased to extend the provisions contained in General Orders of the 15th November 1793, and 21st August 1806, which restrict Staff Officers at stations from acting as agents to contractors, to their acting as agents for Officers entrusted with the execution of public works or the disbursement of public money.

For Officers entrusted with execution of public works or disbursement of public money.

G. O. C. C. 30th Jan. 1806. Officers entrusted with the execution of public works or the disbursement of the public money are precluded, by the spirit and intentions of the provisions contained in General Orders of Government of 15th November 1793, 31st August 1806, and 23d April 1807, from undertaking to officiate for Majors of Brigade or other staff by whom the details and routine of station duty are conducted.

Who also are not to officiate as Majors of Brigade and station staff.

Proc. V. P. 23d Jan. 1810. The temporary appointments with the troops in Bundelkund assembled under Lieutenant Colonel Martindell's command, are authorized, and the allowances herewith detailed sanctioned by the Vice President in Council.

- L. C. D. 8th Jan. 1796. The limited number of Major Generals hereafter specified for the Staff at your Presidency, are to be selected by your Government at the recommendation of the Commander in Chief. The actual appointment of the Generals on the Staff to be in the Governor General in Council subject, of course, to the approval of the Court of Directors. If there are not a sufficient number of King's Generals at your Presidency, from which to select the proportion hereafter specified for the Staff, in such case the same is to be supplied, pro tempore, from the Company's Generals. Proportion of General Officers employed on the Staff, their appointment, selection and personal Staff attached.
- The selection of Generals for the Staff to be made from the Officers of that rank present on the spot. A Brigade Major and an Aide-de-Camp to be allowed to each General Officer on the Staff.
- Six General Officers are to be employed on the Staff at your Presidency; four on the Company's establishment and two on the King's: these, exclusive of the Commander in Chief, will be sufficient in time of peace; the number necessary in war must depend upon circumstances, and be subject to our future orders and directions.
- G. O. G. G. 4th August 1803. Confirmed. Officers of Artillery or Engineers, when promoted to the rank of General Officers, are eligible, according to the existing regulations of the Hon'ble the Court of Directors, to be employed on the General Staff. General Officers of Artillery and Engineers employed on the Staff.
- L. C. D. 18th July 1805.

General Officers not to issue orders to or make returns of their regiments. Major Generals commanding Stations, being in the situation of General Officers on the Staff, are not expected to make returns of their Regiments, which are to be sent to the Adjutant General's Office by the senior Officer present with the Regiment; nor is it expected or customary that General Officers in such situations should issue Regimental orders. When a General Officer happens to command at a Station where his own Regiment is present, he may direct the Officer in command of the Regiment to issue whatever orders to it he may think proper; and it will be of course understood, that he may issue in his Station orders, whatever orders he shall judge necessary regarding that Regiment or any other Regiment belonging to his command. **G. O. C. 18th Aug. 1796**

Allowances fixed for General Officers on the Staff. The General Officers upon the Staff at your Presidency are to receive an aggregate allowance of St. Rs. 4000 per month, in addition to their Regimental emoluments of pay, as Colonel, and their share of the profits arising from the cloathing, in lieu of all claims whatever in peace or war, except for camp equipage, carriage and travelling expences, for which they are to draw 400 St. Rs. per month in time of peace, and 1000 St. Rs. per month when employed in actual service in the field during war. **Let. C. D. 28th Jan. 1796**

- G. O. G. G.** **25th** **January 1811.** The Right Honorable the Governor General in Council is pleased to pass the following resolutions, regarding the Staff of occasional Detachments. **Regulations for the staff of occasional Detachments.**
- When a Detachment consisting of the actual strength of two and less than three Battalions, is formed for Service, the Senior Adjutant and Quarter Master with the Detachment shall perform the Staff duties of such Detachment, and shall draw Extra Staff Pay 60 Rupees per month. Should no Adjutant and Quarter Master be present, then the Senior Adjutant with the Detachment is to be appointed and to draw the difference between the regular allowances of an Adjutant of a Battalion, and an Adjutant and Quarter Master of a Regiment of Native Infantry.

When a Detachment is formed of the strength of one, and less than two Battalions, the Staff duties of the Detachment are to be performed by the Senior Adjutant, who is to draw Extra Staff Pay 60 Rupees per month, except where there is an Adjutant and Quarter Master, with the Detachment; when such Officer is required to act as Detachment Staff, on his regular allowances; but should there be neither an Adjutant and Quarter Master, nor an Adjutant present with the Detachment, then an Officer is to be appointed to act as Adjutant to the Detachment, on the established allowances for an Adjutant of a Battalion of Native Infantry.

An Adjutant being detached with part of his Battalion in company with other parties of Troops, constituting, on the whole, a number equal to the strength of a Battalion of Native Infantry, is to perform the Staff duties of the Detachment, on his established allowances. In case of no Adjutant being present with a body of Troops, equal in number to a Battalion of Native Infantry, then an Officer is to be appointed to act as Adjutant to the Detachment, and is to draw the same allowances as established for an Adjutant of a Battalion of Native Infantry.

Certificates of hired cattle and carriage to be furnished by staff Officers of the station who are never to be employed in the hire of cattle or entertaining of establishments.

The Commander in Chief is pleased to direct that whenever it shall be necessary to hire hackeries for the public service at any of the stations of the army, applications for the purpose are to be made to the agent for the contractor (now Commissariat,) who will be furnished by the Brigade Major of the station with a certificate, stating the date of employment and of discharge, the service for which the hackeries may have been required, and the number of bullocks by which they may have been drawn. It being obviously incompatible with the established principles of controul, and with the good of the service, that an Officer standing in the relative situation, in which a Brigade Major does to a commanding Officer of a station, should be employed in the disbursement of the public money, or in the hire or entertaining of public establishments, carriage, or cattle of any description,—the Commander in Chief is pleased to prohibit Brigade Majors being ever so employed.

Monthly review Rolls of Station Staff given in by Brigade Major to the Paymaster

G. O. C. C. The Commander in Chief is pleased to lay down the following rules regarding guards and escorts, to which he desires the most unremitting attention by all Officers concerned. All guards or escorts proceeding by land or water to be invariably relieved at the post or station next to that to which they belong, for which purpose all commissioned and non-commissioned Officers are to be particularly instructed always to report their arrival to the Staff or Officer commanding, and on no account are they to pass any post or station, except in case they cannot be relieved, when they are to be furnished with a written certificate to that effect by the Staff Officer. Whenever a guard or escort, however small, leaves a corps or station, the date of its departure, its strength, and the duty on which employed, is to be at the time reported by dawn to the Staff Officer at the station or post to which it is ordered, or to the next intermediate post or station on its route, if any intervenes, where it is to be relieved as above directed. All parties being relieved, or their duties performed, are always to be ordered back immediately to their corps, except in cases where there may be certain information of supplies arriving, or other cause for escort to the station which they may have to pass or belong to, when a few days' detention, in order to their being employed on that duty, is to be allowed. In every case of being ordered to rejoin, they are to be furnished with a certificate reporting the date of dispatch, the duty on which employed, or returning without any charge, as the case may be. No returning escort is ever to pass beyond the station to which it belongs on any account whatever, unless regularly ordered to do so under particular circumstances by the Officers commanding such post or station. All parties of troops, of whatever description arriving at Fort William on escort duty, are to be immediately reported to the Town Major, whose particular duty it will be to furnish them with certificates and orders to rejoin without delay, except in cases of a prospect of immediate duty on the route of their march or passage, in which case they are to be detained and employed as above directed. All escorts, guards &c. ordered at Fort William to return or proceed in charge of stores, clothing, or other duty whatsoever, are to receive orders from the Town Major's Office in conformity to the foregoing directions on the subject of escorts.

Rules for the relief and report of Guard and escorts by Staff Officers at Stations,

Parties or escorts arriving at or proceeding from Fort William to report to the Town Major,

The extensive duties required from the Native troops in almost every situation, even in time of peace, renders it necessary to restrict their employment as guards and escorts. The Commander in Chief therefore deems it expedient to prohibit guards or escorts being furnished from the regular troops to individual Officers or others moving about the country, except when such command will pay strict attention to the orders in future.

Guards and escorts not furnished to Officers but when proceeding on duty.

G. O. C. C. The Commander in Chief relies on the Major Generals on the Staff and all Officers in command of stations, corps, &c. for a due observance of the General Orders of the 20th May last respecting guards and escorts, as well as for the vigilant attention and the part of all Staff Officers to insure a regular relief of all guards and escorts, as directed in the

Commanding and Staff Officers of Stations to insure a regular relief of Guards, escorts &c.

The Governor General in Council is pleased to direct, that the following Regulation, No. XVIII, of 1810, for the collection of the duties on pilgrims at Allahabad.—Passed by the Governor General in Council, on the 16th October, 1810; corresponding with the 1st Kautick 1217 Bengal era; the 4th Kautick 1218 Fuffily; the 2d Kautick 1218 Willahy; the 4th Kautick 1867 Sumbut; and the 16th Ramzan 1225 Higerce; be published in General Orders for the information of the Army.

G. O. G. O.
15th Dec, 1810

I. Whereas it has been deemed expedient to establish specific rules for the better prevention of all abuses in the collection of the duties on pilgrims at Allahabad, the following rules have been enacted by the Governor General in Council, to be in force from their promulgation.

II. *First* The duties hitherto paid by pilgrims resorting to the conflux of the rivers Ganges and Jumna at Allahabad, shall continue to be levied at the following rates:—

On every pilgrim on foot, One rupee.

On every pilgrim with horse, or palankeen, or carriage of any description, Two rupees.

On every pilgrim with a camel, Three ditto.

On every pilgrim with an elephant, Twenty ditto.

Second. All other duties, fees, or gratuities at the Ghaut, within the fort, or at any other place, whether demanded in the name of government, or for the benefit of individuals, are hereby strictly prohibited.

III. Every pilgrim, on application to the Collector of the land revenue at Allahabad, shall be furnished with a license, entitling him to perform the usual religious ceremonies, and no person shall be admitted to the performance of such ceremonies until he shall have furnished himself with such license.

IV. The exemption from duty hitherto allowed to the inhabitants of the town of Allahabad and of its suburbs, and to the Hindoos in the Honorable Company's Army, is hereby confirmed. But with a view to obviate the abuses to which this exemption is liable, every such person shall be furnished with a license of exemption, or *maafee chittee*, on application to the Collector, and shall not be entitled to admission to the performance of the religious ceremonies until he shall have furnished himself with such *maafee chittee*.

V. No duty or tax of any kind shall be imposed upon the shaving barbers, or *hujams*, attending at the conflux of the two rivers; but they shall be required to register their names at the Collector's office, and execute an obligation to the collector, binding themselves under a penalty of fifty rupees in every instance of contravention, not to perform that part of the ceremonies which rests with them, to any person who shall not have furnished himself with the prescribed license or *maafee chittee*.

VI. The access to the place of ablution, at the conflux of the two rivers, shall be restricted to a certain number of gates or avenues, to be fixed upon in a barrier, which shall be annually established on the subsiding of the rivers from the palisades of the fort of Allahabad to the bank of the river; and no person shall be admitted through such barrier except on the production of the prescribed license or *maafee chittee*.

VII. Such numbers and descriptions of native officers, as may be approved of by the Board of Commissioners, shall be stationed by the collector at the abovementioned barrier, whose duty it should be not to admit within the barrier any person except on the production of the prescribed license or *maafee chittee*.

VIII. In addition to the aforesaid officers, a sufficient military force, in the discretion of the officer commanding the station at Allahabad, shall, on application of the collector, be posted at the said barrier during the *meela* or principal concourse of pilgrims in the month of January and February. And it shall be the duty of the military employed on the occasion, to prevent the concourse of people from breaking through the barrier or otherwise forcing admission.

IX. The licenses and *maafee chitties*, after being shewn at the place of admission, shall be delivered up to the officers who may be appointed to receive them, and shall be returned to the collector in order to their being cancelled.

X. All persons, who, with a view to avoid payment of the duty, shall, instead of presenting themselves at the established places of admission, attempt to cross over in boats from the opposite side of the river, to the place of ablution, shall, on the fact being proved to the satisfaction of the collector, be liable to a fine of three times the prescribed duty; and if any hujam shall assist any such person in the performance of the ceremonies, such hujam shall be liable to the penalty stipulated in his engagements.

XI. No hujams, except such as shall have entered into the obligation prescribed by Section V. shall be permitted to officiate in the ceremonies of the pilgrims; and any hujam who, without having entered into such obligation, shall be proved to the satisfaction of the magistrate to have contravened this prohibition, shall be liable to the penalty of fifty rupees for every pilgrim whom he shall be proved to have shaved, and, in the event of his not being able to pay the penalty, shall be committed for three months to the dewanny jail.

G. O. C. C. The Commander in Chief is pleased to direct that on every occasion of Native Officers or men belonging to the Native corps of the Army visiting Allahabad for the performance of their religious ceremonies, they are invariably to report to the fort adjutant, who will, as often as applications may be made to him by individuals for that purpose, furnish the collector with a list of the names of the applicants, that the usual exemption or maafee chittec may be granted accordingly.

Fort Adjutant to apply to the Collector for exemption chittees for Native Officers, &c performing religious ceremonies at Allahabad.

The same arrangement for obtaining exemption chittees from the collector is to be observed with regard to Native Officers and men belonging to corps or detachments on duty at Allahabad, who may be desirous of performing their religious ceremonies at that place.

M. C. 23d Resolved that Staff pay to the garrison Sergeants at Allahabad be established as follows

STATION OF BENARUS.

Head quarters of the Chunar station removed to Benarus. The Vice President in Council, adverting to the circumstances which rendered expedient the removal of the Head-quarters of the station of Chunar from the Fortlets of Chunar to Secrole near Benarus, and which in the opinion of Government still exist, is pleased to authorize the permanent establishment of the Head-quarters of that District at Secrole; and to direct that the Military District included in that command be hereafter designated the Station of Benarus. **G. O. V. P. 29th Aug. 59**

Duties of the Civil department in the Benarus district to be performed by the Regular Troops. The duties of the Benarus Provincial Battalion (with the exception of those under the commercial Agent at Ghazeepeer and the duty of guarding the convicts on the roads which will be done by Burkundazes,) are henceforward to be performed by the regulars appertaining to the Benarus command.—The requisite details for the duties of Mirzapoor and Juanpoor to be furnished by the Battalion stationed at Tara Mirzapoor. The duties of the civil station of Benarus, to be taken by the Troops at Secrole. The Officer commanding at Benarus will please to cause frequent reliefs of all guards and parties employed in the civil and Mofussil duties, in order to prevent as much as possible the discipline of the Troops being impaired by long absence from their Corps in remote and dispersed situations. **G. O. C. C. 15th Aug. 1857**

Detail of troops for Benarus and Sultanpoor. His Lordship in Council does not feel the necessity of augmenting the force to be permanently stationed at Secrole beyond one Battalion of Sepoys in addition to the Battalion now there, which, with the support to be derived from the Regiment of Cavalry to be stationed at Sultanpoor, may be expected to afford full protection to the City of Benarus. **Proc. G. G. 19th Sept. 1858**

European corps to be stationed at Ghazeepeer. His Majesty's 67th Regiment of Foot will in future be stationed at Ghazeepeer. Major General McDonald, commanding Benarus station, will be pleased to issue the necessary orders for the requisite number of public buildings at Ghazeepeer to be prepared for its accommodation. **G. 11th Sep. 1807

In consideration of the satisfactory manner in which the subsistence and general care of the Prisoners of War has been administered for so considerable a period of time, and of that judicious policy which, while it maintains the national character, is calculated, in attending to the comfort of those whom the chance of war has thrown into our hands, to ameliorate the condition of our countrymen in the same relative situation with our enemies, His Lordship in Council has determined that no reduction shall be made in the allowance of 15 Rupees a month per man, drawn by the Town Major for subsisting Prisoners of War.

Allowance for the subsistence of French prisoners by the Town Major.

M. C. 2d July
1788

Resolved, that an officer be appointed to the following duties, and that he be denominated Adjutant of the Town Guards. He shall have the general command of all the sepoy guards in the town of Calcutta, except that at Head-quarters, and it shall be his duty to be aiding and assisting to the officers of the police on their requisition in apprehending disorderly persons, suppressing tumults, and maintaining the peace of the settlement; he shall comply with all written requisitions made to him by the Custom Master for small parties of sepoys, which at times may be required to enforce the duties of his office. He shall obey all requisitions made to him in writing by the Commanders of the Hon'ble Company's or Foreign ships, for apprehending such seamen as may attempt to desert from the ships, or who behave disorderly while in Calcutta. On receiving intimation from the Fort Major, or Adjutant, of soldiers having deserted or absented themselves from the corps in Garrison, or from the General Hospital, with the description of such soldiers, he is to cause the necessary search to be made for them in the town of Calcutta, and generally to use such other means as may be required to prevent the escape of men suspected of an intention to desert. He is to cause rounds to go frequently from the guards under direction in the town, where rounds are to apprehend all soldiers they may find in Calcutta between sun-set and sunrise, and all soldiers who may be taken up by the rounds are to be sent to the main guard in Fort William with a criminal writing, and the commanding officer of the corps to which they belong is to be informed by him of their apprehension. He is to render such assistance as may be required from him by the Fort Major in making out the discharges and certificates for Lord Clive's Pension for the soldiers who may be entitled to them.

Adjutant of the town guards appointed and the duties of his office detailed.

Native Infantry

In your letter of the 5th August, 1809, you have suggested the necessity of reducing the Sepoy establishment at Fort Marlborough to 300 men, being an excess of two hundred above the number prescribed by the Honorable Court; Should you be of opinion that the force prescribed by the Honorable Court is insufficient for the maintenance of the authority of the Company at Fort Marlborough, and for the duties of the subordinate stations at which it may be deemed advisable to maintain permanently any European or Native Officers or Agents, the Vice President in Council authorizes you to retain such further proportion of the Native Troops as you shall deem to be indispensibly necessary until you shall receive the final orders of the Governor General in Council respecting the strength of the detachment of Native Infantry to be permanently retained at Fort Marlborough.—The additional Force which you may retain under the discretionary authority vested in you is not to have attached to it a greater number of Officers than the proportion allowed by the rules of the Service to companies or to detachments from companies of Native Troops; and the whole of the Force remaining at Fort Marlborough is to be placed under the immediate command of the Captain of Artillery allowed for the establishment by the Honorable Court. The Vice President in Council, advertng to your observation on the great additional means of defence which would be afforded to the Settlement by the addition of two Mortars to the establishment of ordnance, he has ordered two Mortars to be sent to Fort Marlborough in compliance with your recommendation.

The Captain of Artillery on duty to command

Two mortars to be kept at Fort Marlborough.

Military buildings

Contingencies

Staff appointments

Medical establishment

You will be particularly careful to discontinue all further expenditure of the public money for Military Buildings of whatever description, and you will reduce all Military Charges of a contingent nature to the lowest scale that may be practicable. The usual contingent charges of the Troops retained at Fort Marlborough are to be regulated by the established rules in force at this Presidency, and no other contingencies are to be on any account allowed. Such of the Military duties performed by the Officers who held Staff appointments, as it may be necessary to continue under the new constitution of the Residency, are to be performed by the Officers to be retained on the establishment. Adverting to the various circumstances which may deprive the settlement of all medical aid, were only one Assistant Surgeon to be retained on the establishment, and referring to the urgent representation which you have made to the Governor General in Council on this subject, the Vice President in Council authorizes you to retain one or more of the Assistant Surgeons now at Fort Marlborough, as you may judge to be indispensibly necessary.

Detail of Artillery ordered for Fort Marlborough.

The detail of European Artillery for the relief of the Artillery at Bencoolen is to consist of 20 Matroses to be now sent, which, including six Matroses who are to remain at Bencoolen from the party now there; will make the detail of Artillery for the duties of that Settlement as follows:—1 Captain Lieutenant,—2 Sergeants,—2 Corporals,—4 Gunners,—26 Matroses—Total, European non-commissioned and Privates 34.—1 Serang,—1 First Tindal,—1 Second Tindal,—30 Gun Lascars.

Returns of Troops to be

The Resident at Fort Marlborough will transmit regular returns of the strength of the force, as often as convenient, to the Governor General in Council.

Proc. G. C. 29th April 1809

- Proc. G. G. 16th July 1807 The Provincial Commander in Chief is requested to direct the Officer commanding at Fort Marlborough to transmit to the Military Auditor General by every opportunity that may occur, monthly review rolls of each Detachment from camp on duty at that Residency. And monthly review Rolls by the Commanding Officer to the Mil. Aud. General.
- Proc. G. G. 22d March 1804 All indents for stores, or other applications, which the Officer commanding the Troops at Bencoolen may think proper to transmit to Fort William, are to be transmitted through the Resident, who in forwarding such indents to the Secretary to the Government is to state his opinion of the propriety and necessity of such articles being supplied from hence. Indents for Stores, &c., to be transmitted through the Resident.
- Proc. G. G. 13th June 1809 The Military Auditor General is authorized hereafter to pass the ordinary monthly charges upon bills bearing the signature of the Resident at Fort Marlborough; but all other contingent charges are to be submitted before audit for the special sanction of Government. Contingent charges how to be passed.
- Proc. G. G. 6th May 1809 The Governor General in Council is pleased to appoint Lieutenant Cox to the situation of Military Assistant to the Resident at Bencoolen, upon a salary of 100 Dollars per mensem, exclusive of his military pay and allowances. In consideration also of no Quartermaster being allowed on the Military Establishment of the Residency the superintendence of the execution of the public works at the settlement of Fort Marlborough is in future to be entrusted to that officer, with an additional salary of 30 dollars per month on that account. Military Assistant to the Resident and Superintendent of public works appointed.
- G. O. G. G. 29th Sept. 1810 Captain W. Cox, having resigned the command of the Sebundy Corps, as well as the Office of Superintendent of Military works at Fort Marlborough, Lieutenant James Brooks, of the 20th Native Regiment, is to succeed him in the former situation, and Lieutenant T. L. Davies in the latter. Command of Sebundy Corps vested in one of the officers on duty with the Troops.
- Proc. G. G. 10th July 1806 The Governor General in Council has been pleased to determine that the Officer commanding the Troops at Bencoolen shall be allowed the superior batta of his Regimental rank. Superior batta allowed to the Commanding Officer.
- G. O. C. C. 27th April 1808 Major Paschaud, of Artillery, now at Fort Marlborough, will return to Bengal by the first opportunity, when the command of the troops at the Residency will devolve on Captain Paribby, of engineers, the senior officer, until farther orders. Engineer Officer, being the senior, appointed to command.
- Proc. G. G. 1st Sept. 1807 The Governor General in Council adopts the proposition of the Provincial Commander in Chief, that on all future reliefs of the Troops at Fort Marlborough one Captain and 4 Subalterns of Infantry, beside the commanding Officer, shall be considered as the complement of officers to proceed with the Detachment. Proportion of Commissioned European Officers fixed.
- M. C. 9th Aug. 1796 Agreed, that the officers and men at Fort Marlborough be allowed the same pay batta, and allowances, as the officers and men of this establishment are allowed in similar situations. Rates of pay batta, &c. for the Troops.
- M. C. 16th Oct. 1787 Agreed, that the exchange at which the pay shall be paid to the troops serving at Bencoolen be fixed at a Sonat Rupees 3 Annas per Spanish Dollar. At what rate of exchange to be paid.
- M. C. 24th Jan. 1787 Agreed, that the following staff be allowed to the Garrison (of Fort Marlborough): Adjutant—1 Quarter Master (to be subalterns belonging to the Garrison)—1 Garrison Sergeant Major—1 Garrison Quarter Master Sergeant—1 Native Doctor (effective). Staff establishment allowed for the Garrison.
- G. O. 9th Dec. 1796 An European Adjutant to be allowed to the detachment of the Marine Battalion on duty at Fort Marlborough, with the allowances of an European Adjutant to a Battalion of Sepoys. Allowances for the Adjutant.
- Let. Adj. Gen. 10th July 1808 His Excellency the Commander in Chief entirely concurs in the opinion that it is equitable and proper that the appointments of Adjutants to the Troops at Fort Marlborough be made to be which appointments to be

held by an officer of the regiment on duty there. rough should be held by one of the officers of the Marine Regiment on duty at that station. His Excellency leaves the nomination of an Adjutant to the Troops at Fort Marlborough to the local authority at that Residency.

Ordered, that the Resident at Fort Marlborough be directed to select an officer from the Marine Regiment to perform the duties of Adjutant to the Troops serving under that Residency.

and not to be retained after it has been relieved. His Excellency the Commander in Chief considers the appointment of Adjutant to the Detachment at Bencoolen to be entirely of a regimental nature, and that the officer holding it for the time being is not to be retained in the situation after the Detachment with which he is on duty at the Island shall be relieved. The Commander in Chief therefore desires that, in conformity with this principle, the officer holding the appointment of Adjutant at Bencoolen be required to exercise the authority and perform the duty of his Regimental situation according to the usage of the service.

1st Adj. Gen.
20th Nov. 1809

Staff allowances to be regularly paid. The allowances of Adjutant to the Troops at Fort Marlborough are hereafter to be passed like other bills for established allowances. The Staff pay to 1 Serjeant Major, 1 Laboratory Serjeant, and 2 Drill Serjeants at Fort Marlborough are also passed.

Considerable expence having been incurred by Government in permitting Officers holding the temporary and nominal appointments of Brigadiers, to draw the superior batta and also an extraordinary personal allowance under the denomination of "Brigadier's Allowance," during the same period of time, under a misconception of the orders and intentions of Government on that subject, the Governor General in Council deems it to be proper to notify in public orders, that whenever the public service shall hereafter require the nomination of Brigadiers to command brigades of the Army, they are to receive an extra personal allowance equal to Brigadier's allowance, viz. Sonat Rs. 12 per diem, for the performance of that duty, but no superior batta.

Guide allowance to officers Commanding Detachments Marching, &c. The Governor General in Council, with a view to limit the amount of the contingent charges heretofore drawn for secret service and intelligence at the Field and Frontier Stations, as well as the contingent charges for hire of mules and guides with detachments when marching, or employed in the duties of the collectors, is pleased to establish the following allowances, and to lay down precise rules for the situations in which they are to be drawn and paid, under the control of the Military Auditor General, without bringing them before the Board.

M. C.
18th April 1788

The commanding Officer of every detachment composed of one or more battalions shall be allowed, while actually marching, the sum of 100 Rupees per month for a Moonshie for the purpose of corresponding with the zemindars, and for the pay of the carriers and guides to attend the line.

How furnished to Detachments from Battalions. That the same allowance be granted to the commanding Officer of every detachment detached on the duties of the collectors, whether stationary or marching, provided such detachment does not consist of less than one battalion: but that all such detachments

from such corps be provided with hircarrahs and guides by the commanding Officer drawing this allowance, and no separate charge whatever on these accounts be admitted. That for every small detachment so employed from a corps, the commanding Officer of which is not in receipt of the above allowance, the sum of Sonas Rupees 50 per month be allowed to the commanding Officer of the detachment, provided it be not less than one company. But no allowance on these accounts is to be granted to the commanding Officers of detachments proceeding by water.

Proc. G. G.
16th May 1808.

The Governor General in Council observes that the occupation of a separate and distinct command is an indispensable circumstance in the situation of an Officer to whom any proportion of the established guide allowance can be passed under the regulations as a personal allowance. As therefore the dependency of the Detachment at Byram Chaut upon the Head-quarters of the Battalion at Secrora wholly precludes the admission of this circumstance in the present case, the Officer commanding it is referred for reimbursement of any expence which he may have necessarily incurred on that account to the commanding Officer of his Battalion.

Correspondence of Officers commanding Stations, &c. how conducted

The Commander in Chief having recently observed that commanding Officers of Stations, Corps, and Detachments frequently communicate with their Superiors in rank and even with Head-quarters, through the medium of Staff Officers attached to their respective commands, instead of directly from themselves, he thinks it necessary to express his disapprobation of so unmilitary a practice, and to forbid it in future; and in all cases where Officers shall have occasion to correspond with the Civil Officers of Government in the Districts where they may be employed, they are to do it immediately from themselves, and not through the channel of their Adjutants or other subordinate staff.

List of Committees to be assembled annually by commanding Officers of Stations, Out-posts and Detachments respectively.

Annual Native Invaliding committee

Committees of Surgeons for the purpose of examining and reporting on such men of the Native Corps and Detachments of the Army as may be deemed fit objects for the Invalid Establishment to be assembled on the 1st March annually.

Annual valuation committee

Committees of Officers for the survey and valuation of the Honorable Company's cattle, agency and contract, to be assembled on the 1st and their proceedings closed on

30th April annually. Cavalry Officers, only, are to be employed for the valuation of the horses and appointments of the Cavalry.

Committees of Surgeons for the purpose of examining and reporting on all European non-commissioned Officers and Privates who may be deemed incapable of further field duty, to be assembled at all Stations and Posts in the Field on the 31st July, and at and below Allahabad on the 31st August of each year.

European annual invaliding committee

Committees of Cavalry Officers for the purpose of casting such horses as may be deemed unfit for further service, to be assembled on the 1st October annually.

Annual committees for casting Cavalry horses

Committees of Officers for the survey of all works and buildings to be assembled in Fort William on the 1st Wednesday in December, and at all other Stations of the Army on the 1st November yearly, as directed in General Orders issued under date the 17th September, 1792.

Annual committees of survey on works and buildings

Committees of Officers for the survey of all stores in the magazines, the arms, accoutrements, colours, camp-equipage, &c. in use with the several corps of the army, also the ammunition barrels, flints, carts, tools, &c. remaining with the Quarter-masters of corps to be assembled so as their proceedings may be closed on the 31st December of each year, and the reports are to be transmitted so as to reach the Military Board Office, on or before the 30th January following.

Annual survey of arms, accoutrements, ordnance, stores &c.

The Commander in Chief takes this opportunity of calling the attention of all Officers in command, whether of stations, out-posts or single corps, to the responsibility which rests with them not only with respect to assembling the several committees above specified at the stated periods; but that they are severally constituted of Officers fully competent to the duty, that the rules in force for the guidance of those committees, respectively, are strictly attended to, and that reports in the prescribed forms are duly transmitted to the heads of such departments as are entitled to receive them by the regulations of the service.

Whenever commanding Officers of stations, detachments, or Officers in any other situation of command, may find it indispensably necessary to order any temporary staff appointment, or any establishment of people or cattle to be entertained, in excess to those authorized by the regulations of the service, copies of all such orders are, on the day of their date, to be transmitted to Head-quarters for the consideration and confirmation, when approved, of the Commander in Chief.

Coming. Officers upon ordering temporary establishments, &c. send copies of their orders to Head-quarters

No documents of this nature which may not be forwarded as above directed will in future be attended to. Copies of the General Orders authorizing or confirming any measure of extra expence are always to accompany the bill when presented for payment.

The Commander in Chief directs that with all survey reports or propositions, having reference to expence necessary to be incurred on account of the public service, estimates of the probable expence, with nerricks annexed, are invariably to be forwarded in order that the whole subject may be brought under consideration at one and the same time.

Propositions having reference to expence to be accompanied by nerricks &c.

The Commander in Chief is pleased to direct that it be considered as a standing regula-

places, or strong holds of any description whatsoever, are to be attacked, either in the Vi-
sior's or in the Hon'ble Company's territories, or any other situation where hostilities may
prevail, Battering Guns, Mortars and Howitzers, or a proportion of each, according to the
service in prospect, shall be invariably employed; and in order to give complete effect to
this order, Officers who may have been previously detached without Battering Guns, &c.
but which may eventually become necessary in performance of the duty on which they
may be employed, are to report and forward requisitions accordingly to the Officer by
whose orders they may have been detached; but on no account is any such service to be
undertaken without a suitable equipment of the kind above directed, and which is there-
fore to be supplied, in the first instance, where there may be a probability, even, of its be-
ing required. On all occasions of Field Service that a gun may be deemed necessary, two
guns are invariably to be sent.

by unnecessary
applications

Every person belonging to the Army being amenable to the immediate controul and
authority of the Officer commanding, wherever they may be, whether permanently be-
longing to the station or only temporarily residing there, under any other circumstances,
and his Lordship referring to his orders under date 4th November, 1805, enjoins all com-
manding Officers to enforce obedience to those orders on the part of any individual at any
time residing or being under their authority, and to use their best endeavours to prevent
the Civil Magistrates from being troubled in an unnecessary or irregular manner.

It will be the duty of a commanding Officer of a station or detachment to cause lists to be
prepared by the earliest convenience, after giving out an order for the march of troops
from his command, which he will forward to the Magistrate, containing all the descrip-
tions of people, cattle, and other carriage necessarily required for their accommodation;
and the same rule must be observed by individuals, whose applications, in every case, are to
be submitted to the commanding Officer, whether of a station, out. post, or detachment, and
these again will be held responsible to his Lordship for the suppression of frivolous or un-
necessary demands, which will be judged of according to circumstances from their experi-

M. C. 11th
Oct. 1785.

The commanding Officers of Brigades, Garrisons or Detachments, are not, on any account, to counteract in any manner the official orders of the Paymaster General to the Paymasters. Commanding Officers of Brigades and Detachments have nevertheless the power at any time of requiring their Paymasters to specify what balance they hold, and to order the application of it to the payment of the established expence of any particular Regiment or Detachment, as the exigencies of the service may require.

Commanding Officers: what control to exercise over Paymasters.

But every requisition of this kind made to the Paymaster must be subscribed by the commanding Officers. When pay is to be issued, the commanding Officers of Brigades or Detachments are to specify in orders the days on which the several corps are to receive it; and it must be then punctually distributed to the Troops.

Applications from Paymasters for leave of absence are, in the first instance, to be made to the commanding Officer of the Brigade or Detachment to which they belong, and likewise to the Paymaster General.

M. C. 29th
April 1791.

The Governor General in Council thinks proper to explain, for the information of commanding Officers, that Paymasters are considered as fixed to stations, and not removable therefrom by any authority, but that which is communicated through the channel of the Military Paymaster General, as prescribed by the regulations.

M. C. 5th
Aug. 1793

The applications of Paymasters for the supplies of cash necessary for the subsequent month, shall be complied with by the Residents and Collectors, upon commanding Officers of stations counter signing these applications, in testimony that the amount received in the preceding month has been nearly or wholly applied to the payment of the Troops. Whenever a Collector or Resident shall dispatch specie to any of the Military stations, he shall apprise the commanding Officer of the amount and date of the dispatch, and the arrival of Treasure is to be immediately reported to the commanding Officer.

Regulations to be observed by comm. Officers in procuring supplies of cash for the payment of the Troops.

If the Residents or Collectors should find it necessary to send to the Paymasters Bills of Exchange, instead of cash, they shall advise the commandants of the stations of the amount, on whom drawn and at what sight, in order that the commanding Officer may know, when money may be expected for the Troops.

M. C. 24th May
1789

The Governor General in Council is pleased to desire, that every Paymaster shall, on the last day of every month, report to the respective commanding Officers of the stations or Detachments to which they belong, the amount of any balances of public money that may, contrary to the intentions of Government, remain in their hands, if there be any, and that the commanding Officers shall ascertain as they think proper and certify to the Commander in Chief, through the Adjutant-general, when the monthly reports of arrears due to the Troops are made, (which reports they are to counter sign and transmit), that the balance so reported, is actually in the treasury chest in cash.

And in reporting the monthly balances in the treasury chest.

M. C. 4th July

As it has frequently happened that, at the end of a month, considerable balances of cash have remained in the hands of Paymasters, which might have been applied to the diminution of the arrears of the army, although perhaps insufficient for the payment of

a monthly allowance to all the corps at a station; it is therefore resolved, that, in future, as soon as the respective Paymasters shall have reported upon the last day of each month to the commanding Officers of stations, the amount of the balances of public money which may remain in their chests, the commanding Officers shall issue orders to the respective Paymasters to apply such balances, immediately, in payment of the abstracts of one or more corps, as far as it will go, giving the preference to the corps that shall happen to be longest in arrears; or, in case they are all equally paid up, the abstracts of the corps are to be discharged in the order pointed out by the commanding Officers.

Commanding Officers of stations are to report, at the beginning of every month, through the Adjutant-general, the orders which they shall have issued in consequence of the preceding regulation.

to notify to Paymasters the march and return of Detachments.

Rules to be observed by commanding Officers in disbursing treasure that may be furnished for their detachments.

The Governor General in Council is pleased to direct that commanding Officers of detachments or stations shall not, on any account, authorize the disbursement of treasure, which may be supplied for the use of the Troops under their command, unless by the hands or direction of the Paymaster, who is alone accountable to Government for the due disbursement of the same according to the established regulations.

G. O. G. G. 20th
March 1806

The commanding Officer of a detachment shall not on any account in the absence of a Paymaster sanction the payment of pay abstracts or bills for established allowances; but in cases of emergency he is authorized to order advances to be made from the public treasure.

When such advances are made on account of pay abstracts or of fixed establishments, the commanding Officer of the detachment is, either of himself, or by his public Staff Officer, to transmit to the Paymaster the receipts of the respective Officers of companies, or other departments, for the amount received; which must specify the month's allowances on account of which the advance has been issued; but all advances on account of contingent charges, or charges not of a fixed or established nature, shall be placed at the personal debit of the commanding Officer who authorized such advance.

The commanding Officer of the detachment shall also cause to be transmitted to the Paymaster, early in each month, a statement of the treasure with his detachment, specifying all advances that have been made therefrom by his authority in the course of the past month.

and in receiving advances from Civil Officers.

Should any unforeseen emergency occur, in which it may be necessary for a Collector or other Civil Officer to make an advance for a Military purpose, without being furnished with a regular Bill of Exchange, drawn by a Paymaster upon the Military Paymaster General, such Civil Officer or Collector is to receive from the Officer commanding the detachment, his personal receipt for the amount, and to retain in his hands that document until the commanding Officer shall replace it by a Bill of Exchange, for which he shall apply to his Paymaster without any delay.

Comm. Officers not to order advances on account of works sanctioned by the Military Board.

The Governor General in Council is pleased to direct, that advances on account of works, the authority for the execution of which has been obtained through the Military Board, shall not be ordered by Officers in command of stations or detachments without the special authority of Government.

Rules for comm. Officers authorizing the payment of contingent charges,

The Governor General in Council is pleased to authorize the Paymasters of stations to pay the full amount of all contingent bills, when presented for that purpose, not exceeding in amount one thousand Sonat Rupees, provided such bills shall be properly vouched and attested by the drawer and countersigned by the commanding Officer, in evidence of his having approved the charges they contain.

Sept. 1807

In cases of emergency advances will, of course, under the existing regulations, be ordered by commanding Officers of stations or detachments, whether the amount exceed or fall short of 1000 Sonat Rupees.

sufficiently attended to, is pleased, in conformity to the tenor of those orders, to direct that advances of cash shall henceforward be strictly confined to cases of public emergency, the circumstances of which are invariably to be specified in the orders directing the Paymaster to make such advances.

It is accordingly now declared that any Officer authorizing an advance of cash, contrary to the true intent of these orders, will be held responsible for the same, and the amount will be placed at his personal debit.

M. M. 11th October 1785 Any Officer commanding a corps detached from the station where his Paymaster resides, is to transmit to him, as soon after the expiration of the month as possible, the monthly abstracts of that corps, which the Paymaster is to examine without delay, and return drafts for the amount which may appear due on the abstracts.

Officers comg. detachments to transmit pay bills to their Paymaster.

M. C. 22d July 1791 Resolved, that in all cases when the treasury from which the Troops at any station are usually paid, cannot discharge the draft of a Paymaster for the abstract of a month, for which payment to the Troops at the Presidency has been ordered, it be a standing rule for the commanding Officers of detached corps, and the Paymasters of stations, to apply to the next Collector, and so on, until the supply of cash for the draft has been procured.

In case of disa. appointment in the supply of cash, comg. Officers to apply to the next treasury.

M. C. 5th June 1780 That no Officer commanding a Brigade, Corps, or Detachment shall be authorized upon any account or pretext whatever to make or order any new establishments which have been formed by the Governor General in Council, without their express authority, previously obtained; but as cases may arise when Troops are employed on remote services in which the necessity thereof shall be so urgent as to require an immediate expence not allowed by the fixed establishment or regulations of the Service; in every such instance the commanding Officer being invested with a discretionary power for the purpose, in the manner hereafter described, shall himself pay the same and be responsible for it to the Board, transmitting, on every such exigency, advice thereof to the Board through the channel of the Auditor General, together with the vouchers for the expence. That for the purpose of defraying such emergent expences he do draw upon the Paymaster of the Troops under his command for specific sums, expressing that they are to be placed to his (the commanding Officer's) account, and to remain at his debit, until the bills for the disbursements to which they shall be applied, shall have been passed by the Governor General in Council and credit allowed him accordingly.

Officers comg. detachments on remote services invested with discretionary power to authorize expence.

That as this regulation is intended only for remote services, no commanding Officer shall be allowed the discretionary power contained in it, without the express authority of the Board.

That every such commanding Officer shall transmit to the Board on the first of every month an account current of every such expence incurred by him in the preceding month, specifying the sums received, and their application.

M. C. 17th Feb. 1790. Whenever any discretionary power is vested by an express act of Government in the commanding Officer of a Detachment employed on foreign service for authorizing contingent charges, the amount of all such disbursements shall be carried to his debit by the Paymasters of the Detachment, to whom he is to give a receipt in duplicate at the end of every month, for the amount of all contingencies disbursed by his authority, and he shall consider himself responsible for the disbursements, until they shall have received the sanction and approval of Government.

Regulations for Officers comg. troops on foreign service authorizing contingencies.

It shall be the duty of the commanding Officer to enforce the regular monthly transmission of all accounts of disbursements and vouchers from the Paymaster's Office to the proper Officers at the Presidency, where they are to undergo audit; and to require that duplicates of them should be kept with the Detachment, lest any accident should happen to the originals.

As the prices in the Bengal book of rates cannot be expected to apply to a foreign service, it shall be the duty of the commanding Officer to inspect the rates at which all bills for the supply of stores are charged, and to certify, upon the bills themselves, that the rates charged are to be the best of his knowledge and belief the current prices at the places at which the supplies may happen to be made.

No verbal order for incurring any extra expence will ever be admitted as an authority, but it will be required from every Officer commanding a Detachment or Army to whom

authority to warrant any contingent charges may have been confided, to transmit to the proper Officer of controul at the beginning of every month, a copy, signed by himself, of all orders creative of expence that shall have been issued during the preceding month. Authenticated copies of bills for all charges on account of secret services shall be sent monthly to the Secret Department of Government by the commanding Officer, accompanied by the most particular information, relative to the application of every sum charged for secret services of whatever nature, and unless such information be very full and satisfactory the commanding Officer may be assured that the charges will not be admitted: and as disbursements of this nature are most necessarily attended with a degree of confidence on the part of Government, which every Officer should feel himself anxious to prove has not been misplaced; and which Government should have the means of satisfying themselves has not in any instance been abused, every commanding Officer shall be held liable at the end of a campaign, and on the conclusion of a war, to be questioned upon oath, relative to the fidelity of his accounts for secret services.

Regular troops to perform the duties of the Provincials at Zillah Stations.

The regular Troops are to perform the duties on which the provincials (reduced) have usually been employed, until further orders, and all requisitions from Magistrates to Officers commanding corps in Zillahs respectively, are to be complied with, and always reported immediately to the General Officer commanding the division and to Head-quarters. All guards at stations, and within one day's march of the corps furnishing them, are to be relieved weekly: and all detachments which may be employed at the requisition of Magistrates at a greater distance are to be relieved every two months; a Puckallee to be always sent with every guard consisting of more than 30 privates.

Regulations for inspection and reports of guards at Zillah Stations.

In order to guard against the injurious consequences to which the public service is liable when guards that may be furnished at the requisition of the civil authorities for the duties of treasuries, jails, or any other public purpose, are not frequently inspected and the duties which they have to perform duly regulated and clearly understood by commanding Officers of stations, corps, &c. the Commander in Chief is pleased to direct that the following orders on this head be strictly attended to in future.

G. O. C. C.
19th June 1806

1st.—All guards which may be furnished from the regulars at the requisition of the civil authorities for the purposes of guarding jails, Treasuries, or any other public purpose, are to be visited by the commanding Officers of the station, corps, &c. whence they may be furnished, whenever he may judge proper, and by the Field Officer, Captain, or other Officer on public duty, as often as commanding Officers, according to circumstances, may judge necessary.

2d.—The visiting Officer is to observe the extent of duty necessary to be performed and make his remarks upon the strength of the guards and the number of sentries, in proportion thereto and to the duty required.

3d.—All observations that may appear necessary with regard to the nature, and condition of the buildings, and the degree of security, in which Treasure, Prisoners, &c. may appear to be placed, are to be reported, for the information of commanding Officers, respectively, who will thereupon make such official communication, as circumstances may appear to require, to the civil authorities upon whose requisition the guards may be employed.

4th.—Guards being furnished at the requisition of the civil authorities on their stating the purposes for which they are required, the responsibility rests with commanding Officers with regard to the strength and efficiency of the guards so furnished and the regular performance of the duty on which they are employed under the same rules of inspection and controul as are in force for all other guards; and in this view it may be desirable that the civil authorities should be requested never to detach, separate, or employ the guards on any other duty than that for which they are specifically ordered; and additional guards are to be furnished on any occasion for which the employment of regular Troops is authorized, upon application being duly made.

5th.—All guards, excepting such as are strictly and exclusively personal guards, are to be subject to the foregoing rules of superintendence and inspection.

The Governor General in Council admits the expediency of the regular Troops being withdrawn as guards to escort prisoners when carried out of the jail for examination before the Magistrate. The Governor General in Council accordingly determines that the par-

The following extracts from the general regulations for collecting the revenues, passed in Council on the 8th June last, are published in General Orders for the information and guidance of Officers who may be employed at Revenue Stations:

Regulations for Troops employed at Civil Stations.

"Whenever there shall be any of the Honorable Company's Troops at a Revenue Station, the commanding Officer shall on no account of his own authority detach any Sepoys either singly or in parties beyond their quarters, upon any service whatever except on the requisition in writing of the Collector of the Station at which he is fixed. This order is not to be understood to impede the performance of any customary Regimental service or duty. The commanding Officer shall not be permitted to punish or confine any person not appertaining to his command; neither shall any commanding Officer, nor any Officer, commissioned or non-commissioned, or any Private under his command be permitted to lend or borrow any money, or take any concern in any farm, talook or securityship, or to sell or contract to sell any article whatever either in the district in which he resides, or in any other, or to have any dealings of any kind whatever with any Dewan, Zemindar, Farmer, Ryot, or other dependant or Officer of the Revenue. These orders shall be equally binding upon the Native Officers and upon all the Sepoys and followers of the Corps. Whenever the Collector shall find it necessary to detach any Sepoys for escorts of Treasure or other public duties, he shall make a requisition in writing to the commanding Officer, specifying the nature of the service, and the Officer shall determine the strength of the Detachment, and give his separate orders to the Officer commanding such Detachment for the performance of any service in such case as may require it, and no detachment shall be made without a requisition in writing. That no Collector shall be authorized to employ Sepoys in the collection of Revenues. That no batta be ever levied or taken by Sepoys employed on business in the Mofussil."

The articles which regard the Native Officers and Sepoys are to be clearly explained to them and strictly enforced.

Regulations applicable to Corps moving at the annual relief.

Corps ordered to move at the relief will expend their annual practice ammunition, or make it over to relieving Corps, according as circumstances of time and opportunity may permit.

Minute and particular surveys to be made of all public buildings in every situation where Troops are relieved.

The standing orders applicable to the relief of Corps and movement of Troops to be strictly attended to, viz. respecting advance and rear guards, protection of inhabitants and their property, and the requisite reports to Head-quarters, to the Auditor General, and to Magistrates and Collectors of districts through which Corps will pass. The Com-

mander in Chief enjoins the most rigid attention on the part of all Officers marching with Corps to effect the relief, to the regulation of Government XI of 1806; and also desires that commanding Officers of Stations, Posts, &c. will take the most effectual and timely measures for the care and preservation of all buildings, public and private, and all the huts and cantonments of the Troops during the progress of the relief, so that the relieving Corps may derive the full benefit of whatever huts and shelter may be left by the Troops relieved.

Arrears of corps moving at the General Relief to be previously discharged.

Ordered, that the Military Paymaster General be desired to transmit instructions to the Paymaster at the Presidency, and to the Deputy Paymasters, to discharge the arrears of Corps payable by them, respectively, which change their Stations in the approaching relief, in all practicable cases, previous to their moving, and in the event of the Zillah Treasuries not being competent to supply funds equal to the discharge of the whole of the arrears of Corps, that they may be paid as far as may be practicable.

In case orders for the march of Troops should be countermanded before the day on which they were originally ordered to move, the extra batta is only to commence three days before the subsequent actual march, but in this case the ordinary pay and batta of the extra establishments of people shall be allowed from three days previous to the day on which the Troops were originally ordered to march; but no personal Field Staff allowance nor allowance for straw, tent-pins, mallets, iron, steel, charcoal, stationery nor any other extra allowance whatever, exclusive of the said three days' extra batta, and the pay and batta of the established extra people as above mentioned, is on any pretence to be drawn until the date of the actual march.

Batta when to cease on Troops occupying a new Post &c.

It will be the duty of Officers commanding Native Troops ordered to march and to occupy any new Post or situation, at which it shall be intended the Troops are to remain for a period of time not less than two months, immediately on the arrival of the Troops at the ground to which they are destined, to give the necessary directions in public orders to the proper Officers, to cease drawing the extra batta for the Native Troops. Commanding Officers, on all such occasions, are ordered to give immediate information to the Military Auditor General, by letter, of the date at which the extra batta is to cease. and to prevent causes of complaint in the districts the Troops pass through.

The Commander in Chief expects that Officers of every description will exert their best endeavours to maintain strict discipline and good order in the several Corps under their command, or to which they are attached, and he lays his particular injunctions upon Officers charged with conducting the march of Detachments or single Corps, to use every possible means in their power to prevent oppressions, or any just grounds of complaint from the Inhabitants of the districts through which the Troops may pass to Stations.

G. O. 22d Oct.

Although the preservation of order and discipline among the Troops, is a duty incumbent on every Officer, in all situations, yet an attention to these essential points becomes more particularly necessary during a march, since any excesses committed by the men must naturally excite alarm among the Inhabitants, and to this circumstance probably more than to any other may be ascribed the difficulty of procuring supplies.

Instances having lately come to the knowledge of Government of Troops marching through the country seizing persons and compelling them to serve as coolies, and seizing hackeries, and also of Sepoys requiring earthen pots and firewood from the villages gratuitously, the Right Honorable the Governor General in Council deems it necessary to express in General Orders, his marked disapprobation of such practices and to prohibit the repetition of them in the most positive manner. The Commander of the Forces will please to issue the most pointed orders to Officers commanding Corps and Detachments marching through the country to restrain the men from these unwarrantable practices.

It is directed that when a single Battalion or more shall be on a march, the advance and rear guards shall be commanded by European Officers, whose duty it shall be to restrain the servants, followers, and others, from doing any damage to the houses, corn fields and plantations of the inhabitants.—This is to be considered a standing order in all marches of Troops.

The order which directs that the advance and rear guards of Troops marching be commanded by European Officers is equally applicable to Regiments of Cavalry marching.

G. O. G. G.
1st Aug. 1808

The Governor General in Council observing that the rules prescribed by General Orders of the 3d May 1794, for the guidance of Officers commanding single Corps or detachments of Troops while marching from Station to Station, have not been sufficiently attended to, His Lordship in Council, in conformity to the tenor of those orders, is pleased to direct, that whenever detachments of Troops or single Corps are marching, the Commanding Officers thereof apply, in all practicable cases, to the Collectors of the Company's Districts through which they may pass; who will take the requisite measures to provide boats and the necessary accommodations for crossing the Troops and baggage over any rivers or nullahs which may intersect their line of march.—That no impediment or delay may arise, Commanding Officers are directed to inform the Collectors of the time when they expect to arrive at any river or nullah where assistance will be required.

Applications
for boats for
crossing nullahs
to be made to
the Collectors

Contingent expenses for the march of single Battalions or detachments can rarely occur except for the crossing of rivers, in which case the extra expense may generally be confined to the hire of boats and of a few platforms for boats: whatever else is requisite to facilitate the crossing of troops over rivers and nullahs may usually be performed by the people attached to Corps. G. O. 1st May 1789

Contingent bills for crossing rivers and nullahs are not to be made out for the gross sum; but are to particularize the number of workmen of all denominations employed in addition to those belonging to the detachment; the articles made use of, and the quantity, the number and size of the boats employed, and the time.—They are also to express the breadth of the river or nullah at the time of crossing it as nearly as can be computed. G. O. 8th Apr. 1786

Pierheads and platforms being an unnecessary provision for Corps when marching unincumbered with Artillery or other heavy carriages, it is now made known to the Army that no allowance for such provision will be granted in future in a greater extent than two platform boats for a Battalion of Sepoys, for the more safe passing of grain belonging to the bazar and of Officer's cattle. G. O. 15th Sept. 1789

The Vice President in Council resolves, that, in future, bills of officers containing charges for transporting Troops across rivers, or in any respect connected therewith, shall be subject to total rejection, unless accompanied by a document shewing that they had applied to the Collectors for assistance without being able to obtain it. G. O. V. p. 30th March 1810

The disbursement of contingent charges necessarily incurred during the march of a corps or detachment, is not to be made by the officer commanding such corps or detachment, but by the staff Officer commanding them, excepting in cases where there may be no staff Officer or other subordinate Officer present. G. O. G. G. 5th Oct. 1807

The Commander in Chief having been given to understand, that in some instances Detachments of Troops have marched through Foreign Settlements without any previous notice having been sent to the Governor or Chief, thinks it fit to apprise the Army that the observance of such a form is, in point of military propriety, absolutely necessary; and therefore directs that whenever officers may have occasion to pass through Foreign Settlements at the head of Troops, intimation of their intention, if time will permit, be given to the Governor or Chief the night before, but at all events two or three hours before the approach of the Troops to the barrier gate. PARA. 19th—It will be the business of the Military Board to examine into the state of the musters of the Troops and to give their strict attention, that all the establishments are kept up to the full complement.

Military Board to cause the establishments, &c. to be kept complete.

20th—It will be part of their duty to be regularly informed of the amount, both in quantity and quality, of Provisions, Ammunition and Stores of every kind, in our Forts, Granaries and Garrisons.

and to be informed relative to the Provisions, Stores, &c. in Forts & Granaries.

21st—It must be their province to attend to the Artillery, Arms and Implements of Engineering, so that our settlements may be amply provided with every thing requisite, for the complete equipment of an Army, at the shortest warning.

and to the Artillery, Arms, &c.

22d—We only mention these particulars, as an illustration to point out the nature of the duty to be performed by this Board, meaning that every article of Military expenditure shall come under their revision and controul; but we desire to have it explicitly understood, that no part of the discipline of the Army, the distribution of the Troops, nor the application of the Force, is to fall under their authority; but all these particulars are to remain exclusively with the Supreme Government and Commander in Chief respectively;

All Military expenditures to come under their revision & controul.

Duties of the Board detailed, as having reference to the Supreme Council

neither do we mean that they are to have the power of issuing money or granting warrants for the issuing of money, on any account or pretence whatever; we mean them as a Board of reference and report, for the purpose of inspection, and to prevent abuse and deficiencies.

23d—Of reference from the Supreme Council upon all matters of Military detail, so far as the expenditure of money is concerned. We therefore direct our Supreme Council to make use of the Military Board in this point of view, in order that the expenditure of the public money in contingent articles, may be sanctioned by the opinion of the Officers who constitute this Board. We do not mean that the Supreme Council are bound to refer such points for their consideration, or that they should be bound to act by their opinions when they have received them; but we do expect that before any material issues of money are ordered on the head of Military charges, the Supreme Council will consider it as a useful check against extravagance, if material articles of Military expenditure are previously considered and reported upon by Officers whose situations and professions lead them to be particularly conversant in the knowledge of every article of Military expence.

24th—Although to report upon references made to them by the Supreme Council will form a very essential part of the duty of the Military Board, it is not to be their only duty; we consider it as an essential part of the business of the Board, and we direct that they particularly attend to the various branches of Military detail to which we have alluded, and that they regularly from time to time report to the Supreme Council the state and condition of the respective articles of service falling under their inspection.

25th—If there is any difference of opinion among them either in matters referred to them by the Supreme Council, or in points the consideration of which has originated with themselves, such differences of opinion with the grounds of them are to be specially reported by them.

26th—We direct that, without delay, you form, in concert with the Officers who are to constitute this Board, such fixed rules for the conduct of their business, as may effectually ensure the means of their being furnished with such regular returns from the inferior Departments as may enable them to conduct their business with dispatch and regularity; they are to report their whole proceedings to you, and you are to transmit them to us in separate dispatches under the head "Military Department."

27th—We trust the regulations you shall frame and the instructions you shall give to the different servants under you, connected with Military business, will be sufficient to bring before the Military Board every material information necessary for them to be possessed of; but, if at any time either additional instructions or occasional orders shall be requisite, they are to apply for them to the Supreme Council.

28th—The Military Board is to possess no authority exclusive of and independant of the Supreme Civil Government, but are, in all respects, to act under you and through the medium of your authority.

Returns of receipts & issues to be furnished to the Board.

Plans of fortifications and reports of Military buildings to be sent to the Board.

The Board to attend to the performance of Military contracts

The extraordinaries of the Army to be submitted to the Board,

Monthly returns of receipts and issues, surplus and deficiencies of all provisions laid up in Forts or Military Granaries, shall be sent regularly to the Military Board. To enable the Military Board to give their attention to the state of the Company's Forts and all public Military Buildings, and to report to the Governor General in Council whatever they may, from time to time, think proper to be done respecting them, the Chief Engineer or proper Officer shall lay before them plans of the different fortifications and other Military Buildings; and survey reports shall regularly be sent to them in future at such stated periods as may hereafter be determined on.

It being the duty of the Military Board to attend to the punctual performance of such Military contracts or agreements as may be communicated to them, by the Right Honorable the Governor General in Council, and to report any failure, the requisite orders for returns, &c. shall be given to the Officers, or others concerned.

That every article of Military expenditure may come under the revision and controul of the Military Board, in as far as they are not now under the separate revision and controul of the Auditor General, all extraordinaries of the Army shall be laid before them monthly, by the Paymaster of extraordinaries, for their opinion on them, previous to their coming for final audit before the Governor General in Council.

The Military Board shall form, for the approbation of the Governor General in Council, such further regulations as may appear requisite for the more expeditious dispatch of their business.

M. C. 2d July 1787

The Military Board shall transmit monthly to the Governor General in Council, that is, on the 15th day of each month, a complete copy of their consultations for the month preceding, with an abstract of them; and at the end of every twelve months, they shall deliver in a report or compendium of the quantity and state of the several articles of service under their controul; and such an account of their proceedings as will enable the Court of Directors, and the Governor General in Council, to judge of the degree of utility of that establishment.

Copies and reports of the proceedings & of the articles of service under their controul when transmitted by the Board.

M. C. 15th Sept.
1787

Resolved, that in future, when references are made to the Military Board, by the Supreme Council, for their report on claims preferred by individuals, that the Military Board do require from such individuals, or Officers respectively, the vouchers to which they refer, and authorities necessary for the support of, or elucidation of such claims; and that the report of their proceedings to the Governor General in Council be accompanied with all such vouchers, so as to enable the Board to determine finally upon them without a further reference.

All claims, proposals, &c. submitted to Government to be accompanied with the requisite vouchers, and explanation on.

That in the same manner it is the direction of the Supreme Council in general, that every proposal laid before them for their confirmation or rejection, be accompanied with all the documents, vouchers and explanations required for the illustration of it, so that the Board be enabled to determine finally upon it. The Governor General in Council do accordingly now delegate to the Military Board the powers requisite to effect such purposes.

R. M. B. 18
Dec. 1807

Propositions or suggestions submitted to the consideration of the Military Board, the eventual adoption of which may be attended with expence to Government, are invariably to be accompanied by the detailed and particular statements, and (in all necessary cases) plans of the proposed works; as, without definite information of the expence to be incurred, the Board cannot submit, nor would Government sanction such propositions; whereby a great loss of time and much public inconvenience may result.

In submitting propositions attended with expence, plans, statements, &c. of the proposed works, are to accompany.

Proc. G. G.
15th June 1807

The Governor General in Council directs that all papers sent in circulation during the intervals between the meetings of the Military Board, may be regularly returned, and laid before the Board at the next meeting. Should the Board not then be prepared to decide on the subject of any of those papers, such paper may again be circulated if deemed necessary.

All Papers sent in circulation between meetings to be laid before the Board at the next meetings

Proc. V P 23d
Sept 1801.

The Vice President in Council calls the particular attention of the Military Board to the general rule of the service, which requires that no expence shall be incurred without the previous sanction of Government, excepting in cases of particular urgency, which are always to be reported to Government as early as may be practicable.

Without the previous sanction of Government, no expence to be incurred,

Proc. G. G.
6th June 1806

The Military Board will be careful in future, that no buildings are constructed or repaired without the sanction of Government, except in cases of the utmost emergency; and in all such cases the orders which the Military Board may find it necessary to give, are to be immediately reported for the information and sanction of the Governor General in Council.

No buildings to be constructed or repaired, except in cases of emergency.

Proc. V. P.
24th Apr. 1810

The Vice President in Council does not conceive the charge, being subject ultimately to be verified upon oath, to constitute any ground for admitting an estimate, which under a different arrangement would be objected to. The object of subjecting to revision and controul the plans and estimates of public works, as well as the accounts of expenditure in the execution of them, is not merely to prevent the acquisition of unauthorized gains by the Officers of Government, but to restrict the public expenditure to the lowest practicable scale, consistent with the good of the service; and this primary object of the regulation would be certainly frustrated, if Government, or the Military Board, were from a confidence, however well founded, in the actual expenditure of the amount charged, to overlook the important duty of applying to all estimates and bills the same rigorous scrutiny, and check to which they have always been subject.

Strict scrutiny and check to be applied to all estimates & bills.

The Governor General in Council considers it to be desirable, when estimates are transmitted by the Military Board which exhibit any considerable excess, that the Board will point out the particular circumstance from which it appears to originate.

Explanation to accompany estimates which exhibit any particular excess.

Military Board
to class their re-
commendation
for all public
works.

The Military Board are in future to class their recommendations for all public works under one of the following descriptions; assigning at the same time the grounds upon which they consider the works proposed to be executed to be applicable to either class.

Proc. G. G.
31st Jan. 1791.

1st. Repairs or new constructions which will not admit of delay without injury or prejudice to the public service.

2^d. Repairs which, though not immediately and indispensably necessary, would, if deferred to a future period, occasion comparatively a much greater expence when they should become unavoidable.

3^d. Works, which though useful and expedient in different degrees, may be postponed or undertaken according to the direction of Government.

And in submit-
ting estimates or
bills to report
on the reasona-
bleness of the
charge.

The Vice President in Council is concerned to remark that his orders of the 23^d ult. which directed the Military Board in submitting either estimates or bills for his decision, to express at all times their opinion as to the reasonableness or otherwise of the charges, have not been attended to, and he desires they be strictly observed in future.

The Governor General in Council also directs that whenever the Military Board shall have occasion to submit for the determination of Government any question on which there may be a difference of opinion amongst themselves, in all such cases the opinions of the different Members may be submitted at the same time.

Proc. G. G. 27th May 1802 The Governor General in Council desires that whenever any of the Members of the Military Board shall give their separate opinions on any subject intended to be submitted by them to the Government, copies of all such opinions or minutes are to be submitted at the same time. When Members give their opinions on any subjects they are to be submitted collectively to Govt.

Proc. G. G. 14th May 1803 The Governor General in Council desires that the Military Board will always accompany any documents or proceedings which they may submit to him by a letter of distinct reference and clear explanation, adverting to each separate subject which they may judge necessary to bring under his consideration, instead of referring to voluminous and detached proceedings. All proceedings submitted to Govt. to be accompanied by a letter of reference to each separate subject.

Proc. G. G. 1801 The Governor General in Council deems it to be advisable and proper that in all cases where there is any difference of opinion among the Members of the Military Board, particularly on subjects involving the consideration of expence, the resolution which in such case may be formed by the majority of the Board, together with the opinion of the several Members of the Board on the subject under consideration, should immediately be submitted for the orders of Government, previously to such resolution being acted upon, or carried into effect, by the Military Board, and the Governor General in Council desires that this rule may be observed accordingly in future. Resolutions of the Board on subjects on which the opinions of the Members differ to be previously submitted to Government.

Proc. V. P. 16th Jan. 1806 The Vice President in Council desires, when extracts from the proceedings of the Military Board are submitted for the consideration and decision of Government, that the points on which the decision of Government is required, may be particularly specified in the letter, and the opinions of the Military Board on each of these points particularly stated. When proceedings are submitted to Government, the point on which the decision is required to be particularly specified.

Proc. G. G. 3d June 1801 The Governor General in Council deems it proper, that the proceedings of the Military Board, upon matters of importance, which may be submitted for his consideration, shall contain the separate opinions of the Members, where it happens they differ in opinion; but His Excellency at the same time expects that the Board will conclude their proceedings by stating some distinct proposition on the subject before them, and that, in submitting such proceedings for the consideration of Government, the Board will accompany them by a letter from themselves, stating, briefly and distinctly, the substance of their proposition, with such explanations and references as may be necessary. And some distinct proposition on the subject of reference to accompany.

Proc. G. G. 7th March 1805 The Military Board, previous to applying to Government to sanction the purchase of Iron or any other articles which ought to be supplied from the Company's Stores, will obtain a certificate signed by the Import Warehouse Keeper setting forth that the article applied for cannot be furnished from the Company's Stores, and the Board will accompany their application to Government for permission to purchase the article in the market with the certificate of the Import Warehouse Keeper. Certificates to accompany applications to purchase Iron or other articles

Proc. G. G. 18th Dec. 1800. Proc. M. B. 31st July 1801 The Governor General in Council judges it proper, that the Military Board's general correspondence with Government should be carried on by the Board, and not by the Secretary; and His Lordship accordingly desires, that all letters, which the Board may have occasion to write on matters of importance, may be signed by the Members of the Board. The dispatch and convenience of public business will certainly require frequent communications between their Secretary and those of the Government, on various matters of detail, and it is not His Lordship's intention to prevent such communications, but it is his wish that on all questions of magnitude or importance to the public service, the Members of the Military Board, and not the Secretary alone, should be responsible for the due conduct of the correspondence with the Governor General in Council. Regulations for conducting the correspondence of the Board with Govt.

And with Com-
manding and
Staff Officers of
Stations, corps,
&c. and Or-
dnance Officers.

The present undefined and desultory mode of carrying on the correspondence of the Military Board, being productive of considerable embarrassment and delay in the transaction of the public business, the following rules for simplifying the correspondence with that department, for more regularly conducting it, and for attaching responsibility more immediately to authority and command, are adopted and ordered to be considered as standing regulations in future.

G.O. C. C. 8th
Dec, 1867.

1st—General Officers commanding districts or divisions of the Army, and all Officers commanding Stations, Garrisons and Posts, or Divisions and Detachments of Troops marching, are themselves to correspond with the Military Board and not through the medium of their Staff Officers, on all points involving expenditure of the public money, or relating to the equipment and supplying of the Troops, or places under their respective commands, with Ordnance, Stores, Arms or Accoutrements, or generally to all matters, that fall within the proper province of the Military Board, under the regulations of Government.

2d—The same rule to be observed on all occasions of references or applications designed to be submitted, or which it may eventually be found necessary to submit to the Right Honorable the Governor General in Council or to his Excellency the Commander in Chief.

3d—In forwarding for the Board's information and report to Government propositions likely to be attended with expence or affecting any general principle of the service, General Officers and Officers commanding Stations will accompany such propositions with their opinions on the necessity or expediency of adopting them, formed after particular enquiry and on as attentive a consideration as the nature of the case may require or will admit.

4th—Officers at the head of all Public Departments, all Ordnance Officers, Commissaries of Supplies, &c. are not to correspond with the Military Board direct on any of the occasions above enumerated but through their respective commanding Officers; this is not however meant to preclude the direct transmission of returns, accounts, vouchers, &c. to the Military Board Office or direct correspondence with that Office on matters of pure detail or that relate to the individual concerns of Officers.

5th—Officers commanding Regiments and Battalions being answerable for the equipments of their respective Corps, and the accuracy of the prescribed quarterly returns of them, those returns are to be transmitted by commanding Officers, and not through the medium of their Regimental, Battalion, or Detachment Staff, as is at present occasionally though irregularly practised.

6th—The rules prescribed in General Orders of the 13th Nov. 1788, for the transmission of indents from corps at the fixed stations of the Army through the Brigade Major's Office, and from Corps detached through the public Staff Officer, where there is one serving, otherwise by the Officer commanding, to continue in force and to be strictly observed, particularly that part which requires the commanding Officer's approval of the indents being signified by his countersigning them previous to transmission, and which holds him responsible for all issues of stores made on his judgement and discretion.

7th.—The annual survey reports of public works, fortifications and Military buildings, as well as of Ordnance and military stores in magazines and depôts, are to be transmitted by commanding Officers of stations and garrisons accompanied by letters, signed by themselves, containing such observations as they may have to offer on the general state of the works, buildings, ordnance or stores, and as may tend to give the Military Board the fullest information respecting them, with a view to such measures being taken as circumstances may require.

8th.—All letters, returns, reports or other official documents not transmitted, agreeably to the foregoing orders, or to existing standing regulations, will be immediately returned to the person from whom they may be received; who will be held responsible for any delay or inconvenience which may arise to the service from inattention to those orders and regulations.

Regs. of the
Board to be
copied and
kept up by
Staff Officers

Every regulation of this Board, whether published in general orders or circulated by the Secretary, is to be entered in a book to be kept by the commanding Officer of each Station, Garrison, Detachment, or separate Corps, and by the Officers of ordnance and others whom they may immediately concern, which book every such Officer, when relieved, deliver over to his successor in command or office.

Res. M. B. 18th
Oct. 1794

after the receipt of the annual survey reports, the Secretary is to lay before the Board statements of such further supplies as may be necessary.

Res. M. B. 7th
March 1789

The Secretary is to furnish the Commissary of Stores with statements of the proportion of Ordnance, Military and Ordnance Stores of every description, laid down for the different Garrisons and Magazines under this Presidency, that, by comparing them with the returns (with which he will also be furnished by the Secretary) he may be enabled to judge what supplies will be required from Europe, as well to complete deficiencies, as to answer the probable exigencies of the Service.

And Statement of the proportion of Ordnance &c. of the different magazines.

Res. M. B. 10th
June 1809

Resolved, that in all future calculations of the value of Europe articles which may at any time hereafter, under the orders of Government, be sold from the public Stores, the Secretary be authorized to add 50 per cent. to the Europe invoice prices, to cover the expences of freight, insurance and other export charges from England.

At what rate to calculate the value of Europe articles sold from the Stores

M. C. 21st
Oct. 1788

Agreed, as an amendment to the rule laid down in the proceedings of the Military Board, of the 27th July, 1787, subsequently approved by the Governor General in Council, which direct that "all estimates of buildings executed by the Chief Engineer should be compared and corrected by the Secretary or some Member of the Military Board," that instead of leaving it in doubt whether the duty should be performed by a Member of the Board or by the Secretary, it be the particular duty in future of the Secretary alone.

Estimates of buildings to be compared and corrected by the Secretary.

Res. M. B. 5th
April 1790.

In all bills for money, expended in public buildings or expences of any kind incurred by individuals, under the sanction of Government, or the Military Board, the person making such demand, shall particularly express, on the face of the bill, the authority and date of the order or orders by which he became authorized to make the charge, in like manner, when materials wanted for the execution of public works are indented for, the indenting Officer shall set forth on the face of the indent the date of authority, by which such work is to be carried on.

Bills, &c. not submitted to the Board unless the authority and date of the order be inserted.

No bills or indents of the above description to be laid before the Military Board, on which the information now required is not fully expressed, but the Secretary is immediately to return them to the persons from whom they shall have been received.

Res. M. B. 22d
June 1788.

The Military Board, having noticed that several indents have of late come before them which were not drawn out agreeable to the prescribed form, have been pleased to direct that in future when any such shall be transmitted to their Secretary, he do immediately return them to the respective Officers who sent them.

Informal Indents to be returned by the Secretary.

Res. M. B. 1st
June 1789

The Secretary to remark to the Military Board, when indents on the subordinate commissaries of supplies (now commissariat) contain articles which they are not regularly authorized to furnish.

Who will remark when Indents on the Commissariat contain articles they are not authorized to furnish.

Res. M. B. 17th
Feb. 1789

The Secretary to furnish the Military Auditor General with lists of stores passed on indents, for the departments of the executive Officer and Barrack Master of Fort William, during each quarter.

And transmit lists of stores passed to Barrack master, &c. in each quarter to Mty. Aud. General.

Lct. C. D. 8th
April 1807

PARA. 255th.—Being satisfied that the labour and responsibility of the office of Secretary to the Military Board have been greatly increased of late years from the augmentation of the Army and from other causes, and from your testimony in favor of the abilities and conduct of Captain Greene, the present Secretary, we authorize you to augment his salary to 2,600 Rupees per month from the date of his application, provided the salary is the only emolument the Secretary derives from his office; if otherwise, the advantages altogether are to be made equal to 2,600 Rupees per month.

Augmentation of the Salary of the Secretary to the Military Board.

Proc. G. G. 18th
August 1803

The Governor General in Council sanctions and authorizes a continuation of the following allowances.

CHAPTER II

His Majesty's Troops serving in India.

General Staff, &c. attached—Returns, Reports and Applications how transmitted—Regulations relative to their Rank, Payment, Allowances, &c. under different circumstances of Service.

Provision and custody of Arms, Accoutrements and Cloathing.

Orders for drafting Regiments returning to Europe—Passage Money, &c. to Officers,

G. O. G. G.
16th April 1807

HIS Excellency Lieutenant General Sir John Craddock, Commander in Chief of the Forces serving under the Presidency of Fort St. George, being the senior Officer of his Majesty's Forces employed in India, in consequence of the departure for Europe of the Right Honorable Lord Lake and His Excellency Lieutenant General Nicolls, the Honorable the Governor General in Council requests that his Excellency Lieutenant General Sir John Craddock, Commander in Chief at Fort St. George, will be pleased to exercise such authority over his Majesty's Regiments in India, with regard to their internal management and to promotions, &c. in those Corps, as may be consistent with the rules and usage of his Majesty's service in such cases.

General command of His Majesty's troops vested in the senior Officer in India, in the absence of the Commander in Chief.

Let. G. D. 31st
May 1809

PARA. 106th—It was established as a regulation by our orders of the 4th May, 1796, when the first appointments of His Majesty's General Officers on the Staff in India took place, that the allowances to the King's Officers appointed to the Staff were to commence from the period of their arrival in India; we have not thought proper to make any alteration therein.

Allowances to General Officers appointed to the Staff in India when to commence.

Pro. G. G. 23d
Nov. 1807
Sanctioned
Let. C. D. 16th
Feb. 1810

The Governor General in Council has been pleased to permit Major General St. Leger, appointed to the Staff of this Presidency, to draw the allowances of a General Officer on his Majesty's Staff in India from the date of his landing at Fort St. George, and his personal Staff are to draw their allowances from the abovementioned date.

Pro. G. G. 16th
May 1805

The Governor General in Council observes that Major General St. John was appointed to the Staff of the Presidency of Fort William, and continued on the Staff accordingly until his embarkation and departure from Bengal for Europe; and that conformably to the established rule of the service, his resignation of the Staff appointment which he held took effect from the date of the dispatch of the ship on which he embarked, and his Staff allowances ceased of course from the same time; under these considerations, the Governor General in Council does not deem it to be proper to admit the claim preferred by Major General St. John to Staff allowances until the dispatch of the ship, on which he embarked, from Fort St. George.

Inadmissible for the period they may be in India, after departure from the Presidency they were attached to

M. C. 27th June

M. C. 17th May 1793 Mr. Lockhart is appointed Compiler of the Accounts of His Majesty's Troops serving in India, vice Mr. Wilton, deceased, and authorized to draw the same monthly allowance as was granted to Mr. Wilton, viz. Rupees 300. Compiler of the Accounts of King's Troops appointed.

Ext. M. C. 5th Dec. 1768 In order to render the general account (of His Majesty's Troops) as correct as the materials of which it may be composed will admit, it shall undergo, when completed, an examination by the Military Paymaster General and Military Auditor General, and be compared with the vouchers from whence it is formed. General accounts how to be examined.

Proc. G. G. 14th Nov. 1806 The Governor General in Council authorizes the duties of the Compiler of the King's Troops Accounts, being performed in the office of the Military Auditor General, under his superintendence, and that the person appointed to fill that office shall also be appointed 2d Accountant in the office of the Military Auditor General, with the same salary for both offices, as was before allowed to the Compiler of King's Troops, viz. Sonat Rupees 300 per mensem. To be prepared in the Office of the Aud. Gen.

G. O. G. G. 15th Dec. 1806 In pursuance of orders from the Honorable the Court of Directors, Officers in His Majesty's service, holding Staff appointments in India, are not to draw their Regimental pay, unless the Regiments to which they belong are serving in India. Officers of His Majesty's service holding Staff appointments in India, whose Regiments are serving there, are permitted to draw their Regimental pay at the Presidency, at which they may be employed, though the Regiments to which they may belong may not be serving under that Presidency. Circumstances under which Officers of H. M. service on the Staff in India are permitted to draw their Regimental pay.

G. O. G. G. 2d Oct. 1807 All reports or applications, relating exclusively to His Majesty's Regiments, will be addressed to the King's Adjutant General, by the Officers commanding them, through the regular channel of Officers commanding districts or Stations, for the information of the Commander in Chief. Reports of applications from H. M. Regiments how transmitted.

G. O. C. C. 6th June 1806 A monthly return of each of His Majesty's Regiments serving under the Presidency of Bengal is to be transmitted, on the 1st of every month, to the Adjutant General of the Bengal Army, and on the back of the return is to be inserted the period to which the corps has received pay and allowances, agreeably to the form in use by the corps in the Honorable Company's Service, which will be furnished to His Majesty's Regiments by the public Staff Officers of Stations, respectively. Monthly returns to be sent to the Adjutant General of the Bengal Army.

G. O. C. C. 20th May 1804 In future, Officers in command of His Majesty's Regiments of Cavalry and Infantry will direct survey reports of camp equipage, in use with their respective corps, to be transmitted quarterly to the Military Board. And quarterly returns of camp equipage to the Military Board.

M. C. 1st Aug. 1788 Resolved, that it be published in general orders, that His Majesty, from a desire to remove all grounds of complaint from the Company's Officers of supercession in rank, by Officers in his own service, has been graciously pleased to direct, that such of his own Officers as at present enjoy brevet local rank in India shall waive the exercise of that rank, after the 30th day of September, 1789, and shall confine themselves after that day to the rank which they hold by their Regimental commissions, or by commissions which give them general rank in the Army. Brevet local rank withdrawn from M. Officers serving in India.

M. C. 1st Aug 1793 Resolved, that Colonels of His Majesty's Service, although not Colonels of Regiments, shall be on a footing with Officers of the same rank, in the service of the Honorable Company, in all future distributions of gratuity to the Field Officers serving on this establishment. Colonels to be Brevet in all distributions of gratuity to them as Colonels of Regiments.

Allowances of H. M. Troops equalized with those of the same ranks in the Company's service.

Agreed, that the pay and stated allowances of His Majesty's Troops, serving under this Presidency, be made exactly equal to the corresponding ranks in the Company's Service, as recommended by the Governor General, and that the Commander in Chief be requested to publish the same in General Orders.

M.C. 27th June 1788

The difference between the amount of the off-reckonings and the actual expence of the cloathing is a fund subject to internal regulations in both services.

Company's allowances when to commence to H. M. Troops arriving in India and disembarked previous to reaching the Presidency they are destined for.

PARA. 87/h.—In consideration of the expence to which His Majesty's Troops will be exposed from the date of their debarkation in the Company's territories, and in reference to the propriety of granting them the same allowances as may be drawn by any other Troops previously serving at the place of debarkation; with reference, also, to the consideration that the debarkation of corps, or detachments of corps, at places other than those to which they may have been destined, is a matter of accident or necessity, not, probably, within controul of the Officers commanding such corps or detachments of corps; we authorize you to pass Company's allowances to all corps or detachments of corps landing in any part of the Company's immediate territories in India, from the date of the debarkation of such corps, provided such debarkation were made by order of the established local authorities, but we shall not admit Company's allowances being passed to individual Officers who shall land in any part of India, different from that to which their duty calls them.

Let. C. D. 16th Feb. 1810

Individual Officers have the power of obtaining a passage on our ships to any of the Presidencies of India, at which their Regiment may be serving, or, in the case of Staff Officers, at which their usual well-known duties call them to reside; if, therefore, they wilfully land at other places than that to which they ought to have directed their immediate course, or if any corps, or detachments of corps, or individual Officers accidentally land at Ceylon, or any other place in India, where the Troops are not receiving pay from the East India Company; in all such cases we direct that Company's allowances be not passed to them until their actual arrival at the Presidency to which they have been appointed.

Also to those proceeding direct to Bengal.

His Majesty's Regiments are to receive the Company's allowances from the date of their arrival at Fort William.

Proc. G. G. 20th Feb. 1797

Rate of exchange for the payment of H. M. Troops.

We direct that the Sonat Rupee be paid to the King's Regiments at the same exchange, at which it is issued to the Company's Troops, viz. 2s. 6d.

Let C. D. 19th May 1790

The subsistence to be paid one month in advance.

The Governor General in Council, with reference to the course prescribed by His Majesty's Regulations for the payment of his forces, is pleased to determine that these Troops shall in future receive their subsistence on the 24th of each month, as it becomes due, or, in other terms, one month in advance. The Military Paymaster General will make the necessary arrangements for the Regimental Paymasters being regularly furnished with drafts for the subsistence of their respective Regiments, in such manner as will put them in possession on the 25th of each month of cash equal to the payment of the subsistence of the Regiment for the month next ensuing.

Proc. G. G. 27th June 1808

Proportion of subsistence granted in advance to H. M. 76th Regt. returning to Europe.

The Governor General in Council authorizes the advance of 6 months' subsistence to the Officers, and 4 months' subsistence to the non-commissioned Officers and Privates of His Majesty's 76th Regiment, embarking for Europe.

Proc. G. G. 6th Feb. 1806

Rate of pay as established for H. M. Officers.

His Excellency the Most Noble the Governor General in Council having received copies of two warrants from His Majesty, contained in the circular letters from the War Office, dated the 27th June, 1797, and the 25th January, 1798, by which some alterations have been made in the pay of the Officers of His Majesty's service, His Lordship in Council judges it proper to direct that the new rates of pay established by His Majesty's said warrants shall be adopted, and have effect at this Presidency from the 25th June next; and the payments are to be made to the Officers of His Majesty's Cavalry and Infantry Regiments, serving under this Presidency, accordingly.

G. O. G. G. 23d April 1801

Abstracts of the amount due on account of the arrears to Officers of His Majesty's Regiments serving under this Presidency, who are now in India, and who have not been in England subsequently to the period to which the arrears were paid up then, are to be

forwarded to the Military Auditor General for audit before payment: those Officers who have embarked for Europe will of course receive their arrears there, if they apply for the payment. It will be necessary that Officers returning or arriving from Europe, and applying for the payment of any part of the arrears here, should produce certificates from the proper person at the India House that their arrears have not been paid by the Company in England. In consequence of the new rates of pay to His Majesty's Officers, the following Tables of Pay and Company's allowances have been prepared, and are to be substituted from the 25th June next for the Tables now in use. (*Vide Forms 1 & 2.*)

Let. C. D. 8th
April 1807.

PARA. 19th.—Under the new regulations (of the 15th July, 1806,) an increase of pay has been granted to the commissioned Officers, non-commissioned Officers, and Privates of His Majesty's Army; but with regard to commissioned Officers, we are informed, from the office of His Majesty's Secretary of State for the War Department, that it is understood, and has been provided for, that the increase of pay granted to them should not take effect in the East Indies; our present directions will therefore be confined to the augmentation to the pay of the non-commissioned Officers and Privates.

Regts. of 1806 augmenting the pay of H. M. Officers not to take effect in the East Indies.

Proc. G. G. 4th
Sept. 1787

No Officer in His Majesty's service is to receive greater pay and allowances than he may be entitled to, by his Regimental Rank.

H. M. Officers only receive the pay &c. of their Regl. rank.

Proc. G. G. 12th
July 1806.

The Governor General, in consideration of all the circumstances of the case, authorizes Indian allowances to be paid to such of the Officers of His Majesty's 25th Dragoons, as were actually employed at the capture of the Cape of Good Hope, from the date of their being ordered for the performance of that service, or of their services having been accepted of for that purpose, on their furnishing the necessary information and vouchers respecting these points. From the above allowances, however, the bat, forage and out-fit money, which these Officers may have received, is to be deducted.

Allowances to Officers of H. M. service proceeding to India immediately employed at the Cape of Good Hope.

Proc. G. G. 31st
July 1803

The Governor General in Council has been pleased to authorize the Auditor General to admit pay to Officers of His Majesty's Regiments serving in Bengal, who may not have procured, or may have lost, the usual certificate of the period to which they had received pay, upon their attesting upon honor the date to which they had actually been paid; information of all sums so admitted to be given to the Secretary to the Government, to be forwarded to the Court of Directors.

Pay to be admitted to Officers who may have lost their Certificates.

Proc. G. G. 16th
April 1807

Ordered, that the Adjutant General to the King's Troops be informed that it is not usual to make advances to Officers on account of their Pay and Allowances for a longer period than 3 months from the date of their application.

Period for which advances are authorized to Officers joining their Regts.

M. C. 18th
April 1794

Resolved, as there is no express regulation for allowing half batta to King's Officers, removed from other Presidencies to Corps in Bengal, that it be established as a general rule for the future to allow, in all such cases, half batta and the difference between the King's and Company's pay and allowances.

Allowances to Officers removed from other Presidencies to Corps in Bengal.

Proc. G. G. 1st
Oct. 1800

Officers belonging to His Majesty's Regiments in Bengal, while on duty at the other Presidencies, are allowed half batta from the date of their disembarkation at that Presidency, and house-rent, if not provided with quarters, during their stay there.

To Officers of Regts. serving in Bengal, on duty at other Presidencies

Proc. G. G. 5th
June 1789

Officers removed from a Regiment stationed under this Presidency to any Regiment in the other parts of India, to be allowed, in addition to their pay, half batta and house-rent, if not furnished with quarters, until an opportunity offers for their joining their Corps.

Officers removed from Bengal to Regiments serving at other Presidencies.

G. O. C. C. 6th
June 1797

Officers removed from Corps in Bengal to the other Presidencies, shall receive boat allowance to the Presidency of Fort William, and passage money to the Presidency, where the Corps to which they are removed may be serving.

To receive boat allowance and passage money.

Proc. V. P. 19th
Feb. 1798

The Commissioned Officers and Staff of His Majesty's Regiments, serving at the Presidencies, whilst on duty in Bengal, are permitted to draw half batta during the time they may remain in Fort William.

Allowances to Officers in other Presidencies when on duty in Bengal.

King's pay to Officers on duty in Bengal, whose Regts. are in Europe. The Governor General in Council is pleased to authorize King's pay, being paid to such of His Majesty's Officers on duty in Bengal whose Regiments are in Europe, debiting "account current London," for the amount so advanced. P. O. G. G. 18th Nov. 1803

Allowances to be drawn by H. M. Officers promoted in India. The Governor General in Council is pleased to pass the following orders, to have effect from this date. Officers of His Majesty's Service, promoted in India by the Commander in Chief, are not to draw the King's pay of the advanced rank, until the promotion shall be announced in General Orders, as confirmed by His Majesty. Officers so promoted, however, will be entitled to draw the Honorable Company's allowances of the advanced rank, from the date of their promotion by the Commander in Chief, as long as they continue to do the duty under such promotion, while Officers belonging to Corps in India, who may be promoted by His Majesty, will become entitled to the Honorable Company's allowance from the date on which their promotion shall be notified in General Orders by the Commander in Chief, from which date their performance of the duty of the advanced rank will of course commence. G. O. G. G. 18th May 1810

Horse allowance to Dragoon Officers and period of its commencement. Resolved, that the Officers of His Majesty's 15th Regiment of Light Dragoons be entitled to the same Horse allowance as the corresponding ranks in the Company's Cavalry, to commence from the period of the arrival of the Regiment at Dinapore. M. C. 13th March 1797

Allowances for the Officers of H. M. Dragoons. Pay to the commissioned Officers of Dragoons is to be the same as that of the corresponding ranks in the Company's Cavalry: in cases where the British pay exceeds the Company's, His Majesty's Officers are to receive full British pay. P. O. G. G. 18th Apr. 1797

Non effective and contingent allowances to Field Officers equalized with the allowances of Officers in the Honorable Company's Service. In conformity with the Orders of the Honorable the Court of Directors, contained in the 90th, 91st, and 93d paragraphs of their General Letter, dated the 31st of May, 1810, for equalizing the allowances of the Field Officers, and Captains of His Majesty's Regiments of Dragoons and Infantry, with the allowances of Officers of corresponding rank in the Honorable Company's Service, and which have been found to exceed the latter, in consequence of the non-effective and contingent allowances drawn by Field Officers and Captains in His Majesty's Service,—the Right Honorable the Governor General in Council is pleased to pass the following Regulations, to take effect from the 15th December, 1810: G. O. G. G. 12th Feb. 1811

The Non-effective and Contingent Allowances hitherto drawn for Field Officers and Captains, half yearly, shall, from the 15th December, 1810, be drawn by the Regimental Paymaster in his monthly Subsistence Abstract, according to the correct proportion for each month, for the number of Officers entitled to such allowances actually present in India.

That the corresponding deductions shall be made in the monthly Regimental Abstracts of the Honorable Company's Allowances from the Allowances of Officers, for whom the Non-effective and Contingent Allowances shall have been drawn in the Subsistence Abstract, at the following monthly average rates:

Lieutenant Colonel, Dragoons.

The Honorable Company's allowances to present drawn for repairs of Arms and

Allowances for repair of Arms and Stationery

Stationery for each Troop, viz. Sonat Rupees 50 per Month, will be discontinued; and the Officer in charge of a Troop will be entitled, in addition to the Contingent Allowance drawn under His Majesty's Regulations, dated 11th February, 1806, to the sum of Sonat Rupees 3 5 4, being the difference between the monthly proportion of the Contingent Allowance, viz. Sonat Rupees 46 10 8, and the allowance for repairs of Arms and Stationery, granted to Officers commanding Troops in the Honorable Company's Service.

to Troops of Dragoons;

The allowance established by His Majesty's Regulations for a Riding House, being granted for purposes unconnected with personal emolument, is continued, but to be drawn in the monthly Subsistence Abstract, in the same manner, as the Contingent and Non-effective Allowances are directed to be drawn.

For Riding House,

The Officer in command of a Regiment of Dragoons having Returns, Reports, &c. to prepare for the Adjutant General of the King's as well as of the Company's Army, and being consequently exposed to a great expense, the monthly allowance at present granted for Stationery, viz. Sonat Rupees 40, to be continued.

And Stationery to Commanding Officer of a Regt. of Dragoons,

Lieutenant Colonel of Infantry.

From the Allowance at present received by the Senior Lieutenant Colonel of a Regiment of Infantry, under the denomination of difference of Pay, viz.

Sonat Rupees,.....	49	10	10
To be deducted the average monthly amount of the Non-effective Allowance of £. 20 per annum,.....	13	5	4
To be drawn monthly for the Lieutenant Colonel of Infantry, under the denomination of difference of Pay,	36	5	6

Majors of Infantry.

Average monthly amount of the Non-effective Allowance, Sonat Rupees, 13 5 4	13	5	4
Deduct difference of Pay at present received by a Major, and which is to be discontinued when in the receipt of Contingent Allowances.....	11	2	5
Further to be deducted from his Batta,	2	2	11

Captain of Infantry.

The excess of Sonat Rupees, 11 10 8 per Month, is to be deducted from the allowance of Sonat Rupees 24 per Company, at present fixed for Stationery and repairs of Arms; and the allowance to be hereafter drawn, under that head for each Company of His Majesty's Infantry, is fixed at Sonat Rupees 12 5 4 per Month.

For repairs of Arms and Stationery to companies of H. M. Infantry.

In cases, however, when, by a vacancy or by the absence of a Captain in Europe, the command of a Company devolves on a subaltern Officer, who by His Majesty's Regulations is not entitled to the Non-effective Allowance, then, the monthly allowance for Stationery and repairs of Arms will be drawn at the rate of Sonat Rupees 25 10 8 for each Company commanded by a Subaltern Officer. (For comparative statement of allowances drawn by Field Officers and Captains in His Majesty's and the Company's Service vide Form No. 3.)

Proc. G. G.

Extract of His Majesty's Regulations relative to Regimental Paymasters, dated 19th January, 1798.

Appointment of Paymasters to H. M. Regts. and establishing their field allowances and choice of Quarters.

" Paymasters of regular regiments, not being allowed to hold Regimental Commissions, will receive a special Military Commission under the sign manual; they will be entitled to the same baggage and forage money as Captains without Troops, and to the choice of Quarters according to their standing with respect to the Captains in the Regiments they belong to."

Proc. G. G.
25th March

Extract of a letter from the War Office, dated 25th April, 1801, to the Honorable the Court of Directors.

To conform to the Practice as established in India for Regimental Paymasters.

" I am directed to apprise the Court, that, in the instances where Paymasters on the new system had been appointed to Regiments ordered for service in the East Indies, they have accordingly proceeded with their respective Regiments, with orders to conform, from the time of the Corps being landed in India, to the practice of Regimental Paymasters, which they should find regularly established at their destined station."

Allowances to Paymasters of H. M. Regts. to India. Ordered, that the Paymasters of His Majesty's Regiments appointed under His Majesty's warrant of the 19th January 1798, be allowed 15 Shillings per diem, and the battery gratuity and tent allowance of Captain. Proc. G. G. 19th April 1803.

The tent allowance to be passed with reference to the situation of the Regiment, and no claim for an office tent admitted. The allowances stated by Minutes of Council of the 19th March, 1797, are to be granted to the Paymaster of His Majesty's 1st Regiment for writers, stationery and all contingencies of Office; leaving it to him to employ whatever clerks he thinks proper.

Office allowance. Agreed, that an additional monthly allowance of Sonat Rupees 25 5 4 be granted to the Paymasters of His Majesty's Regiments of Cavalry, and 25 10 8 to the Paymasters of Infantry Regiments, making in the whole a monthly allowance to Paymasters of Cavalry Regiments, each, Sonat Rupees 65 5 4 and of Infantry 78 10 8. M. C. 19th May 1797.

Horse allowance of Captain to Paymasters of dragoon Regiments. The Governor General in Council is pleased to authorize the horse allowance of Captain to be passed to the Paymaster of H. M. 8th Light Dragoons and to all Paymasters of His Majesty's Dragoon Regiments holding similar appointments. Proc. G. G. 14th January 1805.

Allowance to Committee of Paymaster-ship of H. M. 22d Regiment. The Vice President in Council does not consider the Committee of Paymaster-ship of His Majesty's 22d Regiment entitled to draw the full amount of the Pay and Allowances granted to a Paymaster of His Majesty's Infantry; but, in consideration of the special circumstances of the case, is pleased to authorize them to draw a contingent bill, attested in the usual manner, for such expence (the same being fully detailed) in excess to the established proportion of Pay, viz 10. shillings per diem, and the office allowance Sonat Rupees 78 10 8, as the Committee may have incurred. Proc. V. P. 15th August 1809.

Proportionate allowance for 4 Companies H. M. 56th Regiment. The Governor General in Council authorizes an allowance of 40 Sonat Rupees per mensem to the Officers forming the Committee of Paymaster-ship of the Detachment of 4 Companies of His Majesty's 56th Regiment of Foot for writers and stationery. Proc. G. G. 1808.

Rates of pay for Adjutants of Cavalry and Infantry. The pay of Adjutants of Cavalry being fixed at 10 Rupees per diem, and that of Infantry at 8 Rupees, it is to be clearly understood that the Officers who hold these appointments are to receive only the pay of Adjutant above specified, and that they are to have no claim whatever to the pay of the rank of either Lieutenant, Cornet or Ensign, which they may at the time hold. G. O. C. 14th July 1803.

Allowance to Riding Masters. Riding Masters are to be allowed the same Staff pay as Riding Masters in the Company's Cavalry, with the regulated batta of their Regimental Rank. Proc. G. G. 28th Apr. 1797.

Allowances for Quarter-masters of Dragoons. His Majesty having been pleased to authorize a Regimental Quarter-master to be appointed to each Regiment of Dragoons, in lieu of Troop Quarter-masters at present borne on the strength of Corps, the Governor General in Council authorizes the following allowances for Regimental Quarter-masters, in addition to the pay of eight Shillings per diem, granted by His Majesty. with the Batta, Gratuity, Tent Allowance, and Horse Allowance of a Cornet. The allowance at present drawn by the Senior Troop Quarter-master for Stationery and Camp Lines, amounting to Sixty Rupees 35, will of course be discontinued from the date on which the Regimental Quarter-master may join the Corps.

The Regimental Quarter-master will receive charge of the Quarter-master's Establishment of Lascars, &c. attached to the Regiment, and will also draw, when in the Field, the established allowance for Straw, Tent Pins, Mallets, Sallets, Gunny Bags and Camp Colours.

His Majesty having been graciously pleased to determine, that Troop Quarter-masters shall be discontinued, only as vacancies occur, the Troop Quarter-masters now attached to Corps will continue to draw their present allowances, with the exception of the allowances of Rupees 35, for Stationery and Camp Lines, heretofore drawn by the Senior Troop Quarter-master.

The allowance at present granted to acting Troop Quarter-masters to cease on the appointment of a Regimental Quarter-master.

Proc. G. G.
11th Jan. 1808

The Governor General in Council, on the principle established by the orders of the Hon'ble the Court of Directors, admits the claim preferred on the part of the widow and child of the late Captain Radcliffe, and of the three orphan children of the late Captain Kirk, in consequence of those Officers having fallen in the attack of the Fort of Komona.—Ordered, that the Military Auditor General be instructed on receipt of the bills which may be presented to him, accompanied by the prescribed certificate of the Officer commanding H. M. 17th Regiment, on account of the claims above mentioned, to pass them to the extent authorized by His Majesty's Warrant, namely, one full year's pay of her husband's Regimental Commission to Mrs. Radcliffe, and one third of that amount to her child, and also one third of the amount of the Regimental Commission of Captain Kirk to each of the three children of that Officer.

Gratuity to the widows & children of H. M. Officers killed in action.

Extract of H. M. Warrant above alluded to.

"When any Commissioned Officer shall be killed in action, his widow and orphan children, if he leaves any, shall be allowed as follows :

"To the widow a full year's pay according to her husband's Regimental Commission.

"To each child under age, or not married, one third of what is allowed to the widow ; posthumous children to be excluded.

"All persons dying of their wounds, within six months after battle, shall be deemed slain in action.

"The commanding Officer of the corps in which the slain Officer served, shall on demand give a certificate of his having been killed in action, to his surviving wife and orphans, respectively, specifying the time when, and the place where, such accident happened ; a duplicate of which certificate shall likewise be sent with the next monthly return."

The increase to be drawn in Abstract.

each class to be stated separately on the Pay

Rolls to be transmitted by commanding Officers of Corps, in authentication of claims for increased pay.

The commanding Officer of each Regiment will transmit to the office of the Military Auditor General a long roll, which shall include the name of every effective Non-commissioned Officer and Private of the corps under his command, stating the date of his entrance into the Regiment, and adding thereto such remarks relative to former service as may tend to establish claims to the increased rates of pay under His Majesty's regulation; as stated in letters from the Secretary at War, dated 20th July, 1806, as follows:

Orders specifying the nature of service required in qualification of claims for increased rates of pay.

"In regard to the additional allowances to Corporals and Privates after 7, 14 and 17 years' service, respectively, it is to be understood that previous service in any corps of regulars or in any fencible corps, liable to serve out of Great Britain, Ireland and the Islands in the Channel, is to be taken into account, in estimating the claims of the men to the said additional allowances. It is also to be understood that men discharged at the late peace, or at any other period, who have since entered into the Army, are entitled to claim the benefit of their antecedent service in corps of the above description. But service in the Militia or in any corps of Fencibles not liable to serve out of Great Britain, Ireland or the Islands in the Channel, is not to be considered as making any part of the service entitling the men to the said additional allowances. Former desertion is not to affect a man's claim to the allowances in question, but desertion occurring subsequently to the 25th June, 1806, will deprive a Soldier of all title to the said allowances arising from antecedent service. In the case of men formerly discharged and recommended to Chelsea, and who have since entered into the Army, the time during which such men were on the Chelsea Pension is to be taken into account in estimating their claim to the additional allowances, two years, thereof, being reckoned as one of actual service, and the same in proportion for any longer or shorter period."

When claims cannot be exactly ascertained, payment to be suspended.

The commanding Officers of Regiments are enjoined to pay the strictest attention to the foregoing rules, by which the claims of Non-commissioned Officers and Privates, respectively, according to length of service, are to be determined, and to satisfy themselves as far as may be practicable of the just pretensions of each individual to receive the augmented pay, founded upon his former service in other corps; and when such claim cannot be exactly ascertained, payment thereof is to be suspended until the necessary information or special authority shall have been obtained.

Allowances of Serjeant-major and Quarter-master Serjeants equalized with those of the Company's service.

In fixing the aggregate allowances for the Serjeant-major and Quarter-master Serjeant of His Majesty's 22d Regiment, the Military Auditor General is to attend to the principle of equality established with respect to the amount of the allowances between His Majesty's and the Honorable Company's Forces.

G. O. G. C. The Governor General in Council, with a view to enable the Invalids and other soldiers of His Majesty's Regiments who may be at any time in Fort William, and not under the immediate command of any particular Officer, to receive their pay regularly, is pleased to authorize such Officers, as his Excellency the Commander in Chief may think proper to direct, to draw the monthly pay of those men according to the form of an abstract which will be furnished to him by the Military Auditor General.

It will be necessary the monthly abstracts of the pay of such men be accompanied with certificates of the last pay received by them previously to their arrival in Fort William.

Proc. G. C. The allowance granted to the Surgeon in charge of the Infane Hospital for the maintenance of Privates in the Company's Service, is to be extended to such Soldiers as may be sent there from His Majesty's Regiments.

G. O. G. C. The Governor General in Council has also been pleased to resolve, that the Regulations of the 3d of August, 1799, whereby it is ordered that "Every Soldier, whether of the European Infantry, Cavalry, or Artillery, who may die on or before the 15th of the month, shall be struck off the Pay Rolls at the end of the month, but if he dies after the 15th of the month, he shall be continued on the Pay Rolls for the next month only, to defray his funeral expences;" shall be extended to the Soldiers in His Majesty's Service.

Proc. V. P. Regulations for obtaining reimbursement of the expence of the interment of the Non-commissioned Officers and Private Soldiers of His Majesty's Service, who may die at the General Hospital.

The Brigade Major of the King's Troops at Fort William to pay the Bills of the Steward of the General Hospital for the interment of men belonging to any of His Majesty's Regiments in India, dying in that Hospital, taking his receipt for the same.

The general charge of Sonat Rupees 8 9 10 to be on no account exceeded without the authority of Government.

The Steward of the General Hospital to take an inventory of the necessaries of Patients received into it, and to furnish the Major of Brigade to the King's Troops with a copy thereof, and on no account is any man to be permitted to dispose of any part of his necessaries during his residence at the Hospital.

When a man dies at the Hospital, the Steward shall immediately take charge of such money as the deceased may have died possessed of, and deliver all his effects to the Brigade Major to the King's Troops, who will cause them to be sold to the best advantage; the Steward, for the money so paid by him, will take the Brigade Major's receipt.

For men belonging to the King's Regiments on the Bengal Establishment who may be in the General Hospital, the Brigade Major to the King's Troops in Fort William will continue to draw their pay, and on their quitting the Hospital settle their accounts in the manner now practised. In the case of men dying in the Hospital, he will be governed by the foregoing regulations, receiving from the Paymaster to the King's Troops the balance which may on any occasion be required to make up their funeral charges.

In the case of men belonging to his Majesty's Regiments serving at the Presidencies of Fort St. George and Bombay, the Brigade Major will apply to Government to direct the exact sum, required to make up the amount of the expence of the funerals, to be issued to him by the Paymaster to the King's Troops, who will charge the same to the

debit of the Regiment concerned. All balances remaining in the hands of the Brigade Major, after the funeral expences shall have been discharged, is to be applicable, in the first instance, to the liquidation of the Regimental debts of the parties concerned, in conformity to his Majesty's Regulations, when the residue may be paid to the legal representatives of the deceased; but, when such residue may not be claimed, the Brigade Major is to pay the amount thereof into the hands of the Paymaster to the King's Troops, who will carry the same to the credit of the corps to which the men belonged.

The King's Regiment quartered in Fort William will at no time come within the operation of this arrangement, as the Officer commanding it on the spot is responsible for the due settlement of all just demands upon the corps.

be sent to the
Orphan Asylum

The Governor General in Council sanctions the arrangement proposed by the Managers of the Orphan Society, for 12 children of Soldiers belonging to His Majesty's 14th Regiment of Foot, being admitted at the Lower Orphan School, upon the express condition of the Officer commanding the Regiment becoming responsible for the due payment of all expences of those children.

Proc. G. G.
6th Mar. 1809

The Military Paymaster General is accordingly to take measures for a monthly stoppage being made from that Regiment to the amount of 5 Rupees for each of the 12 children who may, in consequence, be received on that establishment.

Arms, Accou-
trements, Stores
&c. how sup-
plied to H. M.
Regiments.

The Military Board to keep separate accounts of the issues of Arms, Accoutrements and Stores to each of His Majesty's Regiments, and transmit copies of them annually to the Court of Directors, who, by a communication with the proper Officers in London, will be able to ascertain what part of the Stores, if any, is to be carried to the debit of the Crown; what part should be paid for by the Colonels of the Regiments, and what should be furnished at the expence of the Company.

Proc. G. G.
9th July 1798

A separate ac-
count of the re-
pairs of Arms,
&c. to be kept
and transmitted
to the Military
Board.

Ordered, that the King's Arms be kept distinct, and that a particular account of the expence of their repairs be transmitted for the information of the Board.

Res. M. B.
2nd May 1797

Proc. G. G. The Governor General in Council has been pleased to authorize the Indent for Colours for His Majesty's 75th Regiment to be passed, but the bill for the expence of making them up must be forwarded (through the Military Board) for transmission to the Court of Directors, in order to its adjustment in England. Colours for H. M. Regiments how to be supplied.

Let. M. S. G. His Lordship is of opinion, that the public must, in general, bear the loss of replacing accoutrements intended for the King's Regiments, if they should unfortunately be destroyed by any accident after having been lodged in a public store. The loss of replacing accoutrements, &c. destroyed in the Stores by accident, to be borne by the public.

Res. M. B. As the Military Board are not at liberty to authorize the deposit of Cloathing or any Stores of His Majesty's Regiments in the Arsenal of Fort William, they would recommend a communication being made, by the Board of Trade, to the Officers in command of the 17th and 22d Regiments, on the subject of the disposal of the Cloathing, &c. arrived for those Corps, or to the Adjutant General of the King's Troops at the Presidency. Military Board do not permit the Cloathing or other Stores of H. M. Regts. to be lodged in the Arsenal of Fort William.

Proc. G. G. All expences of transporting the Cloathing of His Majesty's Regiments are to be borne by the Colonels of those Regiments, who receive the off-reckonings. Expence of transporting the Cloathing to be borne by the Colonels.

Proc. G. G. The Governor General in Council does not consider the Honorable Company to be subject to the payment of the charges incurred in transporting the Cloathing of His Majesty's Regiments serving in India, previously to the Cloathing being received by the Regiments; after the Cloathing shall have been in possession of the Regiments, his Excellency in Council considers the Honorable Company to be subject to the expence of transporting it, in the same manner as is established for transporting the Cloathing and other Regimental Stores of the Company's Troops. Circumstances under which the expence of transporting the Cloathing is to be borne by the Company.

The expence of insuring and transporting the Cloathing of the Company's Troops is defrayed by the off-reckoning fund, and not by the Company, and it is understood that the off-reckoning fund in His Majesty's service is in like manner intended to defray all expences, &c. attending the conveyance, insurance, &c. of new Cloathing.

G. O. C. C. His Majesty's 75th Regiment of Foot being under orders to return to Europe, the Right Honorable the Commander in Chief is pleased to direct that such men of the corps as may volunteer their services in His Majesty's Regiments remaining in India, shall receive a bounty of 3 guineas per man. Orders for drafting H. M. Regiments returning to Europe.

The men are permitted to make choice of the Corps in which they wish to serve, and his Lordship trusts that the spirit and zeal which have ever characterized the Corps, will induce them to volunteer a continuation of their services to their country in India.

The Commander in Chief points out the after-mentioned Corps as those into which his Lordship is particularly anxious the men of the 75th should volunteer their services, viz. the 8th, 24th and 25th Light Dragoons; 22d, 53d and 67th Regiments of Foot. His Lordship entreats the assistance of Major Campbell and the Officers of the 75th Regiment to promote the public service in this instance.

The bounty of three guineas is to be delivered to each man as soon as he is properly enrolled. The Commander in Chief directs its being fully explained to the men that no further bounty is to be expected, and that none are, or will be, permitted to volunteer for the Honorable Company's Service. His Lordship expressly forbids liquor or gratuity of any description, over and above the bounty of 3 guineas, being given to the men, and calls upon commanding Officers of Corps to see this order strictly attended to.

Major General Dowdeswell will be pleased to select Officers to take charge of those men who may volunteer for Corps at other stations; a report to be sent daily to the office of the acting Adjutant General to the King's Troops of the number of men who may have volunteered, specifying for what Corps.

The Commander in Chief directs that this order be read and fully explained to the men of the 75th Regiment.

G. O. C. G. Ordered, that the following paragraphs of a General Letter from the Honorable the Court of Directors, dated the 7th September, 1808, be published in General Orders. Rates of Passage money for the different ranks, when the expence of H. M. Officers proceeding to England is borne by the Company.

PAR. 227th—As there exists a doubt in the minds of the commanders of our ships of our intentions in regard to the passage home, of Officers, and they have claimed the amount authorized by the printed regulations of the 27th July, 1796, we think it ne-

necessary to repeat our orders of the 18th April, 1800, Paragraphs 7th and 11th, in the Military Department, viz. that in all cases where the expence of His Majesty's Officers proceeding to England is borne by the Company, the sums to be paid to the commanders of our ships are on no account to exceed the following rates :

General Officers,	£. 250	Lieut. Colonels and Majors,	£. 150
Colonels,	200	Captains,	125

All Subaltern Officers, formerly 100 guineas, but since encreased to £. 110.

PAR. 228th—These rates to be converted into Indian currency, at ss. the Current Rupee : 8s. the Star Pagoda, and ss. 3d. the Bombay Rupee.

229th—The sums mentioned in the 2d page of our printed regulations, have a reference only to instances where Officers or other Passengers proceed from England to India, at their own cost and charge, and those regulations were intended by us to guard Passengers of the descriptions mentioned from any exorbitant demand on the part of the commanders of our ships, for their accommodation to Europe; you will therefore particularly attend to this explanation on future occasions of claims for passage of Officers returning to England at the Company's expence.

Passage money to Officers proceeding on the Recruiting Service or in charge of Invalids.

230th—While we are upon this subject, we think it necessary to direct, that where King's Officers proceed to England upon the Recruiting Service, under the permission granted in the 4th paragraph of our Military Letter to your Presidency, of the 23d May, 1798, this indulgence must be restricted to one Officer of each rank composing the Recruiting Troop or Company of their several Regiments, left in England; and upon occasions where it shall be deemed expedient for an Officer of His Majesty's service to be sent to England in charge of Invalids from King's Regiments, we consent to your granting such Officer, whatever rank he may hold, the passage money of a Subaltern Officer, being £. 110, provided he has not a less number than thirty Invalids under his charge, on board of whatever ship he may proceed to this country. You must, however, be careful that no undue advantage is taken of our indulgence in this respect.

231st—Upon the whole, except in the two latter instances, and where King's Officers proceed to England on sick certificate, as at present allowed to the Officers in the Company's Service, or upon the return of His Majesty's Regiments from service in India, no allowance whatever is to be made upon their account by the Company; and in all cases we direct you to confine the rates of passage money to the sums above specified.

The Right Honorable the Governor General in Council is pleased to publish to the G. O. G. G. Army the following Regulations of the Honorable the Court of Directors, respecting 19th Jan. 1811. passage money, passed on the 11th July, 1810.

AT A COURT OF DIRECTORS,

HELD ON WEDNESDAY, THE 11th JULY, 1810.

RESOLVED,

Rates of Passage money to be paid by H. M. Officers proceeding to and from India, and accommodation to be allotted to them.

That the following Regulations be established, respecting the passage and accommodation of persons of the undermentioned descriptions, to and from India, on the ships in the Company's Service, viz.

For the Passage from England.

That the Commander be not permitted to demand more than the following Sums, for the accommodation, at their Tables, of Officers in his Majesty's Service, proceeding to India in the following Stations, viz.

General Officers,	£. 235	} Exclusive of the charter party allowance to the owners, paid by the Company.
Colonels,	185	
Lieutenant Colonels,	135	
Majors,	135	
Captain and Surgeons	110	
Subalterns and Assistant Surgeons,	95	

For the Passage from India.

That the Commanders of the Company's ships be not permitted to demand more than the following Sums, for the passage and accommodation at their Tables, from India, of

Officers, either in His Majesty's or the Company's Service, who shall be returning to Europe, either on sick certificate or Military duty, viz.

	From Bengal.	From Madras.	From Bombay.
	Sa. Rs.	Arbit. Rs.	Bombay Rs.
Lieutenant Colonels,	2,500	2,500	2,500
Majors,	1,500	1,500	1,500
Captains,	1,000	1,000	1,000
Subalterns,	1,500	1,500	1,500

And that the commanders do, upon no account, refuse to receive the sums herein stated, for the passage and accommodation of gentlemen of the above description from India, respectively.

That the commanders of the Company's regular ships be each constrained to receive on board their respective ships at least two officers, of the description abovementioned, returning to Europe, and that the larboard third part of the great cabin, with the passage to the quarter gallery taken off, be appropriated to their accommodation.

That the commanders of the Company's extra ships shall be likewise constrained to receive on board one officer returning to Europe, of the beforementioned description; and that such officer be accommodated with a cabin on the starboard side, abaft the chief mate's cabin, and abreast of the spirit room, of not less dimensions than seven feet long and six feet wide.

That in the event of the return of the whole or one of His Majesty's Regiments to Europe, the Governments in India shall, in such case, allow the whole, or such part, of the great cabin of each ship, for the accommodation of the officers, as the Governments may deem proper, due notice thereof being given to the commanders; and that the sum to be paid for the passage of each officer, be the same as those above stated for officers returning on Military duty.

That the several sums abovementioned be established for the passage outward and homeward, of the several persons of the descriptions before stated, and that the same do apply only to such accommodations as those persons are respectively entitled to, under the existing regulations of the Company; and that any additional accommodation or cabin may be agreed for with the Commander, and paid for separately, without being considered as a deduction from the sum fixed by the Court for the passage money of each person.

(Signed)

WILLIAM RAMSAY,

Secretary.

Let. C. D. 7th
Sept. 1808.

PARA. 178th—If it is consistent with the ordinary practice of our Service that officers of His Majesty's service returning to England in consequence of Courts Martial, shall be defrayed the expence of their passage by the Company, we shall not object thereto.

PARA. 59th—With respect to the passage money from England granted to Lieutenant Hook, of His Majesty's 33d Regiment, if he came to England upon duty with a detachment by order of the Commander in Chief at Madras, at which Presidency the 33d Regiment was serving, he was undoubtedly entitled to passage money, both in coming and afterwards returning by order; but if, as was probably the case, he merely came to England on leave of absence, he had no such claim in either case, and was exactly in the same predicament as any officer in our own service coming home on leave of absence.

Ext. Let. C. D.
27th Mar. 1787
Pub. M. C.
4th Sept. 1787

Should any of the commanders of our ships refuse to accommodate the officers of His Majesty's Regiments with a passage to Europe at the rates set against their respective ranks, you are to insist on a compliance under pain of dismissal from the Service.

Ordering compliance of commanders of Ships with the orders regarding the rates of Passage Money.

Let. C. D.
23d May 1798

Upon application being made by any of His Majesty's Officers to be allowed passage money on account of their return to Europe on the Recruiting Service, it will be requisite for such officers to obtain certificates from the Commander in Chief of His Majesty's Troops at your Presidency, stating such to be the reason of their quitting India; and upon its being verified to us, by the Secretary at War, that those officers are actually posted to the Recruiting companies of their several Regiments in England, and have been ordered on that service, we shall grant the usual allowance of passage money according to their respective ranks.

Certificates required of Officers proceeding to England on the recruiting service

Orders to Officers proceeding to England in charge of Invalid Soldiers.

His Royal Highness the Duke of York, having directed it to be intimated to the Commander in Chief in India, that many inconveniences had arisen from officers who are sent home with Invalid Soldiers leaving the ships before their arrival at the place of their final destination, the General thinks fit to give the most positive orders to all officers returning home with Invalid Soldiers under their care, that they shall on no account quit them until they deliver them over personally at Chatham Barracks, to Major General Fox, to whom, and to the Paymaster at Chatham, they will make over the accounts of the men who have been under their care, whether belonging to the same or any other regiment in His Majesty's service.

G. O. C. C.
11th July 1799

Certificates and Statements to be furnished with Invalids, by commanding Officers of Regiments.

The Commander in Chief is likewise pleased to direct that the commanding Officers of Regiments do transmit to Chatham Barracks, with their invalided men, a very exact statement of their accounts, specifying any arrears of pay or cloathing which may be due to them, and likewise certificates of their length of service, ascertaining their hurts and wounds received, and pointing out such as are deemed proper subjects for His Majesty's royal bounty of Chelsea Hospital.

Certificates to be furnished by H. M. Officers, applying for furlough or to resign.

The order issued under date the 19th August, 1785, that all applications from officers for leave of absence or to resign the Service shall be rejected unless accompanied by a certificate from the Paymaster that the officer applying had settled all accounts with the Company, not having yet extended to His Majesty's officers, who receiving Company's allowances are equally liable to retrenchments,—Resolved, that the above Regulations of the 19th August, 1785; be considered in future to have effect as well with regard to the King's officers as those of the Company.

M. C. 21th
Aug. 1789.

Advance of pay granted to H. M. Officers proceeding to Europe on furlough.

Officers in His Majesty's Service proceeding to Europe on furlough usually receive an advance of six months, pay on application to that effect, on producing the requisite certificate from the Military Paymaster General.

Proc. G. C.
18th Apr. 1802

Declaration to accompany applications from Officers for leave to proceed to England.

In obedience to orders received from His Royal Highness the Commander in Chief, the Right Honorable Lord Lake directs that, in future, all applications from officers in His Majesty's service for leave to return to Europe, shall be accompanied by a declaration upon their honor, that it is not their intention to retire from the service at the expiration of such leave.

G. O. C. C.
18th Apr. 1802

No leave is in future to be granted until the determination of the officer making the application (whether on sick certificate or otherwise) shall be made known.

M. C. 20th
Sept. 1786

EXTRACT. PAR. 86th—You are to comply in future with our repeated injunctions, that no more appointments of Cadets do take place in India: such appointments must rest exclusively with the Court of Directors.

Appointment of Cadets vested in the Court of Directors.

Let. C. D.
10th Feb. 1806

PAR. 21st—We have appointed Mr. Joseph Querofs, now residing at your Presidency, a Cadet for the Infantry on your Establishment, provided he shall appear to you to be the son of European parents, subjects of the British Empire, also that he is not under the age of 15 nor above 22 years, and that he is unexceptionable in every other respect.

Qualification required of those appointed in India.

Let. C. D.
21st Apr. 1800

PAR. 57th—In the 30th Paragraph of our Letter of the 29th May, 1799, we signified our intention to take into consideration the application made in the 189th Paragraph of your Letter of the 28th August, 1797, in behalf of the two sons of the late Major Hodgson, when they should be of the proper age. We have agreed to appoint them Cadets of the present season upon production of the required certificates regarding their age.

Cadetships bestowed on the orphans of Officers, dying in the service.

Let. C. D. 6th
April 1808

PAR. 3d—We have transmitted you, a number in the Packet, a copy of the terms on which young men are admitted into our Military Service, and to which we require their assent before we appoint them.

4th—The Cadets have likewise delivered to them a copy of the Articles of War, and you will observe in the terms alluded to, the Cadet is required on his arrival in India to sign a declaration that he has frequently and attentively perused the same during the voyage out, and that in the event of his having neglected to peruse them, he is not to be entitled to his pay or to be considered on the strength of the Army, until he shall send in to the Government a written declaration that he has carefully perused the same.

Orders, &c. communicated to Cadets on their receiving their appointments.

5th—We enclose a copy of the declaration signed by the Cadets when they receive their appointment, and we trust that the measures now adopted will effectually suppress that spirit of insubordination which has manifested itself among the Cadets at the institution under your Presidency, as none will proceed thither in future, without being fully informed of the nature of their appointment, and the rules and orders to which they are expected to submit; but if contrary to our hope and expectation, any of the Cadets should evince a disposition of insubordination, we direct that you exercise the authority with which you are invested by suspending or dismissing them from our service, as the case may require, and that you immediately order those who may be dismissed to return to England at their own expence.

Those whose conduct is disapproved to be suspended or dismissed at the option of Govt.

The Cadet (upon his being approved of by the Committee of Shipping) will be ranked according to his actual departure from England, so that the sooner he proceeds to India, the higher his rank will be above those who may be appointed in the course of the same season as himself. On his arrival at the Presidency to which he is appointed, he will enter into pay as a Cadet, at Four Shillings and Two-pence per day, and be promo-

ted to a commission in the Company's Army, according to his seniority in the list of rank above alluded to, provided he shall not have forfeited his claim to such promotion by any disobedience of the Court's Orders, or misconduct during his passage out.

If the Cadet should wish to be accommodated at the commander's table during the voyage out, he will be required to pay into the hands of Mr. Chatfield, the Company's Paymaster, the sum of £.116 for his accommodation, being £.95 for the commander, and £.15 for the owners of the ship. But if he should prefer being accommodated at the third mate's mess, he will then have to pay in the sum of £.70, being £.55 for the third mate, and £.15 for the owners. Should the Cadet, after he has taken his passage, neglect going in the ship, the commander or third mate will be entitled to retain one moiety of the passage-money paid in on their account, but the other moiety, and the £.15 paid in on account of the owners, will be reserved towards his subsequent conveyance, or returned to the Cadet, should he resign his appointment before his departure from England. It is further expected, that the Cadet will, upon his arrival in India, conform strictly to all the Rules and Regulations of the Institutions established at the Presidency to which he is appointed for the Instruction of the Cadets, and that he will endeavour to qualify himself for his future situation, by professional acquirements, and by the attainment of a knowledge of the languages of the country; in failure of which he will render himself liable to be dismissed the Service, and ordered back to England at his own expense.

The Cadet, upon his appearing before the Committee, will be furnished with a copy of the Articles of War for the Company's Service, and he is hereby informed that upon his arrival in India he will be required to sign a declaration that he has frequently and attentively perused the same during the voyage out; and in the event of his having neglected to peruse them, he will not be entitled to his pay, or considered as on the strength of the Army, until such written declaration is given in to the Governor.

And whereas it has been represented to the Court of Directors by the Governments abroad that many of the Cadets at the Institutions have manifested a serious disposition to insubordination towards their superiors, and have been guilty of gross irregularities and ungentleman-like conduct towards each other, the Cadet is hereby informed that on his arrival in India he is subject to Martial Law.

**AT A COURT OF DIRECTORS,
HELD ON WEDNESDAY, THE 6th JUNE, 1804.**

RESOLVED,

That upon the friends of each Cadet paying the regulated amount of his passage-money to the Company's Paymaster, such Cadet be required to sign a declaration, upon honor, that he has not paid, or caused to be paid, and will not pay, or cause to be paid, either directly or indirectly, by himself or by any person on his behalf, any further sum for his accommodation, either to the commander or mate, than those prescribed by the Court's Regulations.

That in the event of its appearing at any future time, that a further sum shall have been paid by, or for, any Cadet, such Cadet be placed at the bottom of the list of the rank of season in which he was appointed; and that these last-mentioned Regulations be printed and delivered to each Cadet, upon his appearing before the Committee of Shipping to be approved.

WM. RAMSAY, Secretary.

**AT A COURT OF DIRECTORS,
HELD ON WEDNESDAY, THE 30th JULY, 1806.**

RESOLVED,

That any person who shall in future be nominated to a situation, either Civil or Military, in the Service of this Company, and who shall have obtained such nomination, either directly or indirectly, by purchase, or agreement to purchase, through the medium of an agent, or other person, shall be rejected, and the person so nominated shall be rendered incapable of holding any situation whatsoever in the Company's Service; and, in the event of any person having obtained an appointment in the manner before stated, and proceeded to India previous to its being discovered, such person shall be dismissed the Company's Service, and ordered back to England, and shall also be rendered incapable of holding any situation whatsoever in the Company's Service.

WM. RAMSAY, Secretary.

Let. C. D.
9th Aug. 1809

PARA. 6th.—It appearing by the report of the committee of the House of Commons, that the undermentioned appointments, conferred subsequently to the 6th August, 1806, were purchased by the friends of the parties who received the same, though without the privity of any of the Directors who respectively conferred those appointments; it was finally resolved on the 12th May, 1809,—“That the appointment of the following persons be now rescinded and annulled, and that the said persons be dismissed from the Service of the Company.

Orders of the Court dismissing Cadets, whose appointments were corruptly procured.

CADETS.

George Barker,
George Teulon,
John Samuel Williams,

|| Thomas Maw,
|| John Manson,
|| Robert Manson.

“That the appointment of Mr. Samuel Lewis to be a Cadet in 1800, which appointment he (being born of an Indian Mother) carried through, by getting an Englishman named Philips to personate him before the Committee of Shipping, be, notwithstanding the Resolution of the Court on the 5th Instant, which limits the retrospective operation of the Resolutions of the 28th February, 1799, and 6th August, 1806, to the date last mentioned, annulled; and that he be dismissed the Company's Service on account of the fraud practised by him.”

PARA. 7th. We direct that you communicate the foregoing Resolution to the parties concerned who may be at your Presidency, and order them to proceed to Europe as speedily as possible, consistent with a reasonable allowance of time to prepare for their voyage.

PARA. 8th. We desire that it may be distinctly understood that the Resolution of the 5th May was intended to have respect to the List then before the Court of appointments stated to have been corruptly procured; and that the said resolution was not meant to exclude the consideration of any other case or cases of corrupt purchase in procurement which might at any time be discovered, though such cases should have occurred before the 6th August, 1806.

G. O. V. P.
21st Mar. 1810

In conformity to the orders of the Hon'ble Court, contained in the foregoing Extract, Messrs. Barker, Teulon, Williams, Maw, John Manson and Robert Manson are struck off the List of the Army, and directed to proceed to England by an early opportunity.

And who are struck off and ordered to England.

M. C. 3d Aug.
1779.

Service of Cadets is to commence from the time of their publication in General Orders at Fort William.

Service of Cadets when to commence.

Those who decline to continue in the Military Line are not to be permitted to remain in India.

Those resigning not to remain in India.

Let. C. D. 6th
April 1809

PARA. 37th. It appears by the attestation of Captain Fagan, the Assistant Secretary to the Military Board, that the services of Lieutenant Bent and the other Cadets who arrived at the Cape of Good Hope on the Fleet in June, 1796, were required for the defence of that colony against an expected attack, (the fact being also otherwise well ascertained): on this account, and in consideration of the further detention of Lieutenant Bent by the ship he had embarked on being ordered by the Madras Government to proceed in chase of the French Frigates, we are of opinion he was entitled to the furlough he solicited, as, had it not been for these detentions, the ships which left England in April, 1796, would probably have arrived in India by September following, and his 10 years' Service, required by the Regulations, would therefore have been completed at the time you granted him such furlough.

Period of commencement of service of Cadets detained on duty at other Presidencies, &c.

G. O. G. G.
and Jan. 1803

The Most Noble the Governor General in Council directs that the following Extract of a General Letter from the Hon'ble the Court of Directors be published in General Orders:

And of Cadets proceeding to other Presidencies from want of accommodation in the direct Ships.

“It being impracticable to accommodate the whole of the Cadets proceeding to Madras and Bombay this season on the ships consigned to those Presidencies, several of them will take their passage on the Bengal ships, whence they are to be directed to proceed to their duty by the earliest opportunity.

As this does not arise from any fault in the Cadets who take this circuitous passage, but merely from the want of accommodation in the Madras and Bombay ships, we have resolved that the periods of their service may be considered as commencing from their arrival at Bengal.”—

His Lordship in Council also directs that the Cadets of the Presidencies of Fort St. George and Bombay, alluded to in the foregoing Paragraphs, be furnished individually by the Town Major of Fort William with certificates of the dates of their respective arrivals at this Presidency; and that a list of the names of the whole of those Cadets, specifying the ships on which they arrived in Bengal, the dates of arrival, and the Presidency for which they are respectively appointed, be transmitted by the Town Major to the Secretary to Government.

Rank of Assistant Surgeons & Cadets commences from their arrival at their respective Presidencies.

PARA. 16th. We have resolved that every Cadet and Assistant Surgeon appointed next season, and any future season, be ranked, as they arrive at the several Presidencies to which they are appointed.—We shall accordingly send you lists of their rank in the same fleet, in which the Cadets and Assistant Surgeons are respectively to proceed; in case of their non-arrival in that fleet you will strike out their names in such lists, and we shall insert them in the list of that fleet in which they shall afterwards actually proceed.

Let. C. D. 16th
Aug. 1801

Precedence in rank to Cadets who have been one year in H. M. service.

PARA. 7th. We have resolved that no Cadet shall be allowed a higher rank than that assigned him by the lists transmitted by us in each season. It is our intention, in forming those lists, to rank at the head of the same, such Gentlemen who shall actually have been, for the space of one year at least, a commissioned Officer in His Majesty's Service, or in the Militia or Fencible Men when embodied, and have been called into actual Service; or have been in the Company of Cadets in the Royal Regiment of Artillery; the above resolutions we mean to enforce in future.

Let. C. D. 18th
Aug. 1800

Cadets unavoidably detained in England not prejudiced in their rank.

PARA. 6th. You will observe in the List of Rank of the 2d class of Cadets, transmitted you by a former conveyance, the names of several Cadets who had taken their passage on board the *Jane* *Duchess of Gordon*, *Comet* and *Tigris*; and as it was intended that those ships should have formed a part of the last fleet, had they been ready in time, we have come to the resolution that those young men, who were actually on board at the time that fleet sailed, should not be prejudiced in their rank in consequence of the ships before mentioned having been left behind; we therefore direct that you give them the precedence pointed out in the said class upon their actual arrival in India.

Let. C. D. 12th
July 1805

Allowances to Cadets proceeding from Europe to Bengal, detained at Fort St. George

The Governor General in Council is pleased to permit Messrs. Passmore, De Lisle, Heron and Cowslade, Cadets, to draw the pay, gratuity and half batta of Ensigns, from the day on which they were ordered on shore at Fort St. George, by the Governor and Council at that Presidency, for the purpose of giving evidence at a Court Martial, until their arrival at Fort William, and also the house-rent of Ensigns during their detention, if they were not furnished with quarters.

Proc. G. G. 4th
Sept. 1806

The Governor General in Council is also pleased to allow these Gentlemen the usual passage money from Fort St. George to Fort William.

Certificates and affidavits of Cadets arriving, how procured and forwarded by the Town Major.

Ordered, that the following suggestions be furnished for the guidance of the Town Major in all cases to which they are applicable:

Proc. G. G.
6th May 1809

1st. The Fort Major of Fort William to be very particular in calling upon all Cadets at the time of reporting their arrival to produce the certificates of their respective appointments.

2nd. In cases where those documents shall have been lost, the Fort Major is to furnish the parties with a copy of the affidavit required to be taken by them before they can be admitted to the service, and further, if necessary, to appoint a Peon or Orderly to conduct them to the Sitting Magistrate, in order to their making the necessary declaration on oath without delay.

3rd. The affidavits, when duly executed, to be delivered to the Fort Major in lieu of the regular certificates, and to be by him transmitted, together with the certificates of the other Cadets, to the Adjutant General's Office at the Presidency, accompanied by a list carefully compared with the Register of arrival at the Fort Major's Office.

We have agreed that an allowance shall be made by the Company to the Royal Academy at Woolwich for the education of such a number of Cadets as the Company may have occasion to appoint to their different Presidencies: such Cadets to produce a certificate from the Academy before they can be entitled to appointments in the Artillery or Engineer Corps.

Let. C. D.
8th Jan. 1796

Let. C. D. 5th
March, 1806.

PARA. 11th.—With a view to promote emulation in the Cadets for our Artillery and Engineer Corps who are educated at Woolwich, we have resolved to make it a standing regulation that those, who by their progress in the different studies are first reported qualified to proceed to India, shall have precedence in rank in those Corps, without any reference to their rank in the general list of Cadets appointed for the respective Presidencies.

Precedence in rank to those first reported qualified to proceed to India.

Let. C. D. 15th Feb. 1806

PARA. 26th.—Mr. T. P. Calvert having been educated at a private Academy, and reported to us by the proper Officer at the Royal Military Academy at Woolwich as qualified for a Commission, Mr. Calvert embarked on board the Sir W. Bensley as a Cadet for the Artillery or Engineer Corps on your establishment; but as he will not have attained the age prescribed by our regulations for Cadets who have received private education to rank in either of those Corps (which is 17 years) until the 19th March 1806, we shall advise his rank by a future opportunity.

Age at which Cadets for the Artillery and Engineers privately educated, are allowed to rank.

Let. C. D. 10th Apr. 1805

PARA. 6th.—Resolved, that the rank of Cadets receiving education at the Royal Military College for the Company's Service do commence from the time they would be entitled to rank, supposing they were appointed and immediately sent to India without going to the College; and as Cadets may be so appointed at 15, allowing six months for their arrival in India, this will fix the rank of those sent to the College at 15½ years of age.

Period of commencement of rank of Cadets educated at the Royal Military College.

That it be advisable to establish the same rule of precedence among the Cadets at Marlow as obtains in regard to those at Woolwich, i. e. that after the date of their rank takes place, viz. at 15½ years, those who are first reported qualified for commissions shall take precedence of rank, and if it should happen that one or more Cadets, of each of the above descriptions, are on the same day reported qualified, the precedence of rank should be given to the Cadet or Cadets who have been longest at the College, provided that in no case this regulation shall give rank to a Cadet for a period anterior to the date of his actual appointment, or that it shall affect the rank of Cadets who shall be reported qualified within the period hereafter mentioned.

Precedence in rank to those first reported qualified to proceed to India.

That in the event of any of the Cadets for the Company's Service appointed to the College not being reported duly qualified after continuing there two years and a half, such Cadets shall lose one year's rank, that is, that their rank in the Company's Army shall not take place till they are 16½ years of age.

Those not qualified after two years and a half to lose one year's rank.

PARA. 7th.—You will be advised, from time to time, of the age of such Cadets of the above description as may be appointed to your Presidency, that you may rank them accordingly.

Let. C. D. 6th Apr. 1809

PARA. 42d.—The regulations for the rank of Cadets educated at Marlow, communicated in our letter of the 10th April, 1805, were intended to place them on the same footing as Cadets who, not having received their education at that Institution, proceeded at once to India, which they may do, under the act of Parliament, if they have previously attained the age of fifteen.

Cadets educated at the Royal Military College entitled to Regt. and Army Rank, from the date of their rank commencing.

PARA. 43d.—It is obvious, therefore, that the Cadets from Marlow are entitled to Regimental as well as Army Rank from the time stated in the regulation above mentioned, and although some inconvenience may thereby be experienced by the Cadets who proceed immediately to India, without first receiving their education at Marlow, it would entirely defeat the object in view by placing young gentlemen at the Royal Military College, where they must reasonably be expected to acquire superior qualifications for Military Service, if their rank in our Armies in India were not duly preserved to them.

Let. C. D. 4th May 1810

PARA. 7th.—We lately took into our consideration the state of our Artillery and Engineer Corps at your Presidency, and with a view to ensure in future an adequate supply of properly qualified Officers, we have established an Institution under our immediate controul and superintendence, for the express purpose of educating young men destined for this line of service. We anticipate many advantages from the measure, and we look forward not merely to a more effectual and expeditious mode of filling up the several vacancies, in this branch of our service, as they occur; but we may reasonably expect that such Cadets as we shall hereafter send out, will be well grounded (previous to their leaving this country) in every branch of theoretical and practical knowledge requisite for forming the complete Artillery and Engineer Officer.

Institution for the education of Cadets for the Artillery & Engineers.

8th.—In this Institution, among other studies, we have embraced that of the Persian and Hindustanee languages, whence, we trust, you will no longer find it necessary to detain Officers any length of time at your Cadet establishment in order to their completion in this necessary part of education.

11th.—As it has hitherto been your practice to examine into the abilities and qualifications of the several Cadets, intended for our Artillery and Engineer service, previous to their being posted to either of those corps, we direct that you pursue the same method with respect to the Cadets now proceeding; and we further desire, that you transmit us a report of the result of such examination, together with any observation you may think necessary to make on their respective attainments, or which may appear to you as likely to conduce to the ultimate object of our wishes, the future success of this Institution.

Regulations
for the selection and appointment to Corps of Cadets for the Artillery and Engineers.

Inconvenience having arisen to the public service in consequence of the option which is allowed to Cadets educated for the Artillery or Engineers to make choice of the corps in which they may wish to serve not being governed by any fixed rule or restriction with regard to the time for such election being made, the Commander in Chief is pleased to establish the following regulation, and directs that it be strictly adhered to in future.

G. O. C. C.
14th May 1809

All Cadets for the Artillery or Engineers are, on the expiration of two months from their arrival at Fort William, to be called upon by the Officer commanding at the Presidency to make a written report specifying the corps in which they may wish to serve; that is, whenever there may be vacancies in the Engineer Corps, when all who may make their election for that branch are to be duly examined and reported upon by the Chief Engineer and Surveyor General, (or either of those Officers who may be at the Presidency); the vacancies in the Engineers will then be filled up by nominating those who may be found best qualified for that branch of service; the remainder will be posted to the Artillery, and the allotment that may then be made to corps is to be considered final, with this exception, that in the event of any vacancy happening in the Engineers, previous to the publication in General Orders of the relative Regimental rank of Lieutenant Fireworkers of Artillery, and not afterwards, an option be allowed to make choice of the Engineer Corps, on the necessary condition of any person who may then wish to be transferred, being, on examination, found duly qualified for that branch of the service, and of going in as youngest of the corps at the time of being appointed to it.

The reports consequent to this regulation are to be transmitted, as often as the occasion shall arise, to the Adjutant General's Office to be laid before the Commander in Chief.

Arrival of Cadets from Europe at the Taverns in Calcutta, to be notified to the Town Major.

The necessary orders are to be given by the Superintendent of Police to the several Tavern-keepers of the Town of Calcutta, to transmit to the Town Major immediate notice, upon the arrival of any Cadet at their Taverns from Europe.

Proc. G. C.
23d Sept. 1804

Cadets to be sent to Barasut.

Upon the arrival of the Gentlemen Cadets from Europe, the Town Major is directed to provide them with palankeens and bearers to transport them immediately to Barasut; their baggage is to be deposited in the Barracks, and delivered in charge to the Barrack-Master, who will apply to the Commissary of Stores for carts, bullocks and lascars to transport their baggage to Barasut.

G. O. C. C.
23d Sept. 1804

Within 36 hours after their arrival is reported.

The Town Major will be particularly careful to dispatch to Barasut every Cadet, who may be destined for that Institution, within 36 hours of the time of arrival of such Cadet being reported at his Office.

Proc. V. P.
21st Nov. 1809

Rates to be charged for Palankeen-hire.

The charges for hire of palankeens and bearers for Cadets proceeding to Barasut, provided by the Town Major, are to be checked by the rates in Calcutta.

Proc. G. C.
18th Aug. 1803

Cadets of 21 years of age exempted from joining the Institution at Barasut.

The Vice President in Council has resolved that no Cadets, having attained the age of 21 years, shall in future be required to join the Institution at Barasut.

Let. M. S. G.
3d Oct. 1809

The Town Major has been directed to call on the Cadets, when they report themselves at his Office, to specify their age, and to report to Government the names of all such Cadets as may report themselves above the age of 21 years, with his opinion, as far as he may be enabled to judge from appearance, of the accuracy of the statement.

All Cadets who may be exempted from joining the Institution at Barasut will be directed to join corps without delay, to prevent the evils attendant on a protracted residence at the Presidency.

Proc. V. P. 8th Nov. 1809 The Vice President in Council determines that all Cadets who may be exempted from joining the Institution at Barasut, and appointed to do duty with corps, shall receive the pay, half batta and gratuity of Ensigns. Their allowances on being ordered to join or do duty with Corps.

Cadets ordered to join corps without being sent to Barasut are to be allowed to draw half the Boat allowance of Ensigns in addition to the advance which will be made them.

G. O. G. G. 15th Jan. 1811 The Governor General in Council is pleased to authorize all Cadets of Cavalry and Infantry, doing duty with corps, to draw Ensign's Tent allowance from the date of their joining, until they are accommodated with public quarters. Tent allowance granted.

G. O. G. G. 2d Feb. 1811 Cadets doing duty with corps are, on their promotion, and being ordered to join the corps to which they may be posted, to be furnished with an advance of pay and allowances calculated to defray the expences of their journey to the station to which they are ordered to proceed. They are to be furnished with advances on being promoted and finally posted.

Paymasters of Stations are accordingly authorized to make the requisite advances to Officers in the above circumstances, on application being made to them for that purpose, by the commanding Officers of the corps, with which such Officers have been doing duty; through the commanding Officer of the station.

G. O. G. G. 19th Aug. 1802 The Governor General in Council has been pleased to determine that the Cadets of Infantry and Cavalry of this establishment shall be formed into a company, immediately on their arrival in Bengal, and stationed at Barasut under the command of Captain D. T. Richardson. The Company of Cadets established and stationed at Barasut.

The Governor General in Council has been pleased to determine that an Adjutant, with the usual allowances, shall form part of the establishment of the Company of Cadets. Adjutant appointed.

His Excellency the Commander in Chief will be pleased to fix on an uniform dress for the Company of Cadets, and to appoint such non-commissioned Officers to assist Captain Richardson in carrying on the duties of the company, and to issue such further orders for carrying the plan into effect, as his Excellency may deem to be necessary. His Excellency will also be pleased to furnish Captain Richardson with such instructions for his guidance in respect to the superintendence, the discipline, and the interior regulation of the Cadet Company, as his Excellency may judge to be necessary and proper.

The Cadets belonging to the Cadet Company will be permitted to draw the allowances of Ensigns of Infantry from the dates of their respective arrivals at Fort William. Allowances for the Cadets.

The pay and allowances of the Cadets are to be drawn and disbursed on their account in such a manner, and under such regulations, as the Commander in Chief may think proper to prescribe.

Proc. G. G. 15th May 1803 In pursuance of the Orders of the Governor General in Council of 19th August, 1802, authorizing the pay and allowances of Ensigns to the Cadets from the date of their arrival at Fort William, the Cadets at Barasut, being provided with quarters at the public expence, are entitled to the pay, half batta and gratuity of Ensigns. Who, being provided with Quarters, receive half batta

The commanding Officer of the Company of Cadets is to be furnished with quarters at the public expence, and is permitted to draw, according to the regulations of the Service respecting Officers in the command of Regiments and Battalions, the batta of the rank next superior to his Regimental Rank. Officer commanding, furnished with quarters and allowed superior batta.

The Governor General in Council authorizes Staff allowance to the Adjutant of the Cadet Company equal to the Staff Allowance of an Adjutant of an European Regiment. Staff allowance for the Adjutant.

G. O. G. G. 16th Oct. 1802 The Commander in Chief is pleased to establish the following rules and regulations for the management of the Company of Gentlemen Cadets. Regulations for the Cadet Company.

The Company, when of sufficient strength and forwardness in discipline, is to be formed into two sub-divisions under the immediate command of its commandant. Each sub-division shall be divided into two or more sections, according to its strength, under charge of such Captains, Lieutenants, Ensigns, Sergeants and Corporals, as may be appointed for officered.

that duty. The requisite number of Captains, Lieutenants, Ensigns, Sergeants and Corporals, from the Cadets best qualified to fill up those stations, shall be appointed and published in the public orders of the Company; those appointments shall not be held by one and the same Cadet for a longer period than 15 days.

Attendance at Drills and Parades.

The Cadet Company shall attend drill or parade twice a day, viz. morning and evening, at each of which each individual belonging to it shall be present, unless prevented by sickness, duty or special leave.

Previous to every drill or parade, each section or sub-division shall be inspected by its respective commissioned and non-commissioned Officers, and marched to the company parade.

Orders of the day when to be read.

General Orders and the Orders of the Cadet Company shall be read daily to each sub-division by its commanding Officer prior to its being marched to the company parade for afternoon drill or parade.

Articles of War when to be read.

The Articles of War shall be read by the Officer commanding the sub-division to each Cadet on joining it, and to the Company of Cadets at evening parade on the first Sunday every month.

Instructions & Drills.

The instructions and drills will comprehend every part of the rules and regulations for the formations, movements, and field-exercise established for His Majesty's forces, and in addition the form of mounting and relieving Guards and Picquets, going the rounds in camp or garrison, as also the mode of performing all other Military duties of parade or camp.

Guards and sentinels to be furnished.

A suitable proportion of the Cadet Company, when of sufficient strength, shall always compose a detail for a Main and Quarter Guard, and from Retreat beating till 8 of the following morning shall furnish a certain number of sentinels, viz. at the commanding Officer's quarters, over the Arms, and at any other places which may be deemed requisite.

Hours to be observed for meals, &c.

The Cadets shall rise at day-break, breakfast at seven, eight, or nine o'clock, according to the season; dine at sun-set and retire to rest at nine; all lights shall be put out at nine o'clock; and the Officer of the day shall be held responsible for an exact and punctual observance of this order. No Cadet, between nine o'clock at night and day-break of the following morning, shall leave his quarters.

Regulations for the mess.

A general mess shall be established for the breakfast and dinner of the Cadet Company, and the commandant of the Company shall be considered as President of the mess. Every individual of the Company shall belong to the mess, and no one shall be absent from it on any other account than sickness; each person shall appear in the prescribed uniform on all occasions at the mess, where the utmost decorum in every respect shall be observed; the dinner shall not be of longer continuance than an hour or an hour and half, and no Cadet shall be allowed more than a pint of wine and a pint of beer per day.

The Cadets shall not be permitted to purchase any spirituous liquors, wine, or beer, without the express sanction of the commanding Officer, nor shall any issue of those articles from the mess between meals be allowed, but under the permission of the commandant.

Hours to be employed in the study of the Native Languages.

Every Cadet shall study the Native Languages, and for that purpose as well as for being instructed in the manner of making out Reports, Returns, &c. and of acquiring a knowledge of the service by copying the General Orders in force, the Cadets shall not be permitted to move out of their quarters between the hours of 11 in the forenoon and two in the afternoon.

Divine Service when to be performed.

Divine Service shall be performed every Sunday forenoon by the commandant of the Company, or other person under his nomination, at which the Cadet Company shall attend.

Uniform to be worn out of Quarters.

Except on occasions of taking some manly exercise, such as playing at cricket, fives, or other games, no Cadet shall appear out of his quarters otherwise dressed than in his uniform and side arms. The habit of lounging from quarter to quarter in a white waist-coat is expressly forbid.

Leave of absence.

No leave of absence, even for a day, shall be granted to any individual belonging to the Cadet Company but by application to Head-quarters; but in consequence of the Commander in Chief being at present absent from the Presidency, the commandant of the Company is permitted to grant such leave of absence to the Cadets, as may appear to him to be absolutely necessary, reporting, however, whatever leave he may grant, and to whom, to Head-quarters.

Irregularities how punished.
 Negligence to orders, neglect of duty, carelessness of dress, and other irregularities, will be punished by public or private reproof, extra drills and duties, in the first instance; by a privation of liberty to go out, seclusion from society by temporary confinement, in the second; and by arrest and close confinement, in the last.

Uniform.
 The uniform of the Cadet Company is to be a plain short scarlet jacket, with scarlet cuffs and collar, small white metal buttons, embroidered straps for the shoulders, white pantaloons, half boots, black leather stocks, black round hat and black feather. The Cadets are permitted to wear, during the hot season, an undress white linen jacket of the same form as the scarlet uniform and with white metal buttons. Captain Richardson will be pleased to make up a muster jacket of each kind and forward them to Head-quarters for the Commander in Chief's approval.

Arms, Accoutrements, &c.
 Captain Richardson will be pleased to indent for the requisite number of Artillery fusils, buff accoutrements, pouches, pikes, swords, ammunition and flints, which are at present, and may from time to time, be wanted for the Cadets under his command.

Pay and allowances how to be drawn.
 The pay and allowances of Ensign, which the Governor General in Council has permitted the Cadets to receive, to be drawn for by Captain Richardson in one abstract from the Paymaster to the Garrison of Fort William, and he is to disburse it agreeably to the instructions he has received from Head-quarters.

Advance to each Cadet on joining the Company.
 The Paymaster is directed to make to Captain Richardson an advance on account of three month's pay and allowances for each Cadet now under his charge; and also for every Cadet who may hereafter arrive and join the Cadet Company.

Staff Sergeants appointed.
 Two Sergeants are allowed the Cadet Company, one of whom is to receive the pay, batta and staff pay of a Sergeant Major, and the other that of a Quarter-master Sergeant of a Battalion of Native Infantry, and their pay is to be drawn for by the Adjutant in the same abstract with his own. Captain Richardson will be pleased to forward to Head-quarters the names of two Sergeants properly qualified for the Cadet Company.

Guard of Native Infantry to be furnished.
 A Subadar, 2 Havildars, 2 Naicks, 1 Drummer, 1 Fifer and 40 Sepoys are to be sent to Captain Richardson at Barasut from Barrackpoor, and are to be employed by him in exercising with the Company in such manner as he shall direct. This Guard is to be relieved monthly.

Allowances to Cadets of Cavalry & Infantry, who may pass examination previous to being promoted. Cadets for the Cavalry, not yet promoted, are to be ordered, when they shall have passed examination, to join and do duty with Cavalry corps upon the same allowances, (viz. the pay, half batta and gratuity of Ensigns,) as granted to Cadets of Infantry lately ordered to join corps from being 21 years of age. (*Vide p. 107.*)

Proc. V.P. 24th
Nov. 1809

With regard to Cadets of Infantry who may not be promoted on their passing examination, his Excellency the Vice President in Council is pleased to determine, that they shall join corps on the same allowances as granted to Cadets who have joined the Honorable Company's European Regiment at Dinapoor.

Cadets for Cavalry and Infantry, in the above mentioned predicament, are to be allowed the half boat allowance of Ensigns, as granted to the Cadets of 21 years of age, on being ordered to join their corps.

G. O. C. C. The following scale of advances has been authorized by Government to gentlemen
7th Feb. 1807 who may be discharged from the Cadet Company and ordered to join corps:

Scale of advances allowed to Cadets discharged, & ordered to join corps.

Two months' pay and allowances to those appointed to corps at and below Dinapoor.

Three months' pay and allowances to those appointed to corps at Chunar, Mirzapoor and Allahabad.

Four months' pay and allowances to those appointed to corps above Allahabad and in the Vizier's Dominions.

G. O. P. C. Instances having occurred of gentlemen who have been discharged the Cadet Institution, and ordered to join their corps, having remained at the Presidency for considerable periods of time, instead of proceeding without delay to join their corps, the Provincial Commander in Chief is pleased to issue the following directions on the subject.
31st May 1807

As often as gentlemen shall be discharged from the Cadet Company, the Officer commanding it will be pleased to cause communication to be made to the Officers commanding corps, respectively, of the date at which the gentlemen ordered to join shall have settled all accounts, received their advances and gratuities, and be finally ordered to depart from Barasut.

Reports by the Officer Commanding the institution of the date of their departure from thence.

Officers commanding corps, calculating from the dates thus communicated, are directed to return all Officers absent without leave, who shall not join in the time allowed, agreeably to the periods prescribed by the Boat Regulations, for travelling by land or by water, unless very satisfactory testimony of their inability to do so, from sickness or other unavoidable cause, shall be furnished; which testimonies are to be forwarded to Head-quarters with the monthly returns of corps. Officers, who may subject themselves to the operation of this order, will forfeit all their allowances for the intermediate periods of unauthorized absence, and be subject to such further notice as the circumstances of the case may require.

Those not joining Corps within the prescribed period how to be returned.

G. O. P. C. The Commander in Chief directs that a Report be made to Head-quarters by commanding Officers of corps, respectively, stating the degree of proficiency in the native languages, and professional acquirements of the several officers who may, from time to time, join corps from the Cadet Company.
27th Apr. 1807

Reports by Commanding Officers of the corps they join, relative to the degree of proficiency they may have attained.

The Reports to be made at the expiration of one month from the date of Officers joining the corps.

Proc. G. G. The Military Paymaster General is directed to retain the commissions of the gentlemen attached to the Cadet Company, until they are ordered to join the corps to which they may be appointed, and then to forward the commissions to the Paymasters of those corps, with directions to them to deduct the fees from the first issue of pay after the gentlemen join.
12th Feb. 1807

Commissions of those promoted, when delivered and fees deducted.

G. O. G. G. The promotion of Cadets of Artillery, Cavalry, Infantry and Engineers, to the rank of commissioned officers, will take place in the usual manner, according to their standing on the list of rank of Cadets received from the Honorable the Court of Directors.
30th Sep. 1808

Cadets to be promoted according to the lists received from the Court of Directors.

G. O. C. C. The List of Rank of the 4th class of Cadets of Infantry for 1806, not having been received from the Honorable the Court of Directors, the Cadets of that class are, for the present, posted numerically, according to the situation to which the names that may hereafter correspond with those numbers, are entitled in the general arrangement; and such of the Cadets of that class as may be doing duty with corps (which will be understood from their names not appearing in the orders) are to continue doing duty as at present, and to be returned, accordingly, under the head "doing duty, not finally posted."
1st Aug. 1809

In case of the list of their rank not arriving, how posted on their promotion.

1st Apr. 1760

Officers removed from one establishment to another how to rank.

Not to be fixed on such establishment without the orders of the Court.

Officers occasionally detached to the assistance of the Presidency of Fort William, are not to be fixed on that establishment without the express permission of the Court of Directors.

Let. C. D.
10th Mar. 1760

Rank of Officers transferred from the Bencoolen to the Bengal establishment.

Resolved, that the incorporation of Officers of the Bencoolen Residency with those of the Bengal Establishment do take place by their introduction upon the Bengal Army List, as youngest of their respective ranks, but with a bar to their future rise, until the Officers of an inferior rank, now on the Bengal Establishment, but who have been longer in the Service, shall have been promoted; and that the dates of the original appointments of the Bencoolen Officers be recorded in the Adjutant General's Office, and inserted in the Army List opposite their respective names, as soon as the same shall be ascertained.

M. C. 14th
April 1780

Ordered, that the commissions held by the Bencoolen Officers be severally recalled, and others granted to them, without date of Army Rank, until the Officers entitled to promotion above them shall have risen to the same rank, when their commissions will be dated, and afterwards they will have progressive rank.

Appointments to Corps and Promotions.

We have resolved to establish the following regulations:

Let. C. D.
8th Jan. 1796

APPOINTMENTS AND PROMOTIONS.

Artillery.

The promotion of Officers in the Artillery corps is to proceed by seniority in the whole corps, according to the practice in the King's service.

Infantry.

The Honorable Court having directed that promotion in the Army shall proceed upon the principles laid down in their dispatch of the 8th January 1796, with the following qualifications, that in the Infantry, the Officers be promoted by seniority in their respective Regiments to the rank of Major, and afterwards to the higher ranks by Seniority in the whole corps; and that in the Cavalry, promotion do likewise proceed by seniority in the respective Regiments to the rank of Major, and afterwards to the higher ranks by seniority in the whole corps; Resolved that this arrangement be carried into effect in the following manner:

Cavalry.

Regimental arrangement of Officers in the Corps of Cavalry and Infantry.

In the Cavalry—With the 1st Major be ranged the 1st Captain, 1st Captain Lieutenant, the 1st Lieutenant and the 1st Cornet—the 5th Captain, the 5th Lieutenant, and the 5th Cornet, and 9th Lieutenant and 9th Cornet: and with the 2d Major be ranged the 2d Captain, the 2d Captain Lieutenant, 2d Lieutenant and 2d Cornet—the 6th Captain, 6th Lieutenant and 6th Cornet, and the 10th Lieutenant and the 10th Cornet, and so on.

And that in the Infantry, the arrangement be made in the same systematic order, viz. the 19 Senior Majors be placed in the different Regiments, and to the first Major be added the 20th Major, 1st Captain, 1st Captain Lieutenant, 1st Lieutenant and 1st Ensign, also the 20th Captain, 20th Lieutenant and 20th Ensign; with the 2d Major to be ranged the 21st Major, 2d Captain, 2d Captain Lieutenant, and 2d Ensign, and also the 21st Captain, 21st Lieutenant and 21st Ensign, and so on.

That the Senior Major of Cavalry, and Officers Regimentally arranged with him, be posted to the senior Regiment, and the 2d Major, and Officers Regimentally connected with him, to the 2d Regiment, and so on.

That in the Infantry, the Senior Major, with the Officers in Regimental connection with him, be posted to the 1st European Regiment, as the senior corps of Infantry. The 2d Major, with the Officers Regimentally arranged with him, to the 2d European Regiment, as the next senior corps. The 3d Major, &c. to the 1st Native Regiment, and so on in arithmetical progression.

Circumstances under which Officers next in succession to the command of Regiments, Battalions, &c. are superseded.

Should the senior Lieutenant Colonel, or any number of the senior Lieutenant Colonels appear to the Government at your Presidency, either upon representation of the Commander in Chief, or by any other means, to be unfit for the command of Regiments, they are to be passed over and junior Officers promoted. But the reasons for such supersession are to be entered on the Records for the information of the Court of Directors.

Let. C. D.
8th Jan. 1796

The same principle to be applied to the promotion of Officers of Artillery to the command of Battalions and of the corps, to the Chief Engineers, to the Colonels commandant and Officers to command Regiments of Cavalry, and to the rank of Major Generals from that of Colonels.

Should any Captains or Subalterns obtain leave, hereafter, to exchange from one Regiment to another, they are to come into the Regiment to which they are removed, as the youngest of their respective ranks, according to the practice of the King's service.

Captains or Subalterns exchanging corps to come in youngest of their rank.

M. C. 19th
29th May 1830

The Governor General in Council has determined that two Regiments of Native Cavalry, and two of Native Infantry, according to the present establishment of these corps, shall be added to the Army of this Presidency, and that the promotion and selection of commissioned European Officers, required in consequence of the augmentation, be made on the following principles, conformably to the plan prepared by his Excellency the Commander in Chief.

Rules observed in selecting and promoting Officers upon an augmentation of the Army.

INFANTRY.

Promotion to the ranks of Colonel and Lieutenant Colonel, by seniority in line.

Vacancies in the ranks of Major, Captain and Captain Lieutenant, occasioned by promotion or transfer, to be filled up by promotion by seniority in the Regiments wherein the vacancies occur.

The two senior Majors of the 2d class of Majors to be transferred to the new Regiments as first Majors, and the two senior Captains in the Regiments from which the Majors have been taken, to be promoted in their room.

The two senior Captains in the Army, after the foregoing promotions have been made, to be promoted to the rank of Major and posted to the new Regiments.

The two senior Subalterns of the Army to be promoted to the rank of Captain Lieutenant, and appointed to the new Regiments.

The selection of captains and subalterns for the new Regiments to be made according to the Army Rank, and not to be regulated by the Rank which Officers may have gained in Regimental succession; by this means, the two senior Captains in the Army, of the 2d class of Captains, will become 1st Captains in the new Regiments, and so throughout, until the whole of the Captains and Subalterns are furnished for the new Regiments.

The same mode to be followed in the promotion and selection of Officers of Cavalry.

M. C. 11th
Aug. 1783

Frequent representations having been made by Officers of the several corps of the Army, concerning the Rank which those of the one casually obtain over those of the other, the Board now think it proper to publish, for the information of the whole Army, the sentiments which they have uniformly declared upon memorials of this sort, that the Officers of Artillery, Infantry, and Engineers shall rise in their own corps, independent of each other, and without any reference to their first entrance into the Service; which rule cannot be injurious to Officers in either of these lines, since their promotion entirely depends upon chance and is regulated by the accidental vacancies which happen in their respective corps.

No reference to the original standing of Officers will be admitted, in the event of casual supersessions of one branch of the service over another.

G. O. C. C.
15th Feb. 1833

With a view to obviate the delay and inconvenience which has been found to attend the transmission of King's commissions to the Officers in the Hon'ble Company's Army in conformity to His Majesty's gracious warrant, bearing date the 28th March, 1788, granting them a participation of rank in His Army serving in India; His Majesty has been most graciously pleased to delegate to the Commander in Chief of the Forces in India, the same authority to issue commissions of equal effect to those bearing His Majesty's own signature, as was formerly vested in the late Marquis Cornwallis, when Commander in Chief in this country, and His Majesty has been at the same time pleased to command his Excellency Lieutenant General Hewett to intimate to the Army under his command, in terms the most explicit, His Majesty's pleasure that all Officers in the Service of the Honorable East India Company, bearing His Majesty's commission, or commissions signed by His special authority, delegated to the Commander in Chief in India, are, in virtue thereof, to have the same local rank as if they were in the immediate service of His Majesty, and that no distinction of rank whatever is to be made, in that respect, between the King's and Company's Officers of corresponding ranks, except what must necessarily arise from the dates of their respective commissions.

King's commissions conferring local rank on the Company's Officers, granted under the signature of the Commander in Chief in India.

Agreeably to the power thus vested in the Commander in Chief by His Majesty's Warrant dated at St. James's on the 9th June, 1810, heretofore annexed, his Excellency's Military Secretary has been directed to forward commissions to all the Officers on this Establishment to whom King's commissions may not have been already granted; and the Military Secretary will be governed by the General Orders, under date 20th December,

1788, (now republished for the information of the Army) in regard to the amount of the fees and the mode of collecting the same, as well as the channel through which the commissions are to be forwarded to the Officers to whom they may be granted.

Amount of fees
for Commis-
sions of King's
local rank and
when to be
paid,

The brevet commissions of King's local rank in India, which His Majesty has been graciously pleased to grant to the Officers in the Service of the Honorable Company, will be issued, and the Commander in Chief has thought proper to limit and fix the fees of those commissions at each Presidency, and of all others that may be granted in consequence of future promotion in the Company's Service, at half the amount of the fees which are established at their respective Presidencies for Company's commissions, which are granted to the Officers of their own establishment.

G. O. 10th Dec.
1788

The Military Secretary has been directed to transmit the commissions for the Officers of this Establishment, to the Paymasters of Artillery and Garrisons, and the different Paymasters, by whom they are to be distributed; and the fees, in conformity to the Minutes of Council, 5th November, 1781, are to be deducted from the first payment, that may be made to the several Officers at their respective Stations.

GEORGE R.

Whereas we were pleased by our Warrant bearing date the 28th March, 1788, to direct that the Officers in the Service of the United Company of Merchants, Trading to the East Indies, should be admitted to a participation of rank in our Army serving in India, We do hereby give you full power and authority to grant brevet commissions in our Service to all the said Company's Officers, now serving abroad, conferring upon them the same rank in our Army, in the East Indies only, as they now enjoy in the Company's Service; the commissions to bear the respective dates of their present commissions in the Service of the said Company: and we do further give you full power and authority to continue from time to time to grant like commissions, giving similar rank in our Army, in the East Indies only, to all such Officers as shall be hereafter appointed or promoted in the Company's Service.

And all such Officers to whom you shall grant commissions, in the manner herein directed, are to be acknowledged, and command in their respective Stations, as if they had received commissions from us.

Given at our Court at Saint James's, this Ninth Day of June, 1810, in the Fiftieth Year of our Reign.

By His Majesty's Command,
(Signed) LIVERPOOL.

To
Our Trusty and Well-beloved
GEORGE HEWETT, Esq.

Lieutenant General of our Forces, &c. &c. &c.

Officers who
have not re-
ceived King's
commissions,
are entitled to
and possess the
rights they
would have
enjoyed, the
same as if they
had been issued

The Commander in Chief having taken into his consideration the temporary inconvenience which the Company's Officers might experience, in consequence of not having been furnished with commissions from his Majesty, corresponding with those they have obtained by regular promotion in the Honorable Company's Army, his Excellency, in order to prevent it, and at the same time to obviate any misconceptions and remove any doubts that may have been entertained on this subject, is pleased, with the approbation of the Governor General in Council, to order and direct, that all Officers of the Company's Army be considered as entitled to, and possessing all the rights they would have enjoyed under commissions granting local rank in the King's Army in India, corresponding with the several commissions they have obtained in their own, the same as if they had been issued.

G. O. C. C.
15th Jan. 1801

The Commander in Chief is further pleased to direct, that correct lists of all Officers who have been promoted, for whom corresponding King's Commissions have not yet been granted by any Commander in Chief, be made out and transmitted to Head-quarters.

Similar Lists to be sent whenever promotions have taken place to render it necessary future.

the Honorable Company's Service on this Establishment, be prepared by Regiments of Cavalry, Regiments of European Artillery and Infantry, by the Engineer and Invalid Corps, and by Regiments of Native Infantry (specifying Battalions) agreeably to the following form; to be corrected up to the 30th of the present month and dispatched to the Adjutant General's Office on the 20th May next.

The names of all Officers belonging to corps, respectively, are to be included in the Returns of their corps, whether present, absent, or doing duty with other corps, and in cases that, from the absence of Officers, the information required cannot be ascertained, it is to be noted, accordingly, in pencil, the dates of those ranks only, for which His Majesty's commissions have not been received, are to be inserted, and such dates are to be those of Army Rank. All Cornets, Ensigns, &c. recently appointed, whether joined or not, are to be included.

All Medical Staff, not on the strength of corps, will be pleased to send separate Rolls, specifying the dates of commissions which they may require. (*Vide Form No. 1.*)

M. C. 5th
Nov. 1799

Ordered, that the following separate paragraph, received from the Honorable the Court of Directors, be published in orders:

Rates of fees
fixed for H. M.
Brevet com-
missions.

"We forward in the present packet several brevet commissions from His Majesty, for the Officers serving under your Presidency, the fees on which have been paid here; and you will stop the amount from the Officers' pay. The fees by the additional stamp duties are now as follows:—Major General £. 12 12s. 6d.—Colonels £. 11 0s. 6d.—Lieut. Colonels £. 10 1s. 6d.—Majors £. 9 17s 6d.—Captains £. 9 7s. 6d."

Let. C. D.
20th Jan. 1797

PARA. 3d—Fees on the brevet commissions, granted by His Majesty to Officers on your establishment, must be stopped from the Officer's pay, respectively, at the rate of 2s. 6d. per Sonat Rupee.

Exchange at
which the a-
mount is de-
ducted.

M. C. 6th
Nov. 1797

The Governor General in Council having taken into consideration the fees charged on the commissions issued to European Officers in the Honorable Company's Army in Bengal, and understanding that on the brevet commissions granted to the Company's Officers by His Majesty, and sent out from the War Office, the full rates of fees are charged, agreeably to the respective ranks in His Majesty's service, has been pleased to resolve, that no fees whatever shall be charged on brevet commissions issued by Government to the Company's Officers of this Presidency, excepting that of a Major General, the fee on which is fixed at Sonat Rupees 400.

No fees charged
on Brevet
commissions if-
fused by Go-
vernment.

At the same time the Governor General in Council has resolved, that the following fees, established by the resolution of Government of the 11th October, 1785, be continued in force, and paid by the Military Paymaster General, on all commissions that shall be issued to Officers promoted to supply vacancies in the establishment of the Army:

Amount of fees
for a Major
General's com-
mission.

Colonel, Arcot Rupees 300—Lieutenant Colonel, 200—Major, 100—Captain, 70—Captain Lieutenant, 60—Lieutenant, 30—Lieutenant Fireworker, Cornet and Ensign, 25—Surgeon, 70—Assistant Surgeon, 30.

And for com-
missions of the
different ranks.

M. C. 27th
Sept. 1781.

The amount of the fees for each Officer's commission to be received out of the first pay that shall become due to him in such rank, and no Officer shall be entitled to his pay in any new rank until he shall have accounted with the Paymaster for the amount of such fees.

Amount when
to be deducted

Let. C. D.
24th Jan. 1796

As the number of Officers now attached to the several Establishments will not confer any additional rank on many subalterns of long standing, the brevet rank of Captain is to be granted, at present, to every Lieutenant who has been fifteen years in the Company's Service; but he is only to receive the pay of Lieutenant until he comes upon the regular establishment, as already detailed.

Rank of Bre-
vet Captain
granted to Lie-
utenants of 15
years' service.

Let. C. D.
29th May 1799

PARA. 16th—In consideration of the peculiar circumstances set forth in the several memorials from the Cadets of 1782, we have agreed to comply with their request, and to admit of their being promoted to the rank of Captain by brevet from the 24th January, 1798; we have fixed on the period as being fully within fifteen years' service, few of the Cadets, though called of 1782, having been appointed before 1783.

Additional al-
lowances to
Brevet Cap-
tains.

The Honorable the Court of Directors have been pleased to notify to Government M. C. 15th
O.S. 1799
that they consider the brevet Captains who obtained that rank in 1796, after a period of fifteen years' service, as standing in a very different situation from Officers advanced beyond their Regimental Rank, merely on account of general brevets granted by His Majesty, and have therefore authorized the Governor General in Council to make an addition of one Rupee per day to the pay and allowances of Lieutenants holding the brevet rank of Captains.

Under what
circumstances
to be drawn,

Brevet Captains are therefore permitted to draw, in all situations, the above addition of one Rupee per day to their usual allowances as Lieutenants, except when they may be in the receipt of Captain's batta, either in consequence of their holding a situation on the Staff entitling them to such batta, or when they may be in the receipt of Captain's batta in consequence of commanding a Battalion or Regiment.

Additional
quarters or
camp equipage
not allowed on
account of Bre-
vet promotion.

This additional allowance to be drawn as batta in arrears.

M. C. 5th
Aug. 1796

Resolved, that promotions by brevet shall not entitle Officers so promoted to any further accommodation of quarters or camp equipage.

Officers hold-
ing Brevet com-
missions how
to do duty and
be returned,
&c.

Officers holding a superior commission by brevet to their rank on the establishment, are G. O. C. C.
10th Jun. 1796
to do duty in their Regiments according to their established or Regimental Rank, and in the line according to their Brevet or Army Rank.

In all Regimental returns and orders they will be filed according to their rank on the establishment.

Explanation of
the nature and
relative opera-
tion of Brevet
commissions.

From the references which have been made to the Commander in Chief regarding the G. O. C. C.
25th Nov. 1796
relative rank of Officers holding brevet commissions, and of Officers holding regimental or corps commissions, he is led to suppose that the nature of brevet commissions is not yet well understood in this Army; he therefore thinks it necessary to explain that brevet commissions are of equal validity and of equal force in the general line of the service with any other commissions, the priority of date alone constituting the superiority. When two commissions happen to bear the same date, though one be a brevet and the other a regimental or corps commission, the superiority in point of rank in the general line of the service of the Officers holding them, must be determined by a reference to the commissions which they respectively held, immediately preceding those in question; and the seniority of such commissions ascertains the seniority of rank.

Promotions
when to be
made.

Vacancies in the several corps in the Army, as well Hindostani as European, shall be filled up and commissions dated from the period on which they occur.

pany's Ships for Europe, is to be considered, as the time from which the vacancy occa-
sioned by the embarkation of Officers, who may take their passage on these ships to Eu-

Promotion in
lieu of Va-
cancies occur-
ing in Europe
how regulated.

The Governor General in Council is pleased to direct, conformably to the orders of the G. O. C. C.
24th June 1801
Honorable Court of Directors, contained in the 6th paragraph of their General Letter of the 10th June, 1801, that in future the promotion in the Army to supply vacancies occasioned by deaths, resignations or retirement from the service of Officers in Europe, shall be made as soon as the notification of such casualties shall have been received in Bengal.

All such promotions shall take effect from the dates of such casualties, respectively, provided that such vacancies can be so filled without interfering with, or materially deranging, the rank already fixed for Officers by regular promotion.

In cases wherein such interference and derangement would be occasioned by strict adherence to the general principle now established, the rank of the Officers promoted to supply the vacancies shall be fixed *loco retro* respectively, as may be practicable, without deranging materially the rank already assigned to Officers by regular promotion.

PARA. 122d.—In justice to the equitable pretensions of our Officers, who are to bene-
fit in their promotion by others retiring, we have resolved, that Officers, who receive
permission on their application to us to retire from the Service, shall be considered as hav-
ing retired from the date of their application being recorded. You will receive a number

Let. C. D.
30th June 1804

It is not necessary to delay promotions in consequence of Officers receiving your permission to retire on half pay, and you will make the promotions incidental to Captain Flemyn's retirement from the date of that event.

In lieu of Officers retiring on half pay to be made immediately.

The Governor General in Council is pleased to order that in all cases of Officers of the Honorable Company's Service promoted to superior rank, for the purpose of supplying vacancies in the establishment of Corps, the Officers so promoted shall receive the pay and other personal allowances of the advanced rank, viz. batta, additional allowance and gratuity, from the dates of rank which shall be assigned to them, respectively, by the orders of the Governor General in Council; provided the Officers are in India, in situations in which they are entitled to such Military allowances.

Allowances of the advanced rank to Officers promoted when to commence.

Proc. G. G.
18th Aug. 1806

The Governor General in Council approves of the allowances of Major having been passed to Captain Bagshaw, during the period he performed the duties of Major with his Regiment, under the authority of Government, until the orders of the 17th April last, rescinding his promotion, reached the Head-quarters of the 17th Regiment.

Allowances to an Officer erroneously promoted.

The Governor General in Council also considers Major Carpenter to be entitled to the allowances of Major from the 14th November last, the date from which he takes rank as a Major, and authorizes those allowances to be passed to Major Carpenter accordingly.

Let. C. D.
8th Jan. 1796

Officers who come home in any future season on furlough, or with leave, shall be eligible for Regiments in the same manner as if they were in India.

Officers on furlough eligible for promotion.

Let. C. D.
29th May 1799

We have to inform you of our having consented that Officers on furlough, promoted during their absence, shall receive the pay of the advanced Rank from the date of their promotion.

And receive the advanced pay from the date of promotion.

G. O. G. G.
4th Dec. 1806

The Officers to whom retrospective Rank has been assigned, in pursuance of the orders of the Honorable the Court of Directors of the 12th July, 1805, respecting the Officers promoted in consequence of the formation of the retired List, are only to draw the difference of the pay betwixt the Rank formerly held by them and the Rank now assigned them. The Lieutenant Colonels who have obtained retrospective Rank as Colonels from the 1st January, 1803, are also to receive under the Court's orders, each, a sum equal to £. 500 per annum from the Off-reckoning Fund from that date.

Arrears of pay, only, granted to Officers receiving retrospective rank in consequence of new establishments, &c.

G. O. G. G.
26th Nov. 1806

The Honorable Court of Directors having been pleased to order that the establishment of a second Lieutenant Colonel and second Major to each Battalion of Artillery, authorized by general orders of the 15th May last, shall have effect from the 21st of September, 1804, in pursuance of the orders of the Honorable Court, the difference of pay only is to be drawn by the Officers of Artillery to be promoted from the 21st September, in consequence of the present orders.

G. O. G. G.
25th Sept. 1806

The Governor General in Council deems it proper to notify to the army that no Officer above the rank of Captain will be appointed a Deputy Paymaster, and that Officers holding that appointment will be removed therefrom, on their attaining the rank of Major.

Office of Deputy Paymaster incompatible with the rank of Field Officer.

G. O. G. G.
28th July 1807

In consequence of the inconvenience and difficulties occasioned by the operation of the rule established by the General Army Regulations of 1796, by which Lieutenant Colonels of the Company's Service were promoted to the rank of Colonels, and to the command of Regiments and Battalions, without reference to their general rank in the army as Lieutenant Colonels,—the Honorable the Court of Directors have been pleased to revise the regulations in that respect, and to signify their pleasure on the subject in the following extracts of a general letter from the Honorable Court to the Governor General in Council, in the Military Department, dated the 23d December, 1806:

Prohibition of promotion to the rank of Colonel independent of the operation of H.M. Brevet.

PARA. 16th—We direct that the following general regulation be established:

PARA. 17th—That, in future, when a vacancy occurs in the command of a Regiment of Infantry, Battalion of Artillery, Brigade of Cavalry, or the Corps of Engineers, the senior Lieutenant Colonel, succeeding to such command, shall not in consequence

Establishing the rank of Lieutenant Co-

and Comdant be promoted to the rank of Colonel, but shall be called Lieutenant Colonel Commandant of the Regiment, Battalion, &c. until, by the general brevet promotion in His Majesty's army, he becomes entitled to be promoted to the rank of Colonel by the date of his commission as Lieutenant Colonel.

PARA. 18th—The Lieutenant Colonel Commandant is however to enjoy the same emoluments in every respect, on obtaining the Command of the Regiment, &c. as he would be entitled to if he had been promoted to the rank of Colonel under the regulations of 1796.

PARA. 19th—This Regulation will completely remove all cause of complaint in the King's Lieutenant Colonels, regarding the Promotion of Officers of that rank, in our Service, and it appears to us to be the most effectual mode of doing so; at the same time it will have the additional advantage of preventing all supercession among the Lieutenant Colonels in our Service by the accidental promotion that has heretofore occasionally taken place of a junior Lieutenant Colonel in one corps, before that of his senior in another corps.

It is not intended by the present orders of the Honorable Court to alter the Establishment of Regiments, &c. of the Honorable Company's Army, as fixed by the Company's Regulations; a Colonel to command each of which is therefore to be considered as part of the fixed Establishment, to be appointed, accordingly, when holding the Rank of Colonel by the operation of his Majesty's general brevet; but, when not entitled to the Rank of Colonel by the King's general brevet promotion, the Lieutenant Colonel becoming entitled to the command of a Regiment, Battalion, Brigade, &c. is only to be appointed Lieutenant Colonel Commandant, &c. thereby occasioning a temporary modification of the fixed establishment, by the substitution of Lieutenant Colonel Commandant of the Regiment, Battalion, Brigade &c. for a Colonel. All the other requisite promotions are to be made, as usual, by which the establishment of Officers of a Regiment of the Company's Army will occasionally, for a time, consist of a Lieutenant Colonel Commandant—2 Lieutenant Colonels—2 Majors, &c. instead of a Colonel Commandant and the usual fixed proportion of other Officers.

Lieut. Col. Commandant promoted to the rank of Colonel Regimentally,

The Lieutenant Colonels who, in conformity to the orders of the Honorable the Court of Directors, are also Lieutenant Colonels Commandant, having been promoted to the Rank of Colonel by the operation of His Majesty's brevet promotion of the 25th April 1808, are promoted to the Rank of Colonel regimentally on this Establishment from the 25th April, 1808.

G. O. G. G.
26th Jun. 1809

Officers paying the fees of Lieut. Col. Comd't. commission do not pay for that of Colonel

Colonel Bradshaw, of the 7th Regiment Native Infantry, having already paid the fees for a commission of Lieutenant Colonel Commandant, the Vice President in Council does not consider it to be equitable that that Officer should be called upon to pay any fees upon his commission as full Colonel.

Proc. V. P.
26th Sep. 1809

Prohibition of promotion to the rank of Major General independently of H.M. Brevet.

The Honorable the Court of Directors, in their General Letter of the 12th July, 1805, have stated that it is not their intention that Colonels of the Company's Service shall be promoted to the Rank of Major General, independantly of the operation of His Majesty's general brevet promotions.

G. O. G. G.
15th May 1806

Unemployed Gen. Officers may return to Europe or reside in the country,

It being incompatible with the rank of General Officers to perform regimental duties with their regiments or corps, as Colonel, when mixed with other Troops, General Officers, not on the Staff, are to have the option of returning to Europe, or of residing in the country until their services shall be called for.

M. C. 5th June

The general principle, established by the Regulations, which prohibits General Officers from performing regimental duties, and from conducting the details of their respective corps, is equally applicable to all General Officers in every branch of the Service.

No foreign Officer is to be promoted to a higher rank than a Major.

M. C. 13d
May 1772.

It being the object of Government, that the rules of Military Service, respecting precedence of Rank, shall be hereafter as strictly adhered to as the nature of it will admit, as well as to obviate all impressions and discouragements, arising from any kind of undue preference, it is determined, that all fixed and established commands, such as garrisons and cantonments, shall in future be delegated to the oldest officer, excepting on extraordinary occasions, or pressing necessity, which, from a peculiarity of circumstances, may require a deviation from the general rule.

Foreign Officers only promoted to the rank of Major. Commands of Garrisons, &c. to be, in general, bestowed with reference to seniority.

In such cases the Government means to reserve to itself the power of appointing such Officers as it shall think proper.

The Assistant Surgeons of the Army are permitted to draw an additional allowance of one Rupee per day.

Additional allowance to Assistant Surgeons.

Proc. G. G.
9th April 1801

The Governor General in Council passes the following orders.

Full batta to

That from and after the first day of May, 1801, all European commissioned Officers, Surgeons and Assistant Surgeons attached to corps, and not holding appointments or serving in the garrison of Fort William or Allahabad, shall receive the full batta of their respective ranks.

Officers and Surgeons except at Allahabad and Fort William.

G. O. G. G.
18th Nov. 1808

The existing regulations sufficiently provide for the cases of Officers moving with Troops, but when Officers shall be removed from one station to another, and shall not be ordered to proceed with Troops, they are in some instances entitled under the existing regulations to additional batta, and in some instances to additional tent allowance, during their movement from one station to another. In such cases, additional batta or tentage is to be allowed for the number of marches between the stations, calculated at the rate of ten miles per day.

Additional batta when allowed to Officers moving from station to station.

When Officers shall be removed from a station at which they are entitled to full batta and full tent allowance, to a garrison or station at which they can be entitled only to half batta and half tent allowance; the full batta and full tent allowance, in such cases, is to be continued to them for the number of marches between the stations, calculated, as before, at the rate of ten miles per day, and reckoning from one month after the publication of the orders at the station whence they may be removed.

Periods for which allowed.

European commissioned Officers absent from their corps with leave, or arriving at Fort William from Europe, are permitted, from the date of their arrival, to draw the same allowances to which they would have been entitled if present with their respective corps; and all Officers absent from their corps on duty are permitted to draw the allowances of the station at which they may be doing duty, whenever such allowances shall be higher than those of the place at which their corps may be stationed.

Allowances to Officers absent on leave or on duty.

G. O. 16th
March 1787

Officers while proceeding upon duty by water shall be entitled to full batta.

When proceeding on duty by water to receive full batta.

Officers on the Staff only to draw batta and tent allowance by special regulation.

Officers holding Brevet rank receive the batta of their Regt. Rank.

Officers appointed to native corps, but precluded from serving with them by being on the Staff, or holding other situations, are not to draw batta or tent allowance unless entitled to it by special order or regulation. M. C. 10th June 1796

No Officer, either in His Majesty's Army serving in India, or in the Company's Service, shall be allowed higher batta than that to which he is entitled by his Regimental Rank, with exception of those Staff Officers who drew superior batta in virtue of their situations on the Staff previous to the introduction of Brevet Rank into the Company's Army. M. C. 15th Oct. 1799

Tent allowance to Officers of Native Corps.

Rates of monthly allowance to each Rank and how to be drawn.

Office tent to Brigade Majors

Resolved, that a fixed monthly allowance be hereafter granted to Field, Staff, and European commissioned Officers of the Sepoy Brigades, in consideration of which they are to provide their own camp equipage and carriage, under the Regulations herein specified. M. C. 12th Dec. 1786

That the monthly allowance to each rank, and which is to be drawn in arrear, is to be as follows—a Lieutenant Colonel, per month, Sonat Rupees 150—A Major 120—a Captain 75—a Subaltern and Assistant Surgeon 50—Brigade Majors to draw as Captains—Adjutants of Battalions to draw as Subalterns. An extra allowance of 30 Rupees per month to be granted to a Brigade Major to furnish and carry a small Office Tent.

And Adjutants and Quarter-Masters.

The Governor General in Council has agreed to grant to the Adjutants and Quarter-masters an allowance of 30 Sonat Rupees per month for the provision and carriage of a small office tent. G. O. 4th Mar. 1789

Tent allowance to be drawn in the Field and Cantonments. Dimensions of the tents of Captains and Subalterns.

These allowances are to be drawn in all situations, whether in the Field or cantonments, that Officers may be prepared at all times to move on the shortest notice. M. C. 12th Dec. 1786

In order to preserve uniformity in the encampment of corps, the tents of the Officers in the several Ranks of Captains and Subalterns, shall be agreeable to the following dimensions, and that no Officers of these Ranks shall take any more than one marquee into the Field.

	Length.	Breadth.	Distance between Poles.	Height.
	FEET.	FEET.	FEET.	FEET.
Captains.....	33	15	10	12
Subalterns.....	14	14	—	11

Subalterns in superior situations of command not to receive increased tent allowance.

Monthly inspection and report of Officers' Camp Equipage, &c.

Quarterly surveys and reports of ditto.

Captains serving on Lieutenant's pay shall only draw the allowance of Subalterns. Any casualty which may place a Subaltern, or Captain serving upon Subaltern's allowances, in the temporary command of a corps, shall not give him a claim to the allowance of a Captain.

That no inconvenience may arise to the Service, from Officers who receive this allowance neglecting to provide themselves with camp equipage and carriage, the commanding Officers of Battalions are to review them monthly at muster, and insert a remark in their monthly returns if any Officer is not properly supplied.

Quarterly surveys and reports must also be made, under the inspection of the commanding Officer of the station, who, as well as the commanding Officers of battalions, will be held responsible for enforcing a strict obedience to these regulations, and seeing that the public service is duly provided for.

Officers of European Corps, above Allahabad, draw full tent allowance.

And half tent allowance below Allahabad, except when marching, in which case full tent allowance is granted.

The Governor General in Council is pleased to permit the Officers of all European corps (Artillery, Dragoon, and Infantry,) stationed at any place above Allahabad, to draw the full tent allowance of their respective ranks. G. O. G. G. 30th Aug. 1803

Half tent allowance to be granted to the commissioned Officers, Surgeons and Assistant Surgeons of European Dragoons, European Artillery, Infantry and Engineers, when at the principal Stations of Fort William, Barrampoor, Dinapoor, Chunar, (including the cantonment at Sultanpore) and Ghazepour; and these officers to be allowed the full tent allowance of their respective ranks when marching, when in the field on service, and when detached on duty from the principal Stations to which they belong. G. O. G. G. 23d Sep. 1802

No allowance for puccallies, behishties and sweaters to be drawn for any European commissioned Officer, receiving either whole or half tent allowance.

M. C. 4th Aug.
1794

Resolved, that all Officers, not on tent allowance by the standing regulation, shall, when ordered on service, indent for such tents as they may require, and that, should they neglect to make their indents as above directed, any subsequent claim to allowance for tents be not admitted.

Behishties, Sweepers, &c. not allowed to Officers on tent allowance.

Officers not on tent allowance, going on service and omitting to indent, not to make subsequent claims.

M. C. 30th
June 1796

The European Officers of Native Cavalry to receive the same tent allowance as the Officers of Native Infantry in their respective ranks.

Tent allowance to Officers of Native Cavalry

M. C. 7th Dec.
1787

Resolved, that an allowance of 90 Sonat Rupees be granted to a Captain of Cavalry for providing, furnishing and feeding his own horses, and that the allowance to the Subalterns and Assistant Surgeons for the same purpose be continued at 60 Sonat Rupees per month.

Horse allowance to Cavalry Officers.

M. C. 30th
June 1796

The Colonels Commandant and Field Officers of Cavalry to draw 120 Rupees a month horse allowance—Brigade Major of Cavalry to receive horse allowance as Captain.

M. C. 16th
June 1786

Budgerows are not to be provided by the Company for any Officers, but those ordered on duty by water shall be allowed to draw, in lieu of budgerows and boats, whether going or coming, as follows:—Colonel per mensem, Sonat Rupees 930—Lieutenant Colonel and First Member Medical Board, Sonat Rupees 630—Major and Superintending Surgeon, Sonat Rupees 360—Captain, Paymaster, Deputy Paymaster and Regimental Surgeons, Sonat Rupees 180—Subalterns, Hospital and Regimental Assistant Surgeons, 100—Caddets, 80.

Rates of boat allow. to the several ranks of Officers ordered on duty by water.

(For the periods for which boat allowance is granted to stations vide Form No. 3.)

Boat allowance to and from places, not specified, where water conveyance can be used, shall be ascertained by the distance, allowing 5 cois a day coming against, and 7 cois coming with, the stream.

Periods for which granted and how drawn to places for which no period is fixed.

Proc. G. G.
19th Jun. 1807

The Governor General in Council does not consider any subsequent promotion to affect boat allowance previously drawn.

Not affected by promotion subsequent to its being drawn.

G. O. G. G.
17th July 1806

Frequent applications for boat allowance having been received from Officers proceeding to join their corps, the Governor General in Council thinks proper to announce to the Army, that as the allowances, to which Officers become entitled by the Regulations or Government dated the 2d November, 1802, amply provide for all travelling expences, admission of boat allowance to Officers in receipt of tent allowance will hereafter be strictly confined to such Officers as shall be necessarily required to proceed on duty by water in charge of troops, stores or treasure.

Only granted to Officers in charge of Troops, Stores, &c.

G. O. G. G.
30th Nov. 1807

No Officer is to be directed to travel by water, unless in a case of absolute emergency, the particular circumstances of which are to be reported through the regular channel for the information of Government.

Any emergency under which Officers are ordered to proceed by water to be reported to Govt.

G. O. G. G.
19th Dec 1806

To obviate the frequent references that are now made on the subject of boat allowance, the Commander in Chief notifies to the Army, that the Governor General in Council considers commissioned and warrant Officers, who are not entitled to tent allowance in cases of removal, or when ordered on duty from one station to another, to be entitled to the boat allowance of their rank, although not ordered to proceed on duty by water, with or in charge of troops, stores or treasure.

Officers not entitled to tent allowance, when on duty, or removed from stations, receive boat allowance.

Proc. V. P.
15th Aug. 1809

The Vice President in Council approves of the selection made by the Officer commanding at the Presidency, of Lieutenant Eyre, to act as Interpreter to the detachment proceeding to the Upper Stations of the Army, under command of Lieutenant Colonel Wade, of H. M. Dragoons, and authorizes the boat allowance of his rank being passed to Lieutenant Eyre during the period he may be employed on that service.

Boat allowance to an Officer proceeding as interpreter to an European detachment.

giment, to the boat allowance of their respective ranks, when proceeding to the Presidency as evidences at a General Court Martial, is pleased, in consideration of a similar claim having been last year admitted by Government, and of those Officers being in receipt of half tent allowance only, and under the peculiar circumstances of the case, to allow them to draw boat allowance, coming to the Presidency, as well as returning to their station.

To Officers who have proceeded in charge of Troops, &c. when returning to their Station.

Boat allowance is to be passed to all Officers returning to their stations from whence they may have proceeded by water in charge of troops, stores, or treasure.

G. O. C. C.
28th Mar 1810

Rates to be drawn by Staff and warrant Officers.

Staff or warrant Officers may draw boat allowance according to the monthly pay and batta they receive in virtue of their office, unless their rank in the Army entitles them to superior allowances, in which case they shall be permitted to draw the allowance of their rank.

M. C. 16th
June 1766

Bills for boat allowance how prepared, and authenticated.

The bills for boat allowance shall specify the places of departure and destination, the rank of the Officers who draw them, the corps from and to which these Officers may be removed, with the date of removal; and, if the places of departure and destination happen to be such as are not specified in the table, the distances shall be expressed in the bills, in order that the Officers who countersign them may be enabled to judge, at one view, of their correctness.

The above allowance to be drawn in advance by bills on the Paymaster of the station or corps from which the Officers are to proceed, if from the Presidency, on the Paymaster of Artillery and Garrisons, countersigned by the Adjutant General or Town Major, accompanied by an attested copy of the order of removal and audited before payment; if from any other station to be signed by the Major of Brigade or other Staff Officer, who usually circulates the orders of the commanding Officer, by whom it shall be countersigned, and an attested copy of the order of removal tacked to it.

The signature and attested orders shall be authority for the Paymaster to discharge all such bills, having first corrected the rate, if necessary. Excess will be retrenched, but the Paymaster will be debited, as usual, leaving him recourse as in other cases.

From Officers ordered by water by other authority than that of Gov. Genl or Com. in Chief sent to Head-quarters.

Whenever an Officer is ordered from one station of the Army to another, by water, by any other authority than that of His Excellency the Most Noble the Governor General or the Commander in Chief, the boat bill of the Officer or Officers, so ordered, are directed to be transmitted to Head-quarters for the sanction of the Commander in Chief, without which they are not to be discharged.

Regulations for the payment, and rates of tolls, on boats passing Tolly's nullah.

Officers or other persons passing through Tolly's canal, in charge of boats on the public Military Service, are directed to deliver a certificate of their numbers, size and lading to the persons employed on the collection of the toll, on which vouchers the amount of the toll will be paid by the Quarter-master General. It is, however, to be understood, that the certificate is only to comprehend the boats provided by the Company; as all Officers and other persons proceeding on boat allowance are themselves to defray the charges of the tolls according to the established rates; which will be collected, on the part of Government, under the superintendence of the Collector of the 24 Pergunnahs, at Surmon's bridge, on all boats entering from the river Hoogly, and at Coot Ghaut, Ruffapugla, on boats entering from the Eastward; viz. on budgerows, 4 As. per oar:—empty boats, 4 As. per 100 maunds burthen.

Allowance for stationery and repairs of Arms to Troops and Companies.

The allowance to each troop of Cavalry and company of Artillery, European and Native Infantry, for stationery and for repair of arms and accoutrements, to be fifty Rupees a month. (*Augmented to the Artillery—vide Chapter V.*)

M. C. 20th
June 1790

How drawn.

The allowance for repair of arms and stationery with each company to be drawn for in the abstract of the company, and in the Colonel's company by the Officer actually commanding it, who is entitled to it.

M. C. 1st
August 1790

Field Officers.

Officers, present with their corps, may retain the command and repair the arms of their companies, or leave the charge and payment to the senior Subaltern, as they may think proper.

G. O. C. C. Should it happen through a temporary deficiency of European Officers, that there is not one present for every troop or company, the senior Captain in the Regiment or Battalion is to sign the review rolls and pay abstracts of the troop or company that has no European Officer, and draw the allowance for keeping the arms and accoutrements of such troop or company in repair; and if a second troop or company should happen to be without an European Officer, the second Captain in the corps, present, is to have charge of it.

Allowance of companies with which no Officer is present by whom drawn.

The rule to extend to Captains and Subalterns as far as there may be vacant companies, and it is to be understood that the commanding Officer of the Regiment or Battalion, or Officer in the temporary command, is excluded from such charge.

Commanding Officer of the Corps excluded from such charge. #

In case of the occasional absence of the Captain or the Subaltern posted to the command of a troop or company, he is not to forfeit the allowance for the repairs of arms, but is to defray any expence that may be incurred on that account, during his absence.

Officers do not forfeit this allowance on occasional absence

G. O. C. C. The absence of an Officer on account of ill health, or on account of public or private business, that does not carry him from the Presidency, is occasional. The absence of an Officer to Europe, or to another settlement, or in consequence of his holding a public situation that debars him from joining his corps, is not occasional.

G. O. C. C. The Commander in Chief understanding that doubts are entertained with respect to the right of Field Officers, under the circumstances of occasional absence, to receive the surplus arising from the established allowance, for repairing the arms, for stationery, &c. of companies of Native Infantry, to which they belong, in like manner, as such surplus is received by other Officers, Captains or Subalterns, holding companies in their own right, his Lordship is pleased to direct, that the rules which are established with regard to those Officers, be also considered entirely applicable to all Field Officers, who choose to retain the command of their companies, as authorized by the regulations of the Service.

Field Officers eligible to receive the surplus of the allowances for repairs of Arms &c.

Let. C. D. PARA. 32d—Among the arguments brought forward in support of the sub-division of the off-reckonings, it has been suggested, that the Officer in actual command of a Regiment, during the absence of the Colonel, is exposed to additional expence; we are by no means prepared to admit the force of this argument. It is not consistent, as we understand, with the practice in His Majesty's or any other Service, that a Commanding Officer should consider himself as called upon to incur extraordinary expence in receiving and entertaining the Officers of his corps; we see no reason why in our Service, as in all others, the Commanding Officer should not live at the Mess with his Brother Officers, without affecting an expence which is inconsistent with the fair emoluments of his situation. Individuals may find it difficult to break through an established practice of this nature, however objectionable and inconvenient in itself; but it is the duty of the Government to discountenance habits of useless expence, incompatible with the well-regulated constitution of any Army; and to relieve, by the weight of their sanction and admonition, the feelings of officers, who might otherwise be reluctant to depart from what may have grown up into a general habit.

Orders of the Court of Directors relative to the establishment of Messes.

G. O. G. G. The Governor General in Council being of opinion that considerable advantage would be derived to the public service, and to the general discipline of the army, independently of the economical advantages which would result to the Officers from the measure, were the Officers of the several corps of the Company's Army to form Messes, according to the practice of the Officers in His Majesty's Regiments, as proposed in the 32d Paragraph of the Court's Letter, is desirous that his Excellency the Commander in Chief will be pleased to adopt such measures, as his Excellency may deem to be proper and necessary, for obtaining so desirable an object.

Orders of Government relative to the formation of messes

G. O. G. G. The Governor General in Council being desirous of giving the fullest effect to the orders of the Honorable the Court of Directors, respecting the establishment of Messes, among the Officers of the Army in India, by affording every reasonable encouragement to the Officers to establish regular Regimental Messes, is pleased to authorize the allowance of Sonat Rupees 150 per messum, established by General Orders of the 8th May,

Mess allowance to the Officers of European Cavalry & Infantry.

1806, for each Regiment of European Cavalry or Infantry, in the service of His Majesty, or of the Honorable Company, when actually marching or in the Field, in which Messes had been or might afterwards be established, for the purpose of providing for all expences attending the accommodation of those Messes, to be drawn also by those Regiments when in cantonments, in the manner and under the certificates prescribed by the orders above mentioned.

And of Native Cavalry & Infantry. The Governor General in Council is further pleased to authorize the monthly allowance of Sonat Rupees 120, established by the orders of the 8th May, 1806, for each Regiment of Native Cavalry or Battalion of Native Infantry, when actually marching, or in the Field, to be drawn for those corps in all situations, in the manner prescribed by those orders.

No buildings, &c. allowed for messes except in Fort William. In consequence of the orders of the 8th May, 1806, and of the present orders establishing fixed monthly allowances, on account of Regimental Messes, no tents or buildings of any description are to be provided or maintained by the Public, for the accommodation of Messes, except in the Garrison of Fort William, where quarters will be appropriated to those purposes as heretofore.

Mess allowances how drawn. The Mess allowances are to be drawn by the Adjutant of the corps, for every month in which the Mess shall have been conducted, upon a certificate to that effect, signed by the commanding Officer. G. O. G. G.

With the exception of Colonels, the Officers commanding Battalions of Artillery, Regiments of European Infantry, Native Cavalry, and Battalions of Native Infantry, shall be allowed the full or half batta of the rank next above their Regimental Rank, according to the situations in which they are serving. Officers drawing the batta of the superior rank, in consequence of their commanding stations or detachments, are only entitled to draw the batta of the rank immediately superior to their Regimental Rank, and not the batta of the rank superior to their Brevet Rank. Allowed to Field Officers commanding a detachment of different Corps and to the next Officer in the Battalion they command. Officers of any rank commanding Regiments or Battalions are entitled to the batta of the rank next superior to their regimental rank, according to the rate of batta at the station.

not to Of. A Field Officer commanding a detachment of different Regiments, and consisting of two or more Battalions, is to receive superior batta, during the period of his command; and, if such Field Officer be also commandant of a Battalion, the next senior Officer of the Battalion becomes entitled to the superior batta for the same period.

Officers commanding detachments of Battalions, or parts of Battalions of the same Regiment, are not entitled to superior batta as commanding such detachments, or such parts of

Battalions, but to the batta to which their rank and command in their Regiment may entitle them.

A detachment of Artillery with field guns, and doing duty with a Regiment, or part of a Regiment, does not entitle the commanding Officer of such Regiment to superior batta commanding a detachment of a separate corps. If the senior Officer commands the Regiment or a Battalion, he is of course entitled to the superior batta as such; but the next senior Officer of such Regiment or Battalion is not entitled to superior batta, on the plea that the commanding Officer receives it as commanding the detachment.

Commandants of Regiments or Battalions on leave of absence between muster and muster, whether on account of sickness or otherwise, Commandants, sick, present or detached on duty, either with or without their Battalion, shall be considered as entitled to the batta or half batta of the next superior rank; but Commandants not with their Battalion at muster shall not be entitled to superior batta from the day of their quitting their corps to the period of their rejoining it.

ing detachments of Battalions or Regiments.

Detachments of Artillery with Corps do not entitle commanding Officers to superior batta.

Commanding Officers absent from their Corps when to receive superior batta.

Proc. G. G. 9th Oct. 1800 Commanding Officers when employed on duty, whether present or not with their Battalions or Regiments, are not to forfeit their claim to superior batta.

Proc. V. P. 5th and 9th Dec. 1809 The Vice President in Council is pleased to relieve Captain Rowland from the retrenchment made in the Auditor General's Office, of the batta of the next superior rank drawn by that Officer. The Vice President in Council does not consider the absence of the light companies to operate against the claim of Officers, in command of Battalions, to draw the batta of the superior rank, when they are, in other respects, entitled to that allowance.

Claim of commanding Officer not affected by the absence of the Light Company.

Let. M. S. G. 14th Sept. 1809 The detachment of a Troop of Cavalry and two Companies of Infantry, on some temporary or occasional service, is a circumstance which would not seem to injure Captain Shubrick's claim to the superior batta, as being next senior Officer in the 1st Regiment of Cavalry to Lieutenant Colonel Browne, commanding the post of Pertaubghur, at which two corps are stationed; and in that event the allowance he claims is authorized to be remitted on readit.

Nor by the occasional detachment of troops or companies.

P. G. G. 11th Feb. 1809 As the commanding Officer of the 2d Battalion 6th Regiment, while detached with a part of the corps, (one Company) is by the regulations of Government secured from the forfeiture of the batta of the next superior rank, and the assignment of superior batta for the same period to more than one Officer of the same Battalion being expressly prohibited, excepting under circumstances which do not belong to the present case, the claim preferred by the next senior Officer of that corps to this allowance is not considered by his Lordship in Council to be admissible.

Nor by the absence on detachment of the commanding Officer if with any part of his Corps.

Proc. G. G. 19th May 1806 The Governor General in Council has confirmed the retrenchment of the superior batta drawn by Lieutenant Colonel Kelso, as next senior Officer of H. M. 22d Regiment to Colonel Mercer, who commanded the station of Cawnpoor, as well as that Regiment; the monthly review rolls having been regularly signed during that period by Colonel Mercer, and no charge or responsibility appearing to have been vested in Lieutenant Colonel Kelso.

Superior batta is admissible, unless the papers are signed and responsibility of command incurred.

Proc. G. G. 15th July 1805 The Military Auditor General is authorized to pass the batta of the next superior rank to Lieutenant Colonel Fawcett, of the 5th Regiment of Native Cavalry, as well as the allowance for stationery during the period of time that Officer was under arrest, and to retrench from Major Webber the superior batta and allowance for stationery drawn by him during the same period. Major Webber is to be referred to Colonel Fawcett for reimbursement of the actual expence, incurred by him, for stationery, during the time he was in temporary command of the 5th Regiment Native Cavalry.

Superior batta and stationery allowance are to be drawn by the commanding Officer of a Corps, if in arrest.

Not to be drawn by Officers employed as Brigadiers. The Governor General in Council confirms the retrenchments against Lieutenant Colonel Browne, for stationery, drawn by that Officer, as commanding the 4th Regiment of Native Infantry, while employed as a Brigadier with the Army in the Field. Proc. G. G. 2d Oct. 1806

Nor to be forfeited in case of occasional absence of commanding Officers. In case of occasional absence, the commanding Officer of a corps is not to forfeit his claim to the allowance for stationery; but the same rule is to apply, as is prescribed regarding the allowance for repairs of arms, &c. to an Officer commanding a company. G. O. V. P. 13th Mar. 1810

A Captain, Surgeon, or Deputy Commissary of Ordnance, 4, viz: cook, washerman, and two kidmutgars.

A Major, 5 or 7, viz: cook, washerman, 2 kidmutgars, one khansama.

A Lieutenant Colonel commanding, 6 or 8, viz: 2 cooks, 1 washerman, 2 kidmutgars, 1 khansama.

The 2 additional, viz. a fyce and grass-cutter for each, are allowed to Field Officers when going where they can be mounted.

N. B. Each Officer, when proceeding to the Coast in time of war, will be allowed 4 additional followers, viz. a fyce, grass-cutter, and two Bullock-drivers.

And to Adjutants proceeding to a place where they can be mounted. The Vice President in Council is pleased to extend the indulgence, as published in General Orders of the 18th ultimo, of passage and provisions to a fyce and grass-cutter to each Field Officer, if going on foreign service to a place where they can be mounted, to all Adjutants so situated. Rates of table and passage allowance to Officers embarking on the public service. The Governor General in Council, having had under his consideration the rules by which the table allowance at present granted for Officers, on board the Honorable Company's ships or transports, not proceeding from port to port, has been established, is of opinion that they do not afford an adequate compensation to the commanders of such ships, and also, that, according to the rates allowed for the passage money of Officers on board of ships, proceeding from port to port in India, the commanders in some cases are over-paid, and in others are not paid sufficiently. His Lordship in Council, therefore, with a view of fixing, as far as may be practicable, one uniform rate of allowance, to be G. O. G. G. 11th Feb. 1809

granted in all cases, for the table and passage of Officers, embarking on board of ships on the public service, has determined that the different rates, heretofore allowed, shall be discontinued, and that an allowance of Sonat Rupees 4 per day shall be granted in lieu of them.

This allowance is applicable to the chartered ships of the Honorable Company, and generally to all ships engaged as transports proceeding on the public service, unless, in the instance of ships of the latter description, circumstances shall render it necessary to provide for the accommodation of Officers, under a special engagement for that purpose.

But his Lordship in Council judges it to be proper to signify his expectation, that the commanders of ships, sailing under the protection of this Government, will on all occasions conform to the rate above specified, in their demands of passage money for Officers' accommodation on board of their respective ships; and every Officer, from whom a higher rate of passage money shall have been demanded, is directed to report the same to Government, through the Adjutant General, specifying the sum paid, the name of the owner or commander who shall have received it, and the name of the vessel.

to what ships applicable

reports to be made by Officers of owners or commanders demanding higher rates.

G. O. G. G. The Governor General in Council, considering the established allowance of Sonat Rupees 4 per diem, to be inadequate to the expence, which the commanders of ships and transports must necessarily incur in providing a table for Officers, proceeding from port to port in India, is pleased to encrease that allowance to 6 Sonat Rupees per diem, and to determine, that a deduction of a Sonat Rupees per diem be made, on that account, from the allowance of the Officers, who on such occasions always receive full batta.

Augmentation of the allowance to be defrayed by the Officers.

G. O. G. G. The Right Honorable the Governor General in Council is pleased to publish to the Army, the following regulations of the Honorable the Court of Directors, respecting passage money, passed on the 11th July, 1810.

Regulations for passage money and accommodation of Officers in the Company's Service proceeding to and from India.

AT A COURT OF DIRECTORS,

HELD ON WEDNESDAY, THE 11th JULY, 1810.

RESOLVED,

That the following regulations be established, respecting the passage and accommodation of persons of the undermentioned descriptions, to and from India, on the ships in the Company's Service, viz.

FOR THE PASSAGE FROM ENGLAND.

That the commanders be not permitted to demand more than the undermentioned sums, for the passage and accommodation at their tables of gentlemen proceeding to India, in the Company's Service, at their own expence, in the following stations :

General Officers,	£. 250
Gentlemen of Council, or Colonels,	200
Lieutenant Colonels,	150
Majors,	100
Senior Merchants,	75
Junior ditto,	50
Factors,	25
Captains,	125

That the commanders be absolutely restrained from demanding more than the following sums, for the passage and accommodation at their tables, of persons proceeding to India in the Company's Service, in the following stations, viz.

Writers,	£. 110	} including Charter Party allowance to the owners.
Subalterns,	110	
Assistant Surgeons,	95	} exclusive of Charter Party allowance to the owners.
Cadets,	95	

That the third mates be likewise restrained from demanding more than the sum of £. 55, for the accommodation of any Assistant Surgeon or Cadet, who may proceed at their meals to India, exclusive of the Charter Party allowance to the owners.

That in order more effectually to prevent more than the allowances aforesaid being taken from the Writers, Subaltern Officers, Assistant Surgeons, and Cadets, the several sums stipulated for the outward-bound passage of those persons, whether the two latter shall be at the Captain's table or third mate's meals, shall be paid by them, respectively, to the Paymaster of Seamen's wages; and the order for the reception of any person, in

either of those stations, on board any of the ships in the Company's Service, shall not be delivered, until they shall have produced the Paymaster's receipt for the amount so ordered to be paid him : and that the several allowances, hereby directed to be deposited in his hands be paid to the commanders, or to the third mate, or their respective agents, properly authorized to receive the same.

FOR THE PASSAGE FROM INDIA.

That the commanders of the Company's ships be not permitted to demand more than the following sums, for the passage and accommodation at their tables, from India, of Officers, either in His Majesty's or the Company's Service, who shall be returning to Europe, either on sick certificate or Military duty, viz.

	From Bengal Sicca Rupees.	From Madras Arcoot Rupees.	From Bombay Borchoy Rs.
Lieutenant Colonels,.....	2,500	2,500	2,500
Majors,	2,500	2,500	2,500
Captains,	2,000	2,000	2,000
Subalterns,	1,500	1,500	1,500

And that the commanders do, upon no account, refuse to receive the sums herein-stated, for the passage and accommodation of gentlemen of the above description, from India, respectively.

That the commanders of the Company's regular ships be each constrained to receive on board their respective ships at least two Officers, of the description abovementioned, returning to Europe, and that the larboard third part of the great cabin, with the passage to the quarter gallery taken off, be appropriated to their accommodation.

That the commanders of the Company's extra ships shall be likewise constrained to receive on board one Officer returning to Europe, of the beforementioned description ; and that such Officer be accommodated with a cabin on the starboard side, abaft the chief mate's cabin, and abreast of the spirit room, of not less dimensions than seven feet long and six feet wide.

That in case any commander shall, by any ways or means, directly or indirectly, either in England or India, take or receive any further sum or sums of money, or other gratuity or satisfaction, for the passage of any Writer, Subaltern Officer, Assistant Surgeon, or Cadet, to or from India, such commander shall forfeit and pay to the Company, for the use of Poplar Hospital, treble the sum so taken beyond the sums before mentioned ; and for the purpose of making himself liable to and securing such payment, the commander of every ship in the Company's Service shall, before he is sworn in, give bond to the Company, in the penalty of one thousand pounds.

That if any third mate should, directly or indirectly, either demand or receive from any Assistant Surgeon or Cadet, accommodated at his mess, a larger sum than the rate fixed by these regulations, he be fined treble the amount of the excess, for the use of Poplar Hospital ; and that such fine be deducted from his wages, or his account of private trade, as the Court may direct.

That the several sums abovementioned be established for the passage outward and homeward, of the several persons of the descriptions before stated, and that the same do apply only to such accommodations as those persons are respectively entitled to, under the existing regulations of the Company ; and that any additional accommodation or cabin may be agreed for with the Commander, and paid for separately, without being considered as a deduction from the sum fixed by the Court for the passage money of each person.

(Signed) Wm. RAMSAY, Secretary.

Passage money to Officers proceeding to Europe on account of their healths

The indulgence of passage money can only be granted to Officers who obtain permission to proceed to Europe, for the benefit of their health ; and to such of them, only, as shall produce a certificate from the Medical Board, containing a solemn declaration that in the opinion of the Members of that Board, a return to Europe is indispensable to the recovery of their health.

health, upon the certificates prescribed, so far as regards the state of their health, including such as hold only the brevet rank of Captain; and of your resolution of extending this allowance to Subalterns of His Majesty's Regiments serving in India, who may be under the necessity of coming home on account of sickness.

G. O. G. G.
2d Feb. 1811

The Governor General in Council is pleased to augment the allowance for passage money to Subaltern Officers, Assistant Surgeons and Cadets, proceeding to Europe, for the recovery of their health, to Sicca Rupees 1500, to enable them to meet the increased demand which the Commanders of the Honorable Company's Ships, are authorized to make for their passage by the Regulations of the Honorable the Court of Directors, dated 11th July 1810, published in General Orders of 19th January, 1811.

Amount fixed.

Ext. Let. C. D.
14th June 1801

Wishing to extend every reasonable indulgence to Officers whose ill health prevents their continuing in our service, we have agreed to allow Subaltern Officers in this predicament, who return in India, the same passage money as if they were coming home on Furlough.

Extended to Subalterns returning from the service on account of ill health.

G. O. G. G.

Let. C. D. 1st
Aug. 1809

PARA. 91st—IncurSIONS from the enemy must naturally be expected in all continental wars, and losses of property by individuals as the inevitable consequence; but it is not therefore understood to be incumbent on the state to make good such losses.

Compensation to Officers whose bungalows and property were destroyed by the enemy.

PARA. 92d—In consideration, however, of your recommendation, the Officers of the 4th Regiment of Native Cavalry, who suffered by the destruction of their bungalows and other private property, in the attack of Holkar's Army at Futty Ghur, may be allowed three months' full Batta; each, according to the ranks they held at the time.

G. O. V. P.
14th Nov. 1809

The Vice President in Council, with reference to the 92d paragraph of the general letter from the Honorable the Court of Directors in the Military Department, under date 21st April 1809, is pleased to direct that the Officers whose bungalows were burned by the army of Jeshunt Rao Holkar, at the station of Futty Ghur, transmit for audit, bills for the compensation of three months' full batta, authorized by the Honorable Court, accompanied by a certificate, signed by the commanding Officer, or the public Officer of the station, specifying their bungalows having been destroyed by the army of Holkar, and the month and year in which it occurred.

Bills how to be prepared.

The Vice President in Council, considering it to be equitable that a similar donation should be granted to the Officers whose bungalows were destroyed, at the station of Kasi Gunge, during the rebellion of Nehr Ally Khan, directs that bills for this purpose be forwarded by those Officers to the Office of Audit, accompanied by a certificate of the nature above described.

Compensation extended to Officers whose property was destroyed at Kasi Gunge in a rebellion.

Proc. G. G. 13th
Feb. 1806

The Governor General in Council authorizes compensation in money, for the Officers of the late detachment, under the command of Colonel Monson, who lost their baggage, equivalent to the rules established by His Majesty's regulations for the loss of baggage, according to their respective ranks.

Proc. M. Board
10th July 1807

The sums allowed to a Captain, who has lost his baggage in Colonel Monson's retreat, are the same as those allowed by His Majesty's regulations.—Baggage £. 80—Camp equipage £. 35. Exchange at 8 Sonat Rupees to the Pound Sterling. Mounted Officers, and no others, are entitled to 800 Rupees for a horse killed in action or taken by the enemy.

Rates allowed to Officers losing Camp-equipage &c. by the enemy in the field.

Let. C. D. 7th
Sept. 1808

PARA. 84th—In consideration of the gallant conduct of the Officers of the detachment under Colonel Monson, under the peculiar circumstances of their situation, and the severe loss they suffered in their retreat, we not only approve the compensation you granted them, but, in consequence of your particular recommendation, have agreed to present them with an addition thereto of three months' full batta to each Officer.

Let. C. D. 16th
1810

PARA. 75th—As the Company have been put to great and unnecessary expence, by the allowances which have been at different times made by our several Governments as

Not allowed to Officers for loss

of baggage, &c. on board ship unless proceeding on duty: compensations to Officers, for loss of baggage by ship-wreck, fire, and capture, and as every Officer may, if he pleases, insure his property before he embarks, either here or in India, we direct that no compensation be hereafter made to any Officer, for loss of baggage on board ship, unless such Officer be proceeding on duty by order of Government.

Gratuity to Officers who have lost an eye or a limb in action.

PARA. 127th.—The gratuity to Captain Lindley, being in conformity to the established regulations of His Majesty's Service, we acquiesce in your regulation, although these regulations have not hitherto been generally acted upon in India.

Let. C. D. 29th
May 1807

PARA. 128th.—In regard to your recommendation that a similar rule should be adopted in our Service, agreeing in opinion with you that it would be a measure consistent both with policy and humanity, we have resolved to adopt the same, so far as relates to the allowance of one year's pay to Officers who may have lost an eye or a limb in action.

Approbation of the Court of Staff appointments being conferred on wounded Officers,

Conformably with the sentiments we have expressed in a preceding paragraph, relative to the nomination of wounded Officers to Staff appointments, we approve the nomination of Lieutenant Forrest to be Fort Adjutant and Barrackmaster at Agra, as, by the report of the Adjutant General, it appears that Lieutenant Forrest, exclusive of the loss of an arm, had received twenty-two other wounds at the assault at Deig.

Gratuity &c. and periods of service allowed to Officers captured by the French

Lieutenant Garnham, of your establishment, who was proceeding to Europe agreeably to the permission granted him by our Military letter to Bengal, of the 4th August, 1803, having unfortunately been captured on board the Nelson on his passage home; we have been induced, on consideration of the circumstances of his capture and of the aid he gave in the defence of the ship, to present him with the sum of One Hundred Guineas: and as Lieutenant Garnham was detained a prisoner from the 14th August 1803, to the 4th October, 1806, we have allowed him two years of the time he will have been absent from his duty to be reckoned in his service in India, in view to his future retirement under the regulations.

Let. C. D. 23d
Dec. 1806

PARA. 10th.—Having considered a letter from Mr. W. H. Robertson, an Assistant Surgeon upon your establishment, stating to us the permission he obtained from the Governor General in Council to proceed to sea for his health, his embarkation in June, 1803, on a ship bound to the Isle of France, his detention and confinement there, the permission he obtained from the Governor General on account of ill health to leave the Island on condition of not returning to India, but by way of America and Europe, his proceeding accordingly and having been exchanged, and now released from his parole; requesting for these and other causes mentioned, we would sanction his proceedings and permit him to return to Bengal without loss of rank, and without deducting the time which must necessarily elapse from leaving the Isle of France to his arriving in Bengal, from his period of service.

Let. C. D. 19th
Feb. 1806

PARA. 11th.—In consideration of the peculiar circumstances of Mr. Robertson's case, as above stated, we have granted him a term of 18 months, from his departure from Bengal, to be considered on actual service, after which period he is to come under the regulations for furlough, and draw pay only.

Honorary rank of Colonel commandant of Cavalry conferred on Colonel Macan for his distinguished services.

With a view to manifest the just sense which the Governor General in Council entertains of the services of the Officers, who render themselves conspicuous in the discharge of their public duty, by an ardent zeal for the public interests, his Excellency in Council is pleased to determine, in consequence of the recommendation of his Excellency the Commander in Chief, founded on the zeal, gallantry, and distinguished conduct of Colonel Richard Macan, that the appointment of Colonel Commandant of Cavalry shall be revived, as an honorary distinction for Colonel Macan, and that Colonel Macan shall be Commandant of Cavalry, until the commands of the Honorable Court of Directors shall have been received on that subject.

Proc. G. G. 5th
June 1806

The Governor General in Council is pleased to permit the Officers and Cadets of this establishment, who were employed at the reduction of the Cape of Good Hope, to draw from the 23d November last, the date of the order by General Baird directing them to do duty with the detachment of the Honorable Company's Recruits at St. Salvadore, the pay, full batta and gratuity of their respective ranks, deducting therefrom the outfit money, and batta and forage money which they have received. The Governor General in Council is also pleased to permit the Cadets, who were appointed by General Baird to act as Ensigns, to draw from the same date the pay, full batta and gratuity of Ensigns, subject to the above deductions.

Allowances to Officers employed at the Cape of Good Hope.

Let. C. D. 16th
Dec. 1807

PARA. 2d.—The frequent applications that have been made to us by Officers of our several Military Establishments in India, when in Europe, for advances of money on loans, under the plea of their being otherwise unable to return to their duty, have not only caused much trouble and inconvenience, but in some instances the Company have sustained loss, by the death of the parties to whom such advances have occasionally been made, and the practice has of late years increased.

Applications for advances of money on loan, from Officers in England prohibited.

PARA. 3d.—As under the regulations of 1796, the Military Officers are allowed to come home on furlough, and to receive their pay, and, in regard to Subalterns, are further indulged with passage money home, their situations have been considerably improved, and they cannot reasonably expect any additional indulgence of the nature above mentioned; to prevent therefore all expectations of the like in future, we direct that you publish, in general orders to the Army, that we have been under the necessity of coming to the resolution of declaring, that Officers at home are not hereafter to expect that applications for advances for money, beyond what they are allowed by the existing regulations of the service, will be attended to.

G. O. G. G. 2d
Feb. 1810

The Honorable the Court of Directors, having in the 7th paragraph of their letter to the Select Committee at Canton, under date the 12th of January, 1810, prohibited the Committee from making any advances on account of pay and allowances in future to Officers of His Majesty's or the Honorable Company's Service, who may visit China, the Right Honorable the Governor General in Council is pleased to notify the above orders in General Orders to the Army.

No advances to be made to Officers in China.

G. O. C. C.
20th Aug. 1808

It having been represented to the Commander in Chief, that Officers proceeding to join their Corps in the Upper-provinces, make frequent applications at intermediate stations for advances of pay, which have in some instances been granted, on the plea that has been urged of the inability of the parties applying to proceed further on their journey, he thinks proper to declare that such applications, being contrary to the intentions of General Orders of the 7th February, 1807, are irregular, and will not in future be attended to. Officers ordered to join corps, for the first time, will therefore be aware of the inconvenience to which they will be exposed, unless they guard against it by a provident use of the advances which they receive at the Presidency, and which have been calculated on a scale to admit of their joining their corps without further aid.

Not at intermediate stations when proceeding to join corps.

G. O. C. C.
5th Jany. 1803

The Commander in Chief directs that in future all Officers to whom advances of money may at any time be made on account of the public service, shall specify at the bottom of the bills or accounts which they transmit to any of the Public Departments, the amount of the advance, the date of its receipt, and the authority by which it was ordered; and in the event of no advance of cash having been received the same is to be notified.

Officers receiving advances on the public service how to notify the same.

G. O. G. G.
22d April 1802

In cases where an Officer may find it necessary to make actual advances of cash on account of the public from his private funds, the usual commission of 10 per cent. will be allowed, until further orders, provided, in such cases, the total amount of the bill for the whole work or service shall not exceed St. Rs. 1000.

And in what cases to receive commission on cash advanced for the public service from their private funds.

Proc. G. G. 23d
April 1803

The commission to be allowed, on disbursements not exceeding 1000 Rupees, is only to

be given when cash cannot be supplied by the Paymaster, and where the disbursement has in consequence been made from private funds.

Officers how to acknowledge the receipt of drafts.

The Commander in Chief is pleased to direct all Officers receiving drafts, or orders for money on account of public disbursements, to acknowledge the receipt of such draft or order in the following form, viz.

G. O. C. C.

Upon receiving intimation of bills being audited where to apply for adjustment of their accounts.

The Vice President in Council thinks it necessary to notify to the Army, that all Officers having accounts with Government are, on receipt of advice from the office of Audit of their bills having been passed and sent to the Military Paymaster General for adjustment, to apply to that office without further notice for adjustment of their accounts, or for payment of any balance that may be due to them.

G. O. V. P.
6th Feb. 1810

Pay bills, &c. from Officers how to be receipted.

Every Officer must sign what Company, Battalion, or Regiment he belongs to; he must date his bill, and sign a receipt when the money is paid, and no pay or fixed allowance is to be paid without the name, rank and station of the Officer is specified who may be entitled to draw it.

M. C. 23d May
1777

If any person at the station of a Paymaster having a demand on the Company, either as a principal or as an agent for another, payable by such Paymaster, shall leave his abstract or bills in the hands of the Paymaster with a receipt for the amount thereof, without having actually received the payment of the amount, for which the receipt shall have been granted, such person shall forfeit his claim on the Company, and be left to have recourse against the Paymaster as a private individual.

M. C. 24th
May 1793

With respect to Officers detached who necessarily send their bills or abstracts to their respective Paymasters for examination before payment, such Officers, or other persons, are to report to the commanding Officers of their stations, if they shall have met with any unnecessary delay in the payment of their bills or abstracts.

Officers responsible for the pay of their companies while in their possession.

The pay of companies shall be received by the commanding Officer of the company and be issued by him to the men, and it is declared that he shall be responsible for such pay while in his possession, and that all losses are to be made good by him, that by the enemy excepted.

M. C. 3d Aug.

May 1789

To fulfil what is expected by Government and what is due to themselves, the Officers of the Army will see the necessity of not only rendering a faithful account of real disbursements, but of taking care that those disbursements do not exceed what is absolutely and indispensably necessary.

Officers how to authenticate contingent disbursements.

All charges for extraordinaries shall bear the written testimony of the person into whose whole trust the expenditure has fallen as to the actual disbursement; and in cases where the expenditure may be in the discretion of subordinate Officers the bill shall contain an affirmation, upon honor, to the charge as actually incurred; the superior Officer who warrants the expence being to certify to the charge as such, to the best of his knowledge and belief, in countersigning the bill. Dr. Buchanan will be entitled, according to the usage of the service, in cases where the medical gentlemen are directed to proceed on duty to Europe, to the pay, and full batta of his rank during his absence.

To Officers employed in the College. The Governor General in Council is pleased to authorize the pay, full batta and tent allowance of his Regimental rank being passed to Captain Taylor, of the 14th Native Infantry, professor of the Hindoostany language at the Institution of the College of Fort William, in conformity to the principle that obtained in the instances of Captains Baillie and Stewart. Proc. G. G. 2d Jan. 1809

To Officers appointed to the charge of irregular Corps. The Governor General in Council approves and confirms the orders of the Commander in Chief, authorizing the Officers who were appointed to superintend the brigades of Sheick Kullub Ally and Zeman Khan, to draw the batta of the superior rank to that which they hold in their Regiment. Proc. G. G. 4th April 1805

Officers employed on the Staff or on leave how to be drawn for. Staff Officers, or Officers employed in such situations as preclude them from joining and doing duty with their Regiment, are not to be included in the abstracts of companies; Officers on leave at Sea or at other Presidencies are not to be drawn for until their return, or until they transmit certificates of their existence, to the period of which certificates pay may be drawn for them. Officers on leave of absence from one station to another are to be included in the abstracts, but the amount to be kept in the hands of the Paymaster, who will pay it on their return, or to their order, as he will be accountable for the pay and batta of Officers from the day of their decease not allowed by the regulations. M. C. 22d Aug. 1796

Allowances of Officers absent under what circumstances paid to their agents or attorneys. It is resolved, that all Paymasters be restricted from making any advances on account of the salaries or allowances of individuals, not on the spot, to the agents of those entitled to receive them, without requiring that the original powers of attorney, properly executed, be produced and registered in their respective offices. M. C. 15th May 1786

Payment is not to be made to the attorneys of absentees, unless a sufficient proof be afforded of the existence of the party at the time for which payment is claimed. M. C. 23d May 1786

Officers removed from and appointed to Corps, what certificates to furnish. It shall be the duty of every Officer, appointed to or removed from a corps, to obtain from his last Paymaster a certificate of any arrears that may be due to him, or to what period he has been paid. M. C. 11th Oct. 1785

This certificate is to be delivered to the Paymaster of the corps to which the Officer is removed, but the arrears due to him can only be discharged by his former Paymaster, and his pay, &c. are to be drawn in the abstracts of his new corps conformably to his certificate.

Allowances of Officers on leave at the Presidency preparatory to going to Europe how drawn. Officers who obtain permission to come to the Presidency, preparatory to returning to Europe, are to bring from their Paymasters certificates of the last allowances paid to them, and upon these certificates their future allowances will be passed in separate bills by the Military Auditor General; nothing further is to be included for them in the abstracts of their companies. C. O. 25th Nov. 1796

Certificates to be furnished by Officers proceeding on furlough that there are no public demands against them. Officers resigning or proceeding on furlough are to receive a certificate from the Military Paymaster General that there are no public demands against them, either on account of retrenchments or otherwise: these certificates are to be transmitted to the Commander in Chief, and by him laid before the Board. M. C. 11th Oct. 1785

Officers invested with any public charge to give notice previous to relinquishing the same. The Vice President in Council is pleased to direct that all Military Officers in charge of public Magazines or other extensive property, and all Agents of Government accountable to the public for buildings, machinery, or other stock of any kind in the Military Department, do signify to Government, in writing, through the regular channel of correspondence, their wish or intention to resign such trust, at least three months before the period of their proposed resignation, to afford sufficient time for the necessary survey and transfer of such property and adjustment of accounts. 26th Aug. 1808

The Governor General in Council thinks proper to apprise the Army, that it behoves every individual of it to whom advances may have been made and who may be desirous of proceeding to Europe, to obtain from the Pay Department a timely and full adjustment of all outstanding balances, or demands against them on the public account, as it is hereby declared, that, except in cases of very peculiar urgency, no security or deposit will in future be received by way of indemnification for any losses to which the public might eventually be exposed by the remissness of Officers in this respect.

Officers proceeding to Europe are previously to adjust all demands against them.

G. O. G. G.
15th Jan. 1811

The Right Honorable the Governor General in Council is pleased to resolve, that no Officer shall in future be permitted to proceed to Sea on leave of absence, without previously furnishing a certificate from the Pay Department, or in the event of considerable current accounts still pending, intimation therefrom of security having been obtained from his agents for any balance which might eventually appear.

Certificates to be furnished by Officers, proceeding to Sea.

In order to guard as much as possible against any inconvenience to individuals arising from this regulation, the Military Paymaster General has been instructed to use the utmost practicable dispatch in the settlement of the accounts of Officers coming under its operation.

G. O. C. C.
20th Jan. 1811

Officers obtaining leave to repair to the Presidency preparatory to making application for permission to proceed to Sea, will be careful to bring with them certificates of the date to which they have been paid by their respective Paymasters, to enable the Pay Department at the Presidency to furnish them with the document required for Officers on all occasions of proceeding to Sea on leave of absence, by the orders of Government; under date the 15th instant.

Proc. G. G.
9th Jan. 1797

Officers returning to Europe, to have the batta of their station or corps; until the date of the dispatch of the ship, in case it is one chartered by the Company, and in all other instances till the Pilot leaves the ship on which they embark, of which a certificate must be furnished.

Batta to Officers proceeding to Europe continued to the date of the dispatch of the ship.

Proc. C. D.
22nd April 1809

PARA. 93d—In consequence of an application which we have received from Lieutenant Munn, of the Madras Establishment, requesting on consideration of his having been obliged, on account of ill health, to request leave of the Government of Madras to proceed to Europe, via Bombay, that he may be allowed to draw his batta and gratuity for the period of detention there in this country, we have come to a resolution, that, when Officers are permitted, at their own request, to proceed from the Presidency to which they are attached to another Presidency, for the purpose of procuring a passage to Europe from the latter, they shall only be allowed to draw their batta, or other allowances beyond their pay to the period of their leaving the Presidency to which they belong.

Officers proceeding to Europe from other Presidencies only draw their pay, after quitting the Presidency they belong to.

Let. C. D.
7th Sept. 1808

Officers nominated to situations, who, from attention to other duties in which they are engaged, cannot at the time of nomination immediately enter upon the functions of such offices, are not to receive the salaries or allowances annexed thereto, which are to be given to those who act temporarily during the absence of the nominees.

Allowances of Officers nominated to situations, the duties of which they are prevented entering upon, how drawn.

Let. C. D.
3d Dec. 1806

PARA. 2d—Having taken into our consideration the situation of Military Officers, who have at different times been suspended from the Company's Service by our Governments abroad, without a previous trial by a Court Martial, in regard to their claim to pay during such suspension, and being of opinion it would be desirable that some fixed rule should be established, in order to remove the doubts that have hitherto been entertained on the subject, we have resolved that Officers, in the predicament above mentioned, shall be considered as entitled to the pay, only, of the Military Rank they held at the time of their being suspended by order of our Governments, from the time they were so suspended, until we shall come to a final determination upon the cases of the Officers referred to our consideration; provided we shall be satisfied that no unnecessary delay, in our proceeding to a decision, has been occasioned by the Officers themselves.

Pay when allowed by the Court to Officers sent to Europe under suspension.

G. O. V. P.
24th Oct. 1809

The Vice President in Council is pleased to authorize an allowance, as subsistence, to be paid to the Officers of His Majesty's or of the Honorable Company's Service, who may either resign or be dismissed therefrom, according to the following rates.

Subsistence and passage money to Officers resigning or dismissed the service, and regulations under which it is drawn.

To Field Officers, Captains and Surgeons, per diem, St. Rs. 4 0

To Lieutenants and Assistant Surgeons, 2 0

To Ensigns, Lieutenant Fireworkers, Cornets and Cadets, 1 12

The subsistence above authorized is to cease on the dispatch of the first ships for England, after the Officers shall have been directed to proceed to Europe, of which due notification will be given to the proper office.

The subsistence will accordingly be passed from the day following the date of the resignation or dismissal of the Officer, up to the date of the dispatch of the ship on which he may proceed to England, or in cases where no regular dispatch may be made, up to the date on which the Pilot leaves the ship upon a certificate to that effect being produced.

The Vice President in Council, with the view to provide for the accommodation of Officers so circumstanced, during their passage to England, is further pleased to authorize a sum, equal to the subsistence of each Officer for six months, to be drawn and paid to the commander of the ship, with whom an arrangement may have been made for their passage.

The bills for subsistence as well as the passage money will be discharged by the Paymaster at the Presidency after having been duly audited.

Additional allowance to commanders of ships, during the period they may be detained at the Cape or St. Helena, and how paid.

The Governor General in Council approves of the proposition of the Marine Board for granting to the commanders of the several ships, on board of which Military Officers are ordered to be accommodated with passages to England, an additional allowance of 3 dollars, per day, for every Officer appointed to proceed on their respective ships, during the period of their detention at the Cape of Good Hope or St. Helena, to assist the commanders of those ships to fulfil the orders, which they have received, to keep a table for the Officers ordered on their respective ships, during the time they may remain at the several places at which they may touch on their passage to England.

The above allowance is to be paid to the commanders on their return to England, by the Honorable the Court of Directors, to whom the necessary communication on the subject will be made by the next dispatch.

Travelling charges not allowed.

But Officers to apply to the Postmasters for bearers.

Resolved, that travelling charges shall not be allowed in any cases, in future.

M. C. 23d Aug. 1782

The Governor General in Council is pleased to direct that Officers who may be in future authorized to travel by dawk, at the public charge, shall apply to the Postmaster of the district to furnish bearers for their conveyance.

G. O. G. G. 5th June 1810

All applications to be forwarded through the prescribed channel.

The Commander in Chief is pleased to order that all applications of a public nature from Officers, whether present or not present with their Corps, shall in future be forwarded through the prescribed channel of commanding Officers of corps and stations, and desires it to be clearly understood that no applications, except in cases of peculiar urgency, will be attended to, which are not forwarded in a regular manner.

G. O. C. C. 26th Aug. 1802

Officers are not to address the Commander in Chief relative to matters of expence.

Mode of signature to be observed in all applications to Head quarters.

Officers are not to address the Commander in Chief relative to matters of expence, excepting such contingent disbursements as he may find it necessary to authorize, and which must have the sanction of his signature for passing them.

M. C. 27th Jan. 1781

In future all applications or letters which may be transmitted to Head-quarters by Officers, Surgeons or persons attached to any department of the Army, shall specify, below the signature of the writer, the Rank, Battalion, Regiment or department, to which the person who forwards the application shall belong.

G. O. C. G. 16th Oct. 1802

Officers, Surgeons, &c. arriving from Europe how to report the nil loss

Resolved, that any Officer, Surgeon, Assistant Surgeon or Cadet, either returning from Europe, or holding an appointment by commission or certificate granted to him here, or at the India House, shall on their arrival wait on the Town Major that he may notify the same to the Governor General, and he shall afterwards, as soon as may be, wait on the Adjutant General that he may notify the same to the Commander in Chief, exhibiting to the Adjutant General, or his deputy, the certificate or commission in his possession, allowing him to proceed to India, that the same may be examined and rectified, if defective, previous to such Officer, Surgeon, Assistant Surgeon or Cadet being reported to the Board, and before his admission or re-admission to the service is notified in orders to the Army.

M. C. 3d June 1793

G. O. C. G.
9th Jan. 1809

The Governor General in Council, observing that many Officers who come to the Presidency on duty or otherwise, omit to report their arrival at the Adjutant General's Office, is pleased to direct that all Officers who come to Fort William, on duty or on leave of absence, shall report their arrival as well as their departure from the Presidency in writing to the Assistant Adjutant General; during the absence of the Adjutant General from the Presidency.

In the absence of the Adjutant General, Officers to report at his office at the Presidency for the information of Govt.

G. O. C. G.
11th Oct. 1801

It having been represented to the Commander in Chief that Officers have not unfrequently come to Military Stations and omitted to report their arrival to the commanding Officer thereof, his Excellency directs that any Officer who may hereafter visit any Military Station, whether on duty or from any other cause, shall immediately report his arrival, personally if his health permits, and by letter if sick, to the commanding Officer, as also the time of his departure.

Reports from Officers arriving at and quitting Military Stations.

G. O. C. G.
17th Dec. 1805

There being few circumstances more reprehensible or injurious to the efficiency and reputation of an Army, than inattention to the orders and regulations of Government, it is with much regret the Commander in Chief finds himself compelled to animadvert on the frequent neglect of that essential point of duty, which has been so often enjoined to the Officers of this Army, of immediately reporting their arrival at the Presidency or at other stations of the Army, and of waiting on the public Officers of the Fort or stations to make themselves acquainted with all general orders that may have been issued, and of attending occasionally, from time to time, at the office of the public Officer for the same purpose, during the time they may reside at any station, to which they may not belong, on leave of absence or from any other cause, and of reporting their departure for the information of the commanding Officer.

And their attendance on the Staff Officers to acquaint themselves with the several orders, &c. particularly enjoined.

His Lordship now calls upon all Officers whatsoever to pay the strictest attention to such points in future, and Officers commanding at the Presidency and at all the stations and posts of the Army are directed to use their best endeavours to exact attention to these orders, and to report the name of any Officer who may neglect to comply with them, for the information of the Commander in Chief.

In default of which they are to be reported to Head-quarters.

His Lordship desires the Officer commanding at the Presidency will not only direct all Officers, Surgeons, and Assistants, returning from Europe, to proceed without delay to join their corps, but that he, as well as all Officers commanding stations, &c. will call upon all Officers, Surgeons, and Assistants who may arrive within the limits of their respective commands, to report to them on what authority they have arrived there, if on sick certificate or other leave, and for what time, and require their departure at the time necessary to enable them to rejoin by the expiration of the leave, unless a renewal of sick certificate or other sufficient cause be assigned for prolonging their stay.

Officers not permitted to delay at stations beyond the period of their leave.

After the promulgation of this order Staff Officers of stations, &c. will be relieved from the constant interruptions they now experience, by receiving written requisitions for orderly books, copies of orders, &c. which practice, being altogether irregular, will henceforward never be allowed. It will be moreover the duty of Officers commanding stations not to allow Officers, Surgeons and Assistant Surgeons who may be passing stations to join their corps, or on any other duty to make any unnecessary delay within the limits of their respective commands.

Applications to Staff Officers for orderly books, &c. inadmissible.

Let. C. D.
1st Apr. 1760

Officers shall be entirely subject to the orders of the Governor General in Council at each Presidency, the Company's legal representatives.

Officers entirely subject to the orders of Gov. Gen. in Council.

G. O. 16th
July 1787

Ample redress will upon decent representation be given to every Officer, by Lord Cornwallis, for any act of real or designed injustice or oppression from his superior.

Representations from inferior Officers how to be preferred.

In a difference of opinion between a subordinate Officer and his own commanding Officer, on the nature of Military duties or the manner in which they are to be performed, a junior Officer of modesty, and with proper sentiments of respect for his superior, will generally acquiesce in the opinion of the Officer commanding the brigade, but the opinion of the Officer commanding the station is to be upon such points final.

Meetings of Officers to concert means to resist or counteract the effect of Military Orders are as subversive of the true principles of discipline, as they are contrary to Military Law.

Appeals from Officers to a superior authority to be confined to a statement of facts.

G. O. C. F.
25th Aug. 1791

When Officers are constrained to appeal, on points of real importance, from the decision of their commanding Officers, it is their duty to state facts only in temperate lan-

guage, with decorum and propriety; and to abstain from all strictures whatever. The commanding Officer of the forces will form his own judgment, and all attempts to prompt or prepossess that judgment will ever be discouraged.

Representations or memorials how prepared.

It shall in future be observed as a standing rule in this Army, that when any set of Officers, above three in number, shall resolve to state a real or supposed grievance to any superior, the representation or memorial shall be signed by the senior Officer only, of those who may think themselves aggrieved, and he is to transmit, in a separate paper, a list of the names of all those who may have given sanction to his signature, but the senior Officer will in all such cases be held particularly responsible, both for the matter itself, and for the manner in which complaints may be stated in those remonstrances and representations.

C. O. 8th
Feb. 1790

Circumstances under which meetings of Officers for the purpose of making representations, &c. will be permitted.

The Commander in Chief thinks it necessary to publish to the Army, the following order issued to the Troops at the Presidency by the Governor General.

G. O. C. C.
6th Oct. 1795

Garrison orders by the Governor General, October 3, 1795.—The Governor General has seen, with great surprise, an advertisement in the Gazette of Thursday last, by authority of the Presidency Committee of Officers, inviting the Officers at the Presidency to meet (as subsequently explained) for the purpose of signing an address to Mr. Hastings.

The Governor General would have had no objection to comply with the wishes of the Officers to meet for the avowed objects expressed in the advertisement, had they been communicated to him through the regular channel, but he thinks it necessary to declare his decided disapprobation of the illegal authority by which the Officers were invited to assemble, and in consequence directs that no meeting of the Officers attached to the Presidency be held on the 5th inst. nor on any future occasion without his previous sanction.

That the Officers of the Army may not, on the one hand, conceive it to be the intention of the Commander in Chief to debar them from making representations, through the regular channel, of any real hardships they may suffer; and that, on the other hand, meetings may not be assembled for the purpose of discussing matters, and disseminating principles subversive of good order and subordination, the Commander in Chief thinks it proper strictly to forbid general or partial assemblies of Officers at the stations of the Army for the consideration of any public question, unless with the permission of the commanding Officers of such stations, notified in public orders, which are also to express the particular object of the meeting; and as the Commander in Chief will hold commanding Officers responsible for the conduct of those under them, on these occasions, it will be their duty not to grant a sanction for the meetings of Officers, until they shall be satisfied that the objects of them are perfectly unexceptionable; that the deliberations will be confined to the declared objects; and that the assemblies will be conducted with moderation and decorum.

Prohibition against persons corresponding privately on the public affairs of the Company.

PARA. 5th.—Many of our servants, possessing our most confidential situations, are accustomed to indulge themselves without reserve in corresponding by their private letters on the public affairs of the Company; this is attended with many inconveniences, is directly contrary to our repeated orders, and we desire that you will take the most effectual means to prevent it, and if any of our servants presume to continue in a practice so contrary to our wishes and orders, we shall certainly mark our disapprobation by the severest tokens of our displeasure.

Let. C. D.
1st Sept. 1785

No letters to the Court to be transmitted privately for the purpose of being presented in England.

It is incumbent upon us farther to inform you, that a practice has sometimes prevailed of late, of our servants abroad sending home public letters to the care of persons resident in this country, to be delivered by them, or not, as in their discretion they shall think proper. We prohibit any such practice in future, and direct that all letters to us from our servants abroad be addressed directly to the Court of Directors, and sent by the usual conveyances; no other will be received by us.

Officers having matter of representation to the Court of Directors who do not wait their decision in India, will be dismissed the service.

If any commissioned Officer in the Company's Service in the East Indies shall repair to England under pretence of obtaining relief of any injury he is apprehensive of labouring under, without first having applied, through the Governor General in Council of the Presidency under which he sits, to the Court of Directors, for redress, and who having made such application does not continue in his employ, and wait the determination of the Court of Directors, but shall return to Europe before an answer is given from them on the subject of his complaint, he shall absolutely and entirely, to all intents and purposes,

Let. C. D.
25th Mar. 1778
repeated
30th June 1778

and be held to be dismissed from the Honorable Company's Service, and not be restored except by the order of three-fourths of the Court of Directors and Court of Proprietors, according to the terms prescribed by the late act of parliament, of which you are to give the most public notice as soon as possible.

- G. O. 14th March 1774 Resolved, that memorials from Officers to the Board or Commander in Chief be forwarded through their respective commanding Officers to the Commander in Chief. Memorials from Officers will be laid before the Board by the Commander in Chief. Memorials from Officers through what channel to be forwarded.
- G. O. 25th March 1789 The Governments in this country are the regular channels for the transmission to the Court of Directors of statements of any real hardships which the Officers may suffer, and his Lordship is confident they will always be received with great attention, and that every proper exertion will be made to afford redress by the Honorable Court.
- M. C. 29th May 1778 The Governor General in Council has been pleased to direct that no memorial, addressed hereafter by Officers to the Court of Directors, shall be transmitted by the ship under actual dispatch, if received after the day fixed for the close of the dispatch.
- Let. C. D. 6th June 1798 PAR. 119th—We hereby direct, that if any of our Officers hereafter presume to address themselves to our Government in an offensive, intemperate or disrespectful style, upon the subject of orders received from us, such Officers, whatever be their rank or services, be immediately dismissed from our employ and sent to England. Officers addressing Govt. in an improper style will be dismissed.
- G. O. G. G. 23d M. 808 The Governor General in Council observing that, in two recent instances, proposals for the construction of public works on contract have been tendered by a Military Officer and a Military Surgeon, and considering that the attention of persons of either description, who may be permitted to enter into any engagement of that nature, must necessarily be drawn off from the proper exercise of their professional duties, deems it expedient to prohibit all Officers and Surgeons from engaging personally, or by the agency of others, in the execution of any works, offered to public contract on account of Government. Officers and Military Surgeons prohibited from tendering proposals of contract for the construction of buildings.
- G. O. C. C. 18th June 1806 The Commander in Chief expects that all Officers employed on surveys, in the several branches of the public service, will consider it a duty of the utmost importance, and always exercise the strictest inspection and scrutiny accordingly. Attention required of Officers employed on surveys.
- G. O. C. C. 15th Apr. 1805 It is to be considered a standing regulation, that Officers employed on Committees of Survey, or any other general duty, are not to be exempted from Regimental duties, but are to take them and proceed with their corps at all times, unless when a committee is actually sitting. Who are not exempt from Regl. duties when the committees are not sitting.
- G. O. C. C. 12th Oct. 1806 It is to be considered a standing regulation of the Army, that no Officer shall be employed on any survey whatever, or act as superintending Officer of native Courts Martial, until a period of two years shall have elapsed from the date of first joining their respective corps; at the same time the Commander in Chief recommends that young Officers, during such interval, be constantly required to attend Courts Martial for the purpose of qualifying themselves for the duties of their situations. No Officers to be employed to superintend Native Courts Martial or on survey duty until two years.
- Let. Adj. Gen. 15th Apr. 1797 The Commander in Chief considers the superintendence of the administration of justice, as one of the most important duties of an Officer; it requires experience in Military points, and, in Courts composed of natives, a knowledge of their language and customs: and as these qualifications are most likely to be found in Officers who have attained the rank of Captain, he should look to that class of Officers for the superintendence of Regimental Courts Martial, were it not that the frequency of such Courts, and the small proportion of Captains generally present with a Regiment of Native Infantry, and particularly with a detached Battalion, would cause the duty to bear rather hard upon them. It happens in the Bengal Army there are subalterns of long standing, and in general such a number of them, as may be employed in the duty of superintending the proceedings of Regimental Courts Martial, without having recourse to Captains or young Officers, whose want of experience may render them unfit. Captains may be very properly em-

ployed as superintendants of Line Courts Martial, or even of Regimental Courts Martial in cases of peculiar intricacy, but their roster for such duties must be kept separate from that of Subaltern Officers.

Prohibition of Officers travelling with escorts sending into villages for provisions coolies, &c. Military Officers or other persons to whom escorts may be allowed, when travelling through the country by land, or proceeding by water, are forbid to send Sepoys or Lascars into the villages, for the purpose of procuring any sorts of provisions, or of pressing Coolies or Dandies, every town or village, upon proper application to the chief person in it, will, in consequence of instructions from the several Collectors to that end, furnish such assistance. in the above points, as they may be capable of affording, and, by ~~that~~ means, render forcible and violent measures entirely unnecessary. M. C. 16th May 1790

And of Officers employing Sepoys on private business, The Commander in Chief, warmly interested for the credit and character of the Army, is extremely concerned that a necessity should have occurred for Government calling upon him to take such measures as he may think best calculated to prevent Officers employing Sepoys out of the regular line of their duty. C. O. C. C. 1st June 1790

The necessity, however, having arisen out of Proceedings before Government in the Judicial Department, whereby it appears that a Sepoy, in consequence of an affair in which he was concerned, whilst employed in procuring milk for his commanding Officer, had been brought to trial for murder, and declared liable to death by the Mahomedan Law Officer;—the Commander in Chief feels it incumbent upon him, as well in obedience to the orders of Government, as from his own sense of public duty, to restrain the practice of employing Sepoys on private business.

It must be obvious to the experience of Officers that the discretion of Sepoys, when so employed, is not to be trusted; and that however contrary the use of forcible means may be to their intentions, and even orders, such means will frequently be resorted to; whence violence to the persons, and injury to the property of the inhabitants must occasionally ensue.

Further, the Commander in Chief looks upon the employment of Sepoys on private business, not less objectionable in a Military than a Civil point of view; as being incompatible with their duty, and inconsistent with their character of Soldiers, he therefore recalls the attention of the Army to the various orders which have been issued on the subject of sending Sepoys into villages on the plea of providing necessaries, Coolies and Dandies, and thinks it his duty to add that any Officer deviating therefrom will be liable to the most serious responsibility.

Or out of the line of their Military duty. The Commander in Chief will not fail to notice in the most serious manner the conduct of any Officer, who, in defiance of the repeated regulations and orders of this Army, shall presume to employ men placed under their command in any way, whatsoever, that may not be strictly in conformity with the regulations of Government, and within the line of their Military duty, as Soldiers. G. O. C. C. 1st Nov 1806

Reports from Officers passing stations with escorts. Officers, or others, having guards or escorts under their command, are required, when reporting their arrival at all stations, posts, or detachments, which they may pass, to specify the strength of every such guard or escort, and the corps to which they belong.

Prohibition of Officers travelling interfering with the dak hircarrabs Numerous complaints having been made that the hircarrabs of the Honorable Company, stationed on the roads for the purpose of forwarding the public dispatches, are frequently taken by force from their stations by Officers passing through the Provinces, being compelled to furnish provisions and other necessaries, to serve as guides and coolies, and being often beat and otherwise ill treated, it is now declared, that if any Officer, Soldier, or retainer to a Camp, shall be found guilty of offending herein after the publication of this order, they will be punished, according to the nature of the offence, by the judgment of a General Court Martial. G. O. 27th Nov 1778

No Officers to receive presents for recommendation or promotion. No Officer shall, on pain of being dismissed the Service, demand or receive, either directly or indirectly, any present, fee, or reward for the admission or recommendation of any person to be promoted in the Military service. Let. C. D. 17th June 1811

Officers purchasing commands to be dismissed. PARA. 52d—Officers exchanging commands by purchase shall forthwith be dismissed the service. Let. C. D. 4th March 1767.

- Ext. Let. C. D. 15th Dec. 1775 As the custom of receiving complimentary nuzzers, or presents, is not only liable to abuse, but also contrary to the late act of Parliament for regulating India Affairs, we direct that strict obedience be paid to the said act, not only by all the members of our Council, but by every person in our service; and by all British Subjects residing in India under our protection. No nuzzers or presents to be received by any persons in the Company's service.
- Let. C. D. 31st Jan. 1776 PARA. 32d—We direct that the prohibition contained in the 18th article of the regulations formed by the Committee of Revenue, in 1772, relative to the lending of money to zemindars, farmers, or ryuts, be extended to all our servants of every denomination, and that every person, who shall be found so offending against this order, be forthwith suspended from holding any appointment under the Company until our pleasure shall be known. Prohibition of lending money to Zemindars, Ryuts, &c. &c.
- M. C. 30th April 1790 All Military Officers are prohibited by Government from exacting or receiving interest or premium for loans of money, in any part of India, beyond the rate which would be considered as legal within the Company's Provinces; and any Officer, who shall be convicted before a Court Martial of practices which would be looked upon as usurious within the Company's Provinces, in defiance of the prohibition of Government, will be deemed unworthy to remain in the Honorable Company's Service. And of receiving interest or premium for loans, beyond the legal rates.
- G. O. G. G. 20th Feb. 1809 Captain J. Leathart, of the 26th Native Infantry, who is charged with being the author of certain papers of a seditious nature, and with an attempt to circulate those papers among the Officers of the Army on this establishment, having been suspended the Honorable Company's Service from the 30th ultimo, and ordered to hold himself in readiness to embark for England, on one of the ships of the ensuing fleet, the Governor General in Council is pleased to direct, that the resolution of Government, respecting Captain Leathart, shall be published in general orders. An officer suspended on charge of editing papers of an objectionable nature.
- Let. C. D. 29th Mar. 1774 Before the removal of any Company's servant from his office, the party is to be made acquainted, in writing, with the accusation preferred against him, and a reasonable time allowed him to make his defence. No officers to be removed from situations without previous intimation of the charges preferred against them.
- M. C. 3d Aug. 1779 It is directed that no Company's servant or Military Officer be henceforth dismissed the Service, until his case shall have been represented to the Court of Directors, for their determination, except such Military Officers as shall be cashiered by the sentence of a Court Martial. No Officers to be dismissed without reference to the Court, except those cashiered, who are to be sent immediately to England.
- Let. C. D. 29th Aug. 1783 PARA. 17th—Officers dismissed by the approved sentence of a General Court Martial, must proceed to Europe on one of the ships of the season in which sentence has been passed. We hereby direct that you observe it as a standing order, that when Officers shall be dismissed by the sentence of a Court Martial, and the same meeting with your approval, such Officers must, on no account, be permitted to remain in India.
- G. O. C. C. 16th Oct. 1801 The Commander in Chief having observed a want of uniformity in the dress of the European Commissioned Officers of the Army, is pleased to lay down the following Regulations, for the due observance of which commanding Officers of Regiments and Battalions shall in future be held responsible. Regns. for the uniform of Infantry Officers,
- The full uniform of all Infantry commissioned and non-commissioned Officers is to be the jacket that is now in use, black round hats, white pantaloons and half boots. Hats, Pantaloons & Boots.

White sword belts to be worn over the jackets, with one cross belt for the cartridge box. The sabre-dash to be laid aside. Long boots to be worn when mounted, and half boots with screw-spurs when dismounted.	
Boots.		
Buttons to be worn by Officers.	The Commander in Chief recommends to all the Officers of the army to procure buttons, as soon as they conveniently can, with the Honorable Company's badge, the lion upon them; those who belong to Regiments having in addition, and above the lion, the number of the Regiment according to the corps to which they may belong.	G. O. C. C. 11th July 1787
Uniform of Quarter-masters and Adjutants.	Quarter-masters and Adjutants to wear the Regimentals of their respective corps.	G. O. C. C. 5th Aug. 1796
Addl. Regts. for the uniform of Infantry Officers.	The Commander in Chief is pleased to establish the following particulars of dress for the Officers of the European and Native Infantry of the Bengal Army.	G. O. C. C. 4th Mar. 1808
	Jackets, plain double breasted, with buttons of the pattern adopted by Lord Lake.	
	Epaulets and wings as heretofore.	
Belt Plates.	Belt plates and belts.—The plates to be either gilt or silver, according to the colour of the button, and of an oval shape, with the number of the Regiment only, embossed in figures.	
Belts.	Belts, of whitened buff leather, worn over the jacket.	
Sashes.	Sashes of crimson silk, as now used, but to be worn over the jacket and shoulder-belt.	
Swords and Sword-knots.	Swords and Swords Knots.—Swords to be of the same pattern as is established in His Majesty's Service, vizt. a brass guard pommel and shell, gilt with gold, with the grip or handle of silver twisted wire; the blade to be straight and made to cut and thrust, to be one inch at least broad at the shoulder, and 32 inches in length; the sword knot to be crimson and gold in stripes.	
Stocks.	Stocks, of black silk tied behind; the shirt collar displayed half an inch over.	
Sword for the Artillery and Engineers.	The King's regulation sword, as described above, is also to be worn by the Officers of Engineers and Artillery; and with a view to insure a supply of the buttons, commissioned by Lord Lake, complete sets will, in the first instance, be forwarded to all corps in the Army, from the house of Gibson, Son and Knox, of Calcutta, by whom the cost will be accounted for by Staff Officers of corps.	
Dress permitted to be worn by Officers off duty.	Long coats, corresponding with the Regimental jackets, breeches, stockings and shoes, with cocked hats, are permitted to be worn by all Officers on occasions not connected with public duty.	
	The house of Gibson, Son and Knox is provided with corresponding buttons for the Staff of the Army, General, Station and Garrison.	
Shoulder Belts and Swords worn by Infantry Officers.	The shoulder belt and sword, laid down in the general orders of the 4th March last, is to be worn by Infantry Officers of every denomination, nor is there to be any difference in the manner of wearing them.	Ext. Let. Adg. Dept. Ad. Gen. 9th Aug. 1808

The waist belt and sabre, heretofore worn by mounted Officers, are to be discontinued, as wearing the sash over the shoulder-belt will obviate the inconvenience which may be supposed to have given rise to the use of sabres and waist belts among the mounted Officers of the Army. of every denomination in the same manner.

The Swiss jacket to continue to be worn on all Regimental duties, and on the line of march, as authorized by general orders of the 16th October, 1801. Swiss jacket continued to be worn.

G. O. C. C. 1st Nov. 1796. The only mourning to be worn by Officers is a black crape round the left arm, above the cuff of the coat. Mourning how to be worn by officers.

G. O. C. C. 1st Aug. 1786. The Commander in Chief expects that commanding Officers will be very attentive to preserve the strictest uniformity of dress in their respective corps, as well in the particulars described, as in any other minutiae, which may conduce to the handsome and military appearance of the Troops. Commanding Officers to preserve uniformity of dress.

G. O. C. C. 11th July 1787. Lord Cornwallis is of opinion that an Officer of any rank can seldom be dressed with more propriety and convenience than in his Military uniform; he therefore expects that no Officer, even when on leave of absence from his duty, shall appear in public in any other dress; and he positively orders that the Officers, while at their proper stations, do not appear in public in any other dress than their uniform upon any pretext whatsoever. Officers not to appear out of uniform.
The commanding Officers of Stations, Brigades, and Regiments are to be responsible that this order is strictly complied with.

G. O. C. C. 27th April 1790. In order that Officers in the British service may not be exposed to the risk of disrespectful or uncivil treatment in any of the foreign settlements, from ignorance of their situation and character, the Commander in Chief directs, that whenever British Officers visit the settlements of foreign nations, they do constantly appear in the uniform dress of their profession.

G. O. C. C. 16th October 1802. In all applications for leave of absence, the date on which the leave is wished to commence is to be mentioned, otherwise it is to be understood to commence from the date of its publication in general orders. Applications for leave of absence to specify when it is wished to commence.

G. O. C. F. 16th July 1792. The commanding Officer of the forces having had occasion to observe that Officers are frequently returned absent from their corps beyond musters, without application from their commanding Officers for confirmation of leave, it is directed that this practice be discontinued in future. When granted on emergent occasions by commanding Officers to be reported to the Commander in Chief for confirmation.

In cases of very urgent necessity, when commanding Officers find it requisite to grant leave of absence, without waiting for the previous sanction of the Commander in Chief, immediate notice thereof is to be given to the Adjutant General, in order that the Commander in Chief's sanction may be obtained and published in general orders.

G. O. C. C. 19th July 1807. The Provincial Commander in Chief, with the view of regulating the indulgence of leave of absence in India to European Officers, as well as to prevent the abuse of that indulgence, and to maintain the efficiency of corps as much as possible, at the same time affording all reasonable consideration to the urgent occasions which may arise, requiring the absence of Officers from their corps;—he is pleased to issue the following orders on the subject, and Officers commanding corps and stations will be held responsible for their being invariably and strictly complied with. Regulations for granting leave of absence in India.

With reference to the great scarcity of Officers doing duty with the several corps of the Army it is requisite in the first instance, that on receiving any application for leave from an Officer or Officers to be absent from their corps, commanding Officers shall satisfy themselves of the object and necessity for such leave being granted, and which is also to be specified in the application, and they will moreover consider it their duty always to exercise their discretion in forwarding applications or rejecting them, by adverting to the calls of the public service at the time, as well as the claims of individuals to indulgence, founded on the grounds of punctual attention and zealous discharge of their duty, whilst present with their corps, or conduct of a different tendency, partaking of remissness or wilful inattention. Rules for commanding officers in forwarding applications.

Prohibition of Officers applying for any extension

All Officers applying for leave to visit the Presidency, from distant stations of the Army, or other stations or places at considerable distances from the station of their corps, are required to calculate the period of time necessary for performing the journey from and back to their corps, as well as the intermediate time that may be indispensibly necessary for fulfilling the object of their leave, and whenever the Commander in Chief may be pleased to comply with applications under the circumstances above prescribed, it will be on the express condition that no subsequent application for the renewal of the leave, under any circumstances, excepting that of sickness, duly certified, will be allowed, and that every Officer, who shall not rejoin by the expiration of the leave granted, shall be returned absent without leave, and be liable to such further notice of his conduct, as the circumstances of the case may require.

Leave between muster & muster now granted.

Periods of leave to remain at the Presidency to Officers arriving from Europe.

And reports on their arrival.

Leave between muster and muster may be granted by commanding Officers of stations and out-posts, without reference to Head-quarters, but under the conditions above prescribed, with regard to exceeding the leave granted in the first instance.

Officers and Medical Staff returning from furlough in Europe will be allowed one month to remain at the Presidency from the day of their arrival, to that of their proceeding to join their corps, and all who may not join within the period allowed by the boat regulations from that date, are in like manner to be returned absent without leave.

All Officers or Medical Staff, arriving from Europe, are to report the date of their arrival to the Major of Brigade at the Presidency station, by whom it is to be reported to the Officer commanding the corps, to which such Officers belong. Reports are also to be made, as at present, in writing to the Office of the Adjutant General and Town Major by Officers, &c. returning from Europe.

Period of leave to remain at the Presidency for Officers discharged from Barasut.

The foregoing rules are to be considered applicable to all Officers ordered to join corps from the Cadet Institution, who will be also subject to be returned absent without leave, in the event of not joining their corps within the period prescribed by the boat regulations, allowing 15 days from the date of their being discharged from Barasut, to that of their departure from the Presidency.

Officers, &c. proceeding on furlough when to embark, or altering their intention in what period to rejoin their corps

The Provincial Commander in Chief is further pleased to direct, that Officers and Army Staff who may obtain leave to repair to the Presidency, preparatory to embarking for Europe on furlough, be required to embark on the earliest ships, on which a passage can be procured after their arrival, and in the event of any Officer or Army Staff altering their intention, and not proceeding by the first opportunity that may offer, they will be expected to rejoin their corps within the periods hereafter prescribed, on failure of which they will be returned absent without leave.

Officers whose corps are at and below Chunar and its dependencies, to join in three months from the date on which they may have left their corps.

Officers whose corps are at Cawnpore, Allahabad, and in the Vizier's dominions, and in Bundelkund, to rejoin in four months from the date on which they may have left their corps.

And Officers of all corps in more distant situations to rejoin in five and half months from the date of quitting their corps.

Commanding Officers of corps and stations are required to pay the strictest attention to the due observance and enforcement of these regulations.

Officers on leave when to rejoin their corps.

It is to be understood in future, that Officers, whether absent for the recovery of their health or on account of their private affairs, are expected to rejoin their corps on or before the day to which they have specific leave to be absent. G. O. C. F. 4th Apr. 1792.

To report if prevented joining by unavoidable necessity.

All Officers ordered to join, who have received leave of absence from their corps on account of sickness or any other cause, and who shall be disabled or prevented by any unavoidable necessity from proceeding or returning to their stations, shall give due notice thereof to the commanding Officer of the corps to which they belong, that they may be regularly accounted for to the Commander in Chief in the monthly returns. M. C. 13th June 1782.

Proportion of Officers beyond which is not to be exceeded.

Commanding Officers of corps are not, on any account, to suffer applications for leave of absence to pass through them for a number exceeding one third of the complement of the Officers of their corps, without the most urgent necessity, setting forth the same in their addresses forwarding such applications. G. O. 16th Oct. 1774.

- G. O. C. C.** 25th Apr. 1808 Officers coming to the Presidency on leave of absence, or returning from Europe or from sea, are directed to report the place of their residence to the Brigade Major to the Troops at the Presidency; and as often as they may have occasion to change their abode, they are to notify the same to the Brigade Major. Reports of their residence, by Officers on leave at the Presidency.
- G. O. C. C.** 25th October 1808. The Commander in Chief is pleased to direct that it be considered a standing regulation, during the time of his Excellency's residence in the field, that no Officer or Military person shall be permitted to visit Lucnow, without his special leave, except when ordered on duty. No Officers to visit Lucnow when the Commander in Chief is in the field without his sanction.
- Field Army Orders, 22nd Nov. 1808.** Officers at the different Stations and posts in the field are again referred to the indispensable necessity of intimating, to the Resident at Lucnow, their intention of travelling through the Vizier's dominions.—Letters upon that subject have frequently been received after the actual departure of Officers from the stations they belong to, precluding the possibility of those precautionary measures being taken, which his Excellency the Vizier has directed for their security. Intimation to be given of the intention of Officers to travel through the Vizier's dominions.
- Officers will address themselves on these occasions by letter to the Resident, stating the day of their intended departure, which will be forwarded under cover by the senior Officer of the post they may proceed from.
- G. O. C. C.** 6th Sept. 1806 All Officers, Surgeons or Assistant Surgeons, who may be permitted to visit other Presidencies, or to proceed to sea for the benefit of their health, are directed to report the date of their embarkation, the name of the ship on which they proceed, and the date of their return to the Presidency to the Town Major and to the Adjutant General, at Fort William. Reports to be made by Officers arriving at or quitting the Presidency.
- Officers, Surgeons, Assistant Surgeons, Chaplains or warrant Officers, who may arrive at the Presidency from Europe, or on leave, or duty from other stations, are also reminded of the necessity of reporting their arrival to the Town Major and Adjutant General, and are strictly enjoined always to report in like manner the date of their departure from the Presidency.
- All Officers and Assistant Surgeons, appointed to corps in the first instance, are also directed to make similar reports on proceeding to join their corps.
- G. O. C. C.** 21st Nov. 1807 Officers obtaining leave to proceed to sea on account of health, who shall find themselves disappointed of the opportunity for making the voyage, or who do not avail themselves of the indulgence by the first that offers, whether in the case of intermediate favorable change of their complaint, or otherwise, are required to report the circumstances of their situation, through the proper channel, to the General Officer commanding at the Presidency for the information of the Commander in Chief. And by Officers who having leave to go to sea, may relinquish their intention.
- M. C. 1st Oct. 1786** Resolved, that it be left with the Governor General to grant permission to Officers to proceed to sea on account of indisposition, and ordered that all applications of this nature be made, in future, accordingly. Leave to proceed to sea for the recovery of health granted by the Gov. Genl.
- G. O. 23d April 1791** All Officers, who may wish to go to sea for the benefit of their health, are directed to apply in future to the Governor General in Council for that purpose through the Adjutant General. And applications how transmitted.
- It is to be understood that their applications are to be transmitted, according to the standing rule, through the channels of their respective commanding Officers, and accompanied by the prescribed certificates from their Surgeons.
- M. C. 5th May 1783.** Whenever it shall appear necessary for any Officer to apply for leave of absence on account of sickness, whether for medical advice or for change of air, he shall be furnished with certificates in duplicate, signed by the Surgeon of his corps, describing his disorder, and declaring that such leave is, in his opinion, absolutely necessary, to be granted to such Officer for the restoration of his health. Certificates furnished by Officers applying for leave on account of sickness, and continued monthly until they are recovered.
- Every Officer who may obtain leave of absence on account of sickness shall, until he is recovered, procure monthly certificates, in duplicate, from the Military Surgeon of the station where he may be, specifying the state of his health and his inability to return to his duty.

Certificates transmitted by officers on sick leave at other Presidencies,

Officers who obtain permission to proceed to sea for the recovery of their health shall on their arrival at the settlement they may visit, and afterwards monthly, so long as they continue ill at them, procure the like certificates in duplicate from the Surgeons of such settlements, which they are to transmit, as conveyances may offer, to the commanding Officer and Paymaster of their corps.

And in case of detention there after their recovery,

When an Officer going to sea for the benefit of his health shall happen to be detained at any settlement after his recovery, for want of a conveyance to return to Bengal, he shall procure certificates thereof, in duplicate, from the commanding Officer, the Town Major, or other public Officer; one to be produced to his commanding Officer, and the other to the Paymaster of his corps.

Or in the event of its being necessary they should remain there or make a longer voyage.

Officers, who proceed to other settlements for the recovery of their health, shall apply to the principal Surgeons for certificates of the state of their health, and such Surgeons shall be required to express their opinion, whether or not a longer residence in such settlement or a further voyage is deemed necessary for the recovery of the Officers.

G. O. 8th Oct. 1789.

Form of sick certificate to officers on account of their health republished, & strict conformity therewith to be observed.

It having come under the notice of the Provincial Commander in Chief, that the rules and regulations established with regard to Officers absent from their corps in India, on sick certificate, are in many material points totally unattended to, and also that the certificates furnished on such occasions are frequently very defective in form, he is pleased to direct that the forms of certificate prescribed by General Orders of the 8th October, 1789, shall be republished in General Orders, and the Provincial Commander in Chief relies upon the responsibility of commanding Officers for not forwarding to Head-quarters any certificates that may not be in strict conformity with the rules prescribed.

G. O. P. C. 18th July 1807

Form of certificate.

I, A. B. Surgeon at or of do hereby certify that E. F. Lieutenant, of the Regiment of European Infantry (or other corps) is in a bad state of health, and I solemnly and sincerely declare, that, according to the best of my judgment, a change of air is essentially necessary to his recovery, and do therefore recommend, that he may be permitted to proceed to sea, or upon the river, (or to such place as the surgeon may think proper, expressing it in the certificate).

Certificate by whom to be countersigned.

These are to be prepared in duplicate, and to be countersigned by the Superintending Surgeon, or senior Medical Staff, where there may be more than one present; they are also to be countersigned by commanding Officers of corps, in testimony of their being of opinion the measure is necessary and proper.

One certificate to be forwarded to Head-quarters and one to the Paymaster of the corps.

To be regularly transmitted by officers sick absent every month.

The orders under date above mentioned, which direct that certificates shall be forwarded monthly, by all officers absent on sick leave, are also to be complied with, and any officer neglecting to transmit such certificates on the 1st of every month, or as soon after as the circumstances of his situation may permit, will be liable to the consequence of being absent without leave.

Form of certificate.

I, A. B. Surgeon at or of do hereby certify that Lieutenant E. F., of the Regiment of the Bengal Establishment, (if at another settlement) arrived here on the day of in a bad state of health, (or convalescent, and I solemnly and sincerely declare, according to the best of my judgment, it still continues such as renders it improper that he should yet proceed to join his corps.

One of these certificates is to be forwarded monthly to the commanding Officer of the corps and one to the Paymaster.

Report by officers returning from sick leave from sea, &c. and in what periods to rejoin their corps.

Officers returning to the Presidency, after a voyage to sea on account of their health, are to report in writing to the Adjutant General, Town Major, and commanding Officer of their corps, and will be expected to rejoin their corps within the period allowed by the boat regulations from the date of their return to the Presidency; and in like manner all Officers, absent on sick leave, are required, as soon as recovered, to make a report accordingly to the Officer commanding their corps when the transmission of the monthly certificates will cease, and, from the date of such report, Officers are to rejoin

their corps, within the period allowed by the boat regulations, and in failure of doing so, in any of the foregoing instances, they are to be reported absent without leave, when such notice will be taken of their conduct as circumstances may render necessary.

Officers coming to the Presidency on sick leave are reminded of the necessity of bringing from their Paymasters certificates of the last pay received, without which no pay can be drawn at the Presidency, and all Officers who may arrive at the Presidency from Europe, from sea, or from other stations, on leave or on duty, are strictly enjoined to report in writing the date of their departure, as well as arrival, to the Town Major and the Major of Brigade at the Presidency station.

Certificates to be brought and reports to be made by Officers on sick leave to the Presidency.

G. O. C. C. in
Nov. 25-7. In addition to the directions laid down in General Orders of the 18th July last, respecting sick certificates, an explanation by the Surgeon granting a sick certificate, is invariably to be subjoined, containing his reasons for recommending the indulgence of change of air, to the Presidency in particular; and the attention of commanding Officers, as well as the Medical Staff of the Army, is again particularly called to the General Orders above referred to; and the Commander in Chief expects that no sick certificates or applications for leave of absence, on any account, will in future be transmitted to Head-quarters, that are not in strict conformity to the regulations now in force on that head.

Additional orders regarding sick certificates and the forms to be observed.

Proc. G. C.
25th Jan. 1806 The Governor General in Council considers a reference to him from the Bengal Officers serving at Columbo, with a view to obtain permission to proceed to sea for the recovery of their health, in any cases of certified sickness, for any space of time not exceeding six months, unnecessary.

Reference to the Gov. Gen. from Officers serving in Ceylon for leave to proceed to sea, unnecessary.

M. C. C. in
N. 1. 1794 Resolved, that Lieutenant H. Scott be permitted to proceed to sea, and as far as the Cape of Good Hope, for the recovery of his health, and that he be further allowed to continue his voyage to Europe, in case the latter should be thought advisable.

Regulation granting the allowances of their corps to Officers proceeding to the Cape and eventually to Europe for their health.

The Board however deem it proper to direct, that Lieutenant Scott be restricted from drawing any allowances after his embarkation; but to this order an exception will be admitted, that, in case of his death, upon the passage, between Bengal and the Cape, his allowances will be continued to such period, upon a certificate from the commander of the ship of the date of the casualty; or if he should not proceed from the Cape to Europe, six months being allowed for his stay at the former, his allowances may be drawn on his return to this Presidency; but if after a residence of the above period at the Cape he shall not have recovered his health, and should find it necessary to proceed to Europe, he will be entitled to his allowances to the above period, upon certificate of his residence at the Cape from some public officer of the Dutch Government.

That this be considered a standing regulation with respect to all Officers desiring to proceed upon leave, in case of ill health, to the Cape of Good Hope and eventually to Europe.

G. O. C. C.
11th April 1804. The regulations in force relative to Officers permitted to proceed to the Cape of Good Hope and eventually to Europe, on account of their health, are to be considered applicable to Officers who may be permitted to proceed to St. Helena and eventually to Europe, for the recovery of their health, and are to be strictly attended to.

Extended to St. Helena.

G. O. C. C.
24th July 1809. The Governor General in Council having had occasion to notice that the spirit and intent of the regulations of Government, dated the 30th November, 1792, and 12th April, 1804, whereby it is provided that Officers proceeding to the Cape of Good Hope, or St. Helena, for the recovery of their health, shall receive, under certain restrictions, the full allowances of their corps for 6 months, have been lost sight of; his Lordship in Council, with the view of guarding against any deviation from those rules, is pleased to notify that in no case will an Officer, obtaining permission to proceed to the Cape or to St. Helena, under the regulations of the 30th Nov. 1792, or under other circumstances, be permitted to receive any allowances beyond the pay of his Regimental Rank and off-reckonings (if of a rank to entitle him to share in that fund) during a term of residence at the Cape of Good Hope or at St. Helena exceeding 6 months from the date of his landing at either of those settlements.

The grant of the allowances of their corps restricted to 6 months from the date of landing at those settlements.

Proc. M. C. 19th
Dec. 1796. Officers and Surgeons (in the event of continued sickness) proceeding from the Cape to Europe will now be entitled to the full pay of their Rank in the same manner as Officers going to Europe on leave of absence.

Pay now granted to officers proceeding from the Cape, &c. to Europe.

Officers, &c. All Military Officers, Surgeons, and Assistant Surgeons, who shall obtain the permission of the Governor General in Council to proceed to the Cape of Good Hope, for the recovery of their health, under the prescribed certificates of sickness, shall be permitted to proceed to that settlement either direct or by way of St. Helena, without forfeiting those allowances they would have been entitled to under the existing regulations if they had proceeded to the Cape direct.

Allowances of Officers on leave at sea, Cape of Good Hope, &c. how drawn. The pay, &c. of Officers at sea, the Cape of Good Hope or the other Presidencies, for the recovery of their health, who may be desirous of having their allowances payable in Calcutta, is not to be included in the abstracts of Companies, but the Officers to furnish the Military Auditor General with certificates of the last pay received from their respective Paymasters, and he is authorized to pass their pay, &c. in separate bills drawn either by the Officers themselves, or by their attorneys, to the periods to which it shall be duly certified they are alive, provided it does not exceed the limits of their leave of absence.

M. C. 20th
May 1797.

Allowances to an Officer who having obtained sick leave to Europe, returned from the Cape. The Governor General in Council, in consideration of the peculiar circumstances of the case of Lieutenant Burrowes, of His Majesty's 8th Dragoons, and as an exception to the general rule by which the allowances of an Officer, leaving this Presidency for Europe on sick certificate, are required to be regulated, is pleased to grant to Lieutenant Burrowes (who has returned from the Cape of Good Hope) the same allowances as would have been passed to him, under existing orders, if his leave of absence had specifically admitted of his proceeding to the Cape of Good Hope.

Proc: G. G. 3d

Absence on account of sickness to the Cape and other settlements included in the period of service. We have determined to allow the period of time, during which Officers may be absent under regular permission, either to the Cape of Good Hope or the other settlements, to be included in their length of service, in calculating the period required to entitle them to retire on full pay; but it must be clearly understood that such absence is occasioned by ill health only, for if Officers are permitted to proceed to the other settlements on their own private concerns or for their own pleasure, it seems no more than reasonable that the period of such absence, on these accounts, should be considered in the same light as if they had been allowed to come to Europe on similar causes.

Let. C. D.

I hereby certify that A. B. is in a very bad state of health, and that I think a return to Europe necessary for his recovery.

No. 3.

I do hereby certify that A. B. is in an extremely bad state of health, and that according to the best of my judgment a speedy return to Europe is indispensibly necessary for his recovery.

Period for transmission to Headquarters of applications of Officers to proceed to Europe on furlough. With a view to obviate the irregular practice of Officers obtaining leave to quit their corps, at various periods of the year, on the plea of preparing for their return to Europe on furlough, the Provincial Commander in Chief is pleased to prescribe the following rules on the subject, which are to be strictly attended to in future.

Officers and Medical Staff who may be desirous of proceeding to Europe on furlough, are to forward their applications, accompanied by the requisite statement of actual service

G. C. P. C. 6th
April 1807.

in India, through the prescribed channel so as to reach the Adjutant General's Office by the 15th of August of each year, to enable the Commander in Chief to submit the whole in a connected point of view for the orders of Government, which, when received, will be issued in sufficient time, for all, to whom furlough may be granted, to repair to the Presidency and to embark on the first fleet of the season.

Commanding Officers of corps and Stations, in transmitting applications for furlough or any other applications, from the Officers or Staff under their command, are required to state their opinion on the propriety and public expediency, or otherwise, of the object of such applications.

Commanding Officers state their opinion on the expediency of all applications they transmit.

G. O. C. C. 26th Dec. 1806 No applications for furlough to Europe are to be forwarded at any other time than that above mentioned, except in cases of certified sickness.

Applications for furlough only forwarded at the prescribed period and accompanied with a statement of length of service and pay certificates.

The Commander in Chief directs, that the application of all commissioned and warrant Officers, Surgeons and Assistant Surgeons, for leave to proceed on furlough to Europe, be always accompanied by a statement of their actual service in India: describing also any intermediate absence on furlough, or otherwise, since the time of their first arrival.

Without such statement, no applications for furlough will be received, and at the same time the certificate from the pay department, with any other requisite documents, are to be forwarded, that the whole may be presented to Government at the same time.

G. O. C. C. 18th Feb. 1797 Officers and Surgeons going to Europe on furlough, are directed to report to the Adjutant General's Office the ships on which they proceed, immediately previous to their embarkation.

Officers &c. proceeding to Europe report the ship they embark on, and, if on other ships than those of the Company, the date of the Pilot's quitting

G. O. 3d Feb. 1799 All Officers, Surgeons, and Assistant Surgeons proceeding to Europe on any other ships than the Company's regular Indiamen, are directed to report, in writing, to the Governor General's Military Secretary, the days on which the Pilots quit their respective ships, which they will always have an opportunity of doing by the return of those Pilots.

M. C. 18th Oct. 1796 Officers proceeding on foreign ships are enjoined to attend to the necessity of forwarding to the Secretary of Government certificates from the Captains or Pilots specifying the date of dispatch.

The Secretary to Government is directed to send to the Honorable Court of Directors, by each succeeding dispatch, lists containing the name and rank, with the date of departure, of any vessel, on which Military Officers have embarked on furlough, and to forward a general report thereof, by the first ships of each season, including all those of the preceding year.

Lists of Officers &c. proceeding on furlough transmitted to the Court of Directors.

M. C. 10th Nov. 1796 Leave of absence to Officers to go to Europe shall commence from the date of dispatch of the ships on which they may happen to embark; and the Civil Servants who dispatch the ships are accordingly required to report the dates of their dispatch, and names and rank of the Military Passengers, to the Secretary of Government.

Furlough to them when to commence.

Ext. Let. C. D. 8th Jan. 1796 That the following proportion of the Company's Officers at each Presidency be allowed to be absent, viz. one third of the Lieutenant Colonels and Majors. One fourth of the Captains and Surgeons to the Troops, and one sixth of the Subalterns and Assistant Surgeons to the Army.

Proportion allowed to be on furlough.

That the period of furlough be for three years, reckoning from the day of its date, to the return of the Officer to his respective Presidency.

Period of duration of the furlough.

You will observe, that though it is to be established as a general rule, that, in time of peace, leave of absence may be granted to the above proportion of Officers, yet, as those Officers are to be absent for three years, it will be requisite for the Government in India to grant leave of absence in such a proportion that nearly an equal number may continue on furlough every year: and consequently the proportion to be annually granted will be one third of the proportion allowed to be absent together, regard being had to the number of Officers who are compelled to come home on account of sickness.

Proportion to which furlough may be annually granted.

That subalterns be ten years in India before they can be entitled (except in case of certified sickness) to their rotation to be absent on furlough, and the same rule to be applicable to Assistant Military Surgeons. The furlough to be granted by the Commander in Chief at each Presidency with the approbation of the respective Governments.

Subalterns and Assistant Surgeons to be ten years in India before they obtain furlough.

Which regulation is applicable to all Officers of whatever rank,

As the regulation which directs that subalterns must be ten years in India before they are permitted to come home on furlough, unless on account of ill health, has not been considered as extending to the Officers of higher rank, we think it necessary to direct, conformably to the evident spirit and intention of that regulation, that no Officer of whatever rank, that has not served ten years in India, be permitted to come to Europe on furlough, and to draw his pay, unless in case of ill health under the usual certificates.

Ext. Let. G. 7
2d Dec. 1866

Circumstances under which an Officer, not having served ten years, is allowed furlough.

Lieutenant W. H. Jackson, of the 24th Regiment Native Infantry, whose time of service in India does not entitle him to furlough on account of his private affairs, conformably to the regulations of the service on that subject, is, in consideration of the urgency and peculiar circumstances of his case, permitted to proceed to Europe, on furlough, on account of his private affairs; subject however to the confirmation and orders of the Honorable the Court of Directors; Lieutenant Jackson relinquishes all claim to pay from the date of his embarkation for Europe.

G. O. C. 11.
9th Sept. 1863

Rules for the observance of Officers proceeding on furlough.

The Governments in India are to give public notice to the Army, two months at least, before the dispatch of the first ship of each season, and all Officers, wishing to avail themselves of this indulgence by the ships of the ensuing season, are to signify the same to Government, through the Commander in Chief, as soon as possible.

Let. C. D. 22d
April 1790

Period to which paid in India.

On the receipt of the applications above mentioned, the proportion of Officers who may be permitted to come home, agreeably to the established regulations, being ascertained by Government, with the approbation of the Commander in Chief, such Officers are to receive their pay and allowances in India, up to the day of their embarkation, or such other fixed periods as Government may see proper. A certificate, to be signed by the Secretary to the Government, to be given to each Officer, previous to his embarkation, stating the permission granted to him for leave of absence on furlough.

Certificate of permission to proceed on furlough by whom granted, and the form ordered.

Form of certificate with which Officers returning to England on furlough are to be furnished by the Secretary to Government.

I O R M.

I do certify that on the _____ of _____, 181____, A. B. Captain, &c. in the Honorable Company's Military Service, on the Bengal establishment, obtained the permission of the Governor General in Council to proceed to Europe on furlough, for three years, on his private affairs, or on account of sickness, such leave of absence to commence from the date of the dispatch of the ship _____ commanded by _____

Given under my hand at
Fort William in Bengal,
this _____ day of _____ 181____.

Certificate of the date to which pay has been received.

Another certificate to be given to each Officer, signed by the Military Paymaster General, specifying the date to which he has received his pay in India, prior to his leaving the settlement.

Let. C. D. 22d
April 1790

Duplicate and triplicate certificates sent to Europe.

Duplicates of the foregoing certificates to be forwarded in numbers in the packets of the ships, on which the Officers proceed to Europe, and triplicates by the next dispatches.

Certificates furnished by Officers applying for furlough on account of sickness, &c.

No Officer to be permitted to come home on furlough, without producing to Government, according to the rules now in force, a certificate from the proper Officers that the Company have no demand against him.

Subalterns and Assistant Surgeons of the Army applying for leave of absence, on account of sickness, shall produce a certificate signed by the Surgeon and Assistant Surgeon of the Regiment or Battalion to which they belong, or in respect to Assistant Surgeons, by the Surgeon of his own Regiment and of another at the same station, specifying the state of the health of the party, and their full conviction of the necessity of his proceeding to Europe on account thereof.

This certificate in the first instance to be laid before the Medical Board, who, on examination of the party applying, shall signify, on the back of the certificate, their opinion on his case.

Advances granted, but no pay to be drawn after quitting their respective Presidencies.

If any application be made to that effect, the Governments in India shall consent to make an advance to any Officer in part of his pay, while on furlough; notification of the same to be inserted on the certificate; but no pay to be drawn for Officers on furlough after their having quitted the Presidency to which they belong.

No Officer to be allowed his pay on furlough without producing the certificates required above; or, if the case should occur, an affidavit, setting forth that he received such certificates and has lost the same, stating by what means such loss has occurred.

General Officers or Colonels of Regiments permitted to come home on furlough, to receive their pay, in like manner with other Officers; and to have the annual amount of off- reckonings they are entitled to.

On his arrival in England, each Officer, having obtained permission to come home on furlough, shall address the Court stating such permission, and enclosing the proper certificates.

The pay to Officers on furlough to commence from the date of their last receiving pay in India, according to the certificate, and to be issued half yearly at Midsummer and Christmas, under the rules established for Officers retired from the Service, (*V. page 157.*)

As the amount of pay issued in England will not probably exceed two years' and a half full pay to each Officer, allowing half a year for his passage out, the remaining half year's pay shall be advanced, if required, on the Officer's taking his passage for the purpose of returning to his duty.

On return of Officers on furlough to their duty, a certificate in triplicate shall be made out by the Auditor, specifying to what period they have received their pay in England; one copy to be delivered to each Officer, the others to be forwarded by the ships next dispatched.

Affidavit in event of the certificates being lost.

Pay how received by Genl. Officers & Colonels.

Officers arriving in England, transmit their certificates to the Court.

Pay in England when to commence, when issued, & how drawn.

Advance to Officers returning to India.

And certificates to be furnished them.

M. C. 1th Jan. 1794 An advance of 6 months' pay is authorized, on application, to all Officers in the Company's Service, who may proceed to Europe with the sanction of Government.

Amount of advance to Officers proceeding to Europe.

Let. C. D. 3th June 1797 PARA. 5th—Resolved, that no Officer on furlough shall receive pay during such furlough, for more than two years and a half from the time of his quitting India, as allowed by the regulations, notwithstanding his furlough may have been extended beyond that period, unless when returning to his duty, when six months' more pay may be advanced, as allowed by the regulations.

No Officer to receive, on furlough, pay for more than three years except under the specific orders of the Court.

Ext. Let. C. D. 13th Mar. 1799 We direct that Officers, whose furlough has exceeded three years, from the time of their quitting India to that of their return, are not to be entitled to pay for any period of their absence beyond three years, but their pay is to recommence only from the date of their actual arrival from furlough, at the Presidency under which they serve.

As some cases however may occur, where Officers have been detained on their voyage home by unavoidable causes, out of the usual course, or by the late sailing, in some seasons, of the ships outward bound, the certificates of pay given by our Auditor will specify the exceptions to the general rule above prescribed, which we may think proper to admit of.

Ext. Let. C. D. 30th Aug. 1800 We have resolved, that no Officer who has drawn three years' pay on furlough shall be allowed any further pay, on being permitted to come home again on furlough, unless in cases of certified illness.

Those having received 3 years pay not allowed pay on a second furlough unless in event of sickness.

Ext. Act. Par. 11th June 1793 ARTICLE LXX.—And it be further enacted, that no person who shall have held any Civil or Military station whatever in India, in the Service of the said United Company, being under the rank or degree of a Member of Council, or Commander in Chief of the Forces, and who having departed from India by leave of the Governor General in Council or Governor in Council, shall not return to India, within the space of 5 years next after such departure, shall be entitled to any rank or restoration of office, or be capable of again serving in India, either in the European or Native Corps of Troops, or in the Civil line of the Company's Service, unless, in the case of any Civil Servant of the Company, it shall be proved for the satisfaction of the Court of Directors, that such absence was occasioned by sickness or infirmity, or unless such person be permitted to return with his rank to India by a vote or resolution, passed by way of ballot, by three parts in four of the Proprietors, assembled in General Court, specially convened for that purpose, whereof eight days' previous notice of the time and purpose of such meeting shall be given in the London Gazette; or unless, in the case of any Military Officer, it shall be proved to the satisfaction of the said Court of Directors, and the Commissioners for the Affairs of India, that such absence was occasioned by sickness, or infirmity, or some inevitable accident.

No person under the degree of Member of Council, or Commander in Chief, who shall not return to India within 5 years from his leave to depart, shall be entitled to rank, &c., except as herein provided.

ing 5 years absence in conformity to act of Parliament. your Army Lists, we have to inform you that Mr. Long is to be considered as having relinquished our Service, from the expiration of 5 years after he quitted India, and the necessary promotions are to be made accordingly.

Captain Baillie permitted to return under the provision of the act. PARA. 13th—Being satisfied that the return of Captain Lamington Baillie to his duty, on your establishment, has been prevented by inevitable accident, we have, in conformity to the act of the 33d of His present Majesty, Cap. 52, Sec. 70, permitted him to proceed to his rank by one of the ships of this season, having obtained the consent and approbation of the Board of Commissioners for the Affairs of India to Captain Baillie's return to the Company's Service. Let. C. D. 22th June 1800

Leave to resign granted by the Gov. General. Leave to resign the Company's Service, or for Officers to repair to England for the recovery of health, is to be granted by the Governor General in Council only. Let. C. D. 29th Mar. 1774

Officers having resigned with the view of pursuing other objects not to be restored. We must declare our disapprobation of Officers resigning our Service, with the view of pursuing other objects, and afterwards applying again for restoration to our Service; and we direct you to issue, in public orders, our determination, in future, not to admit Officers again into our Service who may resign under such circumstances. Let. C. D. 8th July 1795

Officers permitted to resign not allowed to reside out of the Provinces until they embark. Military Officers permitted to resign the Company's Service shall not, after their resignation, and until they embark for Europe, be allowed to reside in any place or district without the provinces of Bengal, Behar, and that part of Orissa which belongs to the territories of the Company. M. C. D. April 1795

No Officers to retire from the Service in India. PARA. 75th—In future we direct that Officers be not permitted to retire from our Service in India; but that those who intend to quit the Service, be first allowed to come to Europe on furlough, that their application, for the purpose of retiring, may be submitted to the Court. Let. C. D. 21st Sep. 1803

Period of service qualifying Officers to retire on their pay when to commence. As to the period of qualification of Officers to retire on their full pay, it is to commence, with regard to Cadets appointed here, from their arrival at the Presidency to which they are nominated, or if they have been detained on their voyage out, at any other Presidency, and employed there on actual service, from their being so employed; and as to the Cadets appointed in the Country, and confirmed by us, from the date of their being appointed, provided they were then at the Presidency where such appointment took place. Let. C. D. 9th May 1801

Limitation of the period. Every Officer after 25 years' service in India, including 3 years for one furlough, is allowed to retire with the pay of the rank to which he may have attained; but it must be understood that such pay is to be the same only as that allowed to Officers of Infantry. Let. C. D. 8th Jan. 1796

Rules for absence of Officers retiring from the Service. All Officers wishing to avail themselves of the indulgence of retiring from the Service, according to the new regulations, shall signify the same to Government, through the Commander in Chief, accompanying their application with a statement of their length of actual service in India, and the time they have been absent on furlough, or otherwise. Let. C. D. 22d April 1796

Certificates of length of service and of permission to retire how prepared and by whom furnished. On due examination of these statements by the proper Officers, and the sanction thereof by Government, with the approbation of the Commander in Chief, being obtained, a certificate signed by the Secretary to Government shall be delivered to each Officer stating the permission granted to, and the length of actual service of, such Officer.

Officers applying for leave in India to retire from the Service have been directed to accompany their application with a statement of the length of their actual service in India, and the time they have been absent on furlough or otherwise; these statements are to be compared by the Adjutant General, with the records, either of his own office, or by enquiry at the office of the Town Major; and when the application is forwarded to Government, his certificate is to accompany it, specifying the length of actual service to enable the Secretary to furnish the required certificate, viz.

Forms of Certificate. I do hereby certify that A. B——, in the Honorable Company's Military Service on the Bengal Establishment, obtained on the of , the permission of the Governor General in Council to retire from the Service, and that at that period the length of service

of the said A. B. was , including of absence on furlough, as appears by a certificate from the Adjutant General.

Given under my hand,
at Fort William in Bengal,
this day of , 181 .

Officers meaning to avail themselves of the indulgence of retiring from the Service, but who apply only for leave to go on furlough, are to accompany their application also with a statement of their length of service, which is to be compared and certified by the Adjutant General, as directed in the preceding case, that they may carry with them the necessary voucher on which to found their application to the Honorable the Court of Directors in Europe, viz.

I do hereby certify that A. B. in the Honorable Company's Military Service on the Bengal Establishment, obtained on the day of , the permission of the Governor General in Council to proceed to Europe, with the option of retiring from the Service: and that at the above date the length of service of the said A. B. was , including an absence of on furlough, as appears by a certificate from the Adjutant General,

Given under my hand,
at Fort William in Bengal,
this day of 181 .

Officers will be careful to provide themselves with the necessary certificates from the Pay Department, which are prescribed by the Honorable Court's orders.

Art. 1st, C. D. 22d April 1796 That a certificate, signed by the Military Paymaster General, shall be given to each Officer permitted to retire on full pay, stating to what period he has received pay and allowances in India.

That duplicates of the foregoing certificates shall be forwarded by the ships on which the Officers, permitted to retire, proceed to Europe, and triplicates thereof by the next dispatch.

That no Officer be permitted to retire on his pay without producing a certificate from the proper Officer, stating that the Company have no demands upon him, according to the rules now in force.

That no advance be made to any Officer in India on account of his allowance of pay, on retiring from the service; or after his quitting India to any person on his account.

That no Officer shall be allowed his pay on retiring, without producing the certificate required; or, if the case shall occur, an affidavit stating that he received such certificate in India, and has lost the same, stating by what means such loss has occurred.

That on his arrival in England, each Officer, retiring on his pay, shall address the Court, stating the permission granted him for that purpose, by the Government under which he served, and enclosing the certificates required.

That the pay to Officers retiring shall commence from the date of their last receiving pay in India, according to the certificates in that case required.

Such pay shall be issued half yearly, viz. at Midsummer and Christmas.

Rules for Officers being in England on furlough, or retired from the Service, drawing their pay.

That every Officer on furlough, or permitted to retire, when half a year's pay becomes due, shall transmit to the Auditor of Indian Accounts a bill in the following form:

The Honorable United East India Company, Dr.
To the amount of Six Months' pay as (rank to be here inserted) on furlough from, or retired from the Service, on the Bengal establishment, from to

A. B.

That after due examination of the necessary certificates by the Auditor, to whom they are to be referred, six months' pay be issued to Officers themselves, or to their certain attorneys, at the periods above mentioned.

That the rates of exchange, at which the pay of Officers issued in England is to be calculated, be 2s. 6d. the Sonat Rupee.

On the decease of any Officer on furlough, or who has retired from the Service on his pay, such pay to the time of his death, only, shall be issued to his legal representative, on his producing a certificate from the Minister, Church Wardens, or Chief Magistrate of the nearest Town or Borough Corporate to the place of such Officer's residence, at the time of his death, stating the day of his decease.

Certificates furnished by Paymaster General.

Duplicates and triplicates forwarded to England.

Pay certificate to be produced by Officers applying to retire.

No advances to be made to them.

Certificates to be transmitted to the Court or Affidavits in event of their being lost.

Pay to Officers retiring when to commence, and at what periods issued.

Bill for the half yearly amount sent to the Auditor of Indian Accounts.

Pay how issued

and at what rate of exchange,

Amount due to Officers on furlough, or retired in England, who may die, how drawn.

Officers drawing their pay by Attorney to notify the same.

Officers to appear, or furnish certificates of their existence, at the periods appointed for payment.

Specification of the pay certificates to Officers retiring.

Prohibition by the Court of clandestine sales of commissions.

Penalties to be imposed upon persons offending therein.

Officers declaring their intention to retire within twelve months of their arrival allowed the pay of the rank they may be then entitled to.

Those not making the declaration within the prescribed period will be held to have relinquished the service and will forfeit their pay.

Those who have served 22 years without furlough, allowed two years previous to being called on to declare their intention.

But only to receive the pay of the rank they held at the expiration of 12 months from their arrival.

Circumstances under which Officers, unable, from ill health, to remain in India, are allowed to retire on half pay.

Officers desiring to have their pay drawn by attorney, shall signify the same to the Auditor of Indian Accounts.

At the periods appointed for payment, every Officer shall appear personally at the Auditor's Office; or if the pay is to be drawn by attorney, such attorney shall produce a certificate signed by the Minister, Church Warden, or Chief Magistrate of the nearest Town or Borough Corporate to the place of such Officer's residence, of his being then living.

No Officer shall be permitted to resign the Honorable Company's Service, or retire on the full or half pay list, until he shall have obtained a certificate from the Paymaster of his corps, countersigned by the Paymaster General, that there are no public demands against him, either on account of retrenchment made by the Auditor General or otherwise.

In order to guard against the possibility of clandestine sales of commissions, we think it proper to direct, that every Officer who shall apply for leave to retire from the Service on the pay of his rank, shall declare, upon oath, that neither he himself, or any other Officer for him, to his knowledge, has received, or will, in future, receive, directly or indirectly, any compensation or gratification, pecuniary or otherwise, from any person or persons, whatsoever, for such his retirement.

And if, notwithstanding this restriction, such practise shall be discovered, the Officer receiving, or permitting to be received, any compensation for his retiring, shall not hereafter be entitled to his pay on retirement; but shall nevertheless be considered as entirely out of the Service; and the Officer or Officers who shall be found to have offered to grant any compensation or gratification to those of higher rank for retiring, shall not be allowed the benefit of the promotion thereby acquired, but it shall be competent for the Government, under which the parties concerned serve, to promote another Officer to the rank held in the Regiment or Battalion by the Officer retiring.

Officers on furlough who wish to retire, and declare their intention to that effect, within twelve months from their arrival, will be permitted to retire on the pay of the rank they may be entitled to at that period.

That every Officer returning on furlough, and wishing to retire from the Service, being qualified, as above, by the term of his service, be required to make a declaration to that effect within 12 months after his arrival in England; and in case of his neglecting to make such declaration, within the time specified, he must at the expiration of his furlough either return to India, or be held to have relinquished the Service, and not entitled to retire on the pay of his rank.

Military Officers who have continued to serve in India, from their first arrival, for the space of twenty-two years, without having a furlough, shall, when they are permitted to come home on furlough at the expiration of that period, be allowed two years, instead of one year, as by the present regulations, before they are called on to signify their intention of retiring from the Service.

Should however these Officers apply at the end of two years to retire from the Service, they can then only be allowed the pay of the rank they held at the expiration of 12 months from their arrival in Europe.

We have consented, without requiring any specific period of service, that every Officer who has by regular promotion attained the rank of Lieutenant Colonel, Major, Captain, or Captain Lieutenant, and whose ill health renders it impossible for him to continue to serve in India, be allowed to retire from the service on the half pay of his rank; and as cases may occur, where the constitution of some of our Officers may not be able to support the climate of India, for a period sufficient to their obtaining promotion above the rank of Subaltern, we have agreed to permit a Lieutenant, in this predicament, after having served 13 years in India, and an Ensign, Lieutenant Fireworker, and Cornet, after having served 9 years, including three years' furlough each, to retire on the half pay of their respective ranks.

If an Officer of the rank of Lieutenant, whose constitution may be so impaired as to pre-

Provided that in every instance of Officers retiring under the conditions above specified, the Governments in India and the Court of Directors shall be satisfied that such Officer's intention of retiring from the Service is founded upon a real inability, from ill health, of his continuing to serve in India, or does not arise from caprice, or any other cause, which might render the provision to be made for him, by the foregoing resolutions, unnecessary.

For this purpose it will be indispensably necessary, that the most ample certificates should be required from every Officer wishing to avail himself of the indulgence now proposed to be granted.

In every instance of Officers wishing to avail themselves of these indulgences, the rules laid down relative to the payments or offers of payments from Officers next in succession, in order to induce their superiors to retire, must be applied.

Resolved, that the following regulations be observed, in addition to the Articles of War, viz. that upon the death of a Commissioned Officer or Soldier, unless the deceased have an heir at age on the spot, or hath by will appointed an executor at hand, to dis-

Measures to be adopted by Comg. Officers in regard to the

effects of Officers dying without Heirs or Executors at hand charge the trust ; the commanding Officer of the Regiment or Company shall cause the effects of the deceased to be sold at public outcry, and, out of the produce, pay forthwith the funeral charges, and all just debts due from the deceased, and make up and sign an account of the same, in which no commission is to be charged ; which account, after certifying them to be just, shall be deposited by the commanding Officer of the Regiment or Company, for the use of the heirs, in the Secretary's Office ; and the balance due is to be immediately paid for their benefit into the Company's cash.

Rules to be observed in the disposal of the property of deceased Officers. In addition to the 13th Section of the Articles of War for regulating the Company's Forces, and to the supplementary order of the 5th August, 1779, the following rules are to be added. M. C. and O. 179*

Debts to be paid, The just debts directed to be paid out of the effects of the deceased, as mentioned in the said order of the 5th August, 1779, are to be understood to be restricted to those prescribed in the 13th section of the Articles of War.

Inventories of effects how prepared and disposed of. Receipts for the papers and effects to be taken from the executor, The inventories are to be signed by the President and Members of the Courts of Enquiry appointed for examining the papers and effects of the deceased, including a statement of arrears of pay, batta or other allowances, which may have been due to the deceased at the time of his death ; one copy to be entered on the Regimental Books, and the other to be delivered to the Executor, if on the spot, taking his receipt in duplicate for the papers and effects of the deceased ; the original receipt to be signed in the Regimental Books, and the duplicates to be sent to the Office of the Adjutant General, who will send them to the Secretary to the Government, to be deposited with the public records for preservation.

The executor, in every such case, must immediately pay the debts and interment of the deceased, as prescribed by the 13th Section of the Articles of War, and account to those concerned for the surplus.

who is to draw the arrears due. If there be an executor on the spot, the arrears due to the deceased from the Company shall be drawn by the Executor, otherwise by the commanding Officer of the Company or Battalion to which the deceased belonged.

If there be no Executor the effects, &c. how to be disposed of. If there be not any executor on the spot, appointed by the deceased, the effects must be publicly sold, and the amount sales, after the payment of the debts in camp or quarters, and interment, be immediately remitted by the commanding Officer to the General Treasury, at Fort William, by bills of exchange to be granted, on the Paymaster of the corps to which the deceased belonged, or with which he was serving when he died, specifying the name and rank of the person, on account of whose estate the bill is granted.

The Paymaster General shall transmit, through the Adjutant General's Office, the treasurer's receipt for the amount, so deposited, to the commanding Officer of the corps to which the deceased belonged, and copies thereof shall be entered in the Adjutant General's Office, and in the Regimental Books.

Notification of every such deposit shall be made to the Court of Directors, to whom, if there are not any executors or administrators of the deceased in India, it will be recommended to make publication in England of the name and rank of the deceased, and of the amount deposited, for the information of all who may be concerned ; and like publication shall be made in Calcutta.

Comg Officers to account for the effects of deceased officers previous to quitting their corps. Every commanding Officer of a corps or company who shall, agreeably to the Articles of War, have taken charge of the effects and papers of any deceased Officer or Soldier, shall be obliged to account for the same, in the manner above directed, before he shall quit his corps or obtain leave to proceed to Europe.

Size of paper required to be transmitted to the Adj. Genl. All letters, receipts, or information relative to the effects of the dead, which are directed to be sent to the Adjutant General's Office, are to be written on foolscap paper, or on paper of that size.

Rules to be observed where Officers may die not belonging to corps at the station, relative to the disposal of their effects. The commanding Officer of a station, where an Officer not posted or absent from his corps shall die, is to conform, in every respect, to the preceding regulations respecting the papers and effects of the dead. The inventory of the effects, and the receipts of the executor, or the account sales of the effects sold, are to be forwarded to the commanding Officer of the corps, to which the deceased belonged, in order to enable him to record, in his regimental books, a complete account of the estate.

The Military Paymaster of the station shall grant bills of exchange on the Military Paymaster General, in the manner above directed, and the Treasurer's receipt for the amount which may be deposited in the Company's Treasury will be forwarded, through

the Adjutant General's Office, to the commanding Officer of the station, and an authenticated copy of it to the commanding Officer of the corps to which the deceased belonged.

- G. O. G. C.** 31st March 1795 Commanding Officers of stations or corps, whose duty it may be to take charge of the estates of deceased Officers and Soldiers, are strictly enjoined to attend to the regulations of the 21st October, 1792, by which it will be found that, if there be an executor of the deceased upon the spot, a duplicate of his receipt for the effects of the deceased is the only paper to be transmitted to the Adjutant General's Office: and that, if there be not an executor, no paper is required to be transmitted to the Office of the Adjutant General.
- The bills of exchange for the amount of estates are to be forwarded direct to the Sub-treasurer, and not through the Adjutant General.
- Comg. Officers** to pay strict attention to the foregoing regulations.

- G. O.** 17 According to the deed of agreement between the Honorable East India Company and the Right Honorable Lord Clive, the several widows of Officers are allowed one quarter, or fourth part, of the ordinary stated pay, their respective husbands were entitled to, when in the Company's Service.
- Pension granted** to Officers' widows from Lord Clive's Fund.

Widows of commissioned Officers must lay before the Court such evidence, as to them may seem reasonable, that their husbands did not die possessed of real and personal estate to the amount specified, according to their respective ranks, viz.

Colonel, £. 4000—Lieutenant Colonel £. 3000—Major £. 2500—Captain £. 2000—Lieutenant £. 1000—Ensign £. 750.

- Let. C D 13th April 1783 Surgeon £. 2000—Assistant Surgeon £. 1000.
- Let. C D 8th July 1795 Commissary of Ordnance £. 2000—Deputy Commissary of Ordnance £. 1000—Conductor £. 750.
- Testimony** as to the amount of the husband's property to be adduced.

- G. O.** 3d July 1774 The pensions of widows to continue during their widowhood and no longer.
- Widows of commissioned Officers (residing in England) shall be paid half yearly, at Midsummer and Christmas, as their pensions become due, either in person, or by power of Attorney, at the Company's office in London only.
- Persons only** to continue during widowhood.
- When & where** to be paid in England.

- G. O.** 6th Oct. 1774 The Court of Directors being sensible of the hardship it may be to the widows of European Officers, who, either from being natives of India, or from other causes, cannot conveniently repair to England to receive the benefit of the Military Fund, have come to the following resolutions; viz. upon proper proofs of their husband's death and other testimonials, specified in the deed, being transmitted by our Governor in Council, such persons as are, or shall be, entitled to a pension, but cannot leave India, be admitted by this Court.
- Regulations for** the payment of pensions to the widows of Officers in India.

That upon the admission of any such pensioner or pensioners, advice be sent out, by the first dispatches, to the Governor in Council where they reside, with orders to pay such persons the amount of their pensions, at the times of payment mentioned in the regulations.

That the Governor in Council do, in the mean time, grant to such persons, as shall appear to them to have a just claim to the pension, but cannot repair to Europe, an allowance equal to, but not exceeding, the sum they will be respectively entitled to, until the proper vouchers be received by the Court of Directors, and their final determination shall be had thereupon.

- G. O. G.** 1 Dec. 1805 The Honorable the Court of Directors, having directed this Government to regulate its proceedings in cases of applications for admission to the benefits of Lord Clive's Fund, by the orders contained in the following paragraphs of a letter from the Honorable Court to the Governor in Council of Fort St. George, dated 7th September, 1808, those paragraphs are published for general information; and his Lordship in Council notifies, that no claim to the benefit of the Fund will be admitted hereafter, except under the conditions specified in those orders.
- Prohibition of** widows of Officers residing in India being admitted to the benefit of Lord Clive's Fund.

112th—"The reference you have made to us upon this point, requires that we should advert to the general design and present state of Lord Clive's Fund."

1. 3th—"From the whole tenor and scope of the deed entered into between the Company and his Lordship in the year 1770, it appears that the benefit of the Fund was intended solely for European Officers and Soldiers, and their widows, resident in Great Britain or Ireland. The Company are therefore not warranted to admit any persons resident in India, as Pensioners on that Fund."

114th—^{re} Moreover the admissions to the benefit of the Fund in England have become gradually far more numerous than the income of the Fund can provide for, and the Company are therefore subjected to a large annual disbursement out of their own assets, for completing the payment of pensions granted upon Lord Clive's Fund. Hence it follows, that whatever payments have been made in India, to disabled Soldiers or their widows, have in fact been from the bounty of the Company themselves, and not at the expense of the Fund. And as there is no prospect that the Fund will ever become adequate to the English charge, now upon it, the question to be considered properly, is, whether the Company, themselves, shall pension Invalid Soldiers and their wives in India, upon the same conditions as the deed establishing Lord Clive's Fund has required. And we have no hesitation to determine this question in the negative. We mean to say not that an Invalid European shall in no case receive any support from the Company in India, but that we cannot form a general system, or establishment, like that of Lord Clive's Fund, as a provision for European Invalids or their wives in India.—And we must desire that this explanation may regulate your future conduct in relation to the present subject."

Affidavits and certificates to accompany the applications of widows.

In consequence of instructions communicated in the general letter of the Court of Directors, dated the 14th January last, all applications from the widows of Officers, to be admitted to the late Lord Clive's Pension Fund, are to be accompanied by attested copies, in duplicate, of the certificates of their marriage, and the affidavits in duplicate, setting forth that their respective husbands did not die possessed of property, to the amount prescribed by the deed of agreement between the Company and Lord Clive, nor any person or persons in trust for them.

C. D.
29th May 1799

PARA. 25th—His Royal Highness the Commander in Chief having been pleased to offer to our consideration a plan for supplying the Company with recruits from those enlisted by His Majesty, for general service, we have, on mature consideration, signified our acceptance of the same, and the draft of a bill for carrying the same into effect is now before the Honorable the House of Commons; in the mean time His Royal Highness has, in compliance with our solicitation, consented to furnish a number of recruits for our several Presidencies.

Recruits for the service of the Company supplied from those enlisted by His Majesty for General Service.

The term of service for which recruits are enlisted is ten years.

Ext. Act. C. D.
11th Sept. 1805

Having in the 25th Para. of our letter of the 29th May, 1799, advised you that in future each recruit enlisted for the Company's Service would be engaged to serve 10 years after his arrival in India, and that at the expiration of that period he would be at liberty to return to England at the Company's expence, unless he should chuse to re-enlist into the Company's service for a further term of 5 years; we now advise you that several men have been transferred to the Company's Service who were enlisted to serve in His Majesty's Army for life, and the Secretary of His Royal Highness the Commander in Chief having, in a letter dated the 2d September, 1805, stated, by order of His Royal Highness, that the persons in question are turned over to the East India Company's Service for life, and not for a limited term of years &c.—We forward for your information and guidance (a number in the packet) a list of the names of the several persons above alluded to.

Oaths relative to European Recruits enlisted for life and turned over to the Company's service.

Regulations for the supply of Port Wine, Vinegar, Brandy, &c. to them on the passage to India,

Extract from the instructions of the committee of shipping of the Honorable the *East India* Company to the commanders of chartered ships, dated 12th Feb. 1801.

Ext. Proc. V.P.
17th Decr. 1801

" If the number of recruits should amount to or exceed 80 men, a chest of Port Wine will be sent on board your ship for their use.

This supply will in such case rescind, in some measure, that part of the Court's instructions which directs you to furnish the Military, upon particular occasions, with wines and other articles, and will not apply so far as regards the article of wine, until the quantity sent on board by the Company be expended ; and, if it should prove more than sufficient, the surplus is to be delivered into the Company's store, where the Military are landed, for the use of the Hospitals there.

The Wine being intended for the use of the Military in such complaints, only, where the Surgeon may judge it prudent to be administered, you will cause the wine to be delivered to him in such proportions as he may represent to be absolutely necessary."

Extract from the instructions of the Honorable the Court of Directors to the commanders of their chartered ships.

" There is laden on your ship a quantity of brandy, vinegar, sugar, soap, and other articles, to be distributed among the soldiers as may be necessary, and should this quantity be insufficient, or other requisites be found necessary for their health and preservation, any such supply from your own stores, indented for by your own Surgeon, will be liberally paid for, trusting to your prudence to prevent an abuse of these indulgences."

casualties occurring among the Recruits, &c. during the voyage, how & when to be made,

lives of our Military, both Officers and Privates, during their passage to India, we have directed an annual account to be laid before us of the numbers embarked, the casualties on the voyage, and the number landed both of King's and Company's Troops, that in case any great mortality should appear in any particular ship, we may investigate the conduct of the commander of that ship, to ascertain whether the said mortality has proceeded from natural causes, or has arisen from inattention or mismanagement of the commander.

To assist us in making up the said account, we direct that you give orders to the person in whose charge the Military are delivered at your settlement, to furnish you with an account of the number landed both of King's and Company's Troops, distinguished in three classes, viz. Officers, Cadets, Non-commissioned Officers, Privates, Women and Children, and Children of 5 years old and upwards ; which account you are to send us, by the first opportunity, and to direct that the said person do also furnish the commander with a receipt for the Military received from his ship corresponding with the same account,

- M. C. 16th June 1786 A Board composed of the senior Officer of Artillery, (if sufficiently near at hand for the duty) the senior Officer of Infantry in Garrison of Fort William, one or more Members of the Hospital Board and the senior Surgeon in Garrison, shall assemble by order of the Governor General and examine the Recruits on their arrival from Europe. A copy of their report shall be transmitted to the Court of Directors.
- Recruits to be examined on their arrival from Europe.
- The Company has forbidden that Recruits be entertained for them in Europe, under 5 feet 4 inches high or above 35 years of age.
- Standard & age at which to be entertained.
- Garr. Orders G. G. 30th July 1815 A Board of Officers to assemble at the President's Quarters to-morrow evening at 4 o'clock, to examine and distribute the Recruits arrived for the Honorable Company's Service.
- Board of Officers and Surgeons for the examination of Recruits, &c. how constituted.
- President, Major General Macan, Commanding at the Presidency Station.
- Colonel Horsford, Commandant of Artillery, } Members { Lieutenant Colonel Calcraft, Town-Major, A Member of the Medical Board, } { Mr. Thomas Phillips, Senior Surgeon in Fort William.
- Colonel Horsford will select such as he may judge fit to serve in the Artillery.
- (N. B. for Report of a Committee of Inspection of European Recruits, vide Form No. I.)
- M. C. 16th June 1786 Recruits found incapable of bearing arms are to be invalided, and returned to Europe, by the earliest opportunity.
- Those rejected to be returned to Europe.
- Let. C. D. 8th July 1799 PARA. 72d—Every precaution is taken to prevent improper Recruits being sent out; We therefore desire that the Board be extremely cautious in their rejection of the Company's Recruits.
- Caution enjoined in the rejection of Recruits.
- M. C. 16th June 1786 The Senior Officer of Artillery shall report to the Commander in Chief, the number of men fit for that corps, when the Commander in Chief will make such distribution of them as he judges proper; and when they shall have been allotted by the Commander in Chief, the Town Major is to transmit to the Officers commanding the corps, to which they have been distributed, Rolls, specifying their name, age, station, country, profession, when and where enlisted, the ship on which they came, and time of their arrival at Fort William, from which period their contracted service commences.
- Allotment to Corps, & transmission of rolls, &c.
- G. O. C. C. 16th Nov. 1803 Such Recruits arrived on the Honorable Company's ships, Jane Dundas, Streatham and Northumberland, as may not be selected for the Regiment of Artillery, are to be sent by water without delay to the Honorable Company's European Regiment at Dinapore. The above order, which the commanding Officer at the Presidency will take the necessary measures for carrying into effect, is to be considered as applicable to all Recruits arriving from England in the present season, and who also may not be drafted into the Regiment of Artillery.
- All not drafted into the Artillery sent to the European Regiment.
- G. O. 17th Sept. 1792 The commanding Officer in Garrison is desired to appoint a Captain to the charge of the European Recruits in Fort William, with such a number of Subaltern Officers and Non-commissioned Officers as he may deem necessary to assist him. These commissioned and Non-commissioned Officers are to remain with the Recruits until they shall be allotted to and sent to join corps. This is to be considered as a standing order.
- Commissioned and non-commissioned Officers appointed to the charge of Recruits on their arrival.
- G. O. 24th Sept. 1781 Officers appointed to do duty with such Recruits are entitled only to the batta of the station where they serve.
- But only entitled to the batta of the station they are at
- Three days' full batta is allowed to Recruits after their arrival from England at this Presidency.
- Gratuity of 3 days' full batta to Recruits after their arrival and periods at which their pay &c. commence.
- M. C. 16th June 1786 One month's pay is to be drawn for Recruits who arrive before the 15th of the month, and half a month's pay for those who arrive on or after the 15th; to be audited before payment.
- Their batta is to commence from the date of their landing at Fort William, and to be the same as that of the Europeans in the Garrison.
- When the Recruits shall be sent to join their corps, the Officers under whose immediate command they shall have been at the Presidency, must obtain, from the Paymaster of the Garrison, certificates how far they have been paid up.
- Certificates furnished them when sent to join their Corps

To be put on the rolls the day after they join	These certificates are to be delivered to the Paymaster, from whom the next month's pay is to be drawn for the Recruits and must accompany the accounts for audit. They are to be put on the rolls of companies the day after they join their corps.	
Period at which to be put on duty after joining.	The Commander in Chief directs that European corps do duty for all recruits that have been six months with their battalion, and that no recruits are placed on general or garrison duty until six months after they have joined, except in particular cases, and with permission of the commanding Officer of the station or detachment the corps is serving under.	G. O. C. C. 24th Feb. 1792
Allowed compensation when not drawing the full allowance of spirits.	As the commanding Officers of corps will particularly attend to the conduct of recruits on their first arrival, and may deem it necessary to prevent some of them from drawing the whole allowance of spirits, authority is given to the commanding Officer, in such case, to direct that they be paid for their drams by the contractor, (now Commissariat.)	G.O. 19th July 1787
Orders relative to the enlistment of Europeans in India.	Earl Cornwallis having reason to suppose that the frequent desertions from the European corps of this Army are in a great measure owing to the indiscriminate admission of persons of all nations into it, this practice is forbidden in future, and it is directed that none but British Subjects be entertained as Soldiers, and those only with the previous sanction of the Commander in Chief, for which application is to be made through the Adjutant General, accompanied with the usual descriptive form.	G. O. 8th Feb: 1787
And the enrolment and renewal of contract of European children of Soldiers.	As the admission of children into the Service at an early age, is, of itself, an indulgence, no bounty money is to be given to boys thus entertained for Drummers or Fifers, nor at any future period for re-enlisting is any to be granted to the children of Soldiers born of Native women. Children of Soldiers, both parents being European, having served as Drummers or Fifers, and arrived at the age of 15, may be allowed to enter into contract, either as Soldiers, if fit to bear arms, or Drummers or Fifers, on the same terms as Europeans re-enlisting.	G. O. 7th April 1788
Those enlisting examined by Surgeons & certificates of their competency furnished.	European recruits who are occasionally enlisted in India shall first be examined by the Surgeon of the corps, whose certificates of their fitness for the service, together with the approval of the commanding Officer of the corps, shall accompany the bill for their bounty.	M. C. 15th June 1788
Period of service when to commence; bounty cloathing granted.	The contracted period of service of men who entertain in the country is to commence from the date of enlisting. Europeans, when first entertained in the country, will be entitled to receive their first cloathing at the expence of the Company, conformably to the rules respecting recruits arriving from Europe.	
Rate of bounty money allowed	The bounty of Europeans who entertain in the Honorable Company's Service in India shall be fixed at Forty Rupees for a contracted service of three years, and Fifty Rupees for a contracted service of five years.	
Bounty to foreigners.	When foreigners are entertained they shall serve one year without bounty, at the expiration of which time, if they have behaved well, they may be enlisted for three or five years and receive the bounty accordingly.	
Advances for the equipment &c. and subsistence of European recruits posted to corps and period at which repaid.	Ordered, that Sicca Rupees 4,150 be issued from the General Treasury in favor of the Paymaster of Artillery, to enable him to make the customary advance to Officers commanding companies of Artillery on their receipts, for the purpose of enabling them to provide the usual equipment of cloathing and necessaries, and also subsistence, for 83 recruits who have joined the corps by the last fleet from Europe at 50 Rupees each. To be repaid in 12 months by monthly deductions of Four Rupees from each man.	Proc G. O. 11th Aug. 1810.
Full mounting to be furnished on their arrival.	Half mounting to be delivered to European recruits on their arrival, and they are to continue to wear their sea jackets until they join the corps to which they are allotted.	G. O. 17th May 1787
What to collect, and how to be prepared.	With reference to the General Orders of the 6th February last, (<i>vide page 172</i>) on the subject of half mounting, the Governor General in Council is pleased to direct, that the Agent for the 3d Division of Army Cloathing shall make up the several articles of half mounting specified in that order, and furnish the same to European recruits, as	G. O. C. G. 26th Sept. 1810

far as they can be provided for the established sums of Four Rupees and Eight Annas on account of each man.

The articles of half mounting to be issued to the recruits with the bounty cloathing, which the Agent for the 3d Division prepares, under the existing regulations.

Res G. G. 10th

and how furnished to the men

This sum is not to be paid to the men themselves, but to be drawn for by the commanding Officers of European Battalions and of detached companies of Artillery, according to the strength of their effectives entitled to cloathing, and is to be distributed to, and applied by the commanding Officers of companies in the European corps, in the purchase of jackets, shirt linen, and such other necessaries as will most contribute, in the opinion of the commanding Officers of the battalion and of the detached company of Artillery, to the real use, as well as to the cleanly and uniform appearance of the men; the Serjeants attached to Native Battalions are to be drawn for, and the necessaries supplied, by their respective commanding Officers.

how provided for Serjeants of Native corps.

Returns of articles furnished transmitted to the Adj. Gen.

Government rely on the care and attention of commanding Officers, both of battalions and companies, that the money may be both usefully and faithfully applied for the benefit of the Soldier; and have requested the Commander in Chief to call for a specific return, from the commanding Officer of each corps, of the articles provided with it, which returns are hereby directed to be transmitted to the Adjutant General's Office accordingly.

The issue of half mounting, or whatever may be supplied in lieu of it, to all corps and descriptions of troops, is to be specified, with a statement of the articles supplied, on the back of the return for the month in which the issue of those articles may take place.

1738 It is to be proposed to all non-commissioned Officers and Soldiers, who are fit for service, to renew their contracts after it has appeared that they have fulfilled their former engagements; and an option is left with them to choose the corps with which they will renew, according to the rules that have been usual in this service; and the determination of all such men is to be reported immediately, for the information of the Commander in Chief, to the Adjutant General, who will transmit a list of those men who have renewed to the Regiment or Corps for which they have engaged, and also to the Fort Major, that their names and terms of renewal may be entered upon his Register. European Soldiers whose time of service has expired permitted to renew their contract.
- (N. B. Bounty for renewal of contract is the same for periods of service, respectively, as allowed to recruits enlisting in India, *vide* Page 166.)
- There being reason to believe that, in several instances, Soldiers have, by false assertions, obtained certificates of their having served their contracted time, before it was actually expired, in order to prevent such impositions, it is to be considered as a standing order, in future, that no non-commissioned Officer or Soldier shall be permitted to quit the Regiment to which he belongs, or to renew his contract for further service, until a certificate shall be obtained from the Fort Major of Fort William, that it appears by the books of his Office that the former engagements have been fulfilled, which certificate is to be required from the Fort Major, by the commanding Officers of Regiments, upon every application from non-commissioned Officers and Soldiers to be discharged the service or to be permitted to renew their contracts. Certificates of the expiration of contracted service previously required.
- It is to be considered a standing order, that all non-commissioned Officers and Soldiers, who may renew for different Regiments, shall remain with, and be drawn for, in the Regiment and companies to which they have belonged, until the Commander in Chief shall give particular orders for their removal through the Adjutant General. Those renewing for different corps to wait the Comr. in Chief's orders previous to quitting their former corps.
- G. O. C. C.
1738 It is to be understood that it is not intended to allow non-commissioned Officers of European Battalions, to renew at pleasure for the Sepoys corps, such indiscriminate liberty not being according to the rules that have been usual in the service. European non-commissioned not to renew at pleasure for Native corps.
- G. O. C. C.
18th Nov. 1788 Soldiers, who may be desirous to engage for the Artillery, are not to be allowed to renew for that corps without the previous approbation of the commanding Officer of Artillery present; but should such men, upon examination, be deemed unfit for that line of service, an option is still to be left them of renewing for the European Regiment of Infantry. Nor for the Artillery, unless qualified for that line of service.

25th July 1788 In the rolls of men desirous of renewing their engagements with the Company, which are directed to be transmitted to the Adjutant General's Office, is to be expressed, opposite to the name of each man, the character he bears; the Commander in Chief being determined not to allow men of vicious dispositions or profligate manners to remain in the service. Certificates of character annexed to the rolls of men applying to renew.
- G. O. C. C.
12th June 1788 Difficulties having occurred about fixing the time when the new contracts of non-commissioned Officers and Soldiers, whose times of contract have expired, should commence, it is directed that the same take place from the dates of their respective applications to renew their engagements with the Company, and the dates of such applications are to be inferred in the reports, which, by the General Orders of the 28th March, are to be transmitted to the Adjutant General's Office. Period of renewed contract commences from the date of the application to renew, which is to be entered in the rolls.

Form of roll to be observed and how forwarded to the Adjutant General, Town Major, &c.

The following form of long roll, regarding non-commissioned Officers and Soldiers who wish to renew their contracts, is directed to be observed in future, and to be transmitted to the Town Major's Office. (*Vide Form No. 2.*)

G. O. 1st Nov 1788

When the Town Major shall have added the necessary certificates, as directed by General Orders of the 28th March last, he is to send them to the Adjutant General for the Commander in Chief's inspection, after which they will be returned to the Town Major, that the names and terms of renewal may be entered upon his register; when that is done, the Town Major is to return the rolls to the Adjutants by whom they were originally forwarded to his office, who are directed to transmit descriptive lists of the men who have renewed for other corps to the commanding Officers or Adjutants of the corps for which they have engaged.

Rules to be observed in the case of men desiring to renew when upon service.

Officers in command of detachments of Bengal Troops, on service on the Coast, on being satisfied of the due expiration of the former contracts of such Soldiers as shall be desirous of renewing their engagements, are authorized to admit of their doing so, and to direct the payment of the bounty money.

G. O. 26th Oct 1790.

Rolls of men renewing their contracts under these circumstances are to be regularly forwarded to the Town Major at Fort William, and after being registered in his office they are to be forwarded to the office of the corps to which the men belong.

Foreigners who have behaved well permitted to renew

The General Order of the 8th February last, (*vide page 166.*) was not designed to operate as a restriction against a Soldier, being a British subject, renewing his contract in the usual forms, or to exclude such foreigners from renewing as have uniformly behaved themselves as good Soldiers.

G. O. C. d. 27th Mar. 1787

Soldiers renewing after having taken their discharge, refund any compensation in lieu of clothing they may have received.

When any non-commissioned Officer or Soldier, after having received his off-reckonings, (compensation in lieu of cloathing) shall desire to renew his contract, the amount of the off-reckonings he has received shall be paid back again, out of his bounty money, by the Staff Officer who draws the bounty money, and this money, so refunded, shall be accounted for to the Off-reckoning Fund.

G. O. 5th Dec. 1778

Certificate granted to Soldiers desiring their discharge, and information relative to them transmitted to the Town Major.

It is hereby directed that the commanding Officer of every corps do grant to all non-commissioned Officers and Private Soldiers, whose contracted time of service may be expired, and are not desirous of continuing in the Service, a certificate particularizing the exact space of time the parties shall have served the Company, in the whole, either within the limits of this Presidency, or, if it can be ascertained, in any other part of India before their arrival in Bengal; that the Town Major may be therefrom enabled to make out their final discharges from the Service. (*Vide Form No. 3.*)

G. O. 6th Oct. 1774

The names of such men, who are struck off the strength of their corps and sent to the Presidency, to be inserted in the list of casualties transmitted to the Town Major's Office in separate columns, specifying their respective length of service, if disabled by wounds or superannuated, and whether or not recommended for the pension.

Soldiers taking their discharge or retiring on the pension when sent to the Presidency.

All non-commissioned Officers and Private Soldiers who may be entitled to the pension, and are desirous of returning to Europe, or whose contracted time of service is expired and are not willing to renew their contracts, shall be sent to the Presidency between the months of October and February that they may be in readiness to embark on the ships of the season.

It is to be a standing order, in future, that all non-commissioned Officers and Soldiers who from a desire to return to their own country may decline to renew their contracts, shall remain with their respective regiments until the season approaches for the sailing of the Company's ships for Europe; and that the public faith may be strictly kept with men of that description the Adjutant General will, in proper time, communicate the Commander in Chief's orders respecting the periods and manner in which all such men are to be sent down to the Presidency.

G. O. 29th March 1788

Soldiers, &c. discharged or invalided from the European Regiment or from Native corps drawn

That the pay of all men belonging to the Honorable Company's European regiment, and of all non-commissioned Officers attached to Native Regiments, who shall refuse, at the expiration of their contracted time of service, to renew their engagements, and shall in consequence be sent to Fort William for the purpose of being embarked for Europe, shall be drawn in abstract by the Town Major, conformably to the certificates of the last pay

That the pay of all men who shall be invalided from the Honorable Company's European Regiment, and sent to the Presidency shall in like manner be drawn by the Town Major, until such men shall have been transferred to the corps of European Invalids, or shall have been sent to Europe.

That all such men as shall renew their contracts of Military Service with the Company, according to the existing regulations, and shall obtain permission to be employed out of the line of their Regimental duties, in the Military Department, as Garrison Staff, and in situations where Europeans of that description usually form a part of the regular establishment of Government, shall be borne on the returns of the corps in which they have renewed their contracts of service.

European Soldiers, &c. employed as Garrison Staff, &c. how borne on the strength of corps.

On the muster roll opposite to the names of such persons they shall be returned "absent by leave employed at or by"—pay shall not be drawn for such men in the absents of their respective corps, but they shall receive the net pay of their Military rank in the Department in which they shall be employed, together with the established salary and Staff pay of their situation; they shall also receive cloathing annually.

How to be mustered and paid, and what allowances to receive.

M. C. 15th
Nov. 1793

Resolved, at the recommendation of the Commander in Chief, that the allowance of batta for such European Soldiers as have been discharged from the Company's Service, and do not choose to renew, be discontinued; except to those who voluntarily submit themselves to Military discipline, until opportunities shall offer of sending them to Europe.

Batta granted to Soldiers discharged in event of their submitting to Military discipline until their departure.

Let. C. D. 15th
March 1789.

PARA.—2d. It being observed in the reports from your Committee of Officers, that some men who were before privates were returned non-commissioned Officers, we think it necessary to acquaint you we have some time since given directions that not any non-commissioned Officer or Private Soldier, who may come to England at the expiration of

the time for which he enlisted, be permitted to return in a higher station than that in which he acted when he obtained his discharge, or to proceed to any other Presidency than that to which he formerly belonged.

And on production of certificates of character may be re-instated in the rank they held at their discharge.

PARA. 3^d.—And that we might be fully informed on this subject we have not considered any petition, unless accompanied with the discharge or other certificate of the person's rank and behaviour, except in some few instances, when the required documents have been by accident lost, in which case we have permitted the petitioner to return, and to be re-instated in the same rank, which, it shall appear on his arrival in India, he held when he received his discharge.

None to be appointed non-commissioned Officers who have not served in that station.

PARA. 4th.—We have likewise ordered that not any person should be appointed a non-commissioned Officer who has not served the Company in that station in India.

Non-commissioned Officers permitted to return with their rank without recourse to the prescribed age and standard for recruits.

PARA. 5th.—We have resolved that such non-commissioned Officers who shall in future produce satisfactory proofs of their having served the Company in India, and shall appear, in the opinion of the Company's inspecting Officers, capable of doing duty five years longer, shall be permitted to return with the rank they held at the time of their discharge, notwithstanding they may not come within the regulations respecting the age and height of recruits for the Company's Service.

Let C. D. 5th
June 1793

European Soldiers absent themselves from their Corps tried by Regl. Court Martial. Rewards when granted for their apprehension.

As it may be more convenient to try Soldiers, who absent themselves, from their corps, before Regimental Courts Martial, for being absent without leave, than to assemble General Courts Martial to try them for desertion; the practice is allowed of, and, in all such cases, if it shall have happened that the Soldiers have been seized by Zemindars or others, on promise of reward for apprehending them, the Officer commanding at the station shall make particular enquiry concerning it, and if he shall be fully satisfied that the person who seized, or the informer, did act on promise of reward on conviction; and if he shall also be satisfied that the prisoner would have been convicted of desertion if he had been tried by a General Court Martial; the Commanding Officer shall certify his belief and enquiry, and recommend granting the reward; and all such certificates shall be laid before the Commander in Chief for his sanction, and, under it, be passed.

G. O. 29th
Aug. 1798

Reports of the desertion of Europeans in Fort William made to the Town Adjutant.

Officers commanding European Corps in garrison at Fort William are directed, immediately after the desertion of any of their men, to cause reports thereof, and descriptive rolls of the deserters, to be transmitted to the Town Adjutant, in order that he may take measures for apprehending them.

G. O. C. C.
11th Nov. 1790

Application how to be made for deserters taking refuge in foreign ships or settlements.

Whenever there may be reason to suppose that any deserters from His Majesty's Troops, or from the European or Native Corps of the Company's Army, have taken refuge within the jurisdiction of any of the Factories dependant on the Government of Fiericksnagore, or in any of the Danish ships or vessels; the commanding Officers of the stations from which the desertions happen, are to make requisition for the surrender of the deserters to the President of the Factory, or Commander of the ship in which they may be suspected to have concealed themselves, and this application is to be accompanied with a particular description of the persons deserted.

1781

Allowance for the apprehension of deserters how drawn and paid.

The allowance of 100 Sonat Rupees, granted for the apprehension of every European Deserter, is to be passed hereafter by the Military Auditor General on a certificate from the Town Major, Brigade Major, or other public Officer, that the person apprehended has been convicted before a Court Martial of desertion.

M. C. 18th
April 1788

The Governor General in Council thinks proper to correct an idea which seems to prevail, that a commanding Officer has a claim to the whole or any part of this allowance; he considers it the duty of every Officer to detect deserters without any participation in this reward, which should be distributed only among the non-commissioned Officers and Privates, whether European or Native, or other persons instrumental in apprehending, or whose information may be the means of detecting deserters; and orders, therefore, that the distribution of this reward be made by the President of the Court Martial before which a deserter is convicted, and to be drawn and applied for these purposes only, by the Town Major, Brigade Major, or other public Officer of a Corps or Station.

The Commander in Chief being of opinion that the allowance of Sonat Rupees 100

M. C. 27th
May 1793

granted by the Board, under date the 9th April, 1770, for apprehending European deserters, is unnecessarily large, and that the intention of the regulation will be fully answered by limiting the allowance to Sonat Rupees 50 for each deserter; Resolved, according to the recommendation of the Commander in Chief, that the reward be reduced to that sum. The other parts of the regulations respecting deserters remain in force.

Agreed, that the European Women, whether belonging to the Artillery or the Infantry, shall be allowed the pay of 8 Rupees per month.

Allowance to European Wives of Soldiers.

Proc. V. P.
20th Mar. 1810

The allowance authorized for the European wives of non-commissioned Officers and Privates is, under no circumstances, to be in future granted to the wives of non-commissioned and privates not born of European Parents.

Not authorized to those born of Native Parents.

Proc. G. C.
28th May 1801

The Governor General in Council does not deem it necessary to establish any allowance for quilts for European Women, belonging to His Majesty's or the Company's European Regiments.

No allowance for quilts to European Women.

4th April 1808

The Governor General in Council is pleased to direct that an allowance of 12 Sonat Annas for each European woman, and of 6 Sonat Annas for each child, being the wives and children of European non-commissioned Officers and Privates, shall be granted to the Commanders of ships in the Service of the Honorable Company, or in the country trade, employed by Government in the conveyance of Troops from port to port in India.

Allowance for victualling European women and children transported by sea.

Let. C. D.
19th Apr. 1797

PARA. 7th—Very great distress having arisen to persons, who, after attending passengers to England, have been deserted and left unprotected without any means of returning to their families; we have resolved (in order to prevent the same in future) that previous to the wife of a non-commissioned Officer or Private, either in the King's or Company's Service, being allowed to proceed to England in attendance upon any passenger, a deposit be made in India to the same amount as that which is directed respecting black servants.

Deposit to be made on taking the Wives of Soldiers, &c. to England as servants.

In the event of widows of this description declining the option of proceeding to England, the allowance will cease from the date of the dispatch of the first ship to England after the husband's decease.

Regns. under which Lord Clive's pension to widows of Soldiers is granted & paid, According to the deed of agreement between the East India Company and the Right Hon'ble Lord Clive, "the widows of Soldiers who may have become Invalids or Superannuated in the Company's Service, or of Soldiers dying in the Service, are allowed one quarter or fourth part of the ordinary stated pay their husbands were entitled to, during their respective widowhoods, and no longer." L. O. 23d July 1771

The Pensions to commence from the dates of debarkation in England, to be paid in advance the remaining number of days of the current half year, and at the expiration thereof, every succeeding half year in advance.

Those residing within 25 miles of London shall be paid only at the Company's Office in London. Those residing at a greater distance in Scotland or Ireland to be paid at such times, by such persons, and in such manner, as the Court of Directors shall, from time to time, find convenient, in person and not otherwise; one shilling to be allowed by such pensioners to the person paying them for his trouble.

Widows of non-commissioned Officers and private men must prove their marriage to the satisfaction of the Court of Directors.

To those only who reside in Great Britain or Ireland. PARA. 113th—From the whole tenor and scope of the deed entered into between the Company and Lord Clive in the year 1770, it appears that the benefit of the Fund was intended solely for European Officers and Soldiers and their widows resident in Great Britain or Ireland. The Company are therefore not warranted to admit any persons resident in India as pensioners on that Fund. (vide Page 162) L. O. C. D. 7th Sept. 1808

The Governor General in council notifies that no claim to the benefit of Lord Clive's Fund will be admitted, hereafter, except under the conditions specified in the orders of the Honorable Court of Directors, conveyed in their letter under date 7th September, 1808. G. O. G. O. 29th Dec. 1810

Allowance for the subsistence of Orphans of European Soldiers. Resolved, that an allowance of 3 Rupees per month be made for the subsistence of each of the orphan children of non-commissioned Officers and Soldiers who have been on the Bengal Establishment, to be paid into the hands of the Managers of the Orphan Fund, established by the Officers of the Army, and to be appropriated under their direction to the service required. M. C. 15th May 1783

Extended to all children of European Soldiers. Agreed to grant the allowance of 3 Rupees per month to all children of Soldiers to be paid to the Managers. M. C. 30th June 1783

PARA. 8th.—This Court doth approve that the Managers of the Orphan Society have the charge of the maintenance and education of the children and orphans of European non-commissioned Officers and Privates on the Bengal Establishment. L. O. C. D. 14th Mar. 1786

The allowance augmented, As the Managers of the Orphan Society have made repeated representations to the Governor General in Council, setting forth that the monthly allowance of 3 Sicca Rupees stipulated to be paid to the Managers by the Company, for the maintenance, cloathing and educating of each of the European Soldier's children, is greatly inadequate to the unavoidable expences incurred by the Society on those accounts: this Court will therefore give orders, that the Managers of the Society be directed to deliver in to the Board an account, annually, specifying the actual expences incurred by the Society, on account of those children, and that the excess of the said amount above the allowance of three Rupees be reimbursed to the Society by the Company, provided that the total monthly charges, for each child, do not exceed the allowance of five Sicca Rupees, formerly issued for the support of those children. And, to prevent abuses in this charity, it is the opinion of the Court that no allowance, either of three Rupees or any further sum, be paid without returns being regularly made to the Governor General in Council of the children entitled to this fund, specifying the names and age of such children, and the names of their

fathers, together with their stations, and the Regiment and Company to which they respectively belonged, which lists are annually to be transmitted to the Court of Directors.

Res. Gen. Mem.
Orphan Society
31st May 1787

Resolved, that the several Station Committees be empowered to pay unto the parents and guardians of such children, whose ages do not exceed three years, and who are present with the corps belonging or attached to the station, the sum of Sicca Rupees three per mensem, under certain restrictions hereafter mentioned.

Rules under which the payment of three Rupees per month is authorized to children whose ages do not exceed three years, and who remain with their parents or friends.

That the Committees be requested to apply to the proper Officers for a monthly list of all children whose ages do not exceed three years, inserted in the review rolls transmitted by them to the Adjutant General's Office, and that a copy of these lists, with an account of the money paid for the children, be transmitted monthly to the General Management.

That the Committees be informed, that they are not to pay the allowance of 3 Rs. per month for children, under the age of 3 years, unless their parents or guardians will enter into engagements to send all such children to the Orphan House when they are at a proper age to be received, and that persons having children whose ages exceed three years, and do not send them, or consent to permit them to be sent to the Orphan House, shall not on any account whatever be paid the allowance for such children as they may have, whose ages do not exceed three years, until they comply with this regulation.

Res. Gen. Mem.
Orphan Society
22d June 1790

Agreed, that it be left in the discretion of the several Station Committees to prolong the term of the children of non-commissioned Officers and Privates continuance with their parents to four years, in such particular cases as may appear to them to justify the deviation from the original resolution, which limited the term to three years.

Term of children remaining with their parents prolonged to four years occasionally.

M. C. 29th
July 1796

Agreed, that the allowance granted to the Orphan Society for the children of non-commissioned Officers and Privates be extended to the children of those men belonging to this establishment, who may be serving at the Islands, dependant on this Presidency.

Allowance extended to the children of men on foreign service.

G. O. C. C.
23d May 1796

In order to guard as much as possible against the parents or guardians of children imposing on the Management by reporting their children dead, or otherwise secreting them, on their attaining the prescribed age for being placed in the Lower School; Officers commanding corps, who return children to the Adjutant General, are enjoined to use every method in their power to enforce a strict performance of the agreement entered into by the parents or guardians, who, in case of refusal to send the children to the Orphan House, are to be put under stoppages until the whole amount of the subsistence money issued to them is recovered.

Penalty on Soldiers, &c. refusing to send their children to the school on their attaining the prescribed age.

The allowance of the Honorable Court of Directors on this account, being limited to those children whose fathers are born in Europe, it is not in any instance to be made to the offspring of intermarriages between boys and girls of half blood, as the granting such indulgence would occasion a considerable and unauthorized expence to the Hon. Company.

Allowance only granted to children of European fathers.

18th Aug. 1802

The General Management of the Orphan Society having represented to the Commander in Chief, that the funds of the institution are subject to continual loss from the present modes of paying arrears claimed for Soldier's children, on certificates obtained from the Orphan Committees of Stations, such arrears being generally claimed for periods in which the claimants are proceeding by water, and their children not returned to the Adjutant General; His Excellency is pleased to order, in future, that no arrears whatever shall be paid on certificates of this nature; but on their being presented to the Committees they shall be forwarded to the General Management, for the purpose of being compared with the several rolls of children for those months for which arrears are claimed; and, in the event of such children not having been duly returned, no arrears are to be paid until review rolls are furnished for each child, for the months due, and information received from the General Management that the bills for those arrears have been duly sanctioned by the Commander in Chief, and passed by the Military Auditor General, accordingly.

Rules for the payment of arrears claimed for Soldiers' children.

The rank of the fathers is to be in future inserted in the rolls of children, sent from the different corps to the Adjutant General.

Rolls of children how to be prepared, rank of the fathers to be inserted.

G. O. C. C.
24th April 1803

The rolls of children of European non-commissioned Officers and Privates, transmitted to the Adjutant General's Office from the different corps of the Army, are in future to contain an additional column for the purpose of distinguishing those who are orphans,

from those whose fathers are living. In this column, opposite to the name of an orphan, the letter O is to be inserted, and opposite to the name of a child whose father may be living, the letters F. L.

Returns to be made out alphabetically.

Officers in command of corps, returning the children of non-commissioned and private Europeans to the Adjutant General, will in future cause these returns to be made out alphabetically.

G. O. C. C.
1st June 1802

General return to be transmitted to the Court of Directors.

Agreed, that the Adjutant General be requested to send the returns as he receives them, after reserving a copy, to the Secretary, who will prepare the General Returns for the Court of Directors, which the Managers will request the Adjutant General to authenticate.

Res. Gen. Man.
Orphan Society
25th Nov. 1786

Returns of children of men removed how transmitted and touched.

To ensure the regular transmission of returns of children of men, removed from one corps to another, the Adjutants of the corps, from which such men are removed, are to furnish the men with certificates expressing the period to which the children have been returned; and the Adjutants of the corps, to which the men are transferred, are to make out and transmit to the Adjutant General separate returns of the children for the months in which they have not been returned. The Orphan Committees are also to furnish the men with certificates of the period to which the allowance has been paid, which certificates are to be presented to the Orphan Committees of the Stations to which the men are removed.

G. O. C. C.
2nd Mar. 1799

Casualty lists to accompany the returns.

The monthly returns of children are to be accompanied by lists of casualties, which have taken place in the course of the month; and Adjutants of corps are enjoined to ascertain the actual occurrence of the casualty before they report it; in order to guard against parents or guardians of children securing them upon their attaining the prescribed age for being placed in the Lower Orphan House, and thereby defeating the humane intention for which the School was established.

Returns when transmitted and how prepared.

Returns of the children of European non-commissioned Officers and Privates, whether Orphans or not, belonging to the different corps of the Army, to be separately transmitted to the Adjutant General's Office, with the Monthly Regimental Returns of the several corps. In these returns the names and ages of such children as are present, together with the casualties that may have occurred in the course of the month, are to be inserted.

Rules for European Soldiers &c. visiting their children at the school, and for their preferring complaints.

Non-commissioned Officers and private Europeans, who may be desirous to visit their own children, or the children of their friends, in the Lower Orphan School, are to procure a pass chit from their immediate commanding Officers, which is to express the purpose for which it is granted, and to be carried by the person visiting a child (dressed in the uniform of his corps) to the Head Master of the School, who will permit the parent or guardian to see the child, provided he conducts himself on his coming, and whilst there, with sobriety, respect and decency; but on any deviation therefrom he will be refused admittance, and his name reported to his commanding Officer.

G. O. C. C.
9th Nov. 1802

In order to prevent inconvenience from indiscriminate and daily visiting at the School, the Commander in Chief enjoins Officers in command of European corps, to be particularly careful not to allow too many men to go at the same time, and, as far as is consistent with circumstances, to restrict this indulgence to fixed days. A steady non-commissioned Officer is always to proceed in charge of the men.

Should any of the non-commissioned Officers and private Europeans conceive that they have cause of complaint regarding their children, of whatsoever nature, they are to state their grievance through their immediate commanding Officer to the Deputy Governor of the Society, who will cause an immediate investigation into the complaint.

G. O. C. C.
18th July 1799

Whenever non-commissioned Officers or Soldiers have occasion to write to the Secretary of the Orphan Society, their letters, or references regarding their children borne on the Review Rolls of that Institution, are to be forwarded by the commanding Officer of their corps to the Orphan Committee of the station to which such corps is attached, or by the commanding Officer direct to the General Management, as he may judge expedient.

Letters of Soldiers having occasion to write to the Orphan Society, how to be forwarded.

The Deputy Governor and Managers of the Orphan Society have represented to the Commander in Chief, that non-commissioned Officers and Soldiers have often franked letters themselves, which is a practice that is strictly to be prevented by commanding Officers in future.

Refn. General
Man. Orphan
Society, 11th Feb.
1787

It is proposed to provide for several of the sons of the non-commissioned and privates by sending them to sea, or placing them, with the approbation of Government, in the Pilot Service.

Provision proposed for the sons of Enn. Soldiers.

It is also proposed to request of Government that the sons of non-commissioned and privates may be admitted into the Service of the Company, as drummers and fifers, as often as convenient.

The Right Hon'ble the Governor and the Managers present approve of both these propositions, and resolve that they shall be adopted.

Proc. G. G.
7th Nov. 1808

The Governor General in Council is pleased to determine that the boys attached to the Lower Orphan School shall not in future be transferred from that Institution to corps in the Army, until they shall have attained the age of 13 years.

Period at which they are transferred as Drummers and Fifers.

His Lordship in Council is pleased to authorize a Drummer and a Fifer to be entertained at the School, for the purpose of instructing the boys intended for the Army.

A Drummer & Fifer authorized at the school for their instruction.

Proc. G. G.
6th June 1808

Any expences incurred by the Managers of the Orphan Society, on account of buildings for the accommodation of the Lower School, are in future to be charged by them in a separate bill to be audited before payment : and the same form is to be observed with regard to any advances made by the Managers for the equipment of boys drafted into Regiments, that the amount may be recovered from such Regiments, in regular course, by the proper Paymaster, to whom the advance will, in the first instance, be charged for that purpose.

Advances for Buildings, and for the equipment of boys, drafted to corps of the army how to be charged.

Proc. G. G.
30th May 1808

His Lordship in Council approves and sanctions the arrangement proposed by the Committee of the Orphan Society, for the assignment of the Company's allowance, of Sicca Rupees 3 per child, upon abstracts drawn by the Secretary of each Station Committee, if accompanied by the requisite Review Roll of the children. The Paymasters to charge the amount upon their disbursements like any other Military Expenditure, under the head, "Allowance for Soldiers' Children."

Company's allowance to be paid to the Station Committees.

In the event of the monthly allowance, of Rupees 3 for each child, being found to be insufficient for defraying the expence of the Lower Orphan School, his Lordship in Council, on the application of the Managers, will authorize a monthly advance being made for the probable amount of their disbursements on the same account.

And a monthly advance authorized at the Presidency on application of the Managers.

Such advances to be adjusted in the Office of the Military Auditor General at the end of each year.

Proc. G. G.
4th June 1807

The Governor General in Council concurring in opinion with the Managers regarding the propriety of appointing a commissioned Officer for that duty, approves of the appointment of Captain James Davidson to superintend the Lower Orphan School, and of the allowances proposed for him, with the exception of full batta, viz. 200 Rupees per month and the house rent of his rank.

Commissioned Officer appointed Superintendent of the Lower Orphan School, and his salary established.

M. C. 31st
October 1799

Ordered, that the Officers commanding the several corps of the Army shall transmit to the Town Major's Office at Fort William, a long roll containing the names of all the commissioned, non-commissioned Officers and private men, under their command, together with casualties that may have happened in their corps in the twelve months.

Rules for the preparation of annual long rolls and casualty lists of European non-commissioned and Privates.

G. O. C. C.
20th Oct. 1806

The Annual Survey Rolls of all European commissioned, non-commissioned Officers and Privates are to be closed the 31st December every year, and transmitted without delay to the Office of the Town Major at Fort William as soon as they can be prepared.
(Vide Form No. 4.)

Period of transmission.

Orthography to be carefully preserved, & numbers correctly stated.

Only to exhibit the names of those present at the time.

Quarterly returns of European corps when transmitted and how prepared.

Officers in command of European corps are enjoined to be particularly attentive in preparing their Annual Long Rolls for the Town Major's Office ; the original mode of writing both the Christian and Surnames of the men is never to be deviated from, and the greatest care is to be taken that the number of Europeans exhibited on the Rolls is correct.

These Rolls are to specify only the names of men living at the time of making them up. Separate lists of the casualties that have happened since the date of the preceding Rolls, are to be forwarded at the same time.

Quarterly Returns of European Artillery and Infantry of the Hon'ble Company's Army, and of the corps of European Artillery and Infantry Invalids, to be transmitted, in future, to the Adjutant General's Office, and to state in columns the alterations and casualties that have taken place since the dates of the preceding returns, under the following heads. (*Vide Form No. 5.*)

The alterations in the European Invalids, as to the number transferred to the corps, deaths, desertions, &c. are also to be inserted in their Annual Rolls, Casualty Lists, and Quarterly Returns.

Proportion of each regiment of European Infantry to be trained to the gun exercise.

Government having been pleased to authorize an annual supply of light ammunition for training a proportion of each Regiment of European Infantry, of His Majesty's and the Hon'ble Company's Service, serving under this Presidency, to the practice of Field Artillery, 5 men per company of each corps are to be drilled, accordingly, for that duty ; and indents for the following light ammunition and stores, for each corps of European Infantry, are to be transmitted annually to the Military Board.

Annual allowance of Stores, &c. for their practice.

List of Stores to be allowed annually for training 50 men at Drill, with a 6-pounder Field Pieces, at 100 rounds per man.

Two six-pounder Field Pieces with their equipment supplied to each corps.

Two 6-pounder Field pieces, for the purpose above mentioned, are to be issued to each corps of European Infantry from the nearest magazine ; and with them the usual fixed proportion of spunges, pouches, and other gun implements for the service of a 6-pr. Field Pieces, are to be supplied and replaced, from time to time, whenever any may be worn out or become unserviceable from accident.

Staff allowance to Adjutants of European Infantry.

Staff allowance to an Adjutant of a Regiment of European Infantry, as fixed by the Hon'ble Court of Directors on the 8th January, 1796, Sonat Rupees 187 per mensm.

Ext. Let. C. D. 8th Jan. 1796

Additional Staff allowance to Adjutants of all European corps.

The Hon'ble the Court of Directors having ordered the extra sum of Curt. Rupees 100, now drawn by the Adjutants of European corps, and which was formerly paid from the Off-reckoning Fund, shall be discontinued, the Governor General in Council directs the said allowance shall cease accordingly. The Hon'ble Court having at the same time, in consequence of the late increase of the Establishments of European corps, authorized the Governor General to make an adequate addition to the allowances of the Adjutants of those corps, his Lordship in Council orders that the Adjutant of each European corps, King's and Company's, whether Cavalry, Artillery, or Infantry, shall be permitted to draw an additional staff allowance of 60 Sonat Rupees per month.

G. O. G. G. 27th Mar. 1800

G. O. G. G. The Governor General in Council is pleased to direct, that the Adjutants of all effective corps of European Artillery and Infantry on the establishment of this Presidency, be allowed horse allowance in garrison and cantonments, as well as in the Field. And horse allowance in cantonments and in the field.

Increased rates how to be drawn.

Period for which arrears are granted.

Rolls in authentication of length of service how to be prepared.

Specification of service for which claims may be preferred to increased allowances.

The increase is to be hereafter drawn with the pay, each class being stated separately on the Pay Abstracts.

The commanding Officers of the Horse Artillery, and of each company of European Artillery, will accordingly prepare and transmit, through their respective Paymasters, for audit, an abstract of arrears of difference of pay, which the non-commissioned Officers and Privates of the Horse Artillery or companies of Artillery may be entitled to, under the new regulations, from the 1st July, 1806, to the 1st January last.

The commanding Officers of the Horse Artillery, and of each company of Artillery, will transmit with the least practicable delay, to the Office of the Major of Brigade of Artillery, a long roll, which shall include the name of every effective non-commissioned Officer and Private of the corps or company under his command, stating the date of his entrance into the Artillery, and adding thereto such remarks relative to former service, as may tend to establish claims to the increased rates of Pay, under his Majesty's Regulations, as stated in letters from the Secretary of War, dated 29th July, 1806, in the following paragraphs; these Rolls, after having been carefully examined and compared with the Register in the Office of the Major of Brigade of Artillery, and duly corrected by him, are to be countersigned by the Commandant of the Regiment of Artillery, and transmitted to the Office of the Military Auditor General.

In regard to the additional allowance to Corporals, Bombardiers and Privates, after 7 and 14 years' service, respectively, it is to be understood that previous service in any Fencible Corps liable to serve out of Great Britain, Ireland, or the Islands in the Channel, is to be taken into account, in estimating the claims of men to the said additional allowances.

Those discharged at the late peace, or at any other period, and who have since entered into the Bengal Artillery, are entitled to claim the benefit of their antecedent service in corps of the above description. But service in the Militia, or in any Corps of Fencibles, not liable to serve out of Great Britain, Ireland and the Islands in the Channel, is not to be considered as making any part of the service entitling men to the said additional allowances.

Former desertion is not in any respect to affect a man's claim to the allowances in ques.

tion, but desertion occurring subsequently to the 1st July, 1806, will deprive a Soldier of all title to the said allowances from antecedent service.

In the case of men who have been pensioned, either from the Ordnance or from Chelsea, and who have since entered into the Bengal Regiment of Artillery, the time during which such men were on the pension is to be taken into account in estimating their claim to the additional allowances; two years, thereof, being reckoned as one of actual service, and the same in proportion for any longer or shorter period."

The commanding Officers of the Horse Artillery and of each company of Artillery are enjoined to pay the strictest attention to the foregoing rules, by which the claims of non-commissioned Officers and Privates, respectively, according to length of service are to be determined; and to satisfy themselves, as far as it may be practicable, of the just pretensions of each individual to receive the augmented rate of pay, founded on his former service in other corps; and when such claim cannot be exactly ascertained, payment thereof is to be suspended, until the necessary information or special authority shall have been obtained.

When claims cannot be exactly ascertained payment is to be suspended.

The Governor General in Council is also pleased to extend the same indulgence, relative to the increased rates of pay, to non-commissioned Officers and Privates of Artillery who may be employed in staff situations.

Increased rates of pay according to length of service extended to non-commissioned Officers of Artillery in out employs.

(For rates of pay and batta to non-commissioned and Privates of European Artillery, when embarked on transports, or serving as Marines, or drawing dry batta, vide pages 167 and 169.)

G. O. C. C. One Corporal and four Matrosses of Artillery to be held in readiness to embark on the 15th Nov. 1800 Fury, gun vessel. Exclusive of the pay and batta of their respective ranks, the above mentioned men will receive as follows, from the Marine Department—1 Corporal, Sonat Rupees 15 per month.—4 Matrosses, at 10 Sonat Rupees each,—40 per month.

Additional allowances granted to Artillery men serving on gun vessels.

G. O. C. C. The pay of all men from the corps of Artillery, whose time of service shall have expired, and who shall have refused to renew their contracts of Military service with the Company, shall be drawn by the Major of Brigade of Artillery, so long as such men shall remain in Fort William, after having been struck off the strength of companies.

Pay, &c. of men discharged or invalided from the Artillery, while in Fort William, to be drawn by the Major of Brigade.

The pay of all men invalided from the Artillery and sent to the Presidency, shall in like manner be drawn by the Major of Brigade of Artillery, until such men shall have been transferred to the Invalid Artillery Companies, or sent to Europe.

P. W. P. The Vice President in Council is pleased to authorize blue cloth pantaloons being supplied for the use of the European Artillery in the Field, on the terms specified in the letter of the Adjutant General, under date the 15th ultimo, and enclosures therein submitted, viz.

Orders for the supply of blue cloth pantaloons to the Artillery in the field.

"The Colonel acting Commandant being responsible to the Import Warehouse-keeper for the whole amount of the cloth, and being reimbursed from commanding Officers of companies, when the amount of half mounting is drawn for by them, the Government to be at no expence, further than the usual allowance of Sonat Rupees 4 and 10 pie per man."

The indents will accordingly be transmitted to the Import Warehouse-keeper, with instructions to the Assistant to supply the Major of Brigade of Artillery with the quantity and description of woollens, specified in them, from the Honorable Company's Stores.

Information to this effect will be communicated to Head-quarters, with a request that Colonel Horsford may be directed to issue orders to the Major of Brigade of Artillery to make up the cloth into parcels for each company, and to forward them to the proper stations with all practicable dispatch.

Quarter-master's establishment for a battn. or detachment of Artillery.

M. C. 20th June 1796 Establishment for the Quarter-master of a Battalion of Artillery, on field duty or at practice, or for any detachment of it.

In the field or at practice.

Two Sweepers,—4 Bildars,—1 Cart,—1 Sail-maker, for each company.

FOR THE DETACHMENT.

One Mistry-smith,—one Mate,—one File-man,—one Fire-man,—one Hammer-man,—one Mate Carpenter,—two Workmen ditto,—two Chucklers.

When more than two companies are detached together, a Mate Bildar to be allowed.

When a company is detached, without a Quarter-master, the establishment, agreeably to the above proportion, to be drawn by the commanding Officer.

Establishment for a Quarter-master of a Battalion of Artillery in Cantonments and Garrison, or for a detachment of one company or upwards;

In Garrison or Cantonments.

One Tindal,—three Lascars to each company,—one Sail-maker,—one Mate Carpenter and one Chuckler, for the detachment ; when there is only one company, the Carpenter to be deducted from the above establishment.

Quarter-master's establishment in Fort William, re-tributed to that fixed for two Battalions.

By the periodical relief of the Artillery, which takes place by companies, that part of it stationed in Fort William will generally consist of companies attached to the three different Battalions : these are not however on that account to be considered as detached companies in respect to Quarter-master's establishment of Lascars and Artificers, but the two Quarter-masters doing duty there are, respectively, to keep up the establishment allowed for one Battalion only, and not the separate establishments fixed for detached companies.

At C. O. C. 1788

Puckallies how furnished for detached companies, &c.

Puckallies for the European Artillery, (viz. two for each company, as fixed by Let. C. D. 8th Jan. 1796,) and for companies of Lascars to be furnished by the Quarter-masters, when present ; but for the detached companies by the commanding Officer of those companies.—Those for detachments of Artillery serving with 2 guns, by the commanding Officers of the detachments.

G. O. C. Nov.

Allowance granted for Puckallies what to provide.

In lieu of what is now drawn for the establishments of Puckallies, an allowance is to be made of 12 Sonat Rupees per month, which includes every charge for providing and feeding the bullocks, the pay of the Puckallee or driver, and all incidental expenses for lights and ropes.

(N. B.—For tent Lascars, Puckallies, Sweepers, Hand Behishtees and Coolies on a march, for provision of carts and cattle, of straw, tent pins, &c. carriage of cots,—allowance for butts and targets for each Battalion,—for oil to Quarter-masters,—employment of European orderlies,—Indents for Arms and Camp Equipage, provisions of Drum Heads,—receipts for cloathing,—preparation of annual long rolls of European non-commissioned and Privates, and other Regulations which are applicable to the Artillery in common with other European corps, *vide Chapter II.*—For proportions of petty stores, of wax cloth, hides and twine, exercising ammunition, &c. *vide Chapter XIII.*)

Detached duties how performed in the Artillery.

The Corps of Artillery to be considered as a Regiment of 3 Battalions, and the detached duties to be done as at present by companies, and by two rosters.

G. O. C. C. 11th Jan. 1807

The one of general commands to other Presidencies or on actual service.

The other of provincial commands or commands in the field.

These rosters, adjusted by the authority of the Commander in Chief, are lodged in the office of the Major of Brigade.

The Head-quarters of two Battalions to be at Fort William, and one Battalion in the field.

Companies how temporarily attached to Battalions.

The companies in the field belonging to Battalions in Fort William, to be returned doing duty with that Battalion ; those at the Presidency, belonging to the field Battalion, to be returned doing duty with either Battalion to which they may be attached by the Commander in Chief.

Detail of duty in Fort William how carried on.

The Head-quarters of the Corps to be always at Fort William, and the duties of the two Battalions there to be done distinctly, as directed for Battalions of Native Infantry ; the Adjutants of Battalions keeping the details of their respective Battalions, and the Major of Brigade conducting the detail of the regiment.

Rules for the tour of duty of Field Officers.

Field Officers will be named by the Commander in Chief for tours in the field, on the following principles.

A Colonel, a Lieutenant Colonel, and a Major to be in the field, provided there be in Bengal an Officer of the rank of the Officer to be relieved, who has not been in the field, as a Field Officer, for the space of four years.

In cases where there is not an Officer of the rank of the Officer to be relieved, who comes within the above description, there will be no Field Officer of that rank in the field.

Should it happen that there be two Field Officers of the same rank, neither of whom has been in the field for the space of two years, the one who has been longest from it, as a Field Officer, will be sent, and should neither of them have been in the Field, as a Field Officer, the senior will have the preference.

No Field Officer to remain in the Field more than two years, and every Field Officer to remain that period, although he should be promoted to a higher rank during his tour, excepting in the case of promotion to the rank of Colonel, and where another Colonel is,

at the time of the said promotion, in the field, but in the event of there being by promotion two Lieutenant Colonels in the field together, a Major will not be sent.

The Commander in Chief has laid down the foregoing principles as the most equitable he can devise, and the most likely to ensure to every Field Officer on the establishment his just proportion of the field advantages: he sees, however, the possibility of its occasionally bearing hard upon some individual; but in such a case, owing to the deficiency of Field Officers present, it will most likely be in his power to afford relief without injury to any other person.

The commissioned Staff in the field will each be relieved every two years on the principle of the longest absent from it. Relief of Staff in the Field

Field Officers and Staff Officers in the Field will be appointed to do duty with the Battalion there, and Field Officers and Staff Officers at the Presidency with the Battalions doing duty there. Field Officers and Staff how attached to Battalions.

Lieutenant Colonels and Majors will be detached to other settlements and on service by a Roster to be kept in the Adjutant General's Office, upon the usual principle of Rosters, viz. a Lieutenant Colonel and a Major alternately, unless a Lieutenant Colonel or a Major should be specifically ordered, in which case the other rank will bring up its tour on the next occasion. Roster of Field Officers for foreign service.

G. O. C. C. 20 Feb. 1797 The return of each Battalion of Artillery is to include the companies doing duty with it and those properly belonging to it, although doing duty with another Battalion, but the columns of the latter are to be left blank and a remark annexed "doing duty with the Battalion." Returns of Battalions and the regiment of Artillery how prepared.

The Regimental or general return of the corps is to exhibit the companies in Battalions as they stand fixed, and not according to any temporary arrangement.

The Field and Staff Officers are to be returned on the strength of Battalions to which they are attached.

- Field Officer to command the detachment at Karnal. Major Raban, of Artillery, is appointed to command the Artillery and ordnance details appertaining to the post of Karnal. G. O. C. C. 7th Mar 1803
- Officer commanding detachment at Delhi and Rewari to draw for the details at both posts. Captain Lieutenant Hetzler having been appointed by General Orders of the 2d April, 1806, to the command of the Artillery of Lieutenant Colonel Ball's command, comprising the Troops at Delhi and Rewari; Captain Lieutenant Hetzler is to draw for all the allowances appertaining to such Artillery command, and to sign all the review rolls and abstracts accordingly. Captain Lieutenant Hetzler will be occasionally at Delhi or Rewari, as Lieutenant Colonel Ball may judge best for the public service. G. O. C. C. 21st June 1803
- Field Officer stationed at Agra. Lieutenant Colonel Clarke, of Artillery, is directed to proceed from Futtighur to Agra, and to take command of the Artillery at the latter station. G. O. C. C. 7th Feb. 1803
- Additional Adjutant and Quarter-master, allowed to the division at Agra. An additional Adjutant and Quarter-master, in one person, is allowed to the division of Artillery at Agra, upon the same Staff pay and allowances as are granted to Adjutants and Quarter-masters of Battalions of Artillery. G. O. C. C. 4th Aug. 1803
- And non-commissioned Staff transferred thither from Futtighur. The Staff appointments of Serjeant Major, Quarter-master Serjeant and Drill Corporal, allowed to the detachment of Artillery at Futtighur, by general orders of the 12th January, 1795, are to cease at that station, and those appointments are to be allowed to the detachment of Artillery stationed at Agra from the 1st Proximo. G. O. C. C. 4th April 1807
- Field Officers to command the detachment at Allahabad. Majors Clarke and Grace, the two Field Officers of Artillery at the Presidency first on the Roster for provincial commands, are to proceed with the detachment ordered from the Presidency by water. G. O. C. C. 6th June 1806
 Major Grace to command the Artillery at Allahabad.
- Details of Artillery attached to Battalions stationed in the provinces. With the sanction of Government the Commander in Chief is pleased to fix the undermentioned revised details of Artillery and Train and Quarter-master's establishments for the Battalions at the posts hereafter specified, viz.

Ordnance.

The Adjutant and Quarter-master in one person; the Rough Rider, Drill Serjeant, Non-effectives
Pay Serjeants and Saddlers are included in the number of effective Officers and men
required for the service of the Ordnance.

In consideration of the increased rates of off reckonings fixed, the following articles are
to be supplied to each non-commissioned Officer and Private of the Horse Artillery from
the Off-reckoning Fund.

One jacket	} Annually.
One pair of leather gloves	
One pair of boots	
One pair of leather breeches every two years.	

Cloathing and
Equipment to
be furnished
from the off-
reckoning
Fund.

Articles of Equipments that may be lost or destroyed how furnished. Amount of annual allowance in lieu of Half mounting.

A helmet and a cloak every three years. One pair of spurs to be furnished to each man in the first instance only: should it be found requisite to supply any of the aforementioned articles a second time, within the periods limited, or the spurs at any time after the first issue, such articles are to be furnished out of the amount of the annual half mounting allowance, and the residue, thereof, to be laid out in such necessaries as may be most useful to the men and conducive to the uniformity of the Corps.

Adverting to the more substantial and expensive articles with which the non-commissioned Officers and men of the Horse Artillery will be provided, at the expence of the Off-reckoning Fund, his Lordship in Council is pleased to determine that the annual allowance in lieu of half mounting, paid from the Off-reckoning Fund, be reduced from Current Rupees 4-8 per man, (the rate fixed by General Orders of the 3d October, 1789,) to Current Rupees 3-8 per man.

No further stoppage will be made on any account, from the subsistence of the non-commissioned or Privates of the Horse Artillery, excepting such as are authorized by the rules of the Service, as Hospital stoppages and for necessaries when deficient.

Rates of pay fixed for non-commissioned and Privates.

The pay of the non-commissioned and Privates of the Experimental Horse Artillery, as fixed at the time of the original formation of that Corps, by the orders of the Governor General in Council of the 5th March, 1801; was declared to be subject to revision in the event of any further augmentation of the establishment. The Governor General in Council, however, having taken into consideration those rates, is of opinion that they do not require any revision, and they are accordingly confirmed, viz. Serjeant per month St. Rs. 22-8; Corporal St. Rs. 18; Gunner 16; Trumpeter 18; Matrofs 11-4; Farrier 10-8; Native Farrier, the same as in Native Cavalry, together with the increased rates of pay according to length of service according to the existing regulations. (*Vide Page 188.*)

For commissioned officers, medical staff, &c.

The pay and allowances of the European commissioned Officers, Surgeon, Assistant Surgeons and Riding Master, are to be the same as those of the corresponding ranks of the Cavalry.

Allowance for Gun Lascars per 100 16.

One doolie for 3 Brigades in cantonments, or for one or two Brigades detached, and one doolie for every ten men when marching or actually in the field.

Subalterns of Horse Artillery are to be allowed the indulgence of selecting a charger from the ranks, under the same terms and restrictions as are prescribed for that indulgence to Subaltern Officers of European and Native Cavalry.

Subalterns al-
lowed to se-
lect a Horse
from the ranks.

The Governor General in Council requests that his Excellency the Commander in Chief will be pleased to cause drafts to be made from the European Artillery, for the completion of the Horse Artillery to three Brigades of the strength above specified, to select Officers for the same corps from the Officers of the Foot Artillery, and to issue such further orders for carrying into effect this arrangement as may refer to his Excellency's authority.

Orders for the
formation of the
corps.

G. O. C. C.
4th Oct. 1809

In pursuance of the General Orders by Government, under date the 4th August, 1809, authorizing the formation of a Regular Corps of Horse Artillery for the service of this Presidency, the Commander in Chief is pleased to direct that the following arrangements be carried into effect.

The present Corps of Experimental Horse Artillery is to be divided on the 1st November next into three equal portions by a fair draft of the European non-commissioned and Privates now on the strength of that corps, which divisions are to constitute the foundation of the three new Troops, and to be denominated the 1st, 2nd, and 3rd Troops or Brigades of Horse Artillery.

In like manner an equal draft and allotment is to be made of the Gun Lascars, Horses, appointments, accoutrements, &c. appertaining to the present corps.

The Acting Commandant of Artillery will proceed in the execution of the General Orders of 22d September, 1809, for causing men to be selected from all the companies of Foot for the corps of Horse Artillery; and will cause the necessary promotions to be made for completing the establishment of European non-commissioned Officers.

The additional non-commissioned Staff now authorized are also to be appointed from the 1st November next.

A promotion of two Serangs and four Tindals to be made in the present detail of Gun Lascars with the Horse Artillery, or in part, if necessary, from the Lascar Companies attached to the Foot Artillery; and a draft of five Lascars (to be selected on the occasion by commanding Officers of posts and stations) is to be made from the Gun Lascar Establishment with the Gallopers attached to H. M. 24th Dragoons, and to each of the eight Regiments of Native Cavalry, making a total of 45 Lascars for the augmentation of the Horse Artillery, to which 3 more Lascars are to be added from the Galloper Establishment of the 2d Cavalry, to make up the complement required for the Establishment of Gun Lascars with the corps of Horse Artillery.

Details of Gun
Lascars how
furnished.

The Native Farriers, Native Doctors, Artificers, &c. required to complete the Establishment of each Troop to be entertained from the 1st November next; so many of those descriptions of people, now authorized, as are borne on the strength of the present corps of Horse Artillery, under the head of Train and Quarter-master's Establishment, are to form component parts of the Establishments assigned to Troops respectively.

Native Doc-
tors, Artificers
&c.

Each Troop to indent for the store cart and bullocks allowed for the conveyance of Artificers' tools, iron, charcoal, leather, and work in hand.

Add. Tumbrill to each Troop on service. When on service each Troop is to indent for one Tumbrill, filled with spare service ammunition, for every two pieces of ordnance. These Tumbrills are always to move with the Park, excepting when a Troop or Troops may be detached from the main Army.

Proportion of camp equipage Camp equipage to be indented for, for Europeans in the same proportion as allowed for European Dragoons, and Gun Lascars, 2 paals per Troop.

Mefs allowance extended to the Horse Artillery The Vice President in Council sanctions the allowance of Sonat Rupees 120, as authorized by General Orders of the 19th August, 1807, for the accommodation of a mefs for a Regiment of Native Cavalry, being drawn for that purpose, by the Officers of the corps of Horse Artillery.

Proc. V. P.
16th Jan. 1810

Non-commissioned Officers for cavalry Gallopers to be supplied from the Horse Artillery. The Provincial Commander in Chief is pleased to direct, that in future all European non-commissioned Officers that may be required for the Gallopers attached to Corps of Cavalry, European or Native, shall be supplied from the Corps of Horse Artillery, the Officer commanding which, under the orders of the Officer commanding in the Field, will select, on such occasions, the most deserving and trust-worthy non-commissioned Officers, forwarding their names to Head-quarters, for the confirmation of their appointments, in General Orders.

Resolved, that the following Establishment of Golundaz be raised and attached to each of the European companies of Artillery now in Bengal, upon the same rates of pay, &c. established for the corresponding ranks in the Native Infantry.—1 Jemadar—3 Havildars—3 Naicks—40 Privates.

First Establishment of Golundaz; rates of pay fixed.

Mahomedans are to be preferred for the Golundaz Establishment, and no man is to be received upon it who does not engage to embark on board of ship whenever the service shall require his proceeding by sea.

Conditions of service required from them on enlisting.

This is to be an express stipulation on oath previous to his being enrolled.

The diets of the Golundaz is to conform as much as possible to that of the European Artillery; after the commander in Chief shall have approved a pattern coat, bounty cloathing will be prepared.

Establishment
of the corps of
Golundaz in
the Upper Pro-
vinces.

The Governor General in Council has determined, that the whole of the Golundaz in the service, except the Regulars at Prince of Wales's Island, and on Foreign Service, and the Irregulars in the city of Dehli, be formed into 5 companies, each company to consist of 1 Subadar, 1 Jemadar, 8 Havildars, 8 Naicks, 100 Golundaz.

G. O. G. G.

Orders for its
formation.

The Officer commanding the Artillery in the Field will be pleased to carry into effect the foregoing orders of Government.—The Companies are to be numbered the 1st, 2d, 3d, 4th, and 5th, companies of Golundaz, and a formation return to be sent to Head-quarters. For the number that may be wanting to complete the proposed establishment, application is to be made, in the first instance, by the Officer commanding the Artillery in the Field to the Officer commanding the Artillery at Dehli, for Volunteers from the Irregular Golundaz there, after which, whatever number may be required to complete the establishment, is to be supplied by recruits, particular attention being paid that none be enlisted for that branch of the service, but such as may be in every respect competent to the duties they will have to perform.

Corps augment-
ed to 8 com-
panies.

The Governor General in Council is pleased to resolve that an augmentation of 3 companies be made to the Corps of Golundaz, each company to consist of the following strength.

G. O. G. G.
8th July 1858

1 Subadar—1 Jemadar—8 Havildars—8 Naicks—1 Drummer—100 Privates.

The Governor General in Council is also pleased to authorize the following increase of staff and Quarter-master's establishment to the Corps of Golundaz on its augmented strength.

Captain Com-
mandant ap-
pointed and
his allowances
fixed.

One Captain, commanding the corps, who will be allowed to draw the batta of the next superior rank, and the same proportional share of off reckonings as is now granted to the Officers commanding the Corps of Pioneers and Hill Rangers; these allowances are to be

considered as covering all expenses incidental to his situation.—One Serjeant Major on the established staff allowance, and 5 Drummers.

QUARTER-MASTER'S ESTABLISHMENT.

3 Lascars—1 Fileman—3 Bildars.

A Pay Havildar is to be allowed to each of the new companies, and a proportion of the established medicine allowance.

Serjeant Major and Drummers appointed.

Adtl. Q. master's Establishment.

G. O. C. C. Promotion in the Corps of Golundaz is to be regulated by the same principles as those established for the Native Infantry.

Regulations for promotion in the corps.

Recommendations for Native commissioned Officers are to be made by the Officer commanding the Corps through the Colonel Commandant of the Regiment of Artillery, and all promotions of non-commissioned Officers are to be made by the Officer commanding the Corps, attention being paid by him to the recommendation of Officers of companies, respectively, whenever Officers may be posted to those companies.

The Quarter-master of Artillery at the Head-quarters of the Artillery in the Field, is to do the duty of Adjutant and Quarter-master to the Corps of Golundaz.

Quarter master's duties by whom to be performed.

G. O. C. C. The Commander in Chief is pleased to appoint Captain Lieutenant S. S. Hay, of the 1st Battalion Artillery, to the command of the Corps of Golundaz, on its augmented establishment.—The Quarter-master's establishment for the Corps of Golundaz to be drawn for the present, by the commanding Officer.

Quarter-Master's Establishment to be drawn for the com'g Officers.

G. O. C. G. Puckallies for the Golundaz Corps are to be drawn for in the proportion of one for every hundred commissioned, non-commissioned Officers, and rank and file present, at the Head-quarters of that Corps; and those Golundaz who may be detached, will be provided with Puckallies from the establishment allowed for each Brigade of Guns.

Puckallies how provided for the corps.

G. O. C. G. The Governor General in Council is pleased to authorize an increase of one Hand Behistty and one Sweeper to be made to the Quarter-master's establishment of the Corps of Golundaz.

Adtl. Hand Behistty and sweeper allowed.

G. O. C. G. The Governor General in Council deeming it to be highly expedient that an Adjutant should be temporarily attached to the Corps of Golundaz, is accordingly pleased to authorize that appointment.

Adjutant appointed and allowances fixed.

The allowances to be the same as the allowances to an Adjutant to a Battalion of Native Infantry.

The expediency of rendering this a permanent appointment will be taken into consideration hereafter.

Reg. M. B. Ordered, that the Indent for Practice Ammunition for the Golundaz Detachment, with the Guns of 2d Battalion 21st Native Infantry, at Tarra, be rejected, it being unnecessary, and contrary to the regulations, to furnish ammunition for the practice of detached parties of the nature specified therein, which are recalled annually for the benefit of practice, with the Battalion or Company to which they belong. (For the proportion of Gun Ammunition and Stores allowed annually for the practice of Golundaz Corps, *vide* page 213, and for Exercising Ammunition, &c. *Chapter XIII.*)

Practice Ammunition not granted to Detachments with Battn. Guns.

G. O. C. C. The annual practice of the Artillery in the Field being now drawing to a close, a general relief of the detached Golundaz details is to be effected by detachments from the Head-quarters of the Golundaz Corps, at Cawnpoor, agreeably to a detail which will be furnished to the commanding Officer in the Field. (N. B. The detail of Golundaz allotted to the Guns attached to each Battalion of Native Infantry, is 1 Havildar—1 Naick and 12 Privates.)

Detached Parties annually relieved.

Proc. V. P. 6th The Vice President in Council is pleased to authorize blue cloth pantaloons being supplied for the use of the Golundaz in the Field, on the terms specified in the letter of the Adjutant General, under date the 15th ultimo, and enclosures therein submitted, viz.

Blue pantaloons and turbans how to be supplied to the Golundaz.

Blue cloth for Turbans and Pantaloons to be furnished alternately with the other prescribed articles of half mountings, without any additional expence to the men, the Turban one year and a pair of blue cloth Pantaloons the next."

The indents will accordingly be transmitted to the Import Warehouse, with instructions to the Assistant to supply the Major of Brigade of Artillery with the quantity and descriptions of woollens specified, from the Honorable Company's Stores.

Establishment of Independent Companies of Golundaz in the Lower Provinces.

The Vice President in Council is pleased to resolve, that two Companies of Golundaz be immediately established, to be denominated,
“ Independent Companies of Golundaz for the duties of the Lower Provinces and the Islands.”

G. O. V. P.
7th Nov. 1809

Each Company to consist of the following detail—1 Subadar—2 Jemadars—5 Havildars—5 Naicks—2 Drummers—120 Privates—2 Hand Behisties.

Orders for the formation of the companies

The acting Commandant of Artillery will be pleased to adopt the necessary measures for carrying into effect the orders by Government, of the 7th instant, for raising and forming two Independent Companies of Golundaz for the duties of the Lower Provinces and of the Islands.

G. O. C. C.
15th Nov. 1809

Captain Butler, of Artillery, is directed to do duty at the Presidency, with the Golundaz levies, until further orders.

Volunteers from the Native Infantry and Gun Lascars are to be allowed to enter the Independent Companies of Golundaz, as Privates, on their being approved by the acting Commandant of Artillery.

From the 1st of January next the Golundaz details at Prince of Wales's Island to be denominated the 1st Company of Independent Golundaz.

The 2d Company to be formed at the Presidency, and to be completed by Recruits as soon as practicable: descriptive rolls of the persons who may be recommended to the ranks of Subadar and Jemadar, are to be forwarded by the Officer commanding the Artillery at the Island, through the acting Commandant of Artillery, to Head-quarters, with a formation roll and return of the 1st Company. Formation roll and return of the 2d Company to be also forwarded as soon as completed.

All casualties to be reported to the Major of Brigade of Artillery

Descriptive rolls of these companies are to be forwarded to the Major of Brigade of Artillery, and all casualties to be regularly reported to that Officer.

Bounty clothing for the augmentation to be indented for.

Recruits to be raised at Chittagong.

Recruits for the Golundaz augmentation are to be raised at Chittagong, by the Artillery Officer at that place, under instructions from the acting Commandant of Artillery. Subsistence to be drawn for the Recruits at Chittagong until their arrival at the Presidency.

Allowance for repairs of Arms &c. and a Pay Havildar granted to each company.

The Vice President in Council is pleased to authorize the usual allowance to a Company of Golundaz, for repair of arms and for stationery; and a Pay Havildar, to each of the Companies of Independent Golundaz, which have been formed for the duties of the Lower Provinces and the Islands.

At all Stations where Train Artificers may be employed, the separate Indent for the several articles of stores that may be issued to those Artificers, by the Officer of Ordnance, for repairs or conversions, is invariably to be presented for the countersignature of the Commanding Officer of Artillery.
- Indents for stores, &c. used by them countersigned by the comp. Officer of Artillery at the Station.
- From: G. G. 24th March 1807
Field Army Orders 24th March 1807
- The Governor General in Council approves the measure proposed by Colonel Horsford, of removing the Train Establishment from Futtighur to Agra.
- In obedience to the orders of Government, the Train Establishment at Futtighur is to be removed and appointed to Agra, and placed under the command of the Officer commanding the Artillery at that Station.
- Train Artificers transferred from Futtighur to Agra.
- G. O. C. C. 29th March 1809
- The Governor General in Council, having been pleased to authorize a new proportion of Light Field and Battering Train for the station of Cawnpoor, as also an Exercising Train for the use of the Artillery at that station; the Ordnance and all the wheel carriages of the new proportions of light field, battering and exercising train, with any other stores appertaining that can be conveniently so arranged, are to be placed in gun-sheds in the Cantonment, and the whole to be committed to the special care and superintendence of the Senior Officer of Artillery at the station of Cawnpoor, who will be held responsible that the whole be maintained in a complete state of efficiency and readiness; reporting to the Military Board, whenever any defect or deficiency may occur.
- Light Field and Battering Train and Exercising Train for the Artillery, under the commanding Officer of Artillery at Cawnpoor.
- These proportions are to be borne on the magazine books, but on no accounts any issues to be made from them, excepting in cases of war or peculiar emergency, and which can seldom occur, as a separate proportion of Ordnance stores, &c. to answer all probable demands of corps dependant on the Cawnpoor station, will be allotted for that Magazine.
- G. O. C. C. 6th Apr. 1809
- The following establishment for the use of the Light and Battering Train deposited at Karnal, in addition to the establishment for the Battalion Guns, and to be drawn for by the senior Officer of Artillery, is authorized to be entertained from the 29th Instant.

- The Vice President in Council is pleased to allow a Park and Magazine Serjeant, in one person, for the Depôt of Guns and Military Stores at Karnal.
- Park and Magazine Serjeant allowed
- From: V. P. 24th Oct. 1809
- The Vice President in Council is pleased to authorize an addition of one Sonat Rupee to the wages of each of the Artificers at Karnal, as lately granted, under circumstances nearly similar, to the Artificers of the Dehli Magazine. (The rates of pay, &c. to the Artificers at Karnal are the same as fixed for those in the Dehli Magazine.)
- And additional allowance granted to the Artificers there.
- G. O. C. C. 10th Feb. 1803
- The Commander in Chief is pleased to authorize a reward of 8 annas for each 18-pound shot, and 5 annas for each 12 pound shot, to be given for all such as shall be picked up and delivered at the Park.
- Reward authorized, when on service, for shot brought to the park.
- Rec. M. H. 15th June 1789
- The Gun Carriages on the Ramparts, with the Ordnance, &c. being in charge of the Commanding Officer of Artillery at Fort William, he is to indent on the Military Board for new supplies of Artillery, and for materials or stores wanted for the Arsenal.
- Charge of the Ordnance in Fort William vested in the Commandant of Artillery.
- G. O. C. C. 24th Mar. 1809
- The Governor General in Council, in prosecution of an arrangement, recently adopted, for maintaining the Garrison Carriages on the works of Fort William in a complete state of preservation and repair, is further pleased to establish it as a standing regulation, that a Committee, to consist of the senior Officers of Artillery and Engineers at the Presidency, shall be appointed by the Officer commanding the Presidency Station to meet quarterly, that is on the 1st October, 1st January, 1st April, and 1st July in each year, for the special purpose of examining and reporting upon the condition of the whole of the gun carriages in question, and that the repairs which, according to these periodical reports of the Committee, may be considered to be necessary, shall be carried into execution, without delay, by the Commissary in charge of the Expense Magazine, under the immediate direction and superintendence of the Commanding Officer of Artillery at the Presidency.
- Regulations for the survey and repair of Garrison Carriages in Fort William.

Orders for the
proof of Or-
dnance by Ar-
tillery Officers.

The Governor General directs that it be considered as a standing order, that all brass G. O. 18th
Ordnance received from Europe be proved whenever it arrives; and that the Committee Sept. 1/94
for the above duty be composed of one Field Officer and two Captains of Artillery.—
(All brass Ordnance cast at the Foundry at Fort William is also proved at Dum Dum.)

The Committee of Stores is directed to consider it a standing order to send all guns on Res. M. B. 9d
their arrival from Europe to Dum Dum for proof; consulting the Commanding Officer of Oct. 1796
Artillery on the subject.

Regulations to
be observed in
proving Brass
Ordnance

"The Commander in Chief considers it advisable, that the quantity of Powder, to be used
on all occasions of proving light brass Ordnance, should be one third of the weight of the
shot for each piece of Ordnance; and that, moreover, the practice of further proving each
piece by filling the bore with water, as described in the enclosure, transmitted by the As-
sisting Commandant of Artillery, should be invariably observed, as well as the other process
described in that document, for the regular course of proof of all Ordnance under this
Presidency."

Ext. Let. Art. 1.
Gen 30th Oct.
1809

Proof of Brass Ordnance to be adopted in Bengal.

The Cannon and Howitzers are placed on two wooden stocks or skids, at such an angle
with the ground that their muzzles are about three feet above it, and their bore can easily
be looked into with a glass.

Mortars are set up perpendicularly on their breeches.

The piece is then examined with the glass, and afterwards searched to discover whether
any holes are in the bore. The holes, if any, are to be carefully noticed with respect to
their size and place.

The piece is next mounted on its carriage (an old one kept on purpose) in order to
undergo the proof. The proof consists of five (5) rounds fired in succession.

The heavy or battering brass Ordnance has a charge of powder equal to half ($\frac{1}{2}$) the
weight of the shot. The light brass Ordnance or Field Pieces have a charge of one-third
($\frac{1}{3}$) the weight of the shot. The charge is put into a large cartridge bag.

The piece is loaded, first with the powder, having a wad of hay or straw rammed over it
with four strokes.—Secondly, with one shot over the powder and its wad, with a similar
wad over the shot, rammed also with four strokes.

When the five rounds are fired, the vent is close pegged, and the piece is raised on its
cascable; the bore is then to be filled with water, and a high sponge driven down it by the
united strength of two or three men. If no water spouts out, the piece is to be constantly
wiped dry on the outside, and carefully examined to see if there be no weepings, par-
ticularly at the setting on of the trunnions and round about the edges of the bouching
at the vent.

If the piece cracks by the explosive force of the powder, or the water spouts out or
weeps through any chink, it must be condemned. If the water does not out at the edges of
the bouching, the bouch must be taken out, a new one inserted, and the piece undergo a
second course of proof.

When the piece has undergone the abovementioned trial in the several stages, it is to
be a second time searched; the holes (if any) to be noted, as above directed, and the bore
or calibre to be accurately measured, in order to ascertain whether it be of the prescribed
size; any excess of windage condemns the piece at once.

Lastly, the trunnions are examined, to determine whether they are perfect cylinders, and
whether their axis stands at right angles with the axis of the bore.

The piece is placed on its carriage, that the strength of the trunnions may be put to
the test.

The bouch must also be inserted previously to the proof.

(For form of the proof report of brass Ordnance, vide Form No. 3.)

of stores &c.
required for the

Previous to the commencement of each annual Practice at Dum Dum, the Commandant Res. M.
of Artillery to lay before the Board, a return or statement of the proportions of stores, &c. 14th Nov 18

- Proc. G. C. 26th Oct. 1807. The Governor General in Council authorizes the re-construction of the Field Gun Battery at Dum Dum, at an expense not exceeding 500 Rupees, by the Commissary of Ordnance of the Expense Magazine. Allowance for the annual re-construction of the Field Gun Battery at Dum Dum.
- G. O. C. C. 15th Oct. 1811. The following revised Tables of the proportion of ammunition and stores for the Annual Practice and Exercise of the several corps of the Army; and of Ordnance, Carriages and Implements, &c. to be considered as "lent" from Magazine for those purposes, and to be returned at the close of the season, are published for general information; and the Commander in Chief directs that they be strictly and invariably observed and conformed to, in future, by all Officers concerned.—(Vide Form No. 4). Proportion of Ammunition and Stores for the Practice of Detachments of Artillery, &c.
- G. O. C. C. 31st May 1798. Officers of Artillery, under whose command the annual Practice is carried on, are restricted to the prescribed annual allowance of Ammunition, except in cases where they shall previously obtain the Commander in Chief's express sanction to an extraordinary expenditure. Officers of Artillery are restricted to the prescribed allowance of Practice Ammunition.
- G. O. 17th Feb. 1795. It is directed that no greater proportion of Ordnance shall be carried out by the Artillery from any of the stations of the Army to the Practice ground than may be necessary for carrying on the Practice with, and that the cattle employed on these occasions be only in proportion thereto. No Ordnance extra to the proportion required, to be taken to Practice.
- G. O. C. C. 18th Nov. 1808. The season for the practice of the Artillery, stationed above Fort William, commencing on the 1st of December next, the following Establishment of Artificers and Quarter-master's people is allowed for one or more Companies during the two months of Practice, Establishment for Detachments of Artillery while at Practice.
- FOR TWO MONTHS, OR DURING THE PRACTISE.
- 1 Mate—1 Fire-man—1 File-man—2 Hammer-men Smiths.
 - 1 Mate—6 Workmen Carpenters.
 - 2 Sawyers—1 Brafs-man—2 Sail-makers—2 Chucklers.
 - 1 Sicligur—2 Painters—1 Cooper.
 - 3 Sirdars, one hundred Bildars and Coolies for one month to prepare the ranges.
 - 1 Sirdar, 10 Bildars and Coolies for two months for the purpose of keeping the ranges in repair.
- QUARTER-MASTER'S ESTABLISHMENT.
- 1 Camp Colour-men for each company.
 - 2 Puckalies for each company of Europeans.
 - 1 for each company of Lascars.
 - 1 Sailmaker and 1 Chuckler (for one or two Companies, but not for a greater number.)
 - 1 Fire-man—1 File-man—2 Hammer-men or Bellows-men.
 - 2 Workmen Carpenters—4 Bildars or Coolies, instead of 8 Bildars, for each company present.—(Tent Lascars in conformity to General Orders of 6th February, 1810.—Vide Page 182.)
- When Companies of Artillery are ordered out to practice from stations where Pioneers are cantoned, no Bildars are to be drawn for; and only one Sirdar and 30 Coolies are to be allowed for one month for repairing the ranges, and 5 coolies for the two months to keep the ranges in repair.
- Pioneers are to supply the place of Bildars, in such proportion as may be thought proper by the commanding Officer of the Station, on application from the Officer commanding the Artillery.
- Proc. G. C. 21st May 1807. The necessary orders will be issued from the Revenue Department, for the appropriation of the extent of ground required by Lieutenant Colonel Grace for the Practice of the Artillery at Allahabad, as well as for retaining, in an uncultivated state, the ground appropriated to the Practice of the Artillery at Chunar. Practice ground at Allahabad & Chunar to be retained in uncultivated state.
- Proc. V. P. 18th June 1811. The Vice President in Council sanctions the adoption of the proposition of the Military Board for the extension of the present Parade of the Horse Artillery, at Meerut, in front of their stables, instead of providing Exercise and Practice Ground for that Corps, separately, and at a distance from their Lines. Practice ground allotted for the Corps of Horse Artillery at Meerut.
- Res. B. O. 18th Oct. 1775 confirmed by Military Board. In all cartridges for Salutes, or Morning and Evening Guns, the quantity of Powder is to be restricted to one fourth of the weight of the shot. Quantity of Powder in Cartridges for Salutes.

Wads prohibited in firing Salutes. The use of wads is forbidden in future, in firing Morning and Evening Guns and Salutes: (with the exception of Fort William, by Order of the Governor 7th, 1790.)

Salutes at out-stations restricted to the Gov. Genl. and Comr. in Chief. The Commander in Chief desires that it may be understood that Salutes at out-stations, G. O. C. C. (the city of Lucknow excepted) or with detachments, are restricted to the Governor General or Commander in Chief. 2d March 1808

Morning and Evening Guns are not to be fired at out-posts or with detachments.

Stations at which salutes & Morning and Evening guns are allowed to be fired. The Commander in Chief orders the following regulation with respect to 2d April 1806

in future: Whenever Salutes may be ordered, they may be fired at the following Stations, but neither Salutes or Morning and Evening Guns are to be fired at any other Post or Station whatsoever.

Dehli—Muttra—(now Meerut) Agra—Futtighur—Cawnpore—Lucknow—Allahabad—Chunar—Danapoor—Barhampore—the Presidency.

Alighur is to be included in the numbers of places at which Morning and Evening Guns and Salutes are to be fired, in addition to those mentioned in the orders of the 2d April 1806. 15th Apr. 1806

Rewari being a frontier Cantonment, Salutes and Morning and Evening Guns are authorized to be fired there, in addition to the places at which Salutes were authorized by the General Orders of the 2d April, 1806. G. O. P. C. 2d August 1807

Agreed, to pass the Indents for light ammunition for a Morning and Evening Gun at Adjes Gush and at Lodhiana. (Salutes are also fired at Kurnal and Lodhiana.) Res. M. B. 20th Feb. and 1st May 1810

Morning and Evening Guns, Salutes, &c. are not to be fired when the appropriate Ammunition cannot be procured. No Morning or Evening Guns are to be fired when Ammunition cannot be procured in the regular manner on indent. Res. M. B. 13th Jan. 1789

The Commander in Chief positively forbids any Officer, on any occasion whatsoever, breaking up Service Ammunition for Salutes, or Morning and Evening Guns, and on no account is a Cartridge ever to be fired from a Gun, unless the powder be put into bags made of Serge or Flannel. G. O. C. C. 2d April 1806

REMARKS.

Of the abovementioned Ammunition and Stores, 6 Cartridges fixed to Round Shot; 4 ditto to Cannister; 1 ditto of Priming Powder; 1 Portfire Case filled with Portfires, ready pointed, and the Portfire Socket; 2 Effes; 1 Bitt; 1 Drift; 1 Hammer; 1 Hatchet; 1 Priming Pouch; 2 Cannon Pouches; 2 Priming Wires; 2 Spikes, and a $\frac{1}{2}$ piece of Wax Cloth, are to be carried in the Limber Box of each Gun.

All the rest of the Ammunition, &c. to be equally divided between the four Tumbrills. The Lintlocks are always to be armed with matches ready to light. The common Handspikes and spare Yokes, to be lashed under the Tumbrills. The Effes being intended to connect a Chain Trace, which may be broke on the march, two are to be carried with each Tumbrill. Dragropes for Tumbrills are not to be single, or one Rope, but to be in pairs like the Gun Dragropes. The Pick Axe and Mamotties being for the use of the bildars, which are allowed to every two six-pounder Battalion Guns, are to be carried by these people and by no means put on any of the Carriages. Tubes being constantly out of order, are abolished with Battalion Guns, and Priming Powder given in their room.

Salutes being only allowed (*vide General Orders of 2d April, 1806, Page 214*) to be fired at Stations and at Alighurh and Rewari, light Cartridges for firing Salutes are not admitted to Battalion Guns.

As the above list embraces every Article of Ammunition, &c. necessary for two six-pounder Battalion Guns on service, Commissaries and other Ordnance Officers in fitting out Battalion Guns are always to conform to what is therein laid down.

1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to understand what consumers want and what gaps exist in the current market.

2. Once a market need is identified, the next step is to develop a concept. This involves brainstorming ideas and creating a rough sketch of the product.

3. The third step is to create a prototype. This is a physical model of the product that allows you to test its functionality and make any necessary adjustments.

4. After the prototype is created, the next step is to conduct a feasibility study. This involves assessing the technical, financial, and market viability of the product.

5. Once the feasibility study is complete, the next step is to develop a business plan. This document outlines the company's goals, strategies, and financial projections.

6. The final step in the process is to launch the product. This involves marketing the product to the target audience and distributing it to the market.

*The following general remarks and instructions are published, with the foregoing revised Table, for the guidance of all Officers concerned, viz.*

The allowance of Ammunition and Stores for the Annual Practice of the Artillery is calculated on the fullest and most comprehensive scale; embracing a complete course of experiments with every piece of Ordnance that can possibly be used in the Field.

But, as a single Company of Artillery may be so circumstanced; either from its number wanting to complete, from having sent out on command several details, or from some other causes, as not to be competent to carry on a course of Practice (or of Field Battery Exercise) with the whole of the Pieces here laid down; or, though the Company may be competent in point of numbers, yet the Magazine of the Station at which it may be posted may not be able to supply the whole of the pieces; all Officers of Artillery, therefore, previously to indenting for Ammunition, &c. for the Annual Practice, &c. of single Companies (or more Companies, should they be very weak), are

( 1st )--To advert to the actual strength of their Company, present; and consider with what number and nature of Pieces this strength will allow them to practice.

( 2d )--They are to enquire the number and nature of pieces, which they can be furnished with, at the ensuing practice; either from the Ordnance under their immediate Command, or from the Magazine in their vicinity--as at Rewarree, or Kurnaul; or, from the Magazine at their Station--as at Chunar, or Benarus.

( 3d )--According to the actual strength of the Company, present, and the number, and nature of the Pieces of Ordnance that can be obtained, are the indents for practice to be regulated; therefore, in the "List of Ordnance, &c. &c. to be lent from the Magazine," such Pieces as cannot be supplied, or cannot be served by the Company, for want of men, must be omitted; as must, also, the proportion of Ammunition, &c. let down for those Pieces, in the "Allowance of Ammunition and Stores for Annual Practice."

( 4th )--If any Pieces of Ordnance, mentioned in the "List of Ordnance, &c. to be lent from the Magazine," happen to be under the immediate Command of the Officer of Artillery indenting (as the Iron 18, and 12 Prs. &c. at Kurnaul, or the Brass 5½ inch Howitzers at Rewarree), such may be left out of the List; but the Ammunition, allowed for such, is, of course, to be indented for.

Two separate indents are to be forwarded to the Military Board, at the prescribed time.---One indent is to include the articles set forth in the "List of Ordnance, Ordnance Carriages, &c. &c." or as many of them as are required; and the other indent is to contain the Articles laid down in the Table of "Allowance of Ammunition and Stores for Annual Practice of one or more Companies, &c." or as many of these Articles as are, according to circumstances, necessary.---(This rule to be observed, also, by the Officers commanding the Horse Artillery, and in charge of Gallopier and Battalion Guns; and *separate* indents to be submitted by them, respectively, for the Ammunition and Stores for Practice, Exercise, and Field Battery Exercise).

Officers of Artillery, indenting for Ammunition, &c. for Annual Practice, are to report, as usual, to the Commandant of Artillery, the course of Practice carried on by them; and the Commandant will, after examining it, signify to the Military Board whether, according to his judgment, the whole, or part, of the Ammunition, &c. passed, can, in such a course, have been expended.

The General Order of the 17th September 1799, "directing a daily account, during the practice, to be kept by the Ordnance Officer, of the expenditure of the Ammunition," &c. is, consequently, rescinded.

Although an allowance of Ammunition for Field Battery Exercise is made, distinctly, for the Corps of Golandauze, yet it rests on the judgment of the Senior Officer of Artillery at the Station, either to join the Golandauze Battery (in whole, or part) to that of the European Companies, and exercise the 24 Pieces in one Battery, or to direct the two Batteries to exercise separately.---It is, however, to be a fixed rule, that, whenever the whole, or a part, of the Golandauze Battery may be ordered to join that of the European Companies, the Guns of the former shall be invariably served by Golandauze; otherwise, the intention of Government, in making an allowance of Ammunition for the discipline of the Golandauze Corps, would be frustrated.

The several pieces of Ordnance which may be lent for the Practice, with their Carriages and Beds, are to be exchanged as often as the Commanding Officer of Artillery may think proper during the season.

It is not impossible but that a few Articles, of lesser note, required "to be lent out of the Magazines," are omitted in the foregoing Tables.---In that case, the Officer of Artillery has permission to add whatever other Articles he may find absolutely necessary for carrying on the practice, in his indent.

*Tables*, with their *Composition* and *Priming Powder*, are both included in the Table ; except for the Galloper Guns and Field Pieces attached to Infantry, for which *Priming Powder*, only, is to be allowed. Whenever, therefore, the former are indented for, the latter will not be allowed ; and, vice versa, if the latter is indented for.

The 12 and 6 Pr. Shot, issued from the Magazine in Cartridges, are to be recovered after Practice, and returned into Store ; and, of the  $5\frac{1}{2}$  inch shells, allowed for the practice of European Artillery with Golandauze, and for the Horse Artillery, 72 are to be returned into Store, after practice, from each Corps ; the remainder are allowed to be burst.

The Targets, (except those for the Companies of Artillery which are to be made up by the Train Artificers from the materials allowed) are to be made in the Magazines, and sent out in pieces. The Frames are to be fitted ; the Canvas to be sewed in breadths, but not nailed on ; and a bull's eye to be painted on the centre.—The remainder of the Canvas to have no painting. The Artificers on the establishments of Corps are to put the Targets together. The Rope, for Stays, of sufficient length each, to be furnished in Skeins.—Nails, and Hides, for making strips to put under the heads of the Nails, are provided for in the Table of Allowance.—The Horizontal Target, for Artillery and Golandauze practice, is to be strengthened with tape, across ; and furnished with eight strong Stays, long enough to allow the Target to be raised from 24 to 36 feet from the ground, to represent the Terreplein of a Bastion, or Tower.

C. O. G. G.  
19th Aug. 1858.

Each Battalion will consist of two Grenadier, one Light, and seven Battalion Companies. The Light Company, which by the circular orders of the Commander in Chief to General Officers, under date the 14th April last, was directed to be formed in every Battalion of Native Infantry, is in future to be considered as a fixed part of the regular Establishment of each Battalion.

Establishment,

part of the Establishment of every Battalion of Native Infantry, is to be the 1st, or Colonel's Company, in each Battalion of a Regiment.

The formation and establishment of the Light Company are to be assimilated in every respect to those of the Battalion. Officers will be posted to this company as the commanding Officers may direct, care being taken that the Officers so posted are selected from a due regard to qualifications.

The Lieutenant Colonel's and Major's Companies in both Battalions to be commanded by a Lieutenant with an Ensign.

G. O. 10th  
June 1796

The Flank Companies by a Captain with a Lieutenant.

In the Battalion to which the Captain Lieutenant is posted, one Battalion Company is to be commanded by a Captain with an Ensign, one by a Lieutenant with an Ensign, and three by two Lieutenants each.

In the other Battalion two companies by a Captain with an Ensign, and three by two Lieutenants each.

The Battalion companies to be posted in Battalion, and the Officers posted to companies as the commanding Officer may direct. He may give Lieutenants the temporary command of such companies as are left with only an Ensign doing duty, (if he should deem it necessary for the good of the service).

Companies  
how numbered  
and named.

The Companies to be numbered, beginning with the Colonels, and proceeding in succession with the Field Officers, Captains and Lieutenants. To the number of the company is to be added the rank and name of the Field Officer, Captain or Lieutenant; as, for instance, the 1st (or Colonel A's.) Company; the 4th (or Captain B's.) company; the 7th (or Lieutenant C's.) Company.

Regt. and Bat-  
talion staff not  
precluded from

companies.

The Regimental and Battalion Staff being attached to companies are to have the command of those companies when they happen to be the seniors in them; but it is to be understood that they are not to be detached from corps with their companies, the command of which will, in such event, devolve to the next senior Officer.

—The Senior Lieutenants on the strength of a Battalion, whether absent or Regimental or Battalion Staff, are to be posted to those companies, which are to be considered their proper companies in the same manner as companies to which Captains are attached are considered the proper companies of those Captains; all other subaltern Officers are to be posted to companies by and at the discretion of the commanding Officers of Battalions, but subject to the controuling power of the commanding Officer of the Regiment.

Companies that  
may be with-  
out an Officer  
in whose charge  
to be placed.

If there be not present with Battalions a sufficient number of European Officers to furnish one to each Company, the vacant company or companies are to be put under charge of the senior Officer; one vacant Company only to each Officer.

G. O. C. C.  
15th Sept. 1798

1796

This rule to extend to Captains and Subalterns as far as there may be vacant companies; and it is to be understood that the Officer commanding the Regiment or Battalion, or Officer in the temporary command, is excluded from such charge.

exercised over

senior  
officers

Resolved, that Officers commanding companies in Native Corps be invested with the same authority that is exercised by Captains commanding companies in the European Regiments.

M. C. 30th  
May 1796

His Lordship takes this occasion to declare to the Army that when he directed subaltern Officers should be posted to companies, it was his intention that they should regularly receive reports of their companies from the Native Officers, and that such appointments should not be merely nominal or nugatory; and he conceives that with proper dispositions on the part of commanding Officers of Battalions and their Subalterns, their respective duties may be carried on without a jealousy of authority on one part, or any improper interference in the discipline or internal management of corps in the other.

G. O. C. C.  
3d Feb. 1794

- M. C. 20th**  
**Apr. 1797** The practice of conferring the command of a Regiment of Sepoys invariably on the senior Captain is liable to great military objections. The hopes of honorable distinctions are necessary to stimulate military men to extraordinary exertions; and if seniority alone were to obtain the objects most desirable, many valuable professional talents, and that spirit of emulation which excites vigour and activity, would, in numberless instances, lie dormant. To establish and maintain the strictest possible discipline amongst the Native Troops is of the highest importance, and it is therefore proper that the command of a Regiment of Sepoys should be an honorable and desirable object.
- Between candidates nearly equal in character and ability, seniority has a just claim to preference; but when for that situation superior Military qualifications are found in a junior Officer, the public good requires that he should be encouraged.
- The general principles by which pretensions to the command of Native Regiments ought to be regulated, are knowledge of the language and customs of the Natives; and, on the other hand, as the bad state of a Native Regiment affords a presumption of negligence or incapacity in its commanding Officer, the good of the service, in such case, points out the necessity of his removal to a situation in which his defects may be of less public detriment.
- G. O. 23d July 1787** It is to be a standing regulation, in future, that whenever Officers commanding Battalions of Native Infantry are removed from one corps to another, they are to settle all accounts with their Battalions or companies up the end of the month in which such order for their removal shall be published.
- M. C. 12th**  
**August 1796** The senior Lieutenant Colonel of a Regiment of Native Infantry, in the absence of the Colonel, and consequently in command of the Regiment, is to continue in command of the Battalion he is posted to, and to proceed with it on all duties it may be ordered on, and no other Officer shall be entitled to superior batta for such Battalion.
- G. O. 10th**  
**June 1790** The commanding Officer of the Regiment may parade it for exercise, or any other duty, whenever he thinks proper, or may order a parade or exercise of either of the Battalions under its Commandant; but, as commanding Officers of Battalions are answerable for the discipline of their corps, they are to be allowed to have such parades and to prescribe such duties or exercise consistent with established Regulations, as may conduce to this end, whenever the Battalion is not required for general or Regimental duty.
- The commanding Officer of the Regiment must be careful in the exercise of his authority to uphold the consequence of the Commandants of Battalions, and to preserve to each rank the powers necessary for the maintenance of good order and subordination.
- M. C. 6th**  
**June 1799** The allowance to Officers actually commanding Regiments and Battalions of Native Infantry for writers and stationery to be 20 Rupees a month.
- The allowance to each company of Native Infantry for stationery and repairs of arms and accoutrements to be fifty Rupees a month—(For Regulations for drawing this allowance, *vide page 125*; and for repairing the arms, &c. *vide Chapter XIII.*)
- M. C. 30th**  
**May 1796** Resolved, that an Adjutant and Quarter-master, in one person, be appointed to each Regiment of Native Infantry on the same allowances as the Adjutants and Quarter-masters of Native Brigades, (viz. Staff and Office Allowance Sonat Rupees 157 per mensiem and Sonat Rupees 30 for a Horse when in the Field, in cantonments in the Field, or marching.)
- The Adjutant and Quarter-master of Native Infantry will act as Quarter-master to the Regiment; and is the channel through which the Colonel or commanding Officer is to issue his orders to the two Battalions of his Regiment.
- M. C. 10th**  
**June 1796** The Adjutant and Quarter-master of a Regiment of Native Infantry is to receive the Tent allowance of his Rank and 30 Rs. a month for an Office Tent.
- Refn. M. B.**  
**17th December 1797** Agreed, that it be considered as a standing Regulation that the Quarter-masters of Native Regiments shall present general indents for such Articles as may be required for both Battalions composing their respective Regiments, except when the Battalions are separated at distant stations, in which case, only, indents from the commanding Officers of Battalions are to be forwarded to the Military Board Office.
- Relative to the qualifications necessary for the command of Native corps.
- Period to which com'g Officers of Battalions, who may be removed, are to adjust their accounts.
- In event of a Lieutenant Colonel commanding the Regt. he is to continue with the Battalion he is posted to.
- Relative to the control to be exercised by the commanding Officer of the regiment.
- Allowance for stationery to com'g Officers of Regts and Battalions.
- Allowance for repairs of Arms, &c.
- Adjutant and Quarter-master appointed, and his staff allowance fixed.
- Office Tent allowance granted him.
- He is to indent for stores, &c. for that Battalion of the Regiment he may be doing duty with; and have charge of such part of his Establishment as may be at the station with him.

"The Commander in Chief feels no hesitation in saying that wherever an Adjutant and Quarter-master may be, no Battalion Staff can have a right to interfere with the people of his department; or the duties of his Office, the Adjutant and Quarter-master retaining charge of any part of his establishment that may be at the same station with himself."

M. C. 8th August 1796 Agreed, that four carts be added to the Establishment of a Quarter-master of a Regiment of Native Infantry as detailed in the Minutes of Council of the 20th June last.

Establishment of carts for Regiments of Native Infantry

G. O. 16th Dec. 1796 The carts allowed to a Native Regiment by the Resolution of the 8th August are in all situations to be drawn for by the Adjutant and Quarter-master of the Regiment, and included in his abstract.

Regulations for their provision, charge and maintenance in serviceable condition.

G. O. 30th Dec. 1796 The Governor General in Council having been pleased to authorize a supply of a set of carts for the Regimental Stores and spare arms of the Native corps of the Army, at the Company's expence,—Resolved, that the following regulations relative to them be published.

That in consideration of the first set of carts being provided at the Company's expence, and of the monthly allowance of 30 Sonat Rupees for each cart, the Quarter-master, in whole charge they may be, must not only keep the carts constantly in good repair, but replace them when necessary by new carts at his expence.—That for each cart, the Quarter-master shall at his own expence furnish and keep three draught bullocks, of the established standard for Artillery draught bullocks, with one driver, without any further charge to the Company, than the said monthly allowance of 30 Sonat Rupees for each cart with its three bullocks, harness and driver, complete.

That the carts and bullocks shall be marked with the numbers of the Regiments, respectively, be mustered monthly with the drivers, and included in the muster rolls wherein the condition of the carts and bullocks shall be expressed.

That the carts be included in the Quarterly Returns made by the Quarter-masters to the Military Board.

The bullocks once marked and received into the service shall not be exchanged at the option of the Quarter-master, but continued in this line of the service until condemned by regular surveys, when new bullocks are to be supplied by the Quarter-master at his own expence.

That on the succession of one Quarter-master to another, the new Quarter-master shall pay for the bullocks of his predecessor at such price as shall be fixed by any two Officers of the corps, one to be chosen by each party.

That in case of one Battalion of the Regiment being detached, the proportion of carts and bullocks sent with it is to be under charge of the Adjutant, with whom the Quarter-master will settle for the expence of feeding the bullocks and the repairs of the carts.

The carts and cattle being intended entirely for the public service are not to be made use of for private purposes.

Proc. G. G. 6th Dec. 1804 The Governor General in Council passes the bill from the Adjutant and Quarter-master of the 9th Regiment Native Infantry for the cost of six bullocks for the carts of that Regiment, (Quarter-master's Establishment) in lieu of the same number captured by the enemy, at the same price the Army Contractor is allowed to charge for bullocks of a similar description, the bill being accompanied by a survey report of the fitness of the bullocks for the service.

Cart Bullocks captured by the enemy, or dying in consequence of forced marches when on service in the field, replaced at the expence of Government.

Proc. G. G. 28th March 1805 The Governor General in Council authorizes the Military Auditor General to obtain and submit to the Governor General in Council a bill for the actual cost of the four bullocks purchased for the Regimental Store Carts of 2d Battalion 9th Regiment, in lieu of the same number that died through excess of labour, accompanied with a survey report stating them to be serviceable.

Ext. Let Adj. Genl. 1st Oct. 1797 " If the doubts which have arisen between the Quarter-master and Adjutants of the 9th Regiment, concerning the puckallies and carts, have a relation to the mode of drawing for them, the Commander in Chief finds, on a reference to the General Orders of the 22d August and 16th December, 1796, that by the former, puckallies are expressly excepted from the Adjutant's abstract, and by the latter it is as expressly declared that the carts are in all situations to be drawn for by the Adjutant and Quarter-master, the obvious reason of which is, that the bullocks, in both cases, are the property of the Adjutant and Quarter-master, and furnished in the nature of a contract.

Decision relative to the charge of puckallies and carts with the battalion detached from the Headquarters of a Regiment.

If the doubts relate merely to the charge of those things, the Commander in Chief has directed me to acquaint you, that the Puckallies, being attached to companies, are under

the immediate charge of the Officer commanding the company ; and that the General Orders of the 30th December, 1796, point out under whose charge the carts of a detached Battalion are to be placed."

Allo relative to the charge of camp equipage with the detached Battalion. "The allowance for keeping camp equipage, &c., &c. in repair being in the nature of a contract, it does not, in the event of a battalion being detached from the Head-quarters of the Regiment, admit of a division with fairness to both parties ; the expenditure being more or less, at different times, according to the use that is made of the camp equipage. Ext. Let. Adj. Genl. Aug. 1797

The Adjutant and Quarter-master is responsible for the good condition of it and for the supply of the necessary articles : in case of the separation of the two Battalions of the Regiment, the Quarter-master Serjeant is the proper person on the part of the Adjutant and Quarter-master to make such repairs as may be necessary, and to supply pins, &c. when wanting, under the instructions of the commanding Officer of the Battalion."

Allowance for butts and targets, and how drawn. The annual allowance for providing targets and butts for annual practice is fixed at Sonat Rupees 45 for each Native Battalion. M. C. 18th Nov. 1796

The annual allowance for targets and butts fixed by the Minutes of Council of the 18th November last is to be drawn for by the Quarter-masters of Native Regiments for both battalions, when together, but when separated the Regimental Quarter-master is to draw the allowance for the Battalion with which he may be doing duty, and the Adjutant for the other Battalion. M. C. 18th Dec. 1796

Drum heads how furnished. The Governor General in Council is pleased to direct that Quarter-masters of Regiments and Adjutants of Battalions be authorized to furnish the Drummers attached to their respective corps annually, with one set (consisting of two batter or upper heads and one sounding or lower head) for each drum, and to charge the same at the rate of 5 annas per head.—(For the annual allowance of wax cloth and exercising ammunition, quarterly allowance of petty stores, and hides and twine to Native Infantry, *vide Chapter XIII*). G. O. G. 13th Nov. 1810

Allowances to Adjutants of battalions of Native Infantry. Agreed, at the recommendation of the Commander in Chief, that in addition to the salary of 102 Rupees per month, (for Staff and Office allowance) now received by Adjutants to Native Battalions, they be permitted to draw horse allowance in the same manner as it is drawn by Adjutants of European Corps. M. C. 18th March 1798

Adjutant's Staff abstract how prepared. In Native Corps the Adjutant of the Battalion to make out an abstract for his staff pay, and the staff pay of the Serjeant Major and the Quarter-master Serjeant, likewise for the staff pay of the Drill Havildar, Drill Naick, Drum Major and Fife Major. M. C. 22d August 1796

When the Battalions of Native corps are separated, the Adjutant to draw for such part of the Quarter-master's establishment (puckallies and carts excepted) as is under his direction.

When an Officer is appointed Adjutant he is thereby removed to that battalion. It is to be understood that whenever an Officer is appointed Adjutant to a Battalion, he is thereby removed to that Battalion, and to be enrolled on the strength of it accordingly. G. O. C. C. 3d Dec. 1800

Officers how appointed to officiate for Adjutants absent on sick certificate, &c. The following rule to be observed respecting Adjutants to Native corps who shall happen to be absent for the recovery of their health, or on account of their private affairs. G. O. 15th Jan. 1793

When an Adjutant has occasion to apply for such leave, the Commander in Chief will permit any other Subaltern in the same corps, whom the Adjutant may find willing, to perform the duties of that post during his absence, having previously obtained the sanction of the commanding Officer of the corps for that purpose ; the name of such Officer is to be transmitted, by the commanding Officer of the corps, to the Adjutant General.

In the event of the death of the absent Adjutant, the Officer officiating for him under the sanction above mentioned, will be entitled to the staff pay from the date of the casualty until the vacancy is filled up by General Orders.

Serjeants required for Native corps how be applied. Resolved, that a Serjeant Major and Quarter-master Serjeant be allowed to each Battalion of Native Infantry. M. C. 20th May 1796

**G. O.** 7th July 1788 When Serjeants are required for Native Corps, application is to be made through the Adjutant General to the Commander in Chief, who will either nominate them himself, or direct proper men to be selected from the European Battalions from which they can be most conveniently supplied.

(N. B.—For the allowance of dry batta, augmented rates of pay, provision of half mounting and quilts, &c. to Serjeants with Native corps, *vide Chapter IV.*)

**M. C.** 30th May 1796 Resolved, that a Drum and Fife Major be allowed to each Battalion of Native Infantry.

Drum and Fife Major allowed each battalion.

**M. C.** 22d August 1796 In Native Corps one Drummer and one Fifer are to be attached to each Company.

Drummers how attached to companies.

**G. O. P. C.** 2d Sept. 1807 Whenever Drummers or Fifers are required for any of the Native Corps of the Army, application is to be made, in the first instance, to the Honorable Company's European Regiment, to which an extra number of Boys has been allotted, for the purpose of supplying other corps; and, secondly, to the Secretary to the Orphan Society; and no natives are to be entertained as Drummers and Fifers until it be ascertained that Boys cannot be supplied from the European Regiment or the Orphan Establishment.

When drummers are required for Native corps, application where to be made.

**G. O.** 14th June 1798 Boys selected from the Orphan School to serve as Drummers, Fifers or Privates in the several corps of the Army are to be enrolled on the strength of the corps for which they are intended from the day on which the selection shall be made; and pay and half batta is to be drawn for them from the same date, in the abstract of the companies to which they shall be attached; to which end the Secretary to the General Management will transmit regularly to commanding Officers of corps, the names of the boys and dates of their being selected for the corps under their command.

Boys appointed from the Orphan School when to be enrolled and their expenses how defrayed until they join.

The Honorable Company's allowance for children in the Orphan House will cease from the day on which boys are selected to serve in the corps of the Army; and the expence for dieting and clothing them, from the date of their being appointed to corps, until a suitable opportunity shall occur for their proceeding to join, as well as the expences for fitting them out and forwarding them to the corps, are to be defrayed from the pay which will accrue to them in the corps to which they are appointed. The Secretary to the General Management will transmit to the commanding Officers of corps an account of these expences, and the amount is to be remitted by a bill on the Paymaster General in favor of the General Management.

**G. O. P. C.** 1807 Officers commanding corps to which Boys are appointed from the Orphan School are directed to place them under the care and superintendence of an European non-commissioned Officer, whose conduct in providing a mess and all other necessaries for them is particularly to be attended to by the Adjutants of Corps.

Under whose charge to be placed on joining corps.

With the sanction of the Governor General the Provincial Commander in Chief is pleased to direct the following distribution of boys from the Lower Orphan School to the undermentioned corps of the Army, with which they are to be enrolled as Drummers and Fifers from the 1st of October next, on the half pay and half batta of Drummers; until they shall become of sufficient age, and be in other respects duly qualified to fill the situation of effective Drummers, when they are to be brought on full pay. In the mean time such as may be in excess to the establishment of corps, respectively, to which transfers are now made are to be returned as supernumeraries until vacancies occur.

Appointment of Boys to corps and allowances, to be drawn for them until they become effective.

Regulations for the discharge of drummers received from the Orphan School.

Whenever Drummers and Fifers, received from the Orphan School, may be desirous of taking their discharge from the Service, Officers commanding corps are authorized to grant discharges without reference to any particular period of service, on their being satisfied that the object of such application is likely to prove beneficial to the individual; requiring, at the same time, in all practicable cases, some security that the person so discharged, shall not be left unprovided for, nor be allowed to act in any manner or situation contrary to the regulations of Government. Officers commanding Corps are not authorized to discharge from the service for misconduct any person received from the Orphan School, except in cases of extreme necessity, where the person may appear incorrigible; in every such case the subject is to be reported to Head-quarters, and the persons so discharged are to be sent to the Presidency for the further orders of Government.

Allowance fixed for teaching the Bugle practice.

The Governor General in Council having been pleased to authorize an allowance of 8 Rupees per company to be paid to the persons who have been employed in teaching the bugle horn practice to the men employed for that duty with the several Light Infantry Companies of the Army,—the Commander in Chief directs that bills may be prepared for that allowance, with certificates annexed under the signature of Officers commanding the Light Infantry Companies, respectively, stating the name of the instructor, the names of the persons instructed, and that the duty has been duly performed. The bills with the vouchers required are to be transmitted for audit.

Rules for detaching on command Battalions and detachments.

Reference having been made relative to detaching Native Battalions on command, the Commander in Chief directs the following rules to be observed.

G. O. C. C.  
13th July 1796

Roller for detaching Battalions.

The 1st Battalion of the senior Regiment—The 1st Battalion of the junior Regiment—  
The 2d Battalion of the senior Regiment—The 2d Battalion of the junior Regiment—  
The same principle is applicable to smaller detachments.

Rank and flanking of Officers to be sent in command of Detachments of Native Infantry and rules for detaching them.

The Commander in Chief having reason to suppose, that the General Orders of the 8th May, 1789, directing "that when a detachment of Native Infantry is sent out of the strength of 50 men or upwards, with a probability of using their arms, the charge be committed to an European Officer," have been deviated from in some instances, he now thinks proper to order, that Subaltern Officers shall be sent on command with all detachments of Native Infantry exceeding in number half a company, whether such detachments be composed of men of different companies or not. Commanding Officers of Sepoy Battalions are enjoined to pay strict attention to this regulation.

G. O. C. C.  
24th May 1793

The Commander in Chief is pleased to direct that a Captain be invariably sent with every detachment of Native Infantry which may exceed the strength of one Company; and on every occasion on which service is likely to occur a single company is not to be detached without a Captain, whenever that measure may be practicable.

G. O. C. C.  
25th Aug. 1806

In consequence of the scarcity of Officers of the rank of Captain with the several corps of the Army, the Provincial Commander in Chief is pleased to authorize, until further orders, the following modification of the General Orders of the 25th August, 1806, which direct "that a Captain be invariably sent with every detachment of Native Infantry that may exceed the strength of one company."

G. O. P. C.  
4th April 1807

Subalterns who shall have actually served 8 years in India shall be considered eligible to such commands whenever necessary to afford facility in conducting the details of corps, adhering, however, in all practicable cases, to the latter part of the orders of the 25th August last, which direct "that a Captain shall always be sent with a single company whenever service may be likely to occur as often as a compliance with that direction may be practicable."

Ext. Let. Genl.  
19th July 1796

"The rule of detaching a commissioned Officer on command with half a company continues in force. Captains and Subalterns to be always detached with their respective companies, excepting Adjutants, who must remain to perform their Staff duties with their corps. A commanding Officer of a Battalion to have the option of going on command with his corps or of remaining with the other divisions of it at Head-quarters; but the Colonel, or commanding Officer of the Regiment, has the power to restrict this option whenever he may deem it expedient to do so in particular cases.

Majors may command detachments of any size not under two nor exceeding five companies.

Captains are equally eligible for such commands; and it is left in the power of the Colonel or commanding Officer of the Regiment to nominate an Officer of either rank on such occasions as he may judge to be most for the advantage of the public service."

Ext. Let. Adj.  
— June 1796

"Parties sent on detachment to be furnished from one company in preference to proportions from the whole; should the detachment exceed a company, the excess to be furnished from another company."

Parties sent on detachment to be furnished from the same companies.

G. O. C. C.  
20th March 1810

The Commander in Chief is pleased to direct that whenever any party of Native Troops equal to the average strength of a company shall be detached on duty, either by land or by water, the proportion of camp equipage allowed for a company shall always be sent with such parties; the carriage for which, in cases of their proceeding by water in the first instance, is to be furnished at the station or post where such detachments shall commence their march back to their corps.

Proportion of camp equipage to be sent with detachments proceeding either by land or water.

G. O. C. C.  
20th July 1806

Detachments of Native Troops, after performing any duty on which they may be employed by water, as in the late instance of the party which accompanied H. M. 2nd Regiment from Danapoor to Berhampoor, are invariably to be ordered to return to their station by land, and European Officers proceeding on duty with such detachments will be expected to make their arrangements accordingly, by sending their carriage and camp equipage to meet them.—(For tonnage allowed to Native Troops, embarkation return, indents for boats, &c. vide Chapter XVII.)

Native Troops detached on duty by water, after the service being accomplished, are to return by land.

G. O. 16th  
June 1792

Commanding Officers of detachments of Native Infantry with which there are no Quarter-masters are to indent for their own ammunition: and to be held responsible for the charge of their magazines.

Officers commanding small detachments that have no staff attached, to indent for ammunition, &c.

G. O. 3d Aug.  
1779

The good order and discipline of all Troops depends on the care the Officers take to enforce it. The Native Officers are but too often remiss. It is therefore recommended to the European Officers to enforce command and obedience amongst them; and to endeavour, by encouragement and good treatment to the active and by punishing the remiss, to make them keep good order and discipline among the Sepoys, and to support them well in it. The European Officers are to consider their preferment as derived from the attention they pay to the well disciplining and ordering the Sepoys; as this service is regarded equally as honorable and essential as the command of Europeans.

Relative to the interior arrangement and discipline to be observed in Native corps.

G. O. 10th  
June 1796

It is to be a standing rule in Native corps, that whenever a Battalion is under arms, the European Officers, or a proper proportion of them, do attend, and that no parade whatever be without the presence of an European Officer.

No Parades to be ordered without the attendance of an European Officer.

G. O. 29th  
August 1791

The Lieutenant Colonels commanding the Sepoy Brigades will please to order that when Majors, or Captains commanding Battalions, are from indisposition, or any other cause, prevented from attending the parade, their Adjutants, or the senior Officer present, shall lead out the Battalions and exercise them; and this as often as such occasions occur.

The commanding Officer of the Forces being anxious that the Subaltern Officers should acquire a thorough knowledge in the exercising of Battalions, and training recruits, strongly recommends it to the attention of the Lieutenant Colonels and Majors commanding these corps, to direct that all the Subalterns do occasionally put the Battalions through every part of the exercise.

In absence of the Commanding Officer, the senior Officer present to exercise the corps. All the Subalterns are occasionally to exercise the Battalion.

Squads of 30 Recruits should always be superintended by a Subaltern Officer.

Commanding Officers to maintain the discipline of their Light Companies in an efficient state by frequent practice.

Native commissioned and non-commissioned not to be drilled together.

The Commander in Chief relies on the unremitting zeal and attention of Officers commanding the several corps of the Army to keep alive the spirit of emulation for that line of the service, by the frequent practice of the Light Infantry evolutions with their respective Light Companies, and by maintaining them in every way complete and perfect under their present formation and appointment.

G. O. C. C.  
19th Feb. 1809

It appearing that the practice in this Army of drilling the Native commissioned and non-commissioned Officers together still prevails in some of the corps, that custom is strictly prohibited in future.

G. O. C. C.  
April 1791.

Should any of the Native commissioned Officers, in drilling their squads, discover ignorance of any points of their duty, such Officers are to be instructed by the Adjutant of the Battalion; and they should never be ordered out in squads without an European commissioned Officer to superintend, and a Feugil Havildar should, on such occasions, always attend them.

Regulations for the drill of Native corps, and the persons to be employed as instructors.

In Native corps no Native commissioned or non-commissioned Officers, above the rank of those authorized by the regulations of the service for that particular duty, are to be employed as instructors of the Drill.

G. O. C. C.  
18th Feb. 1808

The Drill Havildars and Naicks of corps are to be employed on that, their proper duty, under the direction of commanding Officers of corps, and the immediate Superintendence of the Adjutants, with the aid of such additional non-commissioned Officers as may be necessary, according to the numbers at Drill; and the non-commissioned Officers so employed are to be relieved monthly, or at least every two months. Private Sepoys are to be employed as seldom as possible as instructors at the Drill, which can only be necessary from an occasional scarcity of non-commissioned Officers, and in such cases they are also to be relieved, as directed for the additional non-commissioned Officers.

Regulations for performing the duty of Orderly Havildar, and of Pay Havildar.

The duty of Khote Havildar in Native corps, corresponding with that of Orderly Sergeant in European Companies, is strictly to be regulated by the same rule of weekly or daily tour, and is never allowed to be performed by private Sepoys; nor are private Sepoys on any account to be employed as Pay-Havildars, unless to assist in the mere business of writing when that may be wanted.

Pay-Havildars, though declared not liable to be sent on detachment, are nevertheless invariably to take the duty of a Company, Battalion, or Station, in common with the other Havildars, and to attend all parades and exercises, with the corps in general. Commanding Officers of stations, detachments, and single corps, are earnestly called upon to give the fullest effect to the foregoing regulations, which are considered by the Commander in Chief to be intimately connected with efficiency of discipline, and the salutary object of repressing the baneful consequences of undue influence.

Ordering regularity to be observed in the march of Native detachments.

The Commander in Chief has observed with concern the great irregularity with which every Sepoy Detachment, he has accidentally met, marches towards the place of its destination. He concludes that all Detachments, previous to their marching from the Parade where they were first formed, have been examined by an Adjutant or a commissioned Officer, and that clear and full instructions have been communicated to the Officers who are to command them; but as the want of a certain degree of order in common marches tends to real evil, he directs that positive and clear orders be given to every Detachment as to the method they are expected to observe on their march, and that the Officer or non-commissioned Officer commanding, be acquainted that he will be held responsible for a deviation from the orders prescribed on this head.

G. O. C. C.  
6th Mar. 1786

Detail of personal guards to be furnished by Native Infantry.

The Commander in Chief is pleased to fix the following detail for personal guards of Native Infantry, which are to be relieved weekly.

G. O. C. C.  
15th Nov. 1806

For a Major-General commanding a station, .....  
For a Colonel of a Regiment, not commanding a principal station,  
Lieutenant Colonels commanding and present with Regiments or Battalions of Native Infantry,

|      |          |       |      |       |

For all other Field Officers or other Officers in command of corps, when in camp, a night sentinel is to be furnished from the Rear Guards of their respective corps.

V. C. 3d Aug.  
1779

Sepoys are not to be made use of as peons, or employed on private business, to attend the Officers who command them.

Sepoys not to be employed on Private business

One of the non-commissioned Officers, only, shall attend the commanding Officers of each battalion or detachment; and it is particularly required of every commanding Officer to see that these and every other order respecting the Sepoys are punctually obeyed.

Orderly to the Officer commanding the corps.

M. C. 16th  
May 1790

Orderly Sepoys and Lascars are on no account to be made use of as peons and hircarrahs by attending an Officer when he goes abroad, or by being employed on any private business. They are to be allowed to Officers commanding stations, detachments and corps, and to Public Officers for the purpose of carrying orders, and are to be confined to that duty alone; when Officers, either staff or others, have occasion to go on public duty to the Parade or to places where they may require their Orderlies, they may send them on, or direct them to follow so as to meet them at any appointed place; but they are not at any time to let them run before their palankeens and horses, or at any time mix with their ~~sewarrie~~ servants.

Orderly Sepoys to what Officers allowed and how to be employed.

G. O. C. C.  
25th Oct. 1803

The Commander in Chief, having remarked Sepoy Orderlies running with and after palankeens, positively interdicts a practice so directly in opposition to the standing Orders of the Service. (For further orders prohibiting the employment of Sepoys out of the line of their duty *vide* page 144).

Not to run with Palankeens.

M. C. 3d  
August 1779

If any Sepoy wilfully or carelessly loses or spoils any of his arms or accoutrements, stoppages shall be made out of his pay in such monthly proportions as his commanding Officer shall think fit, not exceeding half his pay, at the following rates:

Stoppages to be made from Sepoys who lose their Arms, &c.

For a musquet, 20 Rupees—a Bayonet, 2 ditto—a Sling, 1 ditto—a Cartridge box, 1 ditto—a Lock, 4 ditto—a Worm, 4 annas—a Pricker, 1 ditto.

G. O. 17th  
March 1793

The Commander in Chief can have no objection to the Native Troops amusing themselves at the celebration of their festivals, according to their respective rites and customs, while they do so in a peaceable and orderly manner; but he warns them against improper conduct, lest the consequences should be serious to all the parties who may be concerned: and he calls upon the European Officers to have an eye towards the men of their own corps whilst engaged in the performance of festivals and ceremonies, to prevent disputes from arising between two Battalions; and, in case any should occur, to use their utmost endeavours to suppress them before they proceed to outrageous lengths.

Relative to the conduct of Native Troops at the celebration of their festivals and religious ceremonies.

G. O. 13th  
October 1793

Major General Sir Robert Abercromby has had before him the Proceedings of a Native Line Court Martial held at Barrackpore, before which a Lascar was tried for firing a musquet in the lines at night, and who pleaded in excuse "that it was in celebration of the Mohurram;" this excuse was admitted by the Court under the plea of usage, but as no usage can warrant a practice so repugnant to Military Regularity, it is directed that no Native Officer, Sepoy, Lascar or camp follower shall in future, upon any occasion whatever, presume to let off fire arms within the lines of a cantonment or camp without express permission for that purpose.

General Abercromby, far from wishing to check the Native Officers and Sepoys in their customary amusements, is very desirous that they should be allowed all reasonable indulgencies in the celebration of their Festivals and Religious Rites, and he is confident that commanding Officers of stations, cantonments and camps will never refuse these indulgencies when application shall be made to them for that purpose, unless upon occasions where the exercise of them may be judged improper.

G. O. 21st  
Dec. 1796

The translation of a selection of the Articles of War in Persian and Hindoostanee being completed and printed, copies thereof will be transmitted to the several Native Corps of the Army. It being the intention of Government, in causing this publication to be made, that Native Officers and Sepoys shall be acquainted with the laws by which they are governed as Soldiers, the obedience and duties required of them, and the punishment to which they are liable for certain offences; the Articles relative to mutiny in the 11d

Articles of War when to be published to the Native Troops.

Section; to Defection in the Vth Section; to Crimes punishable by law in the VIIth Section; to the Redress of Wrongs in the IXth Section; to Duties in Quarters, in Garrison or in the Field in the XIth Section; the 10th, 14th, 16th, 17th, 19th and 20th Articles of the XIIth Section, relative to the Administration of Justice; the Articles of the XIIIth Section, relative to the effects of the dead, and the 3d Article of the XVth Section, are to be read in the Hindostanee language every month at the head of each Native Regiment or Battalion in the Service immediately after muster. In every Battalion in the Service there will be found many men, either Native Officers or Sepoys, capable of reading the Articles in the Hindostanee language distinctly after a little study and practice; to which end, and that the Native Officers may have the opportunity of making themselves thoroughly acquainted with the Articles of War and of instructing the men belonging to their respective companies in them, exclusive of three copies for the public Officers of the Regiment and Battalion, two copies will be sent to each Battalion for the use of the Native Officers, to be under the care of the European Adjutants. The whole are to be considered as belonging to the Regiment, and, on the removal or occasional absence of the Regimental Adjutant and Quarter-master and Battalion Adjutants, are to be delivered over to their successors, or Officers acting for them.

No. of copies allowed to each corps and how to be preserved.

No Native non-commissioned or Sepoys to be punished but by sentence of Court Martial.

No Native non-commissioned Officer or Sepoy shall be punished but by the sentence M. C. 7th May 1781  
of a Court Martial, except in cases where an immediate example is necessary to be made, and when delays may be attended with dangerous consequences to the Service.

It appears that Captain Grant has occasionally reduced Havildars and Naicks to the ranks, and has deliberately inflicted corporal punishments on Sepoys without any form of trial; as such practices are not warranted by the regulations of the Service, and might tend to the subversion of justice, the commanding Officer of the Troops strictly prohibits the exercise of them in future by any Officer. G. O. C. F. 27th Feb. 1791

Relative to the orthography to be observed in rolls, &c. of Native corps.

Commanding Officers of every Native corps to preserve invariably the same orthography in the names of the same Natives in the returns or review rolls, and when any commanding Officer shall, by authority, transfer any Native Officers or Soldiers, he shall send with them a correct list of their names, according to the orthography that has been used in inserting the names in his own rolls, which must be also used in the corps to which they shall have been removed; and as there are many men of one name in the same corps, they are to be numbered on the rolls, 1st, 2d, 3d, &c., if of the same name. M. C. 17th May 1793

Descriptive rolls of companies how prepared.

Correct descriptive rolls of the Native commissioned, non-commissioned and Privates composing the Light Companies of the several Battalions of Native Infantry on this Establishment are to be prepared agreeably to priority of service, and forwarded from the Head-quarters of Battalions respectively, properly authenticated, to the Officers commanding the Light Companies, by whom they are to be carefully kept up under the periodical inspection and report, prescribed by the regulations of the Service. (N. B. Descriptive rolls are kept up in the same manner in all the companies of corps, respectively.) G. O. C. C. 9th Jan. 1809.

Registers of Battalions and Regiments how to be prepared and kept up.

Adjutants of Battalions to keep regular registers of their respective Battalions, and the Adjutant and Quarter master a Register of the Regiment for the use of the Commanding Officer, agreeably to the annexed form, in which are to be noticed every casualty that may hereafter occur in the corps corresponding with those remarked in the monthly Review Rolls. (Vide Form No. 1.) G. O. 10th June 1796

The most exact uniformity to be observed in spelling the names of the Officers and men, in order that claims to the benefit of the Invalid Establishment may be clearly ascertained. The names by which the men are enrolled after deserting are not permitted to be changed.

To be inspected quarterly by commanding Officers and reported to the Adjutant General.

The Books are to be inspected quarterly, on the first days of the months of May, August, November and February, by the commanding Officers of corps, who shall certify on the book the date of inspection and report, through the Adjutant General, to the Commander in Chief immediately afterwards, whether or not the Books are properly kept up.

To be delivered over to relieving Staff Officers.

This Book to be delivered over, signed by every Adjutant, upon his removal, to his successor, from whom he is to take a receipt for it, together with the other books and records belonging to his Office. M. C. 7th May 1781

G. O. 10th  
June 1796

Removals from one Troop or Company to another in the Native Cavalry, Native Infantry, and Lascars are only to be made in the month of May, yearly, excepting when they become necessary from promotion;

Removals in companies when to take place.

G. O. C. F.  
3d Oct. 1810

The Commander of the Forces is concerned to notice the very defective state in which the descriptive rolls of the commissioned and non-commissioned Officers above promoted were transmitted to the Adjutant General; by the different corps; in consequence of which considerable delay and difficulty occurred in adjusting the relative dates of rank.—As the defects and omissions in those rolls can only have proceeded from great inattention to the accurate preservation of Regimental and Battalion Records, so repeatedly enjoined in the standing regulations of this service, particularly in General Orders of the 10th June, 1796,—the Commander of the Forces must infer that the quarterly inspection and report of the state of the books of their corps by commanding Officers, prescribed by those orders, are altogether lost sight of, and therefore directs that in future the most pointed attention be invariably paid to this essential part of interior duty.

Enjoining the accurate preservation of the registers by commanding and Staff Officers,

G. O. C. C.  
9th May 1811

The Commander in Chief having had occasion to notice the great want of attention on the part of commanding Officers and Staff of corps to the General Orders under date the 10th June, 1796, requiring the transmission to the Adjutant General's Office quarterly of Reports of the inspection of the Registers or long Rolls of their respective corps,—his Excellency now calls upon the Officers to whom these observations may be applicable for a more exact obedience to the orders abovementioned; and he has desired that any future instance of the like remissness may be immediately reported to him, in order that his marked disapprobation may be signified to those who may continue to neglect so necessary a part of their duty.

And attention to the orders requiring a quarterly report to the Adj. Genl.

G. O. C. C.  
29th Dec. 1806

Copies of all Battalion Orders of Battalions of Native Infantry, which may be separated from the Head-quarters of their respective Regiments, are to be regularly sent, every month, to the Officer commanding the Regiment, and which, after being inspected by him, are to be deposited in the Regimental Staff Office.

Copies of Battalion orders to be sent from detached Battalions to the Hd. quarters of the Regiment.

G. O. P. C.  
3d April 1807

Any Native corps or department that may not have any men transferred to the Invalid Establishment by the Annual Committee, are directed to report the same to the Adjutant General's Office.

Native corps not having any men transferred to Invalids, by the annual committee, to report the same.

G. O. C. C.  
3d Jan. 1797

Commanding Officers of Native Regiments are to be furnished by the commanding Officers of Battalions with quarterly returns of arms and accoutrements, in the existing forms, (*vide Chapter XIII.*) of their respective Battalions, at the expiration of each quarter; and the commanding Officer of the Regiment is to direct his Regimental Quartermaster to compile from these returns a general return of the Arms and Accoutrements of the Regiment for transmission to the Military Board Office.

Annual Survey Reports, quarterly returns of arms, &c. how transmitted from Battalions and Regiments.

In like manner the General Annual Survey Report of the Arms and Accoutrements of Regiments is to be formed from the separate Battalion Reports.

G. O. C. C.  
5th Aug. 1797

Arms, Accoutrements and Stores required for Native Regiments are to be issued upon indents signed by the commanding Officers of Regiments; and detached Battalions and detached companies are to be kept complete with Arms, Accoutrements, &c. from the Regimental Store at the Head-quarters of the Regiment, the commanding Officer of the Regiment taking care to present indents to the Military Board for articles to replace the issues from time to time.

Arms, accoutrements, &c. how indented for and supplied to Regiments, detached Battalions &c.

In cases, however, where parts of Regiments may, with more convenience to the public service, be supplied with Arms, Accoutrements and Stores from Magazines, than from the Regimental Stores; as when the Head-quarters of the Regiment may be at an out-station, and a part of that Regiment be at a station where there is a Magazine, or the detached part of the Regiment may be at too great a distance from the Head-quarters of it to receive the required supplies from the Regimental Stores; such articles as are in immediate demand may be indented for on the nearest Magazine on account of the Regiment. In such cases a statement of the stores received is to be immediately transmitted to the Head-quarters of the Regiment, that the several articles may be entered in the Regimental Books and duly accounted for in the next quarterly return.

Each corps leaving the Presidency at the Relief, to be equipped with a complete set of Arms, &c.

Resolved, that every Sepoy Battalion, when it leaves the Presidency station at the time of the general relief, be supplied with a complete set of Arms, Accoutrements, &c. to the end that the whole of the arms of the Army may pass through the Arsenal once in the course of the relief, by which arrangement the repaired arms can always be served out with such real certainty, that the corps will not suffer by receiving them; and further it will greatly reduce the demand from distant stations, and of course the necessity of sending Arms for their supplies, because in the interval between the reliefs the several corps will only want one set of accoutrements, and a few arms, to supply occasional losses or damages.

Res. M. B.  
13th Nov. 1787

Havildars to carry pikes and swords.

The Commander in Chief is pleased to direct that the Havildars of regular Native Regiments shall in future carry pikes and swords instead of musquets. Indents for a shoulder sword-belt for each Havildar to be prepared and forwarded to the Military Board.

G. O. C. C.  
10th Sept. 1802

Those of Light companies to have musquets

Officers commanding Light Infantry Battalions will indent on the magazines of their respective stations for musquets, which the Havildars of Light Infantry are in future to carry instead of pikes.

G. O. C. C.  
16th Nov. 1806

Uniform of the Native Infantry.

The uniform of all the Native Infantry (with exception to the Marine Regiment) is to be red with yellow facings and white buttons, and lace, striped red, blue and white.

G. O. C. C.  
8th Dec. 1809

Dress of the European commissioned and non-commissioned Officers.

The following instructions to be observed regarding the dress of the Native Infantry. The European commissioned and non-commissioned Officers to wear jackets with round black hats, the ornaments for the hats to be left to the commanding Officer of the Regiment; the buttons for the jackets to be the lion button, bearing the number of the Regiment. The Officers of the Light Companies to have suitable wings to their jackets. The Officers to wear white linen waistcoats and breeches during the hot weather. (*For further regulations for the dress of European Officers vide page 146.*)

G. O. C. C.  
1st Nov. 1796

And of Native Officers and Sepoys.

Pantaloon and Half Boots,

Native commissioned Officers are to wear white pantaloons and half boots.

G. O. C. C.  
10th Oct. 1802

Swords, belts, and belt plates of Native Officers.

The swords and belts of the Native Officers to be the same as the European Officers, but the plates to have only the number of the Regiment engraved on them.

G. O. C. C.  
1st Nov. 1796

Kummerbund.

The kummerbunds to be of blue linen and six inches in breadth, to be girt round the loins and fastened behind in whatever manner may be found most convenient. The cross to be of white linen.—(N. B. Sashes are now worn by Native commissioned Officers and Havildars.)

The Commander of the Forces deems it necessary to direct, with reference to the new established Army Cloathing, that no alteration whatever shall be made in the kummerbund or white cross, nor in the manner of wearing those parts of dress in the Native Infantry under this Presidency.

G. O. C. F.  
9th Nov. 1810

Janghees.

Janghees to be worn by the non-commissioned Officers (Naicks) and Sepoys at all times.

G. O. C. C.  
1st Nov. 1796

Havildars to wear pantaloons.

The Commander in Chief is pleased to allow Havildars of Native Regiments to wear white pantaloons instead of janghees, but on the express condition of their consenting to incur the additional expence which will be occasioned thereby, and in no instance is the wear of pantaloons to be imposed upon them contrary to their wish.

G. O. C. C.  
11th Nov. 1802

Approved musters of janghees, &c. not to be changed but by the authority of the Commander in Chief.

Musters of the jackets (ungahs) and janghees approved by the Colonels Commandants of Regiments, now in India, whether present with or absent from their Regiments, are to be lodged in the Office of the Adjutant and Quarter-master of each Regiment. In Regiments to which no Colonel is appointed, the Senior Lieutenant Colonel is to approve of the musters.

G. O. C. C.  
16th Sept. 1796

After the musters have been approved by Colonels of Regiments they are not to be changed without the authority of the Commander in Chief.

Breast-plates.

The Commander in Chief authorizes breast-plates to be made up for the non-commissioned and Privates of Native Infantry, restricting the expence to eight annas.

G. O. C. C.  
1st Dec. 1796

These breast-plates are to be of brass or white metal ; and the number of the Regiment alone, in Roman figures, is to be engraved upon them.

G. O. C. C. Whenever new turbans or caps may be required for the corps of Native Infantry, they are to be made agreeably to a pattern, which is to be seen at Head-quarters. Turbans.

G. O. C. C. The frame of the Turban directed to be worn by the Native Infantry of the Army, by the General Orders dated the 26th July, 1805, is to be made of rattan instead of iron work, whenever it may be necessary to make new turbans ; and the hair of the men is to be worn turned up, and fastened on a knot on the crown of the head, as before, instead of being cut and turned down loose, as practised by some corps, and of which the Commander in Chief disapproves, Hair how to be worn.

G. O. C. C. The Commander in Chief has no objection to the Native Officers and Sepoys wearing beads round their Necks ; but they must be uniform, and the men be permitted themselves to furnish them. Beads permitted to be worn round the neck,

Drummers and Fifers to wear round black hats ; the ornaments to be directed by the commanding Officer of the Regiment, Hats for Drummers.

G. O. C. C. No alteration or addition is to be made to the uniform prescribed for the Native part of the Army by the existing regulations, without the sanction of the Commander in Chief ; every part of the dress of the two Battalions of the same Regiment, both of Europeans and Natives, is exactly to correspond in every respect, Exact uniformity to be observed in the dress of both Battalions and no alteration to be made but by authority of the Comr. in Chief.

M. C. 20th May 1796 The half mounting to the Native Infantry to be annually served out with the new cloathing, and the provision of it to rest with the Commandant of the Battalion, under the controul of the Commandant of the Regiment ; the present stoppage of five rupees to be made for this purpose. The stoppage to be left in the hands of the Paymaster, from whom the commanding Officer of the Battalion is to receive it. For this sum an uniform turban, kummerbund and white jacket, and a pair of janghecas, are to be furnished. Provision of half mounting for Native Infantry, amount of stoppage, and specification of articles to be furnished.

No other article of dress to be supplied to the Sepoys, unless in cases where they will not keep themselves supplied in sufficient stock, when a specified stoppage, on account of each article, for those particular men, is to be authorized in Battalion Orders, and the articles are to be furnished by the Officers commanding companies, Sepoys neglecting to keep themselves supplied with clothes, how to be furnished.

M. C. 20th March 1797 At the period of making the stoppage for the half mounting to the Native Troops, when two Battalions of a Native Regiment are together, the Officer commanding the Regiment to issue a Regimental Order directing the Officers commanding companies to state, at the foot of the abstract, the aggregate of the stoppages to be made from it ; and the particulars of it to be furnished by the commanding Officers of companies to the commanding Officer of the Battalion. When a Battalion is separate from the Head-quarters of the Regiment, the foregoing order to be issued by the commanding Officer of that Battalion. Stoppage for half mounting how made, and accounts of it how rendered.

The annual half mounting stoppages are not to be made from men recently entertained, unless a period of five months shall have elapsed, from the completion of their stoppages for half mounting as recruits, to the date of the abstract from which the first proportion of the annual stoppage is to be made. Period at which the stoppage is to be made from men recently entertained.

The total amount of the stoppages for half mounting to be paid to the Commandant of the Battalion, wherever the company be, in the same coin in which the amount of the abstract is paid, Amount of the stoppages how paid to commanding Officers.

G. O. 14th Nov. 1797 Stoppages which have been made from men on account of half mounting, (who are drafted to the new corps) are to be paid to them, unless the half mounting shall have been delivered out. Stoppages made for half mounting not issued to men drafted to new corps to be returned.

Stoppages for half mounting in the new corps are to be made in the manner laid down in the Recruiting Regulations. They are to be left in the hands of the Paymaster and to be drawn from him by the commanding Officers of Battalions, who are to furnish the articles of half mounting to the whole Battalion. Stoppages how made in new corps.

G. O. C. C. Whenever the turbans in use with any corps shall no longer be fit to be worn, a new When new turbans are required they are to

be supplied in lieu of the half mounting of that year,

set of turbans of the prescribed form and pattern is to be prepared by the Officer commanding the corps by whom the authorized annual stoppages on account of half mounting shall be received, and which set of new turbans, with good and substantial wax cloth or painted covers, with lining, are to be furnished in lieu of the usual articles of half mounting for that year in which the turbans shall be supplied, and for which no other stoppage whatsoever is to be made. The frames to be made of iron or rattan, according as the work can be best executed in the country where the corps may happen to be; in the event of iron being used, care to be taken to prevent the turbans being unnecessarily heavy, and particular attention to be paid to the uniformity of shape and good workmanship of the whole.

Period at which the annual stoppages are to be made and half mounting when to be supplied.

In order to enable commanding Officers to furnish their corps with half mounting at the same time that they are to be supplied with their cloathing, the Governor General in Council is pleased to direct that the annual stoppages authorized to be made from the Native Troops in the month of October, November and December, for the supply of half mounting, be made in the months of June, July and August, instead of the former months.

G. O. G. G.  
15th Jan'y. 1807

It is to be understood that the annual half mounting stoppages are to be made from the issues of pay for the months of June, July and August, and not from the pay which may be issued in those months respectively, viz  $1\frac{1}{2}$  rupees for the first two months, and a rupee for the third month, as fixed by M. C. 7th May, 1787.

G. O. P. C.  
19th July 1807

Issue of half mounting and statement of articles furnished, to be reported on the monthly Return.

The issue of half mounting, or whatever may be supplied in lieu of it, to all corps and descriptions of troops, is to be specified with a statement of the articles supplied on the back of the return for the month in which the issue of these articles shall take place. (*Vide Form No. 2.*)

G. O. C. F.  
20th Nov. 1810

Recruits for Native corps how to be enlisted.

Recruits for Native corps are to be enlisted only under the directions of commanding Officers of Battalions, and previous to enrollment are to be approved by the commanding Officer of the Regiment in all situations where he can inspect them, and in other cases by the senior Officer present.

M. C. 8th Aug.  
1796

None to be taken that have served before, without producing their discharge.

No man who has served as a Sepoy is to be enlisted but on producing a discharge from the Regiment or Battalion he last served in; excuses of discharges being lost or destroyed are not to be admitted. When such excuses are offered, if the party chooses to wait the result of an enquiry, recourse may be had to the Adjutant of the Battalion from which he is said to have received his discharge; if satisfactory information be obtained, he may then, if in other respects fit for the service, be entertained, but if no information be obtained he is to be secured as a deserter.

Standard age, and height for recruits.

No Sepoy is to be entertained who is not five feet six inches high, or who is under sixteen or above thirty years of age, unless, in the latter case, he shall have served before.

The standard for recruits for Light Infantry is fixed, until further orders, at five feet five inches, under which none are to be entertained.

G. O. C. G.  
9th Jan'y. 1809

Relative to the subsistence and pay and Batta for recruits, how drawn and when to commence.

The recruit is to be enrolled on the strength of a company the day on which he joins the Battalion for which he is enlisted; but pay and batte are not to be drawn for him, but from the first day of the month succeeding that on which he shall be enrolled, previous to which, whether entertained at a distance or on the spot, he is to be subsisted at the rate of two annas per day, to be drawn for as hereafter detailed.

M. C. 8th Aug. 1796

Articles of War to be read, declaration made to, and oath taken by recruits at their enrollment.

Prior to enrollment the following Articles of War shall be read and explained to him, viz. the 2d, 3d, 4th, and 5th Articles of the 11d section—The 1st, 3d, and 4th Articles of the 1th section—The 2d and 3d Articles of the Xth section; and the 1st, 2d, 6th, 13th, 16th and 20th articles of the XIth section. At the same time the following declaration is to be made to him, and the following oath administered in front of the colours of the Battalion, according to the tenets of his belief, in presence of the Native Officers and Sepoys.

#### DECLARATION.

In time of peace, after having served three years, on making application for your discharge, through the commanding Officer of your company, it will be granted you in two

months from the date of your application, provided it will not cause the vacancies in your company to exceed ten, in which case you must remain until that objection be removed; but in time of war you have no claim to a discharge, but must remain and do your duty until the necessity of retaining you in the service shall cease.

QARA,  
Village, Pergunnah, Subah

"J. A. B. inhabitant of , do swear that I will never forsake or abandon my colours; that I will attach wherever I am directed, whether within or beyond the Company's territories, that I will implicitly obey all the orders of my commanders, and in every thing behave myself as becomes a good Soldier and a faithful servant of the Company; and failing in any part of my duty, as such, I will submit to the penalties described in the Articles of War which have been read to me."

G. O. C. C. Officers commanding Battalions and Regiments of Native Infantry are to be particularly  
16th May 1806 careful that none but good and efficient recruits are entertained, and that they be drawn, as far as may be practicable, from the Honorable Company's Provinces between Allahabad and Bengal.

None but good and efficient recruits to be received. Difficult from which to be entertained.

Commanding Officers requiring men for the prescribed complement of their corps are to avail themselves of the services of their Native Officers and men going on furlough to bring recruits with them on returning to their corps to the number required.

M. G. 8th When any corps shall, from the difficulty of recruiting on the spot, be so far incomplete  
August 1796 of its establishment as to render it advisable to send out a party or parties to recruit for the corps, the Paymaster shall make advances, on the written requisition of the commanding Officer of the Regiment or detached Battalion, to the Officers (whether European or Native) who may be selected for the recruiting service; not exceeding 300 Rupees for each Battalion.

Rules to be observed in the event of its being necessary to send out Recruiting parties.

On the return of the recruiting parties or the arrival of Recruits sent to the Headquarters of the Battalions or Regiments, the Officers entrusted with such advances shall render an account thereof to the Adjutant, who is to make out a review roll and abstract of the recruits received; and from the information of the recruiting Officer of those also who may have enlisted, but died or deserted without joining the corps, according to a form which will be furnished.—(Vide Form No. 3.)

This abstract the Adjutant is to forward to the Station Paymaster, and to receive back any balances remaining of recruit money advanced, which he is to account for with the Paymaster.

In order to defray the expense of subsisting Recruits who may be entertained on the spot where corps or detachments of corps may be, as well as to supply those who may be enlisted at a distance at the rate of two annas per day, from the time of the former being enlisted and the latter joining, until the end of the month in which they are enrolled with their corps, the Paymasters will be directed, upon written applications from the commanding Officers of Regiments or Battalions, to advance to commanding Officers of companies, each, a sum not exceeding 50 Sicca Rupees, taking their receipts for the same.

Advanced and authorized for the subsistence of recruits, how to be recovered and accounted for.

And as the Native corps are paid in arrears, the Recruits are to continue to be subsisted at the rate of two annas per day by the Officers commanding companies, respectively, out of the advance in hand until the first month's full pay for the Recruits shall be drawn for and issued; when these commanding Officers, out of the full pay drawn for the recruits, will have the means of reimbursement for their subsistence; and by paying the difference between their subsistence and full pay for that month, will enable them to wait for the next issue of pay to the corps in general.

But as desertions of Recruits may take place during the month succeeding enrolment, and as no pay can be drawn for a deserter, in order to provide the means of reimbursement for his subsistence, the Officer commanding the company is to make a bill at the foregoing rate of two annas per day, for the portion of the month prior to the desertion, which being countersigned by the commanding Officer and accompanied by review rolls of the deserters, is to be forwarded through the Paymaster for audit, and to be allowed in the adjustment of advances.

M. C. 8th Resolved, that the subsistence of Native Recruits (enrolled on the 1st day of the month) instead of being drawn for in separate bills, be, in future, included in the pay bills of the companies they belong to, and paid before Audit.

Advanced and authorized for the subsistence of recruits, how to be recovered and accounted for.

Quarterly adjustment of advances ordered.

The Paymasters will adjust the accounts of these advances with the commanding Officers of companies on every 31st July, 31st October, 31st January, and 30th April, or oftener, if need be, making further advances on new requisitions of the commanding Officers of corps, if the former advances shall have been exhausted; but if the balance on the quarterly adjustments be against the Officers, the Paymaster may in that case, if necessary, recover the same in like manner as ordinary retrenchments.

M. C. 1796  
16th Aug.

When the commanding Officer of a company shall happen to be removed from one corps to another, and shall not have adjusted his advances on account of the recruiting before his removal, the Paymaster of the corps to which he may be removed is to recover the balance on account of the Company in like manner as Paymasters effect the recovery of retrenchments for each other.

Stoppages to be made from recruits, for the supply of half mounting and Articles to be furnished.

The established stoppages, for the supply of half mounting, of two Rupees per month, for the three months immediately following that on which a Recruit was enrolled, are not to commence, in future, until the issue of the full pay of the second month after his enrollment; and for which stoppages the commanding Officer of the company is to furnish each Recruit with one turban, one kummerbund, and two troffies, two linen jackets and two pair of jangheas.

Stoppage for the breast-plate.

An additional stoppage of eight annas is authorized for the breast-plate, which is not to be served out, nor the stoppage made, until the Recruit is fit to join the Battalion.

G. O. C. C.  
18th Dec. 1796

All Recruits are in future to be supplied with the new regulation turban, (with good and substantial wax cloth or painted cover with lining,) with two ungahs and two jangheas, a kummerbund and two linen troffies, each, out of the stoppages authorized to be made from the three months' pay succeeding that for which full pay for one month shall have been issued to each Recruit, and a breast-plate to each Recruit is also, of course, to be supplied from the separate stoppage authorized for that purpose, by the General Orders of the 18th December, 1796.

G. O. C. C.  
18th Jan. 1807

G. O. P. C.  
19th July 1807

Costs of Sepoys deserted or discharged to be furnished to Recruits.

The costs of the Sepoys who have been discharged, or who deserting leave their costs, are to be given to recruits.

M. C. 16th  
June 1786

(In case of discharged Sepoys leaving their costs, which are their property, they receive from the commanding Officer of the Company a just consideration in money.—G. O. C. C. 27th December, 1796.)

Allowance to Recruits for carrying the wounded in the Field.

The Recruits who have assisted to carry the wounded are ordered to be paid 4 annas, each, per day, for the time they shall be so employed.

G. O. C. C.  
18th Nov. 1803

In the case of levies of Recruits being ordered, what allowance is to be received by them.

Whenever levies are made, either for the purpose of supplying Recruits for filling vacancies in any of the Native corps on this establishment, or for new corps ordered to be raised, no more than two annas per diem shall be allowed for each Recruit, for the broken period of the month in which they are entertained, nor from the first of the month ensuing, more than the ordinary pay and half batta in any situation, whether marching or stationary, until after they shall have joined their corps, and shall march with it from the place appointed for its Head-quarters; for instance, the Natives of the corps ordered to be raised for the Presidency, whosoever recruited, shall not be entitled to full batta until after they shall have been formed at, and shall have marched in a body or by detachment from the Presidency, and no exception is to be made from this rule in favor of men drafted from old corps into new levies, as they generally benefit by promotion in the new corps.

M. C. 21st  
April 1797

The same rule is to be observed with respect to Gun Lascars.

Recruits enlisted for any of the other Presidencies are, in like manner, to be paid two annas per diem for the remainder of the month in which they are entertained; and pay and half batta only from the first of the month succeeding that, to the period of embarkation, whether marching or stationary.

#### CAPTAIN WHITE'S LEVY.

Regulations for a levy of Recruits ordered by Captain White.

The Governor General in Council has appointed Captain White to assist in recruiting for the Bengal Establishment.

G. O. 18th  
1797

The commanding Officers of corps at Barrackpore, Bishnupore, Purneah, Danapore, and the posts dependent on

made by Captain White, through commanding Officers of Stations, for recruiting parties; and commanding Officers of corps, stationed without the Provinces, as well as those within, are occasionally to apply to Captain White for any number of recruits that they may not be able to procure by the mode established in the late recruiting regulations.

In entertaining recruits, Captain White is to attend to the regulations of the 8th August, 1796, in regard to age and size.

Prior to the final admission of recruits, they are to be inspected by the commanding Officers of the stations to which they are brought.

The recruits to be subsisted at the rate of two annas per day until the expiration of the month in which they shall be admitted, after approval by the commanding Officer. At the end of the ensuing month, pay and half batta for them is to be drawn in abstracts, according to the review rolls, which are to be countersigned by commanding Officers of stations; the subsistence of two annas being daily disbursed to them; and the balance adjusted with them when pay is received.

The recruits are to be regularly mustered on the first of every month.

On the arrival of recruits with the corps for which they are intended, they are to be immediately enrolled on the strength of companies, and pay and batta to be drawn for them in the abstracts of those companies: they are to be subsisted in the manner laid down in the regulations, their accounts to be adjusted as therein directed; and stoppages made from them on account of half mounting.

Captain White is to transmit to the Commander in Chief, weekly reports of the recruits entertained by him.

When the recruits are sent to corps, money is to be entrusted to the persons in charge of them for their daily subsistence, of which the balance of pay, if there be any, is to form a part; and Captain White is to send with them a statement of the last pay and batta that has been drawn for them.

Personal allowance to the Recruiting Officer, ..... St. Rs. 500 per month.

For Writers, Moonshes, Hircarráhs and Stationery, ..... 200 ———

(The same as fixed by General Orders of the 16th July, 1795, for Captain White, when recruiting for the Madras Army.)

If Captain White should require the assistance of any of the commissioned or non-commissioned Officers of the Invalid Battalions or Trench Establishment, such men as he may point out are to be ordered to attend him.

The Native Officers and Sepoys selected for the recruiting service are to be retained on the strength of their respective corps. The recruiting Officer will issue their pay and batta; but Officers in command of companies to which they belong are to draw the amount in their abstract, and account with Captain White.

All Natives employed on the recruiting service are to receive full batta.

G. C. 13th A. 1810

The Governor General in Council considering it to be desirable that the vacancies from the several Native Battalions, from which the Volunteers have been drawn, should be filled up by Recruits as speedily as possible, is pleased to authorize the commanding Officers of those corps to detach an European Officer who may be duly qualified for this duty to raise Recruits for their respective corps.

The European Officers selected for the Recruiting Service will be permitted to draw, while so employed, the usual allowances of Seven Rupees 100 per mensem to answer all contingencies.

The names of the Officers selected for this duty, as well as of the districts to which it may be thought advisable they should proceed, respectively, to be reported to the Adjutant General's Office for the information of Government, when the necessary orders will be issued for their being furnished with the requisite advances of cash for the subsistence of the Recruits, from the provincial treasuries in the neighbourhood of their respective recruiting stations.

Such Native commissioned, non-commissioned Officers and Sepoys to be detached with the Recruiting Officers as can be spared, and may be necessary for the due performance of this duty.

In conformity to the authority of Government, vacancies which will be occasioned in the Native Infantry of the Army on striking off the Volunteers, specified in General Orders of the 15th Instant, are to be filled up by Recruits who are to be raised from

Extract Bengal Military Regulations, published 1st January, 1791.

\* Regulations for drawing full and half batta.

It is hereby ordered, that no more than half batta shall be allowed to Native Troops in any cantonments, whether in or out of the Provinces, except upon Foreign Service.

M. C. 7th May 1781

Full batta to be allowed to the Native Troops when in the Field, whether within or without the provinces; (and also when marching from Station to Station.)

Native Troops are not entitled to extra batta if encamped in the vicinity of a garrison or fixed cantonment, and belonging to such garrison or cantonment.

G. O. 13th Oct. 1794

At all stations or posts where public buildings shall be ordered to be erected, and lines constructed, at the expence of government, half batta, only, shall be drawn for the Native Troops.

G. O. G. 29th January 1801

When Native Troops are ordered to march to such stations or posts, the extra batta must cease on their arrival.

When Native Troops shall occupy a station or post which it is intended shall become, to such a degree, a permanent station, as to require the construction of public buildings and lines, the extra batta of the Troops in such cases shall be discontinued from the date of the order directing the construction of the public buildings or lines. (See page 70, also for the extra batta granted for 3 days previous to and after the relief.)

Allowances to Natives ordered to rejoin corps in India

The Native Officers and men ordered to rejoin corps from the General Hospital Committee can only be allowed Invalid Pay during the period they have been absent, and they are to be furnished with certificates accordingly, for the use of which

Recommendation of Native Officers made.

Promotions of commissioned Officers are made by the Commander in Chief, at the recommendation of the Colonel or Commandant of the Regiment, who has to pay due regard to the recommendation of the Officer commanding the Battalion.

In all cases of promotion particular attention should be paid as to length of service when merit is nearly equal.

Roll of the Native Officers recommended for promotion what to specify.

Whenever recommendations of Native Officers for promotion are sent to the Adjutant General's roll is to specify the date of enlisting, the date of promotion, the rank, the name of the person recommended in the roll, which he holds, and the reason for his being promoted. A Senior Havildar or Jemadar is to be fully specified at the bottom of the roll.

20th May 1803

The Commander in Chief having had occasion to notice the great want of attention on the part of commanding Officers and Staff of corps to the General Orders under date the 20th May, 1803, prescribing the several points to be attended to in the preparation of descriptive rolls of Native Officers recommended for promotion, his Excellency now calls upon the Officers to whom these orders may be applicable for a more exact obedience to the orders above mentioned; and he has declared that any future instance of the like remissness may be immediately reported to him, in order that his decided disapprobation may be signified to those who may contribute to neglect so necessary a part of their duty.

G. O. C. C. 9th May 1811

The following is the prescribed form for descriptive rolls of Native Officers recommended for promotion, and is to be prepared invariably on foolcap paper, or paper of that size, ruled lengthwise. (Vide Form No. 4.)

Form for the promotion of Native Officers. Volunteers, and of those who receive commissions to supply their vacancies.

The Havildars promoted by the foregoing orders (viz. in lieu of Jemadars who volunteered for foreign service) are to receive pay and batta and to take rank as Jemadars in the Army, from the 1st August, 1810, but the Commander of the Forces has considered it proper to reflect the same rank to the date expressed opposite their respective names, with the view of preserving the seniority of rank to the Volunteers in the event of their availing themselves of the option allowed them of returning to their former corps on the conclusion of the service on which they are now employed.

G. O. C. F. 3d October 1810

The Commander of the Forces is pleased to make the following promotions in the 1st and 2d Bengal Volunteer Battalions, which are to have effect from the date expressed opposite the names of Officers, respectively; the whole to draw the pay and batta of the advanced rank from the 1st August, 1810.

List of Native Officers as provided with commissions how to be prepared

Lists of Subadars and Jemadars in the several Native corps of the Army who are provided with commissions, specifying the dates of their respective ranks, are to be sent to the Adjutant General's Office by commanding Officers of Regiments of Cavalry; and by commanding Officers of regiments of Infantry when the two Battalions are together; and by commanding Officers of Battalions when separate.

G. O. C. C. 1d June 1798  
G. O. C. C. 17th June 1805

Payment of fees when required in cases of commissions that have been lost.

The lists are to specify the dates of each promotion; and the time from the new Regiments of Cavalry and Infantry are to be arranged agreeably to seniority at date of promotion to Jemadar and Havildar. (Vide Form No. 5.)

In cases where commissions have been issued to Native Officers and lost by them, the manner in which such commissions have been lost or destroyed, is to be expressed.

Rates of fees for commissions of Native Officers, and how to be made and submitted.

Native Officers who lose their commissions, except on official service, and apply for others, are to pay the specified fees.

G. O. C. 18th Sept. 1788

Promotions of Subadars to the rank of Jemadar, and Jemadars to the rank of Subadar, are to be notified in writing, regularly at three months to the several Paymasters, who are directed to make the stoppage authorized by the Military regulations of 1766, in such cases, viz. from a Subadar's Rank Rs. 100 per mensem; and from a Jemadar's Rank Rs. 50, being half a month's pay of their respective ranks, as due for their several commissions.

Similar stoppages are to be deducted from the commissions of Officers of Cavalry, of Artillery, viz. from a Subadar's Rank Rs. 25 per mensem; and from a Jemadar's Rank Rs. 12-6 per mensem.

The above fees to remain in the hands of the Paymasters and to be accounted for by them in such manner as the Commander in Chief shall hereafter direct, through his Military Secretary or the Adjutant General to the Bengal Troops.

In each corps, detachment or station, commanding Officers of Regiments may grant leave of absence to Native Officers and Sepoys, and transfer the Native Officers and Sepoys to the following proportions:

Regulations for leave of absence to Native Troops.

Native Troops have granted.

Three commissioned Officers from each Regiment of Cavalry and four non-commissioned Officers and Sepoys together from each Troop.

Three commissioned Officers from each Battalion and five non-commissioned Officers and Sepoys together from each company.

Where a Battalion or Detachment is separated from Head-quarters, the Officer commanding has the same power.

Leave for a greater length of time is only to be granted with the consent of the commanding Officer of the Division on which the Regiment is dependant: and is never to exceed four months.

Leave for a longer period or when absenting the unit from the garrison.

Previous to the commencement of Relief, commanding Officers of Regiments are to apply to the Commander in Chief for permission to allow the Native officers and Sepoys to visit their homes, to be lawful, either up or down the country, and the indulgence will be granted to such extent as the Commander in Chief may think proper.

Applications for leave of absence to be made to the commanding Officer in command of the Troop or Company to which the person applying belongs. The application, together with the occasion, is to be reported to the commanding Officer of the Division, and by him to be forwarded to the commanding Officer of the Regiment.

Applications how to be presented.

No batta is to be drawn for Native Officers, Sepoys, or others, while on leave of absence; and neither pay nor bounty for mess shall be paid on leave of absence. Their pay, upon rejoining their corps, is to be drawn by the manner directed by the Minutes of Council of the 1st August 1795, viz. to be included in the first batta, accompanied by a certificate from the Adjutant of the Division, or by the commanding Officer of the company, countersigned by the senior Officer of the Regiment on the spot, expressing the date of the person going on leave, and the day of his return to be annexed to the bill for payment.

No batta to Native Troops on leave: their pay, etc., how to be drawn.

Commanding Officers of divisions may at any time suspend the usual indulgence of leave of absence; and when Native Troops are employed on actual service no leave of absence is to be granted by any commanding Officer to any Native Officer or Sepoy under his command without the permission of the Commander in Chief of the Army or Detachment.

Circumstances under which the indulgence of leave of absence is to be suspended.

**M. C. 16th**  
**Jud. Dep. 1790**

No non-commissioned Officer, Sepoy, or other going on leave of absence is to be allowed to take his coat with him.

The regulation which forbids the Native Troops from wearing their uniform, when temporarily excused or occasionally travelling in the interior parts of the country, is not to extend to the Native commissioned Officers, except in case of being discharged from Service, unless it shall be found that the indulgence of permitting them to wear their coats, when absent from their corps, shall be abused by their wearing it elsewhere any improper consequence or power by means of their dress, in which event the exemption granted, out of respect to their rank and situation, shall be withdrawn from the whole.

Native Troops proceeding on leave restricted from taking their coats, with exception to commissioned Officers.

**Proc. G. C.**  
**Jud. Dep. 17th**  
**Sept. 1804**

The Governor General has directed all officers that the priviledge is liable to write from the practice which is now in use of furnishing Native Officers and Sepoys with letters addressed to the Judges and Magistrates, and that such Officers or Sepoys may have suits or complaints commenced in the Court of Judicature. His Lordship in Council is accordingly directed that no Native Officer commanding corps or detachment, may have authority to grant leave of absence from the Native Officers and Sepoys under his command, or to enable them to prefer any suit or complaint in any of the Courts of Judicature, the former do request the same to whom such leave of absence may be granted, that they may be prepared for the recovery of their claims in the manner preferred by the Judges and Magistrates of Judicature, but that the commanding Officers of Corps and Detachments do not, on such occasions, furnish the men in question with any letters, notes or other writing to the Judges or Magistrates, or other Officer by whom the suits are to be tried and decided.

Prohibition of Native Troops proceeding on leave without authority, unless they are to be tried in the Court.

Native Troops  
leaving leave  
to be sanctioned  
against the prac-  
tice of a dis-  
cussion of  
murders cal-  
led t, hugs.

With a view to guard against the atrocious practice of a discussion of murders called t, hugs, the commanding Officers of Native corps will caution their men when proceeding on leave of absence.

*First*,—To be strictly on their guard against all persons, particularly those unknown, whom they may fall in with on the road, and who evince a solicitude to keep their company on pretence they are going the same way, and are inquisitive about their affairs.

*Secondly*,—Not to quit the Serais at a very early hour in the morning before the start of the travellers.

*Thirdly*,—Not to receive pawns, bang, tobacco, or sweetmeats, from such persons, or smoke their hookahs, particularly if offered to them on solitary spots on the road; and, *lastly*,—to avail themselves of the protection of Sultans, when opportunity offers, or to travel as much as possible with large bodies of people.

This last object might be obtained, in a great degree, if the men were permitted on occasions of periodical leave to keep together on the road as long as their several destinations would permit, or placed under the direction of such Native commissioned or non-commissioned Officers as may be proceeding the same way.

Native Troops  
proceeding to  
Jaggernath, a-  
gainst irregular  
conduct when  
there.

In order to guard against public inconvenience and acts of irregularity, which are liable to occur at the Temple at Jaggernath, for the want of some regulation for the control of the Native Officers and Sepoys who obtain leave to visit that Temple, the Commander in Chief is pleased to direct that it be henceforward considered a standing order, whenever Native commissioned, non-commissioned Officers, Sepoys, or others in the Military Service of Government, shall obtain leave to visit the Temple of Jaggernath, they be strictly enjoined to report their arrival to the Officer commanding the Detachment at Jaggernath, and in all respects to conform, during their stay there, to such rules and directions as he may prescribe, by which means good order will be preserved, and the performance of their religious ceremonies will be greatly facilitated. On the occasion of taking their departure from Jaggernath they are also to make a previous report to the Officer commanding at the post, and strictly to conform to such directions as he may judge necessary for their guidance.

Also to those  
proceeding to  
Allahabad, of  
in mode of  
securing ex-  
emption certi-  
ficates, &c.

With reference to the 4th paragraph of the Printed Regulation by Government of the 15th December, 1810, fixing the duties to be levied upon Pilgrims resorting to the conflux of the rivers Ganges and Jumna; whereby an exemption from those duties is made in favor of the Hindoos of the Honorable Company's Army, his Excellency the Commander in Chief is pleased to direct that commanding Officers of corps do enjoin their men, on every such occasion of visiting Allahabad for performances of their religious ceremonies, to behave in the most orderly manner, and strictly to conform to the Regulations established for conducting the ceremonies of the Pilgrimage.—(Vide pages 16 and 47 relative to the mode of application by Native Officers and Sepoys for exemption certificates.)

Proportions in  
which the an-  
nual indulgence  
& furlough is  
taimed.

The Commander in Chief authorizes leave of absence to be granted from all corps and detachments of Native Cavalry, Artillery, and Infantry, in the following proportions:—

|                                           |    |                      |
|-------------------------------------------|----|----------------------|
| Each Troop of Cavalry .....               | 10 | Non-commissioned and |
| " Company of Muzaffars and Pioneers ..... | 8  | Privates.            |
| " Company of Native Infantry .....        | 10 |                      |

with such proportion of Native commissioned Officers as can be spared.

Officers commanding corps are particularly enjoined to grant the leave primarily to the eldest Soldiers, who have been longest without the indulgence of furlough, and so on, in succession, throughout Troops, Companies and Corps, regulating the period of each according to the distance of their homes, and renewing the indulgence as absentees rejoin, to the extent described, until the 30th September next, when all who have obtained leave of absence must be at their post, and the indulgence ends until further orders.

Officers and men going on leave are to be informed that, in the event of their corps being ordered on Service during their absence, or when they cannot, in general, fail to receive information, it will be their indispensable duty to rejoin immediately, without waiting the expiration of their leave, and such as may fail to do so, within a reasonable time, are to be considered as having forfeited all claim to a similar indulgence in future.

The orders of Government which direct the costs of Native Troops going on leave of absence to be left with them, are to be strictly attended to.

In the event of

ing ordered on  
Service all men  
to return im-  
mediately.

The Commander in Chief authorizes the commanding Officers of Native corps and detachments ordered to move to effect the relief and distribution of Troops, now in progress, to grant leave of absence, to such extent as they may deem proper, to the Native commissioned, non-commissioned Officers and Privates at different periods of the march, to enable them to visit their families when passing near the districts in which they reside.

Orders granting leave of absence to corps moving at the Relief and extending the indulgence to the early part of the year in view to the accommodation of the Native Troops.

His Lordship is further pleased to authorize Officers commanding stations, posts, and detached corps, with the sanction of the Officers commanding in the field and the principal stations on which they are dependant, to grant leave of absence to the Native commissioned, non-commissioned Officers and Privates of the several corps and departments of the Army, from and after the 1st January next, to such extent as in their discretion may appear suitable and proper, with reference to the demand for Troops or duties to be performed in their respective situations, in order to extend the indulgence of furlough to that period of the year at which it is, in many instances, most requisite and acceptable to the Native Troops.

15th May 1810

The Governor General in Council is pleased to authorize the Collectors of Revenue and Paymasters and Deputy Paymasters of this Presidency, to whom the applications may be made, to pay monthly, during the term of their leave of absence, to Native commissioned, non-commissioned Officers and Privates belonging to either of the Presidencies of Fort St. George and Bombay, such portion of their pay as shall be specified to be admissible to them, during their furlough; upon a certificate according to the annexed form with which they will be furnished for that purpose.

Authorizing pay to be issued to the Native Troops of Madras and Bombay on furlough in Bengal.

The Collector or Paymaster to whom the application for payment may be made, will note upon the certificate the payment, for what month and when disbursed, transmitting a copy of the pay certificate above described with the receipt of the party for the payment made, to the Office of the Military Auditor General for audit, and in order that the sums so disbursed may be duly charged to the Presidency to which the party belongs.

Should the bearer of a certificate of the nature before mentioned, after having arrived at Fort William, be desirous of proceeding for the remainder of his furlough to an inland station, payment of such arrears as are due may be made by the Paymaster at the Presidency, who will note upon the pay certificates the payments he may have issued, for the guidance of the Collector or Paymaster in the future issues to be made upon such certificate. When the party shall cease to draw pay in Bengal, his original certificate shall be returned to him, care being taken that the several payments are distinctly specified thereon, as well as the dates on which they have been made under the official signature of the Collector or Paymaster.

#### FORM OF CERTIFICATE.

I hereby certify that A. B. Private in the                      Company                      Battalion Regiment of Native Infantry, belonging to the Presidency of Fort St. George (or Bombay) having obtained leave of absence, and to proceed to Bengal, for the term of                      months, he will be entitled to receive monthly, during the term of his furlough, from the Collector or Paymaster in Bengal to whom this certificate shall be produced, the sum of

5th Jan'y 1797

The power of granting discharges to non-commissioned Officers and Sepoys, and of dismissing Sepoys, does not devolve on commanding Officers of Battalions or Detachments separated from the Head-quarters of the Regiment; excepting when the separated Battalion or Detachment shall be employed out of the Bengal Provinces, or Vizier's dominions; or the commanding Officer of the Regiment shall be so employed with a division of the Regiment.

Applications  
for discharges  
how to be pre-  
ferred.

Applications for discharges of commissioned, non-commissioned Officers, Troopers and Sepoys are, in the first instance, to be made to the European Officer in command of the Troop or company to which the person applying for his discharge belongs: the application, together with the occasion of it, is to be reported to the commanding Officer of the Battalion and by him to be forwarded to the commanding Officer of the Regiment, who will, in the case of commissioned Officers, transmit the application to the Commander in Chief; and in the case of non-commissioned Officers and Privates either grant the discharge immediately, if the occasion shall appear to him pressing, or delay it until the expiration of two months from the date of the application; or if the corps be on service, or there be the expectation of Service, reject the application altogether.

Discharges to  
be published in  
Regimental Or-  
ders.

All discharges of non-commissioned Officers and Sepoys are to be published in Regimental Orders.

Arrears of men  
discharged how  
drawn.

In order to provide for the payment of arrears due to men who take their discharge between the first and the last day of a month, the Officer commanding the company is to draw in a separate bill, with a Review Roll annexed, the arrears due for any broken period of a month; which bill the paymaster is authorized to discharge on presentment, provided the countersignature of the Officer authorizing the discharge is on the bill, and the countersignature of the Adjutant on the Review Roll.

M. C. v2d  
August 1790

Men receiving  
their discharge  
to take every  
article of dress  
&c. with them.

When Sepoys obtain their discharge, every article of dress and ornament appertaining to it, becomes their property except the coats in wear, and they may be allowed to take them with them or leave them with their company, receiving from the commanding Officer a just consideration in money.

And to be fur-  
nished with  
certificates.

Non-commissioned Officers and Sepoys permitted to quit the Service shall be furnished with the usual written discharge. (*Vide Form No. 6.*)

M. C. 7th May  
1781

Periods of Ser-  
vice and cause  
of the discharge  
to be specified  
in the certifi-  
cates, copies  
of which are to  
be sent to the  
Adj. General.

The Commander in Chief desires it may be considered an invariable rule, in all cases of men obtaining leave to quit the Service, that the discharge granted to them on such occasions shall express the period of their service in the corps to which they may at the time belong.

G. O. C. C.

Frequent complaints having been preferred to Head-quarters, and even to Government,

G. O. C. F.

By Sepoys, of their having been unjustly and irregularly discharged from the Service, and the certificates with which they have been furnished not specifying in many cases the reason of the discharge or dismissal, numerous references to corps become in consequence necessary to ascertain whether the complaint be well founded or not.

Although the Commander of the Forces has no reason to believe the power vested by General Orders of the 5th January, 1799, in commanding Officers of Regiments of dismissing Sepoys who are unfit for Service and not entitled to the Invalid Establishment, is abused, he thinks it proper to direct, with reference to those orders, that the reason of the dismissal be invariably stated in the fullest manner in the discharge certificate, a duplicate of which is to be sent with the monthly return next ensuing for record in the Adjutant General's Office.

G. O. C. C.  
23d May 1808

Buldee Sing, Naick of the 2d Battalion 9th Regiment, having been irregularly discharged from the Service, is directed to be re-enrolled on the strength of that Battalion from the 1st March, 1808, the date of his unauthorized discharge; the Sepoy promoted in his room to remain Supernumerary until a vacancy occurs, when he is to be brought upon the strength.

Persons irregularly discharged returned to the Service.

G. O. C. C.

Whenever Native Officers may be dismissed the Service by the sentence of a Court Martial, their commissions are to be sent to the Adjutant General's Office by commanding Officers of corps.

Commissions of Native Officers dismissed to be sent to the Adjutant General.

M. C. 16th  
June 1786

When Sepoys desert from a Battalion, a description of them and an account of the periods of their desertion are to be sent to the commanding Officers of the Troops nearest the spot which shall be conjectured as most likely for the deserter to have resorted to.

Descriptions of Sepoys deserting to be sent to the Officers commanding Posts near their residence.

M. C. 7th May  
1781

Resolved, that half a month's pay shall be drawn for Native Officers and Sepoys who shall die on or before the 15th day of the month; and a full month's pay for those who shall happen to die after that period, to assist in defraying their funeral expences; and that the names of all such deceased Native Officers and Sepoys shall be struck off the rolls of the companies to which they did belong at the expiration of every month.

Periods for which pay is to be drawn for Native Troops deceasing.

G. O. C. C.  
22d June 1793

Commanding Officers of Native Troops are to be careful in reporting by letter to the Adjutant General every casualty that happens among the Native Officers of their respective Battalions, mentioning the name of the Officer.

Every casualty of Native Officers to be carefully reported to the Adjutant General.

G. O. P. C.  
19th May 1807

The period allowed for receiving claims and adjusting the amount of estates of deceased Native Officers and Soldiers having been extended by the Orders of Government from three to twelve months, ample time is thereby allowed for communication with the families of the deceased, and for every investigation that can be necessary on the occasion. The Provincial Commander in Chief, therefore, enjoins commanding Officers of corps to make it their particular duty to see that all such claims are promptly and strictly attended to.

Regulations for the adjustment of the estates, &c. of deceased Native Officers and Sepoys.

Registers containing distinct statements of the proceeds of estates of all Native commissioned Officers are to be kept by Adjutants of corps, respectively, under the immediate direction of their commanding Officers.

Register of estates of commissioned Officers kept by the Adjutant.

Similar Registers are to be kept by all Officers in command or charge of Troops, Companies, &c. of the estates of all non-commissioned Officers and Privates, to be made up to the 31st of December of each year, at which period copies are to be laid before the commanding Officer for the purpose of being recorded by Adjutants of corps in a register to be kept for the purpose.

And of non-com'd and privates by commanding Officers of companies.

Whenever any doubt may arise with regard to the right of persons who may claim the estates of deceased Officers or Soldiers, the testimony of any Native commissioned or non-commissioned Officer, or even Private Sepoy in the Service, of good and respectable character, is, together with the receipt, to be taken on the occasion, to be considered as sufficient grounds for making payment to the claimants; and all property of that description, which may remain unclaimed, at the expiration of one year from the date of the casualty, is to be forthwith remitted to the General Treasury at the Presidency, agreeably to the Regulations now in force.

Relative to payments to persons claiming the estate, or the remittance of the amount, if unclaimed, to the General Treasury.

G. O. G. G.  
17th June 1809

Some doubts having been entertained with regard to the intention of the Orders in force respecting the property of deceased Native Officers and Sepoys, as contained in the

Articles of War, Section XIII. Articles I. II. and in the Regulations of Government passed on the 7th May, 1781, 21st October, 1792, 12th August, 1796, and 14th May, 1807, the Governor General in Council is pleased to direct that the substance of those orders shall be republished for general information; accompanied with such explanation as has been deemed to be necessary upon the points on which differences of opinion have existed;

Measures to be taken by com'g Officers of corps for the realisation and disposal of the property of Native com'd Officers deceased;

When any Native commissioned Officer may die or be killed in the Service, the commanding Officer of the Battalion shall secure his effects, and direct an inventory thereof to be taken by a Subadar and two Jemadars; a duplicate of the inventory, countersigned by the commanding Officer of the Battalion, is to be delivered to the Colonel or Officer commanding the Regiment, and afterwards lodged in the Adjutant's Office; if there be no executor on the spot appointed by the deceased, the effects are to be publicly sold; the commanding Officer of the Battalion, after discharging the debts of the deceased, specified in the XIIIth Section of the Articles of War, viz. his debts in camp or quarters and the expences of his interment, shall account for the residue to the heir or heirs declared by will, whether written or verbal, or in failure of such to the legal representatives of the deceased; and in the event of no executor, heir or other representative of the deceased attending and establishing his claim, within twelve months from the date of the casualty, the amount in the hands of the Officer having charge of the estate, is to be remitted to the General Treasury at the Presidency, by a bill of exchange to be granted on the Paymaster General by the Paymaster of the corps to which the deceased belonged, or with which he was serving at the time he died;

The same mode to be observed by com'g Officers of companies in regard to the property of non-commissioned and privates.

A similar mode of proceeding is also ordered when any non-commissioned Officer or Sepoy shall die or be killed in the service, except that the duty prescribed for the Officer commanding the Battalion, in the case of a commissioned Native Officer, is to be executed by the Officer commanding the company in the case of a non-commissioned Officer or Sepoy.

Prohibition of Officers deciding upon any contested claim of succession to such property.

It is to be understood, however, that it is not the intention of Government in the orders above noticed to authorize any commanding Officer of a company, Battalion or Regiment to investigate or decide upon contested claims of succession to the estate of a deceased Native Officer or Sepoy, especially when such claim may have been instituted in one of the established Courts of Civil Jurisdiction, nor is the rule for a remittance to the Presidency at the expiration of a twelve month, when no executor, heir or other legal representative may attend, applicable to such case in which it would be more convenient for the parties concerned, that the property in the hands of the commanding Officer (after payment of the expences and debts which he is authorized to discharge) should be deposited in the Zillah or City Court where in the suit may have been instituted.

The commanding Officer will accordingly comply with the requisition of the Zillah or City Court, wherein the suit may be depending, for delivering into Court the amount of the property in his hands.

Provision allowed for the orphans of deceased Native Officers, &c. killed on Service.

Bennyperlaud, son of Runjeet Sing Subadar, deceased is to be enrolled on the strength of the 2d Battalion 8th Native Infantry as a Naick from the 1st instant.

ford to all the regular Battalions another opportunity of evincing the Soldier-like feeling by which they are ever animated, on occasions holding out prospect of actual service.

The several Battalions of the Line, with exception to the 1st and 2d Battalions of the 8th, the 2d Battalion of the 14th, the 1st Battalion of the 15th, the 2d Battalion of the 19th, and the 1st and 2d Battalions of the 25th Native Infantry, from which Volunteers have been already furnished, and the 20th or Marine Regiment, are called upon, accordingly, each to give the following detail.

The 45 Battalions will have to furnish each,—one Jemadar for Subadar,—one Havildar for Jemadar,—five Naicks for Havildars,—five Sepoys for Naicks,—eighty-two Privates,—one Drummer and one Fifer,—two Behishtias and one Lascar, from the Quarter-master's Establishment.

Proportion to be furnished from each corps.

Each Battalion is likewise to give two European Officers, the senior to be a Captain, or a Subaltern, who shall not have served less than six years with the army.

The promotions required agreeably to the foregoing arrangement are to be made and recommended by commanding Officers of Battalions, respectively, previous to the Volunteers leaving their corps; and the Commander in Chief concluding that there may be more Volunteers amongst the Native commissioned, non-commissioned Officers and Sepoys, than are required from Battalions, respectively, his Excellency is pleased to direct that the selection, from those who may volunteer, of Jemadars for Subadars, of Havildars for Jemadars, and Naicks for Havildars, in the Volunteers, shall be made with particular attention to length of service, combined with perfect efficiency and good character.

Orders for the selection of native commissioned and Non-commissioned Officers.

The same rule is likewise strictly enjoined with regard to the selection of Volunteer Sepoys, for promotion to Naicks; and no Officers or men of sickly constitution or who, in any other respect whatsoever may not be perfectly fit for active service in the Field, are to be admitted as Volunteers on the present occasion.

None but efficient men to be sent.

A bounty of one month's Pay and full Batta will be given to each Native Officer and Soldier, and it is to be particularly explained to them that every possible attention will be paid to their comfort and accommodation whilst on board ship, and the greatest care taken in laying in their water and provisions, under the superintendence of men of their respective casts, selected by themselves for the purpose.

Amount of bounty granted, and mode of preparing their provisions and water.

Full Batta to be drawn for the Volunteers from the 1st January 1811, and the better to enable them to provide such necessaries as may be useful during their voyage, as well as to afford them the means of defraying the expense of transporting their families to the places where they may choose to reside, an advance of two months' Pay and full Batta will be made to the Volunteers, previous to their embarkation.

Full Batta when to commence and an advance of two months' allowances to be made on embarkation.

The regulations of the distribution of family money on account of Native Troops, &c. proceeding on foreign service, as established by General Orders of the 28th March, 1808, to be particularly explained to the Volunteers, in order that their families may derive the full benefit of those regulations during their absence, for which purpose, as soon as the Volunteer Battalions are formed, Officers commanding Companies will prepare and deliver to the Officer appointed to superintend the distribution of family money, the necessary documents as prescribed in the General Orders abovementioned (*Vide page 27.*)

The regulations for the remittance of family money extended to them.

O. C. C.  
14 Mar. 1811

It having come under the notice of the Commander in Chief, that in many instances the assignment of family money made by private Sepoys, exceeds the half of their Pay and Batta, his Excellency desires that it may be considered as a standing regulation, that in no case the amount of family certificates granted by Sepoys shall exceed the sum of Sonat Rupees three and eight annas.

Reduction of the amount of Family money, to be assigned by Privates.

O. C. C.  
14 Dec. 1810

Full Batta and rations, agreeable to a Table which will be formed, (*vide page 18*) will be allowed to the Native Troops and public followers whilst on board of ship, or until arrangements can be conveniently made on shore for supplying them with provisions at the Bengal prices, as is at present allowed to Native Troops on foreign service. (*Vide page 246*)

Full Batta and rations allowed until they can be supplied with provisions at the Bengal rates.

After the service shall be over they will be permitted to return to the Battalions from which they were received, or to join any other corps to which they may give the preference.

After the expiration of the service they may return to any corps they prefer.

Bounty cloathing, according to the usage of the service, will be allowed to the Volunteers.

Bounty cloathing allowed them.

Parted to which  
to be paid with  
their corps.

Directions for  
their proceed-  
ing to the Pre-  
sidency.

The Volunteers are to leave their arms and accoutrements with their corps, but to bring with them the clothing now in wear.

The whole to be paid up to the 1st January 1811, and to be struck off the strength of their respective corps from that date; the vacancies in the ranks of commissioned and non-commissioned Officers to be filled up by promotion in those corps, and Recruits to be entertained to supply the places of the Sepoys.

The Volunteers from corps are to rendezvous for the purpose of embarking on boats, which will be provided by the Commissariat at the Stations undermentioned:

Those from the 2d and 3d Divisions of the Field Army, and those from }  
the corps in Rohilkund, and at Futtigurh, Mynpoory, Koonch and } at Futtigurh.  
Etawa, ..... ..

Those of the remaining corps of the 1st Division of the Field Army, - at Allahabad.

Those from the Benarus command, ..... .. at Benarus.

All those from corps below the Benarus command, with exception to the details of the 2d Battalion 15th Regiment, which are to embark at Dacca and Chittagong, are to march to Barrackpoor, which is to be the general rendezvous of the whole.

As soon as the several details shall have reached the respective points of embarkation they are to proceed towards the Presidency, with all practicable expedition under the command of the senior Officer with each division, who will report progress, weekly, to the Adjutant General.

On arriving at Bhugwangola they will either land at that place and march to Barrackpoor or proceed by the Matah Bunga Navigation, should that be practicable, which must be ascertained by enquiry on their arrival at Bhugwangola.

Assistant Surgeons are directed to join and do duty with the Volunteer details as follows.

Proportion of  
Native Doctors  
to accompany.

The following proportion of Native Doctors is also required to accompany the Volunteer details.

Native troops on foreign service supplied with grain from the public stores at the market price of Bengal.

The Vice President in Council, in consideration of the exorbitant price of all the necessaries of life at Prince of Wales's Island, Malacca and Bencoolen, has it in contemplation that the whole of the Native Troops of this establishment serving at those settlements shall be supplied with Rice, Dhal and Ghee from the Public Stores, at the average price at which those articles are procurable in Bengal.

Proc. V. P. 19th Jan. 1810.

The requisite supplies of Grain and Ghee are to be forwarded from Bengal to Prince of Wales's Island and Fort Marlborough from time to time as opportunities may occur.—(N. B. this indulgence has been extended to all Native Troops serving to the Eastward and at the French Islands.—For Regulations for issuing the supplies on Indents from corps, vide Chapter XVII.)

Allowance of passage money for Native troops on board other Ships than transports.

The Vice President in Council sees no grounds for deviating from the rule observed in cases where Native Troops are transported by sea (not being in transports or vessels hired or paid by Government) of granting 4 annas a day for each person for his passage and the use of the ship's water casks—Provisions being, as in the present case, shipped for the use of the men.

Proc. V. P. 11th March 1802.

Half batta allowed to Native Volunteers on furlough after returning from service.

The Native Volunteer Battalion, after the arrears due to it shall have been paid off, is to be reduced, and the men returned to their respective corps. The Governor General in Council, as a further demonstration of the high sense entertained by Government of the meritorious conduct of the Native Officers and men of the Volunteer Battalion, is pleased to allow them to return to their homes, previously to the order for rejoining their corps being required to have effect. Leave of absence on this account for a period of four months to those whose families are resident at or below Benarus, and for six months to the remainder, is accordingly granted to the Native Officers and men of the Volunteer Battalion from the first of the ensuing month, with the established allowance of half batta, without prejudice to their promotion.

Regulations for the preparation of Rolls, &c. for honorary medals granted to Native troops.

With reference to General Orders by the Governor General in Council dated 10th June, 1800, granting honorary medals to the Native commissioned, non-commissioned Officers and Privates of the 10th Regiment Native Infantry, as also to the Gun Lascars who were attached to that Regiment during its absence from these provinces: with reference also to General Orders by the Governor General in Council dated 6th August, 1805, granting honorary medals to all the Native commissioned, non-commissioned Officers and Sepoys who composed the three Battalions of Bengal Volunteers which were engaged in the 1st War in Mysore: and with reference to General Orders by the Governor General in Council dated 31st July, 1802, granting honorary medals to all the Native commissioned Officers, Troopers, Sepoys, Gun Lascars and Gun Lascars, who were employed on service in Egypt under Major General Baird;—the Provincial

G. O. P. 1 April 10, 1803.

Commander in Chief directs that Rolls with figured abstracts of all the Native commissioned, non-commissioned Officers, Troopers and Sepoys, Golundaz and Gun Lascars, who are entitled to honorary medals for the occasions above referred to, be immediately prepared on foolscap paper and transmitted to the Adjutant General's Office by the Officers commanding the several corps and establishments to which the persons so entitled may now belong.

The Rolls from the 10th, 18th and 19th Regiments of Native Infantry to be prepared by companies and to be countersigned and transmitted by commanding Officers of Battalions, with the signature also of the Colonel Commandant, when present with the corps.

One Roll and Abstract only is to be prepared by every other corps, in which is to be comprized all those now belonging to such corps who may be entitled to honorary medals for any of the occasions above referred to under the distinct heads of "10th Regiment in the Dukhun,"—"Bengal Volunteers in Mysore,"—"Bengal Volunteers in Egypt."

N. B. By Minutes of Council 22d January, 1785, and by General Orders 4th June, 1793, honorary medals were granted to Native Troops for service in Guzerat and the Carnatic and Mysore.

G. O. C. C. The honorary medals authorized to be granted to the Native Troops who were employed on service in Egypt under Major General Baird, by the Orders of Government under date the 31st July, 1802, and those subsequently authorized on account of the survivors of the Gun Lascars who embarked for service on Ceylon under Captains Barton and Clarke, of Artillery, in the year, 1795-6, being now in readiness for delivery, the Commander in Chief directs that Rolls, with figured abstracts, agreeably to the annexed form, of all the Native commissioned, non-commissioned Officers, Sepoys, Golundaz and Gun Lascars, who are entitled to honorary medals for the services above referred to, be immediately prepared on foolscap paper, and transmitted to the Adjutant General's Office, by the Officers commanding the several corps and establishments to which the persons so entitled may now belong, in order that medals may be transmitted them accordingly.

Similar Rolls are to be forwarded from each Battalion of Invalids and by the Regulating Officers of Tannahs, the Adjutant of Native Invalids at Allahabad, and the Fort Adjutant at Monghyr, on account of Invalids who may prefer their claim, to the honorary distinction alluded to, to those Officers, respectively. But such Rolls are in no instance to be forwarded to the Adjutant General's Office until it has been ascertained by a reference to the corps to which the parties belonged previous to their transfer to the Invalid Establishment, or otherwise, that their claims are well founded.

Commanding Officers of corps to whom enquiries may be addressed for the purpose of ascertaining the point above mentioned are strictly enjoined to reply to the same without delay, and to furnish, as far as may be possible, the information necessary to establish the claim of the individual referred to. The replies of commanding Officers on such occasions to accompany the rolls of claims to the Adjutant General's Office.

It is to be clearly understood that claims to medals for services in Egypt are only admissible on account of persons who embarked from Bengal for service in that country, and must therefore be confined to those who belong to the 1st Battalion of Volunteers commanded by Major Broughton. (*Vide Form No. 7.*)

G. O. P. C. All Volunteers who embarked from Bengal for service in Egypt, or who proceeded from Bengal on other foreign services referred to in General Orders of the 10th instant, and who have returned to this Presidency and are now alive, are to be considered as entitled to medals and to be included in the rolls, accordingly, whether they reached the place of their original destination or not.

All Volunteers who embarked for service on account of which medals are granted, are entitled to them whether they reached the destination or not.

G. O. C. C. The Commander in Chief is pleased to promote Deenah Sing, Havildar in the 1st Battalion 14th Regiment Native Infantry, to be a Jemadar, in consequence of his gallant behaviour on the 10th instant; and Ramjhan Khan, Gun Lascar, of the 21st Company, to the rank of 2d Tindal, in reward of his exertions in bringing off the enemy's bullocks.

Rewards to Native Officers &c. for gallant conduct in the field or otherwise.

G. O. C. C. There being vacancies for two Naicks in the 2d Battalion 16th Regiment, and four Sepoys of that corps who volunteered for the forlorn hope at the attack of the Insurgent's Intrenchments before Gohud, on the 21st ultimo, having received a promise from Captain

Macleod to be recommended for promotion,—the Commander in Chief is pleased to authorize the promotion in that corps of the following Sepoys, the former to fill the present vacancies, the latter two to be returned as supernumeraries until vacancies occur, Munia Ram, Heera Loll, Cheet Sing, Chubba Sing.

The Commander in Chief, in reward of the meritorious behaviour of Meer Nubby Bukh and Sewbuccas Sing, Sepoys of the 15th Regiment, in having examined the fortie and ditch of Bidzygurh on the evening of the 27th ultimo, is pleased to promote them to the rank of Naick in their respective Battalions. His Excellency is further pleased to direct the sum of Sonat Rupees 120 to be paid to each of them : bills for these sums to be made out and sent to the Adjutant General's Office for signature.

G. O. C. C.  
10th March  
1805

Gonga Doobey and Sheick Islam, Havildars 1st Battalion of Volunteers, are promoted to the rank of Jemadar, the former from the 1st, the latter from the 2d November, in consequence of the recommendation of Captain Kelly, who ascribes to their meritorious exertions the preservation of two boats laden with treasure.

G. O. C. C.  
15th Nov 1805

An extra Jemadar allowed in corps to which honorary colours are granted

The Governor General in Council is pleased to authorize an extra Jemadar for each of the Regiments of Native Cavalry and each of the Battalions of Native Infantry, engaged at the assault of Aligurh and at the battle of Dehli, for the purpose of carrying the honorary colours that have been granted to those corps on account of their gallant behaviour on those memorable occasions.

G. O. C. C.  
11th Sept. 1805

In conformity with the foregoing orders of Government, an additional Jemadar for carrying the honorary standards and colours is to be allowed to the 2d and 3d Regiments of Native Cavalry; the 1st and 2d Battalions of the 2d Native Infantry; the 1st and 2d Battalions of the 4th Native Infantry; the 2d Battalion 18th Native Infantry; the 1st Battalion 14th Native Infantry; the 1st and 2d Battalions 15th Native Infantry; and the 2d Battalion 17th Native Infantry.

G. O. C. C.  
16th Sept. 1805

Orders for the reduction of Volunteer Battalions and distribution of the men among the corps of the line.

In pursuance of the orders of Government under date the 24th of May last for the reduction of the Volunteer Battalions, and conformably to the option promised them at the time they were embodied, of being allowed to return to particular corps whenever such reduction should take place, the Commander in Chief is pleased to direct the following distribution of the Native commissioned, non-commissioned Officers, Drummers and Private Men, Volunteers, to be made by the General Officer commanding at the Presidency.

G. O. C. C.  
21st Dec. 1805

The arms, accoutrements, colours, &c. belonging to the Volunteers to be lodged in the Arsenal at Fort William.

Descriptive rolls, agreeable to the lists transmitted from the Volunteers to Head-quarters, to be sent by the Officers at present in charge of Battalions, Divisions or Companies, to the corps to which the whole are incorporated by the foregoing distribution.

The commissioned, non-commissioned Officers, Drummers and Private men received into corps in excels to their establishments, are to be borne as supernumeraries until vacancies shall occur in corps respectively, but "to receive the pay and batta of their respective ranks according to the situation of the corps to which they may be posted" agreeably to the Orders of Government under date the 24th May, 1805. Every individual is to be furnished with a certificate of his last pay received and of his cloathing due.

The General Officer commanding at the Presidency will be pleased to direct the Volunteers to proceed by the most direct route to their several destinations in charge of the senior Officer destined to a corps at or near the principal stations of the army, respectively.

The European Officers doing duty with the Volunteers are to join the corps to which they severally belong, as soon as relieved from their present charge.

Officers commanding corps will be pleased to note on the back of their monthly returns, the numbers of Officers and men that actually join their corps in consequence of the foregoing orders.

G. O. C. C.  
14th Apr. 1806

Volunteers are pointed to corps how to be included in the returns and review rolls.

The orders for incorporating the Officers and men appointed from the Volunteers having been acted on in different ways, which occasions confusion in the returns of corps, it is now directed that the Native commissioned, non-commissioned, Drummers and Privates, distributed agreeably to their own choice to corps, be enrolled and included (until they

join to be inserted under the head "appointed not joined" and where the rolls may not have been received, the Officers and men of the respective ranks are to be enrolled by numerals, as, for instance Subadar.

No. 1, Appointed from Volunteers by General Orders of not joined, and so on.

Particular attention to be paid in correctly stating the numbers in each corps wanting to complete or supernumeraries, not including under the former head vacancies arising from Officers, &c. transferred to fill vacancies in other corps, so long as there may be any on the rolls, appointed from the Volunteers, to be brought on the strength, whether joined or not, nor in the latter any who are not in excess to the total establishment of the several denominations in corps, respectively.

G. O. C. C.  
20th Nov. 1806

In obedience to the Orders of Government, the Escorts with the Residents at Lucknow and Dehli are to be disbanded on the 31st December next; to which date they are to be paid up, and certificates and acquittance rolls furnished accordingly.

Orders for the distribution of the escorts at Lucknow and Dehli among the corps of the line.

The Native commissioned and non-commissioned Officers, including Drummers, of the Lucknow Escort to be distributed to the corps of Native Infantry in Bundelkund, the Vizier's Dominions, and the Doab; with reference to existing deficiencies of corresponding Ranks in corps, respectively; and in like manner the Native commissioned and non-commissioned Officers of the Dehli Escort to join corps at Muttra and other posts west of the Jumna. Distribution returns to be forwarded to Head-quarters for confirmation.

These commissioned and non-commissioned Officers, whether coming on the effective strength or joining as supernumeraries, are to receive the full pay of their rank and batta, the same as received by the corps they may join.

As many of the Privates of both Escorts, as may be desirous of continuing in the Service, are also to be incorporated on full pay with Battalions in which there may be vacancies, and to be included in the distribution returns.

Officers commanding the Escorts will accordingly report the number of Privates in each desirous of being continued in the Service, forwarding at the same time descriptive rolls of all such Privates, as well as of the Native commissioned and non-commissioned Officers, of their respective escorts.

G. O. C. C.  
23d May 1806

All Native commissioned and non-commissioned Officers of the Provincial Corps lately reduced, in excess to the number required for Provincial Corps ordered to be raised, are allowed the option of returning to the Regulars with the rank next above that which they held in the corps, respectively, from which they came, or of receiving their discharge.

Rank assigned to native Officers of provincial corps received from the Regulars, on returning to the latter corps.

G. O. C. C.  
22d Nov. 1806

Descriptive Rolls of all Native commissioned Officers who have joined the Regulars from the Provincial Corps are to be sent to the Adjutant General's Office, in order to their being furnished with commissions accordingly.

The Rolls to specify the Rank to which such Officers are actually entitled, agreeably to the Orders issued on the occasion, vizt. the Rank next above that which they respectively held in the Regulars previous to their transfer to the Provincials. The date of Rank is to be from the period at which Rank and Pay ceased in their late Provincial Battalions.

G. O. V. P.  
9th Jan'y. 1806

The operation of the orders of Government by which the Native Officers of the Volunteer Battalions have had the option of joining such corps as they might prefer, having caused an unequal distribution of those Officers among the regular Native Battalions; the Commander in Chief will be pleased to order such subsequent arrangements as may appear advisable and proper, with a view to prevent or remove any just cause of discontent among the Native Officers of those corps which receive a large proportion of the supernumerary Native Officers, by which Promotion in those corps might be considerably retarded.

Directions for levelling the different corps in the army by the transfer of supernumeraries.

G. O. C. C.  
17th Dec. 1806

In all cases of transfer for the purpose of levelling the Army, the juniors of each Rank are to be transferred, with exception of those who have made selection of particular corps from the Volunteers.

In all cases of transfer, juniors of the Rank are to be sent, with exception, to Volunteers.

G. O. C. C.

Proc. G. G.  
 5th June 1800

The Governor General in Council approves of the men of the Nawaub Vizier's disbanded corps being entertained and formed to complete the 18th and 19th Native Regiments. The Governor General in Council authorizes full pay for these men from the dates of their enlistment.

G. O. G. G.  
 6th Aug. 1800

The Governor General in Council having received from his Excellency the Commander in Chief information of the arrival within these Provinces of the three Battalions of Bengal Volunteers, under the command of Lieutenant Colonel Gardiner, feels a peculiar satisfaction in publishing to the Army, his Lordship's most cordial approbation of the distinguished services rendered to the British Empire in India by the European and

Enclosures on the three Volunteers Battalions comprising the 18th and 19th Regiments.

Native Officers and Privates of those gallant and meritorious corps, during the late arduous crisis of public affairs.

The Governor General in Council is pleased to order that honorary medals be conferred on all the Native commissioned and non-commissioned Officers and Sepoys of the three Battalions of Bengal Volunteers recently returned from the Coast of Coromandel.

The Commander in Chief feels the utmost satisfaction in communicating to the army the Orders of the Governor General in Council, containing such high and deserved encomiums on the three Battalions of Bengal Volunteers. That an opportunity should have offered of incorporating them as the foundation of the 18th and 19th Regiments, which they now compose, the Commander in Chief considered extremely fortunate: as an additional means to perpetuate the glory they have acquired, and as a further proof of the high estimation in which the General holds their services, as well as to impress the Regiments formed from these corps with a due and lasting sense of their honorable origin, he is pleased to authorize and direct that each of the Battalions of the 18th and 19th Regiments shall bear in the upper canton of their Regimental Colour an embroidered radiant star, encircled with the words "Bengal Volunteers," conformably to a pattern that will be given them. G. O. C. C. 7th Aug. 1800

In compliance with the particular request of the Officer commanding the 19th Native Regiment, the Commander in Chief is pleased to authorize and confirm to that corps the privilege of wearing a feather in their turbans as now in use, it having been represented to his Lordship that they are considered by the men as a distinguishing badge of their honorable origin as Volunteers for foreign service, which they are extremely desirous of retaining.

The Commander in Chief directs Colonel Morris and the Officers commanding Battalions of that Regiment will cause it to be particularly explained to the Native Officers and men, that it is solely from a desire to gratify their wishes that his Lordship has been induced to comply with the request, and on the same ground the Commander in Chief extends the like privilege to the 18th Native Regiment, should it be the wish of that corps to wear the feather in their turbans. Commanding Officers of Battalions, from which Light Companies are detached, will be careful to send with them their proportion of Quarter-master's people, for whose pay and allowances the Quarter-master is to provide by a suitable arrangement. He is also to provide for the repairs of the camp equipage, so long as the company shall continue detached from its Battalion.

On the arrival of the light companies from the several Regiments at their allotted stations, as directed in General Orders of the 3d instant, they are to be formed into light corps for the purpose of drill and manœuvre in that particular service.

G. O. C. C.  
27th Oct. 1808

The companies to be under the immediate control of their respective commanding Officers.

The several companies are to be considered as under the immediate and exclusive control of their respective commanding Officers, in all matters of interior economy, dress and discipline, which are to be always regulated by the existing General or Regimental Orders on those heads.

An adjutant to be appointed to each Battalion, and how nominated.

An Adjutant will be allowed to each Battalion, who will receive the usual Staff allowance of Rupees 132 per month. Officers entrusted with the command and instruction of Light Battalions are directed to send into Head-quarters, through General Officers com-

manding districts, the names of Light Infantry Officers belonging to the Native Companies properly qualified to fill the situations of Adjutant to the respective Battalions.

The Companies always liable to return to their own corps or to be attached to other Battalions.

The Light Battalions being always of a temporary nature, the companies will return to their respective Battalions as soon as circumstances will admit, or be sent to other Battalions as the service may require.

G. O. C. C. The rules and regulations for the exercise of Riflemen and Light Infantry and instructions for their conduct in the field, published under the authority of His Royal Highness the Duke of York, will be circulated from the Adjutant General's Office to the different corps.

G. O. C. C. The Pay Abstracts of the several companies of Light Infantry, as now arranged in Light Infantry Battalions, are to be sent for payment, or to be exchanged for drafts, to the pay office of the division, detachment, or station with, or at which, the Light Infantry Battalions may be respectively employed or stationed.

Directions for the payment of the Light Battalions.

The Governor General in Council has been pleased to sanction the following allowances and appointments so long as the Light Companies shall continue embodied in Battalions.

Allowances to the companies and Adjutant.

The Executive Staff, according to the usage of the service, to the Officers appointed to command the Battalions.

Adjutant Surgeon and Proprietor of Police for each corps.

An Adjutant to each Battalion, on the established allowance of 132 Rupees.

Drill Havildar and Drill Naick.

An Assistant Surgeon, with the established proportion of doolies in cantonments and in the field.

These allowances are to be paid.

A Drill Havildar and a Drill Naick to each Battalion.

The usual mess allowance will be granted to such of the Battalions in question in which messes may be formed.

Promotion of Native non-commissioned Officers.

The Commander in Chief is moreover pleased to allow the compliment of Native Doctresses attached to a regular Battalion being also attached to each Battalion of Native Light Infantry. They are to be immediately supplied by transfer from the regular Battalions most adjacent to the present situation of Light Infantry Battalions, under the directions of commanding Officers of stations or detachments.

G. O. C. C. The Commander in Chief authorizes two carts for each Battalion of Light Infantry to be drawn for by the Adjutant of the corps, and two hackeries are to be allowed to each Battalion of Light Infantry in lieu of such carts until the latter, which are to be indentured for on emergency on the nearest magazines, can be supplied.

G. O. C. C. The Commander in Chief is pleased to direct that during the separate employment of the companies of Light Infantry from the Battalions to which they belong, all vacancies of Native non-commissioned Officers in their companies shall be filled up by promotion in the companies, respectively, in which the vacancies may occur.

Promotion of Native non-commissioned Officers to be made.

The recommendations for this purpose are to be made by the Officer in command of the company to the Officer commanding the Light Battalion, who will order the person or persons recommended to act in the vacant ranks from the date of the vacancy, and transmit the roll and copy of the order, thereon, for confirmation to the Officer commanding the Battalion to which the Light Company may belong, who will act upon it conformably to the regulations of the service on this head.

In all recommendations for promotion preference is to be given to claims of Seniority and length of service, when substantiated by requisite capacity and meritorious conduct.

All vacancies for Subadars and Jemadars in the Light Infantry Companies are, in like manner, during their separate employment, to be filled up by promotion in the companies, respectively, in which the vacancy may occur.

Promotions of Native non-commissioned Officers.

The recommendatory roll for this purpose to be submitted by the Officer commanding the company to the Officer commanding the Light Battalion, by whom it is to be countersigned and forwarded to the Officer commanding the Battalion to which the Light Company belongs, for countersignature and transmission, in the usual manner, to Headquarters; and the men thus recommended are to be immediately appointed to act as directed for non-commissioned Officers.

**Recruits how to be entertained.** All vacancies in the Light Infantry Companies for privates, below the establishment of 80 Privates per company, are to be supplied by Recruits to be entertained for the purpose by Officers commanding the Light Infantry Battalions, on the recommendation of Officers commanding the companies, respectively.

**Descriptive rolls of companies to be carefully kept up.** Descriptive Rolls of Light Companies are to be carefully kept up by the Officers commanding them under the periodical inspection and reports prescribed by the Regulations of the Service.

Each Pay Havildar of Cavalry, or a man in each Troop to act in that capacity, to receive a staff allowance of five Rupees a month. And Pay Havildars.

M. C. 8th Apr.  
1793

Resolved, that a Farrier be attached to and returned with each Troop. The Farriers that may become incapacitated for further duty, after 15 years' Service, will be admitted to the benefits of the Invalid Establishment: and an indulgent consideration will be had for any that may be disabled by wounds on actual Service, although within the term above mentioned. A Farrier to be allowed to each Troop in the Native Cavalry.

G. O. 3d Oct.  
1796

The Farriers attached to Troops of Regiments of Cavalry are to be mounted and horses provided for them accordingly.

M. C. 8th Apr.  
1793

Resolved, that it be henceforth considered as a part of the duty of the Native non-commissioned Officers and Private Troopers to attend to and clean their own Horses; and that, accordingly, all Men who shall be entertained hereafter as Native Troopers shall be enlisted on such terms; but at the same time a certain proportion of Syces will be allowed in the Regiment to take care of the horses of sick men and to assist in the cleaning and care of the other horses. Native non-commissioned and Troopers are required to attend to their own Horses.

G. O. G. G.  
10th June 1809

Ordered, that the establishment of Syces for the corps of Native Cavalry shall be fixed at one Syce for the horse of each Sergeant, each Native commissioned and non-commissioned Officer, including Farriers and Native Doctors, and one Syce for every three horses of the privates. Establishment of Syces for the corps of Native Cavalry when in cantonments.

Proc. G. G.  
6th Sept. 1804

The Governor General in Council sanctions and approves the orders of his Excellency the Commander in Chief authorizing the Native Cavalry, when in the Field, to be allowed Syces in the proportion of one Syce to two horses. Additional proportion allowed when in the Field.

G. O. 16th  
Apr. 1793

The pay of the Syces to be, in cantonments, 4 Rupee per month, and when on a march an additional Rupee per month as batta. Allowances fixed for the Syces.

Resolved, that a Grasscutter be allowed to each horse, and that each man shall be provided with hussiah and coopah, and a jall or net for grass, to be always presented at muster and included in the returns. Establishment of Grasscutters.

The pay of the Grasscutters to be, in cantonments, within or without the Provinces, 3 Rupees per month, and when on a march an additional Rupee per month as batta. Their allowances fixed.

The Syces as well as Grasscutters are to be obliged to furnish themselves with uniform turbans; the colour of the turbans to be fixed upon by commanding Officers of Regiments, but not to be changed afterwards without the sanction of the Commander in Chief. Syces & Grasscutters to be furnished with uniform Turbans.

The Syces and Grasscutters to be entertained and paid by the Officers commanding Troops; to be mustered with the Troops they belong to, and included in the Review Rolls and Returns of the Regiment; they are to be subject to martial law in case of desertion in the same manner as Soldiers, which latter article they are to be required to consent to before they are to be received into the Service. Under what conditions to be entertained, how to be paid, mustered, &c.

In order to attach the Syces and Grasscutters to the Service, such as may become incapacitated for further duty after 15 years' service, will be admitted to the benefits of the Invalid Establishment, and an indulgent consideration will be had for men of these descriptions who may happen to be disabled by wounds on actual service, although within the term above-mentioned. Admitted to the Invalid Establishment.

Upon all occasions where the discharges of Syces and Grasscutters are required, the authority of the commanding Officer shall be previously obtained and the discharge be given by him. Discharges how to be granted to them.

G. O. 15th  
July 1793

The Syces and Grasscutters allowed to the Regiments of Cavalry being public servants, and it being desirable, in order to attach them to their Regiments, that they should consider themselves in permanent situations, they are not to be discharged on the death or removal of any of the horses; but if, when there is a deficiency of horses, there be also from casualties a deficiency of Syces and Grasscutters, such deficiencies are only to be supplied as new horses are received into the Regiments, and those in the proportions allowed by the regulations. They are not to be discharged in consequence of casualties among the Horses they attend.

Alterations and casualties which happen among the Syces and Grasscutters in the course of service, etc. to be

Noticed in the monthly returns. of the month, are to be noted in the next return, in the same manner as these circumstances are noticed in regard to the Native Officers and

Grafs how to be provided in the event of a deficiency of Grass-cutters.

Regimental Orders by Major Knox, commanding the 7th Regiment of Native Cavalry, under date the 19th March, 1809, directing Officers in command and charge of Troops to charge in a contingent bill the expence incurred for the purchase of grass, in consequence of a deficiency of Grass-cutters with that corps, is confirmed; but the Commander in Chief expects that it will be very rarely necessary to have recourse to this expedient, and that the establishment of Grass-cutters with the 7th Cavalry will be forthwith completed.

System of discipline ordered to be observed by the Native Cavalry.

With the view of establishing an uniform system in the Formation and Movements of the Cavalry, the instructions and regulations ordered to be observed and practised by the Cavalry corps in his Majesty's Service have been printed: copies of them will be transmitted to the several Regiments of Native Cavalry on this Establishment, and the Commander in Chief directs that they be strictly followed and adhered to without any deviation.

G. O. 19th  
August 1797

Numbers of Standards allowed to each Regiment.

A Regiment of Cavalry of Six Troops being, by the Regulations for the Formation and Movements of Cavalry, composed of three squadrons, three Standards are to be allowed to each of the Native Regiments of Cavalry on this Establishment. (For the provision of standards *vide Chapter XIII.*)

Relative to the duties of Videttes.

The Commander in Chief having frequently observed the Videttes to be moving about instead of remaining stationary; the most positive orders are to be given to the Videttes, from their several corps, not to quit the spot on which they may be posted except in pursuit of any persons they may conceive to be enemies.

G. O. C. C.  
22d Feb. 1803

The Vidette is to keep a constant and watchful eye towards his front, as also to his right and left, but he is not to alter the position of his horse in so doing.

Regulations directing the number of Native Cavalry Orderlies for the several Officers to whom they are allowed.

The Commander in Chief is pleased to lay down the following standing regulations respecting Native Cavalry Orderlies, which are to be strictly attended to, and the number allowed to each rank is not on any account to be exceeded, nor is any person, except those coming under the following descriptions, to be allowed an Orderly.

G. O. C. C.  
8th Mar. 1803

A Major General, commanding a principal Station, to be allowed one Naick and six Native Troopers.

Adjutant General, an Orderly from each corps, when present with the Army.

This is only applicable to the situation of Cavalry Corps, when brigaded and actually in the field.

Brigade Major of Cavalry & Orderlies, when there are more than two Regiments of Cavalry together; and one Orderly when there shall be two, or less than two, Regiments together.

Field Officer or Captain of the day of Cavalry, two Orderlies.

Adjutant of the day of Cavalry, one Orderly.

Proportion of pistols and carbines with which the Cavalry are to be equipped.

It being determined to arm the Cavalry on this Establishment with two pistols each man, instead of one, and to reduce the number of carbines with each Regiment to 15 per troop,—commanding Officers of corps will immediately direct indents to be transmitted to the nearest magazines for pistols, to complete such saddles as have two holster pipes; indents for the number of holster pipes wanting to complete are to be at the same time forwarded to the Commissary General, for which the required number of pistols will be hereafter ordered: all carbines, surplus to fifteen per troop, to be sent into the nearest magazines; commanding Officers distributing those to be retained among such men as are well mounted, and in their opinion best qualified to act as skirmishers.

G. O. C. F.  
4th May 1810

Pattern adopted for swords.

Commanding Officers of the 1st, 2d, 3d, 5th, and 6th Regiments of Native Cavalry are ordered to indent on emergency for complete sets of stirrup hilted swords; all the swords now in use with the aforementioned corps to be returned into store, and, together with all those of the old pattern, are ordered to be sent to the Presidency.

Estimates of the expense are to be transmitted for the sanction of Government through the Military Board.

The cloak bags are to be provided by the Quarter-masters under the direction and superintendence of commanding Officers of Regiments. It is expected that the cloak bags may be provided at about twelve annas each, and that with proper care they will in general last three or four years.

Proc. G. G.  
22th Sept. 1808

The Governor General in Council accepts the terms on which Mr. Maxwell has offered to supply cloak bags for the service of the 1st Regiment of Native Cavalry, viz.

Dimensions of cloak bags and materials used in the construction.

Cloak bags 17 inches long,  $7\frac{1}{2}$  inches in diameter with iron supporters at the end, lined with red curwal, each Sa. Rs. 4.

Three straps four feet long for fastening cloak bags, two with two buckles, and one with one buckle, 14 annas.

Three straps four feet long with one buckle each, for fastening cloaks before, 12 annas, total for each Sa. Rs. 5 10.

G. O. G. G.  
4th Dec 1850

The Governor General in Council directs that the following Regulations for providing

the Native Officers and Troopers of the Regiments of Native Cavalry, with head dresses, shall be strictly attended to.

The head drefs directed by the Regulations of the 8th April, 1793, to be furnished to the several ranks of Native Cavalry shall in future be made up by Officers commanding Regiments of Native Cavalry, conformable to patterns approved by the Commander in Chief, and the expence thereof to be defrayed from the surplus of the Off-reckonings.

They are to be made up under the direction of the Lieutenant Colonel commanding the Regiment, when present, and in his absence, when such absence is not occasional, by the senior Officer present.

They are to be prepared so as to be in readiness to be issued with the annual cloathing.

The following sums are to be allowed from the Off-reckoning Fund for the purpose of furnishing head dresses for the several ranks of the Native Cavalry.

|               |                 |                           |                 |

When once a head drefs for a Regiment has been fixed on it is not to be altered without the sanction of the Commander in Chief.

Officers in command of Regiments of Native Cavalry are directed to send to the Paymaster General, on the 1st of August every year, a bill for the sum that will be required to provide head dresses for the year, and the Paymaster General, when satisfied that the bill is correct, will take the necessary steps for having the amount paid.

The amount of all sums so advanced to be carried to the debit of the Off-reckoning Fund.

The head dresses shall be surveyed and approved by a Committee of Officers appointed by the commanding Officer of the station, previous to delivery.

Leather breeches to be supplied to the Horse Artillery and Native Cavalry, and how to be served out

A supply of leather pantaloons for the Horse Artillery and several Regiments of Native Cavalry, having been forwarded from Europe by the Hon'ble the Court of Directors, the Commander in Chief is pleased to direct that they be dispatched to corps and served out to the non-commissioned and private Europeans of the Horse Artillery; and to the European non-commissioned, and Native commissioned and non-commissioned Officers and Private Troopers of Native Cavalry.

G. O. C. C.  
6th May 1809

The number of pantaloons now arrived not being adequate to supply the full establishment of Corps, they are to be served out to the Privates according to seniority or length of service, leaving those of the shortest periods of service to be supplied hereafter, when more may be received.

Indents how to be prepared.

Indents for leather breeches for the several Corps of Native Cavalry and the Corps of Horse Artillery to be transmitted to the Adjutant General's Office; the indents to be made out for proportions of three different sizes, viz.

The leather breeches to be furnished by the Off-reckoning Fund and a monthly stoppage made from the men to defray their expence.

The Vice President in Council observing that the Native Officers, non-commissioned Officers and Privates of Regiments of Native Cavalry, are to be provided at the charge of the Off-reckoning Fund, without any additional expence to themselves, once in two years each with a pair of leather breeches or pantaloons, is pleased to direct that one moiety of the present stoppage of one Rupee perensem from the pay of each Native Officer, non-commissioned Officer and Private (Vide G. O. C. G. 29th December, 1810,) shall be brought to the credit of the Off-reckoning Fund.

G. O. V. P.  
15th Aug. 1809

The Paymasters or Deputy Paymasters are accordingly directed, from the 1st January, 1810, to deduct, monthly, eight Sonat Annas from the pay of each Native Officer, non-commissioned Officer and Private of Native Cavalry borne on the Pay Abstracts, and to bring the same to the credit of the Off-reckoning Fund, in their monthly abstract account of receipts and disbursements, under the head of "stoppage for leather breeches."

The breeches to become the property of the persons to whom they have been served; those belonging to men who may become casualties how to be disposed of.

With reference to the General Orders by Government, dated the 15th August last, on the subject of leather breeches or pantaloons for the Native Cavalry of this Establishment, the Commander in Chief directs, that, as those articles are to be supplied in lieu of Native pantaloons from the amount of the stoppages on account of half mounting, they are to be considered as the property of individuals, but are nevertheless to be deposited with the corps when the men proceed on leave of absence, or are sent to the Hospital; and with respect to those belonging to men who may die, be discharged or invalided, his Excel-

G. O. C. C.  
26th Oct. 1809

Agency recommends that the pantaloons be purchased by commanding Officers of Troops, at a fair and equitable price, according to their condition, and supplied to the recruits entertained in the room of such casualties instead of the two pair of Nankeen pantaloons ordered to be furnished to each recruit.

Commanding Officers of Regiments are to furnish two pair of nankeen pantaloons annually in future to such men as may not have been supplied with leather breeches, in consequence of a deficiency in the supply received from Europe, and they will draw upon Paymasters, respectively, at the rate of six Rupees per annum, for each man to whom it may be necessary to supply Nankeen pantaloons as above directed.

On a deficiency in the supply of leather breeches those men who have not been served to be furnished with Nankeen pantaloons.

Certificates stating the number of leather pantaloons received, and the number deficient, in lieu of which nankeen pantaloons will, as above directed, be supplied by commanding Officers of Regiments, are to accompany such bills, the amount of which will be charged to the Off-reckoning Fund.

G. O. G. O.  
29th Dec. 1810

If, after defraying the cost and charges of the leather breeches, the Committee for the adjustment of the Off-reckonings should find any surplus of the stoppages remaining, the amount of such surplus shall be carried to the credit of the Regiments of Native Cavalry in due proportions, and paid to the Officers commanding Troops for equal distribution among the commissioned, non-commissioned and Privates, from whom stoppages had been made, on account of leather breeches.

Should there be any surplus after defraying the expense of the leather breeches it is to be returned to the men.

Notification of such surplus, and of the Paymasters by whom it will be payable to each Corps, will be given in General Orders.

M. C. 13th  
Nov. 1796

In addition to the Cavalry regulations, recruits of Cavalry are to be furnished with the following articles of dress by the Officers commanding Troops.

2 Nankeen jackets—2 pair of Nankeen pantaloons—1 turban—1 leather stock—1 brass stock clasp—1 pair of spurs—1 pair of spur leathers—1 pair of boots—2 shirts.

For supplying the above articles, the following stoppages to be made; four Rupees per month for three months, and three Rupees for the fourth month; in all fifteen Rupees.

These stoppages to commence at the period fixed in the Infantry Regulations, viz. from the pay of the second month, for which full pay shall be drawn for the recruit.

Half mounting to be furnished to Recruits of Native Cavalry by commanding Officers of Troops.

Amount of stoppage authorized on that account.

G. O. G. O.  
29th Dec. 1810

The Governor General in Council is pleased to pass the following orders for regulating the half mounting of the Regiments of Native Cavalry on this Establishment.

The stoppages from each Native commissioned, non-commissioned Officer and Private of the Native Cavalry are to be limited to Sonat Annas 8 per mensem for the purpose of meeting the expense of leather breeches, which is to be carried to the credit of the General Off-reckoning Fund, as directed in General Orders, dated the 15th August, 1809; and the Native commissioned, non-commissioned Officers and Privates of Native Cavalry are not to be subject to any further deduction whatever on account of half mounting, but are to be left to provide themselves, whenever necessary, and under such regulations as the Commander in Chief may think fit to prescribe, with linen jackets, linen pantaloons and a watering turban of Colliah, to be made up according to established patterns.

In case it shall become necessary to put a Soldier, who fails to keep himself complete with the prescribed articles, under stoppages, the commanding Officer of the Regiment shall regulate such stoppages in public orders, according to the deficiency of the party, and authorize the provision of the articles by the Officer at the head of the Troop.

No stoppages for the supply of half mounting to be made in the Native Cavalry, except in the case of men not keeping themselves properly equipped.

G. O. G. O.  
29th Jan. 1811

Conformably to the General Orders by the Governor General in Council of the 29th ultimo, the annual half mounting of the Native Cavalry Regiments, heretofore provided by Officers commanding corps, respectively, will cease after the 31st of March next.

The Commander in Chief is pleased to prescribe the following articles to constitute the future half mounting of the Native Cavalry, viz.

2 Blue linen jackets, with the usual trimmings, and two pair of linen pantaloons of strong doctory, with which every non-commissioned Officer and Private is directed to provide himself, whenever necessary, regularly keeping up that number of articles fit for use, and replacing them as occasion shall require.

Equipment of cloaths &c. to be kept up by non-commissioned and Privates of Native Cavalry.

But, after a sufficient and reasonable time being allowed for the men to provide themselves, if any Soldier should be afterwards found incomplete with any part of the established half mounting, the deficiency in every such case shall be supplied by the Officer commanding the Troop, under the authority of the Officer commanding the Regiment, and who will regulate the necessary stoppage accordingly.

In failure of which, it is to be supplied by stoppages from their pay.

Allowances to  
Officers com'g  
Troops.

(For regulations for recruiting, discipline, promotions, furlough, discharge, disposal of effects of the deceased, &c. applicable to the Native Cavalry in common with other Native Troops, vide Chapter VI.)

For providing  
gram pots, &c.  
and preparing  
the food of the  
horses.

That an allowance of 20 Rupees be made to the Officer commanding each Troop, for providing pots for soaking the gram and whatever else may be necessary for preparing it before it is given to the horses for food. In time of War and in cases of long and distant marches, where it may be necessary to carry with the Regiment large pots or boilers, a provision will be made, either by a further allowance for each Troop, or by the supply of whatever may be requisite.

M. C. 8th Apr  
1793.

For shoeing the  
horses, supply-  
ing collars,  
cloths, &c. &c.

That a monthly allowance of 2 Rupees for each horse be made to the Officers commanding Troops for shoeing the horses, supplying them with collars, cloths, head and heel ropes, currycombs, and such mufallah and physic as they may occasionally require.

Set of spare  
shoes, nails,  
&c. to be kept  
up by Officers  
drawing this al-  
lowance.

That there shall be provided by and under charge of the Officers a certain store of nails and shoes, not less at any time than a complete set of spare shoes for all the horses of the Regiment, with two sets of nails, one for colbundy or shifting the shoes, and another for a set of new shoes; and the commanding Officers of Regiments shall certify in the monthly returns, the existence of the prescribed complement of stores, or the deficiencies.

Saddles, and  
horse accoutre-  
ments how to  
be provided for  
the Cavalry; al-  
lowance for  
keeping them  
in repair, and  
per each set.

Government will procure saddles, bridles and horse accoutrements from England, for the service of the Cavalry on this establishment.

When a complete set of saddles, bridles and horse accoutrements shall be delivered to each Regiment, the monthly allowance for keeping in repair the saddles and horse accoutrements for each horse is to be reduced to one Rupee per month, and in order that the saddles, &c. be always in good condition, a complete set will be delivered from store every five years at the public expence.

List of horse  
appointments,  
supplied to a  
Regiment of  
Cavalry on its  
formation.

List of appointments supplied to the 3d Regiment of Native Cavalry by authority of Government, under date the 9th July, 1799.

Ext. Proc. M  
B. 20th Feb.  
1801.

1 Bit and bridle—1 set of head stall and reins—1 saddle—1-pr. of stirrups—1-pr. of stirrup leathers—1 girth double—1 fircingle—1 crupper—1 pad—1 breast-plate, with leather—1-pr. of holsters and caps—1-pr. of ditto straps—1 carbine bucket—1 ditto strap,—for the equipment of each Horse. (N. B. The proportion of carbines has since been reduced to 15 per Troop.)

One complete set of snaffle bridles for the Regiment.

The snaffle bri-  
des to be al-  
ways kept  
complete, from  
the established  
monthly allow-  
ance.

It appearing that the repair of the snaffles or watering bits of Regiments of Native Cavalry is not sufficiently understood to be one of the expences provided for by the monthly allowance drawn by Officers in command of Troops. The Governor General in Council deems it proper to determine that the snaffles, which are supplied to Corps on their first formation at the public expence, are to be considered as coming under the description of horse appointments required to be maintained complete and in good repair upon the monthly allowance in question.

G. O. C. G.  
1st Dec 1800

His Excellency the Commander in Chief is accordingly requested to direct that all deficiencies may be completed by commanding Officers of Troops in conformity to the principle recognized in these orders.

Saddles, &c. are  
carefully re-  
paired by the  
Quartermaster  
of the Regt.

"The Commander in Chief desires an estimate may be prepared and transmitted to the Military Board for renewing and rendering perfectly complete and serviceable the ninety saddles with Europe trees, belonging to the 6th Native Cavalry, which are slated in the survey report to be capable of being made, by the repairs proposed, at the cost of about 14 Rupees each, to last as long as new country saddles, which cost more than double that sum, and with far better effect.

Let Adj. Gen  
9th May 1809

In the mean time his Excellency, sensible of the necessity of these saddles being repaired without delay, is pleased to authorize the Quartermaster of the Regiment being directed to adopt the necessary measures for repairing the ninety saddles in the manner proposed."

The Deputy Paymaster is ordered to advance to Lieutenant Western, Quartermaster of the 6th Native Cavalry, Eight Hundred Rupees on account of his estimate for materials for repairing ninety Europe saddles in use with that corps.

14th May 1809

- M. C. 19th Nov. 1790** The Quarter-masters of Cavalry to furnish the following articles for the Service of the Drills of each Regiment. 60 Caffeions with cotton ropes,—60 Whips,—60 Rings with boxes and posts,—12 Wooden Heads with Posts,—400 He Bamboos :—for which he will be allowed to charge Sonat Rupees 473. including commission.
- Their articles to be served out, in the first instance, to the several Troops, being previously surveyed by a Committee of Officers of the corps, and an allowance of five Sonat Rupees per month, commencing from the first day of the month after the Survey, to be granted to commanding Officers of Troops, for keeping up the complement in future.
- The Survey Reports to be forwarded to the Military Board
- M. C. 8th Apr. 1793** In the absence of an Officer the charge of his Troop is, by order of the commanding Officer of the Regiment, to be delivered over to another Officer of the Regiment, to whom the trust of shoeing and furnishing collars, cloths, head and heel ropes, &c. &c. and keeping in repair the saddles and horse accoutrements, will be committed.
- M. C. 4th July 1799** The several monthly allowances granted for the repair of saddles and horse accoutrements, for shoeing, providing collars, head and heel ropes, cloths, currycombs, musflah and physic, for repairs of arms, and for the provision of pots for feeding the grain, being in the nature of a contract, it is to be understood, that the whole of the sums received are applicable to the purposes for which they are granted, and not that the sum received in one month is applicable only to the expenditure of that month.
- The Officer in command of the Troop can alone be held responsible for the good condition of the saddles, arms, cloths, &c. and it is obvious that, if the surplus in any month goes to any other Officer than the one on whom the responsibility rests, the responsible Officer must be deprived of the means allowed for fulfilling his contract; in the occasional absence, therefore, of an Officer commanding a Troop, the necessary expenditures must be made by the Officer in the temporary charge of the Troop, under the general superintendence of the Officer commanding the Regiment, and the balance shall be accounted for to the Officer of the Troop, or the excess demanded on him, as the circumstances of the case may require.
- The absence of an Officer on account of ill health, or on account of public or private business, that does not carry him from the Presidency, is occasional—the absence of an Officer to Europe or to another settlement, or in consequence of his holding a public situation that detains him from joining his corps, is not occasional.
- Whenever an Officer is removed from the command of a Troop, or whenever an Officer is about to quit his Troop on any account that is not deemed to be occasional absence, a Regimental Committee is to be assembled for the purpose of examining the whole of the horse furniture & accoutrements belonging to the Troop, and the Officer is to be called upon to make good any deficiencies previous to his departure from the Regiment, and according to an equitable judgment to be determined by the commanding Officer of the Regiment.
- G. O. 10th April 1793** When an Officer happens to be appointed in the Cavalry to supply a vacancy (i.e. to the command of a Troop) he shall be required to purchase, on an equitable valuation such of the stock of spare shoes, nails, &c. ordered to be kept up as may happen to remain in store, the property of his predecessor.
- G. O. C. 6th January 1800** Three camels per Troop are to be always supplied for the conveyance of Troop stores, whenever Cavalry may be ordered to march, and the allowance of an Lascary per Troop, on that account, will consequently cease.
- G. O. 15th October 1791** The Commissaries of Ordnance at Cawnpore and Deputy Commissary at Futtighar are directed to have marking irons prepared for the Regiments of Cavalry by the Artificers appertaining to their respective magazines. (N. B. marking irons are procured from the magazines on indentments previously submitted to the Military Board.)
- G. O. C. 7th May 1810** Government having been pleased to authorize an additional Casual or blanket for the horses of the 5th Regiment of Native Cavalry, encamped at Cawnpore, during the ensuing rains, the Officer commanding that Regiment will indent immediately on the Commissariat for the required number.
- G. O. V. P. 30th Mar 1810** The Vice President in Council, with the view to provide proper shelter for the future preservation of Horse Artillery harness and Cavalry saddles, whenever those Corps shall
- Articles for the use of the Drills to be furnished on the formation of Regiments.
- Monthly allowance for keeping them complete.
- Regulations for drawing the several allowances in and for the charge of Troops, the commanding Officer of which may be absent.
- Upon an Officer quitting or being removed from a Troop, the articles of accoutrements, &c. in his charge, to be surveyed.
- Officers appointed to the command of Troops to purchase such of the stock of shoes, nails, &c. as may be in store.
- Allowance of carriage for the conveyance of Troop stores.
- Marking Irons for Regiments of Cavalry where to be procured.
- Additional Water allowed to the horses when encamped during the rains and how to be supplied.
- Proportion of Pawlins allowed for the shelter of Cavalry

**Saddles, galloper harness, &c.** he employed on actual service in the field or marching, is pleased to establish, for that purpose, the following proportion of pawlins made of Europe canvas well waxed.

**FOR A TROOP OF HORSE ARTILLERY.**

- 1 Pawlins (18 feet by 12,) for piling the harness upon.
- 2 Ditto (24 feet by 16,) each having 40 foot ropes, with pins to keep it down when stretched over the appointments. } *For covering the harness.*

**FOR A TROOP OF DRAGOONS OR NATIVE CAVALRY.**

- 1 Small Pawlin, as above, for piling the saddles upon.
- 1 Large ditto, ditto, for covering the saddles.

A camel for the carriage of these articles to be allowed for each Troop or Brigade of Horse Artillery, and for each Troop of Dragoons and Native Cavalry.

Officers in command of the Corps of Horse Artillery and of Regiments of Cavalry, respectively, are accordingly authorized to indent for pawlins in the above proportions, and of the dimensions specified, and are directed to see that they are afterwards carefully preserved by their Quarter masters, and held at all times in readiness for the eventual movement of those Corps.

**Saddles for Cavalry Officers supplied from England.**

A supply of Europe saddles for Cavalry Officers sent out by the Honorable Court of Directors, having been received at Cawnpore. Officers of Cavalry, wishing to supply themselves with Europe saddles, are authorized to indent to the extent of two saddles each on the Commissary of Ordnance, at Cawnpore.

G. O. C. C.  
4th Sept. 1809

**Indents for them how prepared.**

Separate Indents for Officers' saddles, including Officers sick absent, to be sent into the Adjutant General's Office for signature: no Officer holding an appointment which precludes his joining the Cavalry is to be included.

G. O. C. C.  
17th May 1815

The names of Officers for whom saddles are indented, to be noted at the bottom of the indents.

**Price of the saddles.**

The price of Europe saddles and bridles to be supplied to Officers of Cavalry and Horse Artillery, serving under this Presidency, has been fixed by Government at Sixty Rupees ninety-five, seven annas, and four pie, each saddle and bridle complete.

G. O. C. C.  
20th Oct. 1813

**Reports of the saddles and galloper harness with corps of Cavalry to be indented in their monthly Returns, and what to specify.**

The monthly returns of Regiments of Native Cavalry and of the Horse Artillery are to specify the number of saddles and sets of Galloper harness with each Corps, under the heads "serviceable and unserviceable," annexing the correct dates of time at which those articles were received. The entry of these articles to be made under the separate heads of "Europe" and "Country" according to the number of each with Corps, respectively. (*vide Form No. 5, Chapter I.*)

non-commissioned Officers, forwarding their names to Head-quarters for the confirmation of their appointments. Whenever any non-commissioned Officer appointed to Cavalry Gallopers shall prove himself unfit for the situation, he is to be remanded to the corps from which he came, and another ordered to supply his place, on application being made through the channel above prescribed.—(N. B. the rates of pay and other allowances, cloathing, equipment, &c. of European non-commissioned attached to Cavalry Gallopers, are the same as fixed for the corresponding ranks in the corps of Horse Artillery.)

G. O. C. C. 4th Oct. 1809 The Lascars Details attached to Gallopers with Regiments of European and Native Cavalry are to be reduced to the proportion authorized by Government for the new corps of Horse Artillery; viz. one Tindal and eight Gun Lascars for every two Field Pieces. Detail of Lascars attached to Gallopers.

G. O. C. C. 3d Aug. 1804 In future two Sepoy paals are to be allowed for the use of the Gun Lascars attached to the Cavalry Gallopers. Camp Equipage allowed for the Lascar Detail.

G. O. G. G. 14th Apr. 1803 When a Regiment of Cavalry is actually employed in the Field two additional Lascars are allowed to the Quarter-master, for the charge of the Tents required for the Europeans and stores attached to the Galloper Guns. Additional Lascars allowed for the charge of the camp equipage.

G. O. C. C. 2d July 1801 and 10th Apr. 1803 Horses for the Guns and Tumbrills attached to Cavalry Regiments to be supplied from those belonging to Regiments, respectively. The advantages to be derived from the Guns depending in a great measure on the goodness of the horses allotted to their use, the Commander in Chief directs that commanding Officers do select, from the whole of the Regiments under their respective commands, the horses best adapted to the use of the Guns, and to change them whenever they shall see occasion to do so. Horses for the Guns and Tumbrills how furnished.

Commanding Officers of Regiments are directed to select a proportion of Troopers to be instructed in the Gun Exercise, and to use their best endeavours to bring them forward as fast as possible. The Commander in Chief recommends that at least 20 Troopers in each Regiment be instructed in the Gun Exercise. Proportion of Troopers to be trained to the Gun Exercise.

**Complement of harness and proportion of spare harness allowed to Gallopers.** The Commander in Chief is pleased to direct that the complement of Galloper harness, with each corps of Cavalry, serving under this Presidency shall during peace be sixteen sets, and that a supply be kept in store in the magazines, hereafter mentioned, sufficient to equip each corps of Cavalry to 24 sets of Galloper harness in the event of war. G. O. C. C. 27th Jan'y 1808

The proportions to be kept in store are as follows,—48 sets at Agra,—16 at Futteghur,—16 at Cawnpore.—Total 80 sets.

With reference to the General Orders of the 19th November last, detailing the proportion of ammunition, &c. for Gallopers attached to Regiments of Cavalry, four additional sets of harness (or harness for four horses) are authorized for the additional Waggon allowed by those orders for the Gallopers with each Regiment of Cavalry. **Committees for inspection of horses how to be composed.** The committees for inspecting Horses, whether for reception or being cast, shall be composed of Officers, of whatever corps at the station, who are supposed to possess the greatest skill and judgment in Horses, and not by any roster of duty.

The Presidents of all committees, whether assembled for the purpose of casting Horses or for admitting Horses into the service, to be Field Officers, whenever the number of Field Officers at the station will conveniently admit of it. G. O. 16th Apr. 1793

It is to be considered a standing Regulation, that no Officer below the Rank of Captain, or in Native corps Lieutenants in command of Troops, is to be put on a committee for the admission or casting of Horses. G. O. C. C. 11th Apr. 1803

**Duty of the commanding Officers of Regiments at the committees.** That the commanding Officer of a Regiment be not the member of a committee, but shall attend them; and be allowed to offer his opinion on the fitness of Horses offered by the Agent or on the condition of Horses proposed to be cast; but if his opinions are over-ruled by the majority of the committee, their decision is to be final. M. C. 8th Apr. 1793

**Standard age and height for horses to be admitted into the service.** The age of Horses supplied by the Agent (Commissariat) shall not in time of peace be under three years, or above eight, and in time of war not under four years nor above nine; their size not under 14½ hands, and their bone and strength to be a particular object of attention.

The committees are not to reject any Horse merely on account of his being three or four months under the prescribed age, provided he has sufficient bone, size and strength; and is, in all other points, fit for the service. G. O. 15th Dec. 1794

The Commander in Chief, with a view facilitate the mounting of the Cavalry, has obtained the sanction of the Governor General in Council to the following modification of the Cavalry Regulations of the 8th April, 1793. G. O. C. C. 2d Oct. 1801

*First.*—Horses of three years old and measuring 14 hands and one inch, are in future to be received into the Service, provided they are in all other respects unexceptionable.

*Secondly.*—Horses measuring 14 hands and one inch, although they exceed three years

of age, but fall within the age prescribed by the existing Regulations, are also to be admitted, if the Committee is thoroughly satisfied that they possess sufficient bone, strength and activity, and are unexceptionable in other essentials.

*Thirdly.*—Horses under four years old are not to be sent to new raised Regiments, but to be made over to the old corps for the purpose of supplying casualties.

The Commander in Chief relies on the circumspection of Presidents and Members of Committees of Admission, that the latitude now granted in respect to age and height will not be abused, or carried to an extent that might prove prejudicial to the public service.

Field Orders  
Army  
6th  
Mar. 1868

The Major General commanding in the field, under instructions from the Commander in Chief, directs the attention of the Cavalry Agent to the procuring of good Mares, it being his Excellency's intention to mount the 8th Regiment upon that plan in the proportion that mares can be obtained for the completion of a Squadron at a time.

Proportion of  
Mares ordered  
for mounting  
one Regiment.

It is to be understood that none but of the best description are to be purchased on the present occasion, such as in bone, figure and action are fit for any service that Cavalry may be employed on.

Standard age  
and height fixed  
for them.

None are to be admitted into the service under 4 years old, or of a standard less than 14 hands 2 inches.

G. O. G. G.  
15th Jan. 1811

The Governor General in Council is pleased to direct that all horses received in future from the Commissariat for any branch of the Service shall be drafted to the particular corps, for which they may be ultimately destined, by the committees of Officers appointed for their inspection, previous to the final adjournment of their proceedings; and that for this purpose a second column, to the right of that now in use for remarks, shall be added to the form of Survey Report, in which is to be inserted the number and description of the Corps to which each horse shall have been allotted.

All horses to  
be allotted to  
corps by the  
committee  
by which  
they are admitted  
into the  
service.

The draft or allotment of horses to particular corps is to form a proceeding by the committees subsequent to the admission of all those horses meant to be tendered at the same inspection. (For the Report of an admission committee, *vide Form No. 3.*)

G. O. C. C.  
14th Dec. 1866

The Commander in Chief is pleased to direct that all committees for the inspection and admission of horses be very particular in making their selection for those of His Majesty's Regiments of Light Dragoons; but that when horses may have been once admitted for that branch of the service none are ever to be transferred to any Corps of Native Cavalry, without the special authority of the Commander in Chief.

Committees to  
be attentive to  
the selection of  
horses for the  
European corps  
after which  
horses so selected,  
are not to  
be transferred  
to Native  
Corps.

G. O. C. C.  
22d April 1809

The following rules are to be observed in future for the allotment of horses, that may be admitted for the public service. Whenever committees shall be assembled and the admission proceedings finished, the committee will make the allotment to Corps in the following manner. From the total admitted for the united classes of European Dragoons and Horse Artillery, the committee will allot, alternately, to those two branches, according to the proportions wanting to complete each branch, upon the following principle, with reference to the numbers required to be supplied by the present committee ordered to be assembled at Delhi.

Rules to be  
observed in the  
allotment of  
horses to corps.

Horse Artillery 23—Light Dragoons 18.

*First*—Horse Artillery—2 Horses.—*Second*—Light Dragoons—1 Horse.

This rule, repeated four times more, will equalize the deficit to 13 in each branch, when the committee will proceed to allot one horse (alternately to each branch) to the extent of the number admitted.

The horses admitted for the Native Cavalry are in like manner to be allotted by the committee to Corps respectively, in alternate order and proportions, beginning with the Corps wanting the greatest number, returns of which will be furnished to the President of the Committee and to the Cavalry Agent (Commissariat) from the Adjutant General's Office when Head-quarters may be in the field, and when otherwise from the office of the Deputy Adjutant General.

G. O. 14th  
Sept. 1797

All horses which may be in future approved of for the Cavalry by committees of Officers, whether for Corps on the spot or at a distance, are to be immediately branded in the presence of such committees with the letter X on the left shoulder: the Regimental mark on the off-shoulder to be added when they are delivered over to Corps.

All horses admitted, to be branded in presence of the committee, information of which having been done, is to be conveyed in the Report.

The Reports of Committees for the admission of horses are to express that they were branded in their presence. M. C. 8th  
Apr. 1793

Rolls to be furnished to Officers receiving charge of remount horses who give receipts for the same to the Commissariat.

Officers receiving charge of remount horses, are to be furnished by the committees of admission with extracts from their report fully descriptive of each horse, to enable them to grant a receipt in duplicate to the Commissariat for the number and description of horses delivered to their custody. G. O. G. G.

Horses admitted to be immediately dispatched to corps.

Horses admitted for the Cavalry are not to be detained, but to be always allotted to Corps, and dispatched as soon as received from the Agent. G. O. P. C.  
7th April 1807

Allowances to be drawn by Officers having charge of remount Horses, and establishment of people allowed for the care of the horses.

When Horses have been regularly admitted to the service and delivered over to the care of a particular Officer, such Officer is permitted to draw the following allowances. G. O. G. G.  
13th Aug. 1801

Six rupees for furnishing each Horse with a Blanket, a watering Bridle, Head-stalls and Reins, Gram Bags and Girths, Heel Ropes and Curry Combs. These articles becoming the property of the Company are to be delivered over or accounted for to the Regiment to which the Horses may be afterwards transferred, or to the next Officer who may be appointed to receive charge of them.

Two rupees a month for each Horse for shoeing, Collars, Cloths, Head and Heel Ropes, and Muffallahs.

Four annas a month for each Horse, for Pots, for soaking the Gram, grinding it and preparing it for food.

One Syce for each Horse at four rupees per month, when stationary, and five rupees when marching.

One Grasscutter to each Horse at  $3\frac{1}{2}$  rupees per month, when stationary, and  $4\frac{1}{2}$  when marching.

One Farrier at 10 rupees a month, } For a number of Horses equal to one Troop, and not less than ten Horses, and in proportion for a larger number.

One Puckallie at 12 rupees a month, } The Gram to be provided on honor, and a detailed account of its expenditure and cost to be furnished; certificates of the price current to be annexed to the bills, whenever there is a Commissary of Buzars or an Agent on his part. Each bill must be accompanied by vouchers of the number of Horses received and under charge at the end of the month, as well as of the number that may have been delivered to any Officer or Regiment in the course of the month, and the date of such delivery. The Station Paymaster may then pay the bills before Audit, entering the amount in his disbursements in the usual form. The charge will be subject, of course, to the usual checks and retrenchments.

Reports to be made of the dispatch and progress of remount Horses proceeding to Corps.

Whenever remount Horses may be dispatched for any corps of Cavalry, a report of the date of the dispatch is to be made by the Staff Officer of the station whence they proceed, to the Officer commanding the station or corps to which they are ordered, and Officers in charge of such Horses are also directed to report their progress once a week, to the Officer commanding the post or station to which they may be proceeding. G. O. C. C.  
7th Dec. 1806

Receipts to be furnished to the Officer in charge the delivery of Horses the respective Corps.

The Commanding Officer of each corps to which remount Horses shall have been delivered, will cause a descriptive Roll of them, in duplicate, to be prepared; at the foot of which a receipt signed by the Adjutant, and countersigned by the commanding Officer, is to be subscribed, specifying the number of Horses received for the service of his corps, according to the above descriptive Roll. G. O. G. G.  
15th Jan 1811

And to be transmitted by him to the Office of Audit.

This Roll will be delivered in duplicate to the Officer from whom the Horses may have been received: one of which he is immediately to transmit to the Office of the Military Auditor General, nor will the responsibility of the Officer for the number and description of Horses committed to his charge, terminate, until such voucher of their due delivery to corps be furnished.

All Horses to be marked with numbers corresponding with those under which they are entered in the Register.

Resolved, that all Horses that shall be received into the service shall be marked with numbers from one upwards, and that all descriptive accounts of purchases, sales, deaths, and other casualties, do specify the numbers of the Horses. M. C. 5th

That a Book of Register be kept of the Horses according to a form annexed. (*vide Form No. 4.*)

The age, size, cast and descriptive marks of all Horses received into the service, are to be entered into the Book of Register; and when Horses are cast by Committers the President is to note in the Register Book, against the number of the Horse cast, the day on which he was cast, and he is to put his signature to the remark.

Register to be kept of the Horses in each Regiment.

**G. O. C. C.** 14th Feb. 1809 In obedience to the orders of Government the Commander in Chief is pleased to direct the following regulation, respecting the property of the Honorable Company vested in the Horses of the Cavalry branch of the Service, on this Establishment, to be strictly attended to in future. Long Rolls, descriptive of each Horse with the several Regiments of His Majesty's Light Dragoons, the corps of Horse Artillery, and the several Regiments of Native Cavalry; to be forwarded to the Military Board, as soon as they can be prepared, stating the date and from whom or whence received into the Regiment or corps. After the transmission of the general descriptive Rolls abovementioned, Rolls are to be transmitted on the first of each month to the Secretary of the Military Board, specifying all casualties of Horses during the month preceding, together with a descriptive Roll of Horses admitted during the same month, including the regimental number of each Horse. (The Forms of the Casualty List and Descriptive Roll to be the same as directed for the Register, in *Form No. 4*, the appropriate remark being inserted in the column allotted for that purpose.)

Monthly casualty lists of Horses, and descriptive rolls of those admitted to be sent to the Military Board, with a report of the number of Horses with the Corps.

The total number of Horses with the Regiment or corps, including those detached on command, is also to be inserted at the foot of this Monthly Roll.

**G. O. C. G.** 15th Jan. 1814 The Governor General in Council is pleased to direct that a copy of the Register of each corps of Horse Artillery, European and Native Cavalry serving under this Presidency, according to the form prescribed by Minutes of Council under date the 8th April, 1793; (*vide Form No. 4*) be transmitted, annually, as soon as practicable after the 30th April, to the Military Auditor General.

Copy of the Register of each Corps to be transmitted annually to the Military Auditor General.

**M. C.** 8th April 1793 Resolved, that the superintending the feeding of the Horses, in each Troop of Native Cavalry, shall immediately belong to the Officer in command of it, and that the commanding Officer of the Regiment shall have a general Controul and Superintendence over the whole.

Superintendence of the feeding the horses in whom vested.

**G. O. C. C.** 11th April 1803 The Commander in Chief bespeaks the strictest attention on the part of Officers in charge of Regiments of Cavalry to the treatment of the Horses in their respective corps, and particularly to the shoeing, as they are ultimately responsible to Government, not merely for the discipline of the Regiment, but for the Horses being always in condition and fit for immediate Service; an object only to be obtained by constant attention and a rigid adherence to a good system of internal management.

Cavalry Officers to give their attention to insure the proper care and treatment of the Horses in their respective Corps.

**G. O. C. C.** 20th Oct. 1801 Commanding Officers will guard against young Horses being overworked, as, if severely worked before they have gained sufficient strength to bear it, they must in a short time be rendered unserviceable, to the great detriment of the public Service.

**G. O. C. C.** 8th Mar. 1803 His Excellency, in a recent private communication to the Cavalry, directs that the Tails of the Horses shall be of that length as to reach to two Inches above the hock, and that they be always kept of this length.

**M. C.** 8th April 1793 That, upon the first appearance of a disorder in any Horse that shall be supposed infectious, he shall be instantly moved out of the encampments to a distance from the Rable, and the circumstance be reported to the commanding Officer of the station, who is immediately to order such horse to be inspected, at the place to which he shall have been removed, by persons whom he may judge capable of distinguishing the disorders of Horses; and if it be their opinion that the disorder is of an infectious nature, the Horse affected with it is to be immediately destroyed, in order to prevent the progress of the disorder amongst the

Rules for the treatment of Horses attacked with disorders supposed to be infectious.

**Horses of the Regiment :** this is to be done in the presence of an European commissioned Officer, and the circumstance to be noticed in the next Monthly Return.

**Horses unfit for service from lameness or disease to be immediately cast.** The Horses supposed unserviceable from lameness or disease, between the annual periods of casting, shall be examined by a committee of Officers, and if it be their opinion that the recovery of such Horses is not probable, they are to be immediately cast, and their places, as well as the places of such Horses as may die between the annual periods of casting, are to be supplied by fresh Horses as quickly as they can be procured.

**The causes of the death of Horses to be inserted in the Monthly Returns.**

Statements of the disorders or accidents, which have occasioned the death of Horses, are in future to accompany the Monthly Returns in which such casualties are reported. G. O. 14th Sept 1797

**Regulations for the annual committee for casting unserviceable Horses.**

On the 1st day of October every year, a committee is to be assembled for the purpose of inspecting and casting such Horses as shall be found unfit for further service; the Report of which committee shall be immediately transmitted to the Commander in Chief. The Reports to detail, in the most particular manner, the reasons for condemning or casting Horses as unfit for Service; expressing also when they were received into it. The commanding Officer of the station or detachment, after receiving the reports of the committees of inspection, shall personally inspect the Horses reported upon, ordering a re-survey if he deems it necessary and counter-signing the report of the survey when he approves it; and expressing in his own hand-writing that he had previously inspected the Horses. — (For the Form of the Report, *vide Form No. 5.*)

M. C. 8th April and 18th August 1793

That after such inspection and approbation an account of the number of Horses cast by this committee shall be immediately transmitted by the commanding Officer of the regiment to the agent (Commissariat) who is to replace the cast Horses by an equal number of fresh Horses, as expeditiously as possible.

When Horses are cast by committees, the President is to note in the Register Book, against the number of the Horse cast, the day on which he was cast, and he is to put his signature to the remark.

**Cast Horses to be branded in the presence of the committees & how to be finally disposed of.**

Horses cast by committees shall, in the presence of those committees, be branded on both buttocks with the letter R; and are to be immediately afterwards disposed of by Public Auction, by the authority of the commanding Officer of the station, and the amount produce carried to the account of the Company.

Whenever Cavalry Horses are cast, such of them as shall be selected by a person appointed for that purpose by the Superintendent of the Company's Stud, are to be delivered over to him, a receipt being taken for the same. G. O. 7th Oct. 1792

**Regulations for the Horses of the European commissioned Officers of Cavalry Corps.**

The Commandants of Regiments of Cavalry shall be responsible that the Horses, provided by their European Officers, be at least of the size fixed by the regulations and in every respect fit for the Service; ordering a committee of Officers to let, when necessary, for the examination of such of them as may appear exceptionable, in order that, if objected to, they may be noticed in the Returns and reported to the Commander in Chief; and further, that of the two horses each Officer shall have at all times for the Service, one shall be constantly with the Troop and appropriated and solely used for regimental duties.

M. C. 8th April 1793

Horses of European Officers noticed on the Returns as unfit for service, not from temporary illness, shall not be allowed for in abstract.

**And of the Medical Staff.**

The Horses of the Assistant Surgeons of the Regiments shall be sound and strong; but as they are not required to be used in the ranks, a particular regard to their size is not to be required. G. O. 15th July 1793

**Regulations allowing Subaltern Officers to select a charger from the regimental stock to be furnished to the Corps, in the regulations piece.**

Subaltern Officers and Quarter-masters are allowed, as an indulgence, to have a charger from the lots of recruit Horses, paying the Company's regulated price St. Rs. 400. — This indulgence is to be confined to a single instance, and the same Officer or Quarter-master is not to be allowed to purchase more than one Horse from the recruit Horses.

Let M. S. G. 6th Feb. 1798

Horses so received are not to be disposed of without the sanction of the commanding Officer of the Regiment.

The Commander in Chief confirms the Field Army Orders of the 9th instant, restricting the indulgence granted to Officers of Cavalry, who are allowed to furnish themselves with chargers from the ranks, viz. G. O. C. C. 20th Feb. 1807

Field Army Orders, 9th Feb. 1807

It is to be considered a standing regulation in the Cavalry that Horses taken from the Ranks, under the indulgence of Government, as chargers for Officers, cannot be disposed of out of the Regiment to which such Horses belonged, although they may, by permission of commanding Officers of Regiments, be exchanged for other chargers with Officers in the same Corps.

Chargers so selected, are not to be disposed of out of the Regiment.

G. O. G. G. 7th May 1807

Officers of Regiments of Cavalry in the service of His Majesty and of the Honorable Company are permitted, under the conditions subjoined, to select a charger from those Horses now with their respective Corps which have been received from the Stud at Poosa, or may hereafter be admitted from it: such accommodation being restricted to each Officer possessing himself of one Horse only.

Regulations for Officers selecting chargers from the re-mount supplied from the Stud.

The price of each Horse to be fixed at Sonat Rupees 800. Each Horse to be branded with the regimental mark and entered on the descriptive Roll of the Regiment.

No Horse so selected shall be disposed of out of the Regiment, unless the purchase of it has been refused by every Officer in the Regiment.

Every Subaltern Officer wishing to become the purchaser of a Poosa Horse as a charger, shall tender to a Committee of Survey the Horse he formerly received from the ranks for that purpose, which, if found unexceptionable, shall be restored to the ranks.

G. O. P. C. 19th May 1807

Whenever Horses may be selected by Officers under the rules prescribed by the regulations of Government, dated the 7th instant, a receipt, signed by the Paymaster for the amount specified, is to be produced to the commanding Officer of the Regiment, on receipt of which the Horse made choice of is to be delivered to the Officer. The receipt is then to be copied in the Regimental Books, and the original to be transmitted to the Office of the Military Auditor General.

Receipts to be furnished by the Officers selecting chargers previous to the horses being delivered to them, the receipt to be sent to the Military Auditor General.

In like manner are receipts to be received and forwarded whenever Subaltern Officers may avail themselves of the indulgence allowed, in one instance only, of receiving a horse at the Government price of 400 St. Rs. from those which may be supplied, from time to time, for the re-mount of the Corps.

the Military Auditor General.

In selecting Horses from the Ranks, under the conditions prescribed, priority of choice is always to be conceded to Officers, agreeably to their seniority in Regiments, respectively.

G. O. P. C. 4th Aug. 1807

In addition to the orders of Government dated the 7th May, 1807, and those by the Provincial Commander in Chief of the 19th of the same month, authorizing Officers of Cavalry to select chargers, under certain restrictions, from the annual re-mount supplied from the Honorable Company's Stud at Poosa, the Provincial Commander in Chief is pleased to direct that regular returns of all Horses, which may be selected by Cavalry Officers under the operation of those orders, be transmitted, on the first of every month following that in which such selection may be made, to the Secretary to the Board of Superintendence at Calcutta, specifying the names and rank of the Officers who may have become proprietors of Horses under the conditions prescribed.

Returns and reports of all Horses so selected to be made to the Board of Superintendence, and the Military Auditor General, respectively.

The Provincial Commander in Chief is further pleased to direct that similar reports of all the horses that may be selected from the ranks by Officers as chargers, for the regulation price of 400 Rupees, with the names and ranks of the Officers thus supplied, be henceforward made to the Military Auditor General's Office on the first of every month succeeding that in which any such transfers of Horses may be made.

M. C. 13th March 1796

It being indispensable for a due discharge of the duties of certain descriptions of Officers, that they should be on Horse-back in action; and it being reasonable as well as customary in all services that such Officers should receive a compensation for Horses which may be killed or disabled at those times, the following regulations are laid down.

Compensation granted for Horses killed in action belonging to Officers who are required to be mounted, in the performance of their Official duties.

That upon sufficient proof being laid before the Commander in Chief or Officer commanding the army engaged in action, that the Horse of an Officer comprehended in the foregoing description was killed or disabled in the action, he shall attest the same by countersigning the bill.

The foregoing regulations being framed on the principle, that Officers in the situations specified, in all services are expected to be mounted, no plea is to be founded upon them for a claim to Horse allowance from Officers who are not entitled to the same by the existing regulations.

Rules for drawing the allowance and specification of the several Officers entitled to receive it.

The following descriptions of Officers shall be allowed compensation of Sonat Rupees 800 for each Horse killed or disabled in action, the bill being countersigned by the Officer who commanded during the action.

General Officers—Field Officers—Officers commanding corps in time of action, of whatever rank—Adjutant General—Deputy Adjutant General—Quarter-master General—Deputy Quarter-master General—Aids-de-Camp—Secretary and Persian Interpreter—Brigade Majors—Brigade Quarter-masters—Adjutants of corps—Quarter-masters of corps—All Officers of Cavalry.

The Military Auditor General is authorized to pass the bill from Mr. Jones, Riding-master, for a Horse killed in action, which accompanied the letter from the Military Auditor General of the 20th ultimo, at Sonat Rupees 800.

Proc. G. G.  
10th Nov. 1873

Not granted to Officers for lost Horses.

The Commander in Chief having submitted to the Governor General in Council the claim of Cornet Patterson to be paid for a Horse that was lost, the Governor General in Council has decided that Cornet Patterson's claim is inadmissible, and the Commander in Chief directs the following extract of the Governor General's letter on the occasion to be published for the information of the army. "With respect to the claims of Officers for the loss of their lost Horses, by those Horses being carried away by the enemy during action, the Governor General in Council observes that the regulations of the Service do not authorize such claims.

G. O. G.  
15th Aug. 1873

The regulation on this subject authorizes compensation for Horses killed or disabled in action, and his Excellency does not deem it to be expedient to extend the regulation to any other cases than those expressly mentioned."

To

Constitution of the Board of Superintendence and Regulations for its observance.

Thomas Graham Esq. Acting President of the Board of Revenue.—Colonel John Murray, Military Auditor General;—Captain John Collins, Military Secretary to the Governor General.

Exec. Let. No.  
S. G. 3rd Oct.  
1794

GENTLEMEN,

The Governor General in Council having resolved upon the encouragement of a plan which has for its object the improvement and increase of the Breed of Cattle, and the establishment of Stud, with a view to promote the breeding of Horses in the districts best calculated for that purpose; and considering that these objects are likely to be best effected by the constitution of a Board or Committee of Special Superintendence, has been pleased to nominate and appoint you to the performance of this duty, trusting that it will not materially interfere with your other official avocations, and relying on your readiness and zeal to assist in the prosecution of an object of such great political importance.

Different plans have been suggested to Government, applicable also to the distant objects of improving the breed of Cattle and of encouraging the breeding of Horses; but with respect to Horses, the Board are decidedly of opinion, that the management of that part of the plan should be under the agency and direction of an Officer, appointed by Government, but subject to your superintendence and control, and I am directed by the Governor General to inform you that Lieutenant William Fidler has been selected for this appointment, and that he is to consider himself subject in all respects to your orders, as far as relates to his own executive duties in the Superintendence of the Stud.

The Collectors of the several districts will be directed to attend to every enquiry that you may make, and to afford you the fullest information on all questions that you may refer to them through the Board of Revenue; it not being intended that any orders should originate from you to the Collectors or to any other Officers of Government, except to the Superintendent of the Stud, otherwise than with the sanction or through the medium of the Boards or other superior authorities to whose orders such persons are now subject. You will accordingly only recommend such regulations as may from time to time become useful and necessary.

A Secretary appointed and his salary fixed.

You will be allowed a Secretary with a salary of 250 Sicca Rupees per month for keeping a regular record of your proceedings and conducting the necessary correspondence which you will have to carry on; and you are desired to propose such assistance of Clerks as you may think he will require.

- Proc. G. G. 3d**  
**February 1804** The Governor General in Council authorizes the Board of Superintendence to disburse a sum not exceeding 250 Rs. per month for the hire of a house for the meetings of the Board, and for the use of the Secretary.
- Proc. G. G. 3d**  
**April 1809** All disbursements made by the Secretary to the Board of Superintendence, except the trifling contingent charges of book-binding, &c. &c. in his own Office, are in future to be discharged, in the usual course, by the Paymaster at the Presidency.
- Proc. V. P. 3d**  
**October 1809** The Vice President in Council observes that it is desirable the Board of Superintendence should state their own sentiments on any proposition of the Superintendant of the Stud which they may submit to Government.
- Proc. G. G. 4th**  
**June 1807** The Governor General in Council approves the rule suggested by the Board of Superintendence for the transmission and audit of the accounts of that institution,—viz. That all accounts of disbursements made under the controul and direction of the Board of Superintendence be regularly submitted to the Governor General in Council, after having undergone the usual check and examination in their Office, with the Board's opinion thereon, whether the accounts may be passed or not, as the case may require; with exception however to all fixed monthly and quarterly charges, such as servants' wages, fixed establishments, established contract rates, &c. which being defined in their nature and previously authorized by Government on an estimate annually submitted, and coming regularly under the revision of the Board, it will be unnecessary to submit to Government.
- When the Bills shall have been received from the Secretary in the Military Department with the Orders of Government thereon, the Secretary to the Board shall thereafter forward them to the Military Auditor General, with an attested certificate, on the face of them, of such Orders, as the Military Auditor General's authority for finally auditing the Bills; a copy of which certificate will of course be preserved in the Bill Books of the Secretary's Office. The bills after final audit will be forwarded to the Military Paymaster General's Office by the Military Auditor General, for adjustment on the Military Books.
- Proc. G. G. 7th**  
**May 1807** Ordered, that the Paymaster General be informed that the price in excess to the prescribed Cavalry rate on each Pooja Horse selected from the Ranks, which shall be paid into the hands of a Deputy Paymaster, is to be carried to the credit of the Institution at Pooja.
- G. O. G. G. 14th**  
**Nov. 1808** Mr. Moorcroft, appointed by the Hon'ble the Court of Directors to the Superintendence of the Stud at the Pooja, being arrived, is directed to proceed and take charge of his Office with all practicable expedition.
- Let. C. D. 8th**  
**April 1808** PARA. 14th—We have granted to Mr. Moorcroft a Salary of Sicca Rupees 30,000 per annum, which is to be in full of all allowances, and he has entered into covenants not to be concerned in dealing in Horses or in any other species of cattle; nor to engage in any commercial pursuits; his whole attention is to be devoted to the line of service we have assigned him in the appointment of Superintendant of the Stud.
- Proc. G. G. 4th**  
**September 1806** The Governor General in Council is of opinion that on general principles the Superintendant of the Hon'ble Company's Stud ought not to be concerned in breeding horses on his own account.
- Proc. G. G. 16th**  
**Jan. 1809** The Governor General in Council considers it to be highly expedient and necessary that the accounts of the Superintendant of the Hon'ble Company's Stud should be in future adjusted at the expiration of each year.

into two parts and assigning each part to the immediate charge of an Assistant, under the general inspection and controul of the Superintendent.

**1st Assistant.** The Governor General in Council adverting to his orders of the 19th August last, Proc. G. G. 14th Apr. 1803 establishing an Assistant to the Superintendent of the Honorable Company's Stud at Poofa, appoints Lieutenant Edgar Wyatt to that situation.

The Governor General in Council is pleased to augment the salary of Lieutenant Wyatt, assistant to the stud, to Sonat Rupees 300 per mensem, exclusive of the regimental allowances of his rank, viz. pay, full batta, gratuity and tent allowance. Proc. G. G. 15th Jan'y. 1812

**Second Assistant.** Lieutenant W. Dickson, of the 6th Regiment Native Cavalry, is appointed to be an assistant to the Superintendent of the Honorable Company's Stud at Poofa. G. O. G. G. 11th Feb. 1809

The Vice President in Council is pleased to allow Lieutenant Dickson, assistant to the Superintendent of the Honorable Company's Stud, to draw, in the same manner as Lieutenant Wyatt, salary 200 Rs. per month, the pay, full batta, gratuity and tent allowance of his rank, with an additional allowance of 4 Rupees per diem, while actually travelling on the public service of the Stud. Proc V P. 22d December 1809

Lieutenant Dickson has been directed not to incur any extra expence on this account without the previous sanction of the Superintendent, whose certificate of the nature of the service, and period during which he was employed, will accompany Lieutenant Dickson's bill for audit.

**Assistant and Veterinary Surgeon appointed.** The Governor General in Council authorizes an addition to the establishment of the Stud of a Veterinary Surgeon, who will receive the usual allowances of that office. Proc. G. G. 19th Aug. 1802

The Governor General in Council is pleased to appoint Mr. Assistant Surgeon Gibb to the Medical charge of the Europeans and Natives attached to the Honorable Company's Stud at Poofa, and to officiate as Veterinary Surgeon at the Stud. Proc. G. G. 18th Nov. 1802

**Allowances for the medical charge of the establishment, and for supplying medicines, &c. to the cattle.** The Governor General in Council is pleased to authorize an allowance of 150 Rupees per month to be drawn by the Surgeon appointed to the Medical charge of the Stud at Poofa for the purpose of furnishing the Europeans and Natives attached to the Stud with medicines and all necessaries required for the sick; and the sum of 3 annas per month is allowed to the Veterinary Surgeon for every horse, mare and foal, borne on the Superintendent's return, for the purpose of supplying the necessary medicines for the cattle. Proc G. G. 4th November 1802

**Assistants allowed to the Superintendent from the Upper Orphan School.** The Governor General in Council authorizes four young men to be selected from the Upper Orphan School to be employed at the Honorable Company's Stud at Poofa under the orders of the Superintendent. Proc. G. G. 8th September 1810

**Allowance granted to Recruits coming out in charge of horses from England.** **PARA. 6th.**—We consign you by the Phoenix two very valuable colts, the produce of our Stud Farm in this country. Let C. D. 30th March 1810

Two recruits for the Company's Service will proceed on board that ship in charge of the colts, and we desire that if, upon the arrival of the ship at Bengal, it should appear to you that the horses have been carefully attended to, and that the commander makes a favorable report of the attention of the recruits during the voyage, you cause a gratuity to be paid to each recruit equal to 50 Sicca Rupees.

**Assembly of the annual Committee to report upon the buildings, cattle, &c. at the stud and on such horses as may be adequate to the service of the Cavalry.** The annual Committee of Cavalry Officers from His Majesty's and the Honorable Company's Services, composed as hereafter mentioned, will assemble at Poofa on the 1st day of November next, for the purpose of reporting on the public buildings and cattle belonging to the Honorable Company's Stud, and to examine and report on all horses that may be tendered for the public service by the Superintendent of the Stud. G. O. C. F. 27th Aug 1810

The Committee will further proceed to the Fair at Hajipoor for the purpose of admitting such Horses and Mares, tendered by the Commissariat, as may in every respect be eligible for the public service.

The President and Members of the Committee will pay the strictest attention to the bone, size, figure and action of horses, which may be brought before them, and guard

against the admission of such as may be deficient in those qualities which the service requires.

The usual reports to be transmitted;

The Commander of the Forces will recommend to Government that the Boat allowance of their rank be granted, as heretofore, to the Officers employed on this duty.

Boat allowance granted to the Officers composing the committee.

G. O. 10th  
June 1796

The Officers commanding the 1st and 2d Regiments of Native Cavalry are immediately to raise men to complete their respective corps to the new establishment; (viz. 6 troops per Regiment.)

G. O. P. C.  
9th May, 1807

One Horse is to be added to the complement of the 2d and one to the complement of the 3d Cavalry for the Jemadars allowed for the Honorary Standards granted those corps, which were engaged at the assault of Aligurh and the battle of Delhi.

Additional Horse to the 2d and 3d Regts. for the Jemadars, allowed for the honorary colours.

M. C. 3d Oct.  
1796

#### 3d REGIMENT—at Dunapoor.

The 1st and 2d Regiments of Cavalry having been completed to the new establishment; Resolved, at the recommendation of the Commander in Chief, that another Regiment be raised without any loss of time.

The 3d Regiment of Native Cavalry is to be raised at Dunapoor.

3d Regiment.

G. O. C. C.  
21st Jan, 1805

The Commander in Chief is pleased to make the following promotions in the 3d Native Cavalry, date of rank 20th January, 1805. Fureed Khan, Havildar, to be Jemadar—Nudjuff Khan and Sherick Emambuksh, Troopers, to be Naicks, in reward for their gallant and meritorious conduct.

Promotions of men in the 3d Regt in reward of gallant conduct.

The men above promoted to be returned supernumeraries and to succeed to vacancies as they may occur in the Regiment, but the allowances of the ranks to which they have been respectively promoted, are to be drawn for them.

#### 4th REGIMENT—at Moneah.

M. C. 20th  
February 1797

The Provincial Commander in Chief is requested to give orders for recruiting men for the 4th Regiment of Native Cavalry.

15th  
March 1797.

The 1st and 2d Regiments of Cavalry are each to furnish a draught of two Jemadars—six Havildars—six Naicks and thirty Troopers, to assist in forming the 4th Regiment. These draughts are to be approved by Captain Pigot and delivered over to him.

Captain Pigot will proceed with them by water to Moneah, and on his arrival put himself under the orders of Lieutenant Colonel Black.

#### 5th and 6th REGIMENTS—at Ghazeepeer.

Proc. G. C.  
29th May 1800

The Governor General in Council requests the Commander in Chief will give the necessary orders for forming the 5th and 6th Regiments of Native Cavalry, drafting from the old Regiments, such a number of Native commissioned Officers, non-commissioned Officers and Privates, as he may consider sufficient to serve as a foundation for the new corps;

5th and 6th Regiments

#### 7th and 8th REGIMENTS—at Ghazeepeer.

G. O. C. C.  
5th April 1805

In consequence of orders received from the Governor General in Council (under date the 11th March) two additional Regiments of Native Cavalry are ordered to be raised immediately.

7th and 8th Regiments.

These Regiments are to be formed at Ghazeepeer in the following manner, and to be denominated the 7th and 8th Regiments.

The Commissioned and non-commissioned Officers for the 7th Regiment to be furnished by the 1st, 3d and 5th Regiments—and those for the 8th Regiment from the 2d, 4th and 6th

Drafts of Native Officers how furnished for new corps.

None but efficient and intelligent men to be sent to the new corps. **Regiments**—The 1st, 3d and 5th Regiments to give, each, 2 Jemadars for Subadars—4 Havildars for Jemadars—8 Naicks for Havildars—8 Troopers for Naicks, and 24 Troopers for the 7th Regiment.

The 2d, 4th and 6th Regiments to give the same proportions for the 8th Regiment.

Recruits to be entertained from the Company's Provinces. As the early bringing forward and future discipline of the new corps will so greatly depend upon a proper selection of the commissioned and non-commissioned Officers, the Commander in Chief particularly directs that none but such as are, in every respect, smart and attentive Soldiers, and otherwise properly qualified, be selected for the new Regiments.

Indents to be transmitted for arms, accoutrements, &c. As far as shall be practicable the Recruits are to be entertained from the Company's Provinces, including Benarus. Indents for Arms, Trumpets, Camp Equipage, Accoutrements and Standards to be forwarded to the Military Board; and also for Bounty Cloathing, by commanding Officers of corps. All the Arms, Accoutrements, and new Cloathing, (not issued) to be left with the old Regiments.

## R E M A R K S.

The Ammunition, &c. is to be distributed as follows:—

|                                      | Cafe. | Round. |
|--------------------------------------|-------|--------|
| In each Gun Limber Box, -            | 5     | 5      |
| In each Waggon and its Limber Box, - | 15    | 90     |
| Total for one Gun and Waggon, -      | 20    | 95     |
| For the other Gun and Waggon, -      | 20    | 95     |
| In the common Tumbrill, -            | 25    | 125    |
| Total                                | 65    | 315    |

As these quantities are calculated with reference to the actual weight to be drawn and carried, and the number of Horses drawing and carrying, no alteration in the disposition is to take place, except when Ammunition may be fired away or otherwise diminished; in such cases, the total remaining may be divided anew amongst the Carriages, but still in the same proportion that the original total bore to the respective quantities above enumerated.

The Tumbrill and its Ammunition, &c. as given above, is to be considered as an allowance extraordinary, and not to be Indented for, but in case of actual War.

When Gallipers attached to Cavalry Regiments have not appointments for two Waggon, the Ammunition, Stores, Harnes, &c. for the 2d Waggon, is not to be Indented for, but only so much as is put down for the contents of two Gun Limber Boxes and one Waggon.

Each Gun Limber Box is constantly to carry, besides the Ammunition, the following Implements, &c.—3 Portfires ready pointed, and 1 Portfire Socket, put into a Portfire Cafe; 1 Cartridge of Priming Powder; 1 Priming Pouch; 2 Cannon Cartridge Pouches; 1 Bit; 1 Drift; 1 Gun Hammer; 2 Priming Wires; 2 Spikes;  $\frac{1}{2}$  piece of Wax Cloth.

The Serge Bags, Seizing Line, remaining Portfires and Priming Powder to be equally divided between the Waggon and the Tumbrill. The Linstocks are to be always armed with Matches ready to light. The common Hand Spikes and spare Yokes are to be lashed under the Tumbrill. The Dragropes, folded compactly, are to be fastened to the Limbers of the respective Carriages, and nothing is on any account to be carried on the Guns or other Carriages, but what is above specified.

Regiment of Native Cavalry, compiled on the 1st of

FIRST TROOP.

[illegible]

N. B. By the Regulations of the 8th April, 1793, the entry in the Register of such Horses as may be admitted by Committees at the Station, where the Regiment is quartered, is to be signed by the President of the Committee. The date on which Horses are cast is also to be noted in the Register by the President of the Committee by which they are cast.

The form of the Monthly Casualty List, to be sent to the Military Board in conformity to General Orders of the 14th February, 1869, to be the same as that of the Register. In the Descriptive Rolls of Horses admitted, required by the same orders to be sent Monthly to the Military Board, the three last Columns in the Register will be omitted.

A Copy of the Register of each Corps is directed, by General Orders of the 15th January, 1811, to be sent to the Military Auditor General, annually, on the 30th April.

For the Regulations for the appointment of Officers to the corps of Engineers *vide* page 106.)

The Officers filling the several Ranks in the corps of Engineers shall remain in that corps and not be removed into any other, advancing therein according to their standing.

Officers of the corps of Engineers, doing duty with any Corps or Detachment of the Army, shall be respected, in point of Rank and command, agreeably to the dates of their commissions.

The Commander in Chief authorizes the uniform of the corps of Engineers to be changed to blue coats with black velvet facings, agreeably to a pattern coat which has been submitted by the Acting Chief Engineer.

The King's Regulation Sword is to be worn by Officers of the Corps of Engineers.

The Governor General in Council having taken into consideration a reference from the Chief Engineer, and his application for the public concurrence of Government in respect to the Officers of the Engineer corps, that they should be allowed to offer proposals when public works are to be executed by contract, has resolved that the request of the Chief Engineer is inadmissible, under any form whatever, as the Officers of his corps, more than any other upon the Military establishment, are avowedly the immediate Officers to whom the trust is committed of inspecting works executed by contract for the Public Service.

The Governor General in Council observes on the present occasion, that cases may occur to render it expedient for Government to employ their Engineer Officers, as well as other Officers of Departments in which inspection rests, in the execution of Public Works upon trust; yet that it is every way most desirable that their services should be solely confined to their real duty of inspection, and that in no cases ought these Officers to perform works on absolute contract.

- M. C. 3d Aug. 1779** Whenever any Officer of the corps of Engineers shall be appointed to serve in any Corps or Fortrefs, the commanding Officer shall be previously informed, from due authority, of the service which such Officer of Engineers is to execute, and of the assistance to be afforded him by the commanding Officer; without such information the commanding Officer cannot permit his entering upon duty. The appointment of Engineer Officers to Stations or detachments to be notified to the Officers commanding.
- M. C. 20th April 1787** The Officers of the Engineer Corps who may be stationed at any of the subordinate Garrisons are to represent any works they may deem necessary in the first instance to their respective commanding Officers; the commanding Officers are on every such occasion to transmit their opinions in writing to the Military Board. Works that may be deemed necessary by Engineers at Stations how to be reported.
- M. C. B. 21st Dec. 1793** Agreed, that it be made a standing Regulation, and communicated as such to the Chief Engineer, that every Engineer Officer who shall hereafter furnish an inaccurate or incomplete plan, or drawing, of any building or work, of which he shall be required to supply plans, sections or elevations, shall be held responsible for breach of Orders as well as incur the penalty annexed to neglect of duty; and that it be also a Regulation, that every Engineer Officer, who makes a plan, do attest it as an accurate one. The accuracy of all plans to be attested by the Officers who furnish them.
- M. C. D. 11th Dec. 1801** PARA. 42d. In the execution of any future works the Engineer, under whose inspection the same may be carried on, must be held accountable for the expence attending failure on his part in the plan or execution thereof. Responsibility attached to Engineers for the failure of works they may be employed on.
- 11th 1791** Resolved, that in future whenever an Officer of Engineers shall be put in orders either as an Executive or Superintending Officer, the same General Order shall declare whether or not such Officer is to draw any, and, if any, which of the allowances specified in the Regulations of the 31st March, 1790. (*Vide page 286.*) General Orders appointing Engineer Officers to any duty to specify the allowances they are to receive.
- M. C. 31st March 1799** In order that a due check may be maintained so as to prevent public works being delayed, it shall be the duty of the Chief Engineer to report every three months to the Military Board what Officers of his corps are employed in the execution or superintendence of public works; and it shall be the business of the Military Board to report immediately to Government any delay which they may conceive has taken place in the execution of the works, that an order for the discontinuance of the salaries may be given. Quarterly Report by the Chief Engineer of the Officers employed on public works.
- G. O. 14th June 1798** In order to guide the Paymaster in his payments to the Officers of the Engineer corps, and the Military Auditor General in his audit of their bills, rolls of the Officers belonging to that corps, specifying where and how they are employed, are to be sent every month to the Officers of the Military Auditor General and Paymaster of Artillery and Garrisons. Monthly Review Rolls of the corps furnished to the Auditor General, &c.
- M. C. 31st March 1799** Engineer Officers are to receive the same batta as other Officers at the same station. Batta to Engineer Officers, and Tentage.
- G. O. G. G. 23d Sept. 1801** The undermentioned situations not rendering the Officers liable to move, those Officers are not to draw tent allowance.  
The Chief Engineer and Adjutant of Engineers, as attached to Fort William; the Executive Officer of Fort William.  
The Engineer and Assistant Engineer at Allahabad.  
The Engineer at Cunnah.  
(For the Regulations granting tent allowance to the Officers of the corps of Engineers *vide page 124.*)
- M. C. 15th June 1781** All contingent bills of the Corps of Engineers to be transmitted through the Chief Engineer. All contingent bills and all bills for the personal allowances &c. of the Engineer Officers to be sent through the Chief Engineer.
- G. O. G. G. 9th Nov. 1807** Ordered, with reference and in addition to the regulations contained in the Minutes of Council of the 31st March, 1790, and 4th November, 1791, that, in future, all bills for personal or other allowances drawn by Engineer Officers in virtue of their being employed, either in the execution of works upon trust, or in the superintendence of contracts, be transmitted monthly in the first instance to the Chief Engineer for his countersignature, in evidence of such Officers having been actually so employed, during the period for which such allowances shall be drawn. The bills to be thereafter forwarded by the Chief Engineer to the Office of Audit.

Disbursements made by Engineer Officers how to be attended.

The Vice President in Council observes that the General Orders of the 13<sup>th</sup> January last already comprehend all Engineers as well as other Officers charged with the disbursement of public money, and that under those orders it will always be in the power of Government to call on Officers of Engineers to verify their accounts on oath, when it is thought advisable: at the same time his Excellency is aware of no objection to the proposed notification to the Officers of that corps, which will accordingly be made through the Chief Engineer; viz. that all disbursements made by Engineer Officers in the execution of works upon trust, the amount of which shall exceed 1000 Sicca Rupees, shall be attested upon oath, as required from other Officers making disbursements on the public account, and that all below that sum will be considered liable to the same test, whenever Government or the Military Board may deem such a measure necessary.

Proc. V. P. 5th Feb. 1810.

Allowances to the Chief Engineer.

The Chief Engineer at your Presidency is to receive such an addition to his pay and full batta as will make his allowances equal to those of the Commandant of Artillery. In consideration of the allowances granted to the Chief Engineer he is to be restricted from having any concern whatever in public buildings or works or in the materials used therein.

Let. C. D. 8th Jan. 1792

The Chief Engineer shall receive a salary of Sonat Rupees 1000 per month, and a sum equal to the share of off-reckonings of a Colonel to be paid to him annually, at the same period at which the Colonels of Regiments receive a portion of their off-reckonings, and the remainder when the annual adjustment of the off-reckonings takes place.

Proc. G. G. 12th Apr. 1804

When the Chief Engineer is permitted to return to Great Britain, he is to have such an addition to his pay as will be equal to the off-reckonings of a Colonel of a Regiment.

Let. C. D. 8th Jan. 1793

A General Officer of Engineers employed on the Staff is to receive no allowance in lieu of off-reckonings.

The Governor General in Council does not conceive a Major General of the Corps of Engineers employed on the General Staff, and in receipt of the Staff allowances established for a General Officer on the Staff of this Presidency, to be entitled to any allowance in lieu of off-reckoning.

Proc. G. G. 23d May 1805

The Chief Engineer exempted from duty in Fort William.

The nature of the duties annexed to the station of Chief Engineer requiring that he should be exempted from the duty of Field Officer of the day, his name is to be omitted on the roster accordingly.

Garrison Orders Fort W. 12th Mar. 1790

How to indent on the Arsenal for articles he may require.

The Officer in charge of the Engineer Department will in future indent, in the usual manner, for any articles he may require from the arsenal.

R. F. M. B. 18 Mar. 1807

Allowances for Writers, Office charges, &c. to the Chief Engineer.

The allowance of 900 Sonat Rupees per month, granted to the Chief Engineer by Minutes of Council of the 5th December last, for Draftsmen, Writers, Sircars, Stationery, Drawing Instruments and Peons, for the purpose therein mentioned, are to be drawn for by him with his personal allowances.

M. C. 17th April 1789

It appears that the establishment of Writers, Sircars, &c. for keeping the accounts, mustering and paying the people formerly under the Chief Engineer, amounting to Sonat Rupees 250 per month, was not transferred to the Executive Officer by the regulations of the 25th January, 1793, by which the ordinary repairs of the Garrison and charge of the people by whom these duties were performed were committed to him.

G. O. G. 23d April 1801

In pursuance of the principle established by these regulations, which the Governor General in Council fully approves, the present establishment of Writers for keeping the account of daily and monthly expenditure, &c. amounting to Sonat Rupees 250 per month, which was established and placed under the Chief Engineer, by the Minutes of Council of the 5th December, 1788, shall, when revised, be transferred to the Executive Officer.

The following establishment is allowed to the Chief Engineer.

A Head Writer at Sonat Rupees per mensem, ..... 100  
Two inferior Writers at Sonat Rupees 20 each, ..... 40

Proc G. G. 11th July 1808 The Governor General in Council authorizes Colonel Kyd's availing himself of the services of an Assistant from the Engineers's Drawing Office during the service on which he has been directed to proceed to the Upper Provinces, refunding the Boat allowance to the Assistant in question, to Sonat Rupees 70 per month. Rate of Boat allowance granted them.

Proc. G. G. 5th Oct. 1807 The Governor General in Council authorizes one of the Boys in the Upper Orphan School to be entertained in the Office of the Chief Engineer as an Apprentice, at a salary of Rupees 60 per mensum; in the event of a vacancy occurring in the Office, to which he may from ability and previous good conduct be considered eligible to succeed, the Officer at the Head of the Engineer Department may entertain another Apprentice in his room. An apprentice allowed in the Chief Engineer's Office.

M. C. 15th February 1788 The Salaries of the Draftsman and Deputy Draftsman are to be reduced to the following sums.  
 Draftsman per month Rupees 100.—Deputy Draftsman 50.  
 (Extract Table of Salaries annexed to the Code of Bengal Military Regulations published 1st Januar, 1791.)  
 " Allowance to the monthly Visiting Officer (of Engineers) Rs. 50. "  
 (N. B. These duties are performed by Officers of the Corps of Engineers who may be stationed in Fort William ) Allowances of Draftsman, Deputy Draftsman, and Visiting Officer.

P. G. G. 19th June 1787 The Governor General in Council is pleased to remit the retrenchment of extra batta made against Captain Wood and Lieutenant Robertson, of the Corps of Engineers, considering those Officers, from their employment as Draftsman and Deputy Draftsman in the Chief Engineer's Office, to come within the meaning and operation of the General Orders of the 11th September, 1786, granting full batta to Officers employed in the Military Offices at the Presidency.

Let C D 1st July 1807 As the Chief Engineer, Colonel of the Corps, when he is permitted to come home on furlough receives the equivalent to the other allowances, it seems but just that the remaining allowance of Sonat Rupees 1000 per month should devolve to the Field Officer next in Rank in the corps, who will of course have to discharge the duties of Chief Engineer in the absence of the Colonel, and thereby, will be restricted from having any concern in public Buildings or Works, or the material used therein. Allowances for the Officer in charge of the Engineer Department.

We therefore direct that Lieutenant Colonel Kyd, while he is in charge of the Engineer Department, may receive the half batta of Colonel and Sonat Rupees 1000 per month, and that the allowance of Lieutenant Colonel Gustin, (who is Major of the Corps) be the half batta of Lieutenant Colonel, and Sonat Rupees 1000 per month, while he is in charge of the Engineer Department.

Proc G. G. 11th Mar 1806 The Military Auditor General is to be informed that the difference between full and half batta (of the next superior rank) is to be allowed to Lieutenant Colonel Garstin, Acting Chief Engineer, ordered on duty from the Presidency. Extra Batta allowed him when detached on duty from the Presidency.

M. C. 7th Aug. 1795 Captain Pearson, during the absence of the Chief Engineer, being the senior Officer in that Department at the Presidency, and having in consequence the direction and superintendence of the works carrying on in Fort William; Resolved, at the recommendation of the Commander in Chief, that he be permitted to draw a personal allowance of Sonat Rupees 400 per mensum, while so employed, to commence from the day of Lieutenant Colonel Cameron's departure from Calcutta. Allowance to the senior Officer of Engineers in Fort William, not being in charge of the Department.

M. C. 19th July 1796 Agreed, that the Staff allowances of the Adjutant to the corps of Engineers be fixed at 137 Rupees per month in Garrison or Cantonments; and at 167 Sonat Rupees in the Field. Staff allowance of the Adjutant of Engineers.

Proc G. G. 18th July 1807 Horse allowance being granted by General Orders of the 19th February last, specific-

cally to Adjutants of corps of European Artillery and Infantry, and not of European corps generally, the Governor General in Council considers the Adjutant of Engineers to have no claim whatever to the allowance in question.

Allowances and establishments for Engineer Officers employed in the execution of works upon trust.

The Vice President in Council is pleased to direct that Engineer Officers of whatever Rank, who may in future be employed in the execution of public works upon trust, be permitted to draw the following personal monthly allowances, instead of those fixed in the Minutes of Council of the 31st March, 1790:

G. O. V. P. 6th  
Feb. 1810

For all works amounting to Sicca Rupees 100,000—500 St. Rs. per month.

For works amounting to or exceeding Sicca Rupees 50,000—400 St. Rs. per month.

For all works under Sicca Rupees 50,000—200 Sonat Rupees per month:

The following establishments are to be drawn, monthly, by Engineer Officers employed in the execution of works upon trust, but are not to vary with the Rank of the Officer.

M. C. 31st  
March 1790

For instruments, stationery, and all contingencies, .... Sonat Rupees, 60

Two Sircars, .... 30

One Hindal and eight Lascars, .... 56

Three Hircarrah, .... 15

Total per month, Sonat Rupees 161

Engineer Officers executing public works upon trust are to be allowed, in addition to the fixed establishment of Sonat Rupees 161, the following monthly establishment for every second, third, or other additional work which they may have to execute at a distance from their stations, respectively :

G. O. V. P. 2d  
May 1810

For instruments and stationery, .... Sonat Rupees, 30

Four Lascars, at Sonat Rupees 6 each, .... 24

Two Hircarrah, at Sonat Rupees 5 each, .... 10

One Sircar, .... 15

Total, Sonat Rupees 79

This establishment is to be considered applicable to all ordinary occasions ; but when works of considerable magnitude occur, the case will be taken into special consideration.

Allowances to Infantry Officers performing the duty of Engineers in executing works on trust.

The Vice President in Council is pleased to permit Lieutenant Brownrigg to draw the allowance of an Engineer Officer, employed in the execution of public works upon trust, from the date of the orders directing him to commence the works at Lodhiana until they were completed and surveyed.

Proc. V. P.  
14th Nov 1809

The Governor General in Council is pleased to authorize Captain Richards to receive the allowances granted to Officers of Engineers of the rank of Captain when employed in the execution of works upon trust, during the period he was employed in superintending the construction of public works at the Fortrefs of Saharunpoor.

Proc. G. G. 3d  
June 1809

With reference however to the charges included in that Officer's bill for an establishment of servants, his Lordship in Council considers the allowance of Sonat Rupees 161, granted to Engineers for that purpose, to be unnecessary in the present case.

Allowances and establishments for Engineer Officers superintending the performance of contracts.

When Engineers are employed in the superintendence of works which are engaged to be performed by contract, the following gratuities shall be allowed to them, on a report of the due execution of the contract.

M. C. 31st  
March 1790

If the amount of the works contracted for shall exceed one lack of Rupees, the superintending Officer, being a Captain, shall receive Sicca Rupees 4000, if a Subaltern Sicca Rupees 2000.

For all works exceeding 50,000 Rupees, the gratuity of a Captain shall be Rupees 3000, and of a Subaltern 1,500.

For all works not exceeding 50,000 Rupees, the gratuity of a Captain shall be 1500 Rupees, and of a Subaltern 750 Rupees.

This gratuity being intended as a personal allowance to the Officers employed, the following provision is made for the necessary establishment of people to be employed under them, as well as for furnishing instruments, stationery, and all other contingencies to which they are liable.

This establishment to be drawn for monthly during the time they are employed, but not to vary with the rank of the Officer.

|                                                    |           |

M. C. 27th  
July 1787 When any building is constructing at a distance from the Presidency, the Chief Engineer shall detach a junior Officer of the Corps to superintend the execution of it, and such junior Officer shall be permitted to draw the allowance of 240 Sonat Rupees per mensem, which was established in the Staff Table of the 30th June, 1786, for Surveyors of buildings, in lieu of all charges.

Allowance for Surveyors of Buildings; and how to be paid.

M. C. 31st  
March 1790 The allowance for Surveyors of buildings to be continued as at present, with this limitation, that no Officer shall be entitled to receive it without an express appointment from the Board or Commander in Chief, and that the certificate from the Chief Engineer, which is given for the purpose of ascertaining the period the Officer has been employed, shall further specify his opinion whether such period was necessarily taken up in completing the surveys, plans, and reports.

M. C. 28th  
August 1789 Resolved, that the Field Engineer, as such, do receive per mensem Sonat Rupees 240, and the Assistant Field Engineer Sonat Rupees 112.

Salaries fixed for Field Engineers.

G. O. V. P.  
6th Feb. 1810 The Vice President in Council having revised the salaries of the Executive Officer of Fort William and the Station Engineers of Allahabad, Agra and Chunar, with reference to the extensive public works in which they are constantly employed, has been pleased to fix the following personal allowances for those Officers, who are in future to be designated "Garrison Engineers and Executive Officers."

Allowances of the Executive Officers at Fort William, Allahabad, Agra and Chunar.

|                                             |                        |

Regulations fixing the duties of the Executive Officer of Fort William and determining the Buildings, works, &c. to be committed to his charge.

M. C. 25th  
January 1793 Resolved, that the duties of attending to and performing the ordinary and constant repairs of the fortifications and works of Fort William, as well as of executing any occasional works authorized by Government, the amount and extent of which may be too considerable to be offered to public contract, shall devolve upon the Executive Officer.

No work shall be performed by the Executive Officer beyond the common and ordinary repairs (which the Chief Engineer in his discretion shall point out to him) except upon regular Survey Reports and Estimates approved by Government; the Executive Officer shall be always a Member of every Committee of Survey for such Works, and shall prepare the estimate for the same; the nomination of the Executive Officer will rest of course with Government; and he shall be liable to removal by their orders; but the Office shall be considered as generally permanent.

The duties of the Chief Engineer (now Executive Officer) and Barrack-master of Fort William having been lately taken into consideration, with a view of drawing a specific line between them, it has been resolved that the fortifications and their respective parts, (including the interior roads and drains, also the charge of the Esplanade) are in the department of the Chief Engineer and under his charge. M. C. 17th April 1789

When arches of casemates or magazines become leaky or their arches or walls defective, the Chief Engineer is the only proper Officer to direct the repairs of them; and in all cases where it may be deemed necessary to remove or make openings in walls, or any alterations that may affect their strength, the opinion of the Chief Engineer is to be previously taken.

The barracks, dwelling houses, store-rooms, casemates and magazines erected or delivered over for the Troops or stores, are in the department of the Barrack Master, exclusive of the Chief Engineer, and exclusive of the repairs above-mentioned.

The Barrack Master in his office is to wash, colour and plaister the walls, paint, mend, shift and keep in repair beams, burgars, doors and windows, to stop cracks in roofs and walls, and to mend terraces when and where such repairs are necessary, under the direction of the commanding Officer of the Garrison, and with the sanction of the Governor General.

The picket in Fort William to be annually secured by throwing in broken bricks, or by such other mode as may be deemed expedient. Res. M. B. 8th January 1789

The outer wood works in Fort William to be painted; and the palisades tarred and coloured annually.

Workmen, materials, &c. for the construction of public works in Fort William how to be provided.

The Vice President in Council is pleased to authorize the Executive Officer and Barrack Master of Fort William, in future, to procure at first hand, in the Calcutta market, the requisite materials for the construction and repair of the Fortifications, Buildings, Roads, &c. committed to their respective charges. G. O. 1. P. 2. 11 May 18.1

The Executive Officer and Barrack Master of Fort William are further authorized to entertain and charge for the number of extra workmen and carts, which it may be necessary for them to employ, in the manner usually observed by all other Officers engaged in the execution of public works.

Reports of the rates at which all works are executed to be made to the Military Board.

The Executive Officer and Barrack Master to state to the Military Board the rate per 100 superficial feet of all works, in the execution of which they may be engaged, when finished distinguishing the expence of materials and workmanship.

Res. M. B. 11th January 1794 and 7th September 1795

The statements to specify the dimensions and quantity of masonry and wood work, and the rates at which they are respectively charged.

All works executing in Fort William to be inspected by a Committee of the Military Board.

Agreed, that it be a standing regulation that a Committee of this Board (whereof the Chief Engineer is always to be a Member) do inspect the works going on in Fort William, and furnish a Monthly Report of the state of them to the Military Board.

Res. M. B. 5th and 16th Aug. 1793

The Quarterly Committee appointed for visiting the Arsenal will also execute this duty.

The Executive Officer is to attend the monthly visiting Members occasionally to point out the works that are going on or that are newly finished.

Res. M. B. 3d December 1795

Monthly Reports of the progress of work to be made by the Executive Officer.

The Executive Officer to furnish to the Board reports of the progress of the work in his Department, regularly, at the expiration of each month, previously submitting them for the counter signature of the Officer in charge of the Engineer Department.

Res. M. B. 8th Aug. 1806

Proc. V. P. 24th Oct. 1809 The Vice President in Council considering it to be advisable on general grounds that the Executive Officer of Fort William should give security, the Attorney to the Honorable Company has been directed to call upon that Officer to furnish two securities in the sum of 20,000 Sicca Rupees, as an indemnity to Government for any deficiency of money or stores, which, in the event of death or other accident, that Officer may not have duly accounted for.

Amount of security to be furnished by him.

J. O. V. P. 3th Dec. 1805 The Vice President in Council having determined that the Office of Superintendent of public works shall be abolished and the duties of it discharged by the Executive Officer in Fort William, the present Superintendent will deliver over charge of the establishment annexed to his Office and of the public property under his care to the Executive Engineer Officer.

The duties of Superintendent of public works to be discharged by the Executive Officer.

Proc. G. G. 3d July 1806 The Governor General in Council is pleased, under all the circumstances of Captain Preston's case, to allow him, as Executive Officer at Fort William, to draw full in place of half batta. In the event of Captain Preston's being ordered to perform any extensive work in the Civil Department, the Governor General in Council will take into consideration what allowances it may be proper to grant him for the performance of that work.

Full batta granted him.

And additional allowances for any extensive work he may perform in the Civil Department.

Ext. Let. M. S. G. 18th June, 1811 The Vice President in Council approving the suggestion of the Military Board, the necessary orders have accordingly been issued, authorizing the Executive Officer of Fort William to draw, monthly, an advance on account of the establishment employed in the ordinary repairs of the Garrison, in his Department, to the amount of St. Rs. 1650.

Establishment for the department of the Executive Officer in Fort William.

Should the advance exceed the actual expense in any month, the surplus is to be carried to the account of the succeeding month, or in the event of its falling short a further advance may be applied for; if necessary; or the account adjusted on the bill of expenditure being audited.

Proc. M. B. 26th May 1811 Estimated Establishment requisite for conducting the ordinary repairs of Fort William in the Garrison Engineer's and Executive Officer's Department (including the Esplanade and General Hospital.)

O. V. P. 15th December, 1809, the superintendence and control of the Pioneer Corps is vested in the Quarter-master General.)

Regulations for the Department of the Quarter-master General.

The President and Council have judged it proper to issue the following Orders for the direction of the Quarter-master General and the information of the Army.

When the Army is in the Field the Quarter-master General shall be allowed Assistants, when necessary, and persons to act as guides. The Quarter-master General shall therefore provide Guides to conduct the Lines, Artillery and Baggage when the Army marches; and to all detachments and out-posts that may require them.

The Quarter-master General shall have a Guard in the Field.

The Quarter-master General will receive the parole from Head-quarters in the Field, and in Garrison from the Town Major.

The Quarter-master General will receive his Orders from the Commander in Chief, and execute whatever regards the marches of the Army.

He will give to each Officer commanding a Division or Column a copy of such orders as relate to him.

He will march to the new encampment and distribute the ground according to the instructions he has received from the General or commanding Officer, and mark it out to be occupied by the Army, delivering it over to the respective Quarter-masters.

He will visit the avenues to the camp, reconnoitre the ground and country round about it, and get from the inhabitants an exact information, and on the report he makes to the General or commanding Officer, he receives his orders for the march of the Army, in the manner in which the General intends they should be executed.

He will make himself thoroughly acquainted with the roads leading to the enemy's encampment, that he may be able to report the same when called upon.

The condition of the camp equipage of the Army shall be regularly reported to him.

The Quarter-master General will inform himself of the different stations of the Troops; that he may be enabled to make out and issue the proper march routes to occasional detachments from one post to another.

When Troops are out of the Company's Provinces, the Quarter-master General will make himself acquainted with the most eligible situations for forming Magazines, that he may be able to report the same to the commanding Officer, when called upon.

Whenever temporary Cantonments are to be constructed, the Quarter-master General shall have the inspection of those works.

The Commander in Chief issues the following Regulations for the Department of Quarter-masters, when neither the Quarter-master General nor Deputy Quarter-master General shall be present to officiate.

The general duties of this Department, either at Stations or with Divisions or Detachments of the Army, which occur in the course of the service, and have not been provided for by the Quarter-master General or Deputy Quarter-master General, are to be vested in that Quarter-master present, who shall happen to be the senior Officer in the list of the Army.

Duties of Deputy Quarter-master General.

Captain W. Calément, of the 4th Regiment of Native Infantry, is appointed Deputy Quarter-master General, with the Official Rank of Major.

In pursuance of the Resolution of Government, published in General Orders of the 22d December, 1809, for separating the duties of the Deputy Quarter-master General from those of the Superintendent of Public Military Buildings; the duties of the former situation are declared to be confined to the functions exercised by the Deputy Quarter-master General previously to the establishment of the office of Superintendent of Public Buildings, with exception to the construction and repairs of Buildings in the Upper Provinces, with which the Deputy Quarter-master General will in future have no concern.

The allowances of the Deputy Quarter-master General are to revert to the scale on which they were fixed previously to the 1st April, 1808, viz.

At the Presidency, per mensem, ..... Sonat Rupees 466  
In the Field, ..... 576  
with the Pay and Full Batta of Major, if not entitled to higher Pay and Batta by his Regimental Rank. (The Deputy Quarter-master General also receives an allowance of 10 Sonat Rupees per mensem for two Peons.)

G. O. C. C.  
11th July 1787

Regulations for  
the department  
of the Surveyor  
General, and  
for the charge  
of the Surveys,  
&c. deposited  
in his office.

Resolved, that the following Regulations for the Office of the Surveyor General be observed.

M. C  
August 1793

That he furnish Surveyors employed in different parts of the country with orders and instructions. All Surveyors sent with Detachments are to receive their instructions from the Surveyor General, for the better attaining the necessary and desired information.

He will compile such routes and observations as may be made, and reduce and insert them in his general plan.

He is to supply the Commander in Chief with such routes as he may deem necessary, for the information of Detachments under orders of march.

He is to furnish the Board and Commander in Chief with Alphabetical Lists and Military Descriptions of the Roads through India, specifying the distance from each town, and observations on the roads, forts and passages of the rivers in the different seasons of the year, with the boats and materials for embarkation procurable in the neighbourhood; proper places of encampment for wood and water; market places for grain and bullocks; natural strength of the ground, and advantageous posts of encampment for Detachments from a Battalion to a Brigade, for the direction of a Detachment or an Army on service.

That the Surveyor General shall not furnish, on pain of suspension or dismissal from his office, to any person whatever, copies of any maps or plans of the country and posts, march routes, or information relating to the surface of the country, without an order in writing, from the Board or the Commander in Chief. That he require from the Surveyors that have acted under him all original plans and surveys of the different countries in which they have been employed, with a declaration in writing on honor, under their hands, that they have not retained any of the original materials of which they were compiled.

That he be responsible for the Assistants in his Office, so far that he employ none without large security for their fidelity.

That the Surveyor General make Quarterly Returns to the Board, specifying the different plans in his possession, as also the progress he has made in forming new ones; such Returns shall also specify what Surveyors are employed under him, on what duty, and the progress respectively made by them, their fitness for the service, and the good or bad execution of the plans furnished by them.

Resolved, that the Surveyor General obey all orders from the Governor General, and that he continue to receive his instructions for surveys from the Governor General as heretofore.

PARA. 4th—The Office of the Surveyor General being at the Presidency, it does not appear necessary that copies of surveys belonging to that Office should be made for the individual use of Members of Council, the Commander in Chief, or any others resident in Calcutta. When such papers are required by the Governor General in Council or the Commander in Chief, the Surveyor General should attend with them. If they are required to be left, they are to be secured under lock and key, and remain in the custody of the Secretary to Government, or the Secretary to the Commander in Chief, who are to be responsible that no copies or extracts shall be made from them, and they are to be returned with the least possible delay to the Surveyor General's Office.

Let. C D.  
21st May 1809

5th—When copies of papers are ordered by the Governor General in Council, or by the Governor General, such copies are to be made in the Surveyor General's Office, only.

6th—The Surveyor General is to consider it his particular duty not to suffer any copies to be made of papers in his Office, except those ordered by the Governor General in Council, or by the Governor General.

7th—When copies of papers in the Surveyor General's Office are ordered by Government for Officers commanding Detachments upon particular services appearing to require such papers, a receipt from the Officers is to be given to the Surveyor General, with a declaration that the papers will be kept secret and no copies taken of them.

\* When the service is finished they are to be returned to the Surveyor General's Office.

8th—When it is necessary to furnish the Civil Officers with surveys, &c. the Civil Officer receiving the papers should give a receipt and declaration of a similar nature to the above, and his Successor in Office is to take charge of the papers under the same condition; they of course will be returned to the Surveyor General when no longer wanted in the Civil Office.

9th—When surveys that have been delivered out of any of the Offices or Departments shall become damaged by use, or otherwise, such damage is to be specified to the Governor General in Council, who will, if thought necessary, direct fresh copies to be made in the Surveyor General's Office, and the damaged papers to be destroyed.

Proc. G. G.  
29th Apr. 1809

Ordered, that the Surveyor General be desired to report to Government, annually, on the 15th June, the number of Officers employed in surveying, the nature of their respective surveys, whether finished or otherwise, and if to be resumed after the expiration of the rainy season, on the 15th September.

The Surveyor General to report annually the number of Officers employed in Surveying.

M. C. 15th  
August 1796

The Surveyor General is directed to notify to the Military Auditor General the arrival of all the Monthly Reports of Officers employed on surveys at his Office, until which information is received the Military Auditor General is not authorized to pass their bills.

And monthly to the Military Auditor General the receipt of the Reports of the several Officers.

All Plans and Field Books to be sent in duplicate.

All Surveyors are to transmit their Plans and Field Books in duplicate to the Office of the Surveyor General, for the purpose of being regularly forwarded to the Honorable the Court of Directors. M. C. 6th April 1795

Instructions to be furnished to Surveyors from the Surveyor General.

All Surveyors, not acting as such with any Detachment or in the suite of an Embassy, will be required to perform their surveys in a given time. On every occasion when Government may deem it expedient to depute an Officer on a survey, the Surveyor General is to specify, in his instructions, the time which, in his opinion, will be sufficient for the accomplishment of the object of the deputation: a copy of which instructions is to be laid before the Governor General in Council. M. C. 15th August 1796

Allowances to Surveyors and Assistant Surveyors.

Surveyors, as such, are to receive for every charge, as well within as without the Provinces, Sonat Rupees 618 per mensem, with an addition of Sonat Rupees 240 per mensem, if employed on rivers; but they are only to receive 250 Rupees per mensem during the rainy season, viz. from the 1st June to the 15th September. M. C. 11th Oct. 1785

The Assistant Surveyors, as such, to receive for every charge, as well within as without the Provinces, 100 Rupees per mensem, with an increase of 195 Rupees per mensem if employed on rivers.

(Surveyors and Assistant Surveyors, being Military Officers, also receive the pay, full batta, gratuity and tent allowance of their Regimental Rank.)

The allowances of Surveyors are not admissible subsequent to the actual period of the Survey. Proc. G. G. 6th June 1805

Allowances and establishment for Officers employed in surveying Cantonments.

The Subaltern Officers of the Corps of Engineers employed in surveying Cantonments are to be allowed the same personal and contingent allowances, in addition to the usual pay, batta and tentage of their respective Ranks, as has been granted to Ensign Steell for surveying the Cantonments at Dacca and Chittagong, viz. 100 Rupees per mensem; the expence actually incurred on account of Lascars being charged on a contingent bill properly attested. Proc. G. G. 15th Nov. 1802

The Vice President in Council is pleased to authorize the monthly allowance of Sonat Rupees 100, with an Establishment of one Tindal and ten Lascars, being allowed to Captain Raper, of the 10th Regiment of Native Infantry, who has been appointed to make the requisite surveys of the Cantonments appertaining to the Dehli and Rewari command, so long as he may be employed on that duty. Proc. V. P. 16th Jan. 1810

And in taking levels.

The Governor General in Council authorizes Lieutenant Robertson to draw the same personal allowance as is granted to an Officer for surveying a Cantonment, viz. 100 Rupees per mensem, and the following establishment, while he was necessarily employed in taking the levels of the Town of Calcutta, to be paid on his furnishing a certificate of the time he was necessarily employed, and of the work being properly executed. His Excellency allows Ensign Hyde to draw a personal allowance of 100 Sonat Rupees a month while employed on that duty.

G. O. G. C. The Governor General in Council orders and directs, that Officers in command of Detachments or Corps shall strictly attend to the following General Order of 29th September, 1788.

Regulations authorizing the appointment of Surveyors with Corps and Detachments marching; and directions for their observance.

"It is to be a standing Regulation, that all Officers, commanding Detachments of the Army or single Corps on a march, do keep an account of their daily movements, remarking the computed distances, the towns, villages and rivers on their routes, the nature of the roads and places of encampment, or any other observations which they may deem material; copies of which are to be transmitted to the Quarter-master General after the troops have arrived at their destination."

In addition to the rules prescribed by the preceding Orders, the Governor General in Council authorizes and directs the commanding Officers of Corps, when marching, to employ an Officer under their command, who is properly qualified, to keep a Journal or Field Book agreeable to the subjoined form.

|                                                                 |                              |                                          |                                                                  |

| <i>Bearings, and estimated distance of objects on the left.</i> | <i>Bearings of the Road.</i> | <i>Distance by Perambulator or Time.</i> | <i>Bearings, and estimated distance of objects on the right.</i> |
|-----------------------------------------------------------------|------------------------------|------------------------------------------|------------------------------------------------------------------|

The names of all Towns, Forts, Rivers and Villages, when obtainable, are to be inserted in the two broad columns on each side; also all tanks, jeels and rivers on the route of march, ground of encampment for one or more Corps, and occasional remarks as to the nature of the road and country.

The bearings of the places and objects, with their estimated distance, are also to be put down; more particularly of forts, hill forts, towns, villages, rocky or broken ground, and remarkable eminences:

The road distance, whether measured by a perambulator or estimated by time, is to be carefully inserted; in the latter case, the time by the watch between any two places or points of observation, is to be put down to the nearest minute, and the rate at which the person is supposed to have been moved is to be noticed.

When the distance is computed by time, a line is to be drawn through the column every time a halt shall take place, and the number of minutes for which the halt continues is to be noted.

With the view to obtain an accurate measurement of the roads and of the routes of march of the Troops, the Governor General in Council directs that a proportion of perambulators and compasses be sent to each of the principal Military Stations, for the use of corps which shall be detached from these stations; and whenever a corps is ordered to march, the commanding Officer is to apply to the commanding Officer of the station for the use of a perambulator and compass, provided there is any Officer in the corps qualified to undertake to keep a Journal or Field Book, in the manner above directed.

Officers so employed will be permitted to draw an extraordinary allowance, equivalent to the allowance established by the Minutes of Council of the 11th October, 1785, for an Assistant Surveyor in the Field, viz. Sonat Rupees 100 per month, from the commencement of the march to its conclusion, upon producing from the Surveyor General a certificate of the Journal or Field Book having been kept with attention and accuracy.

Allowance fixed for Officers so employed.

The Field Books are, in the first instance, to be transmitted to the Quarter-master General, who will, immediately after their receipt, lend them to the Surveyor General, who, after taking a copy of them, is to return them to the Quarter-master General, in whose Office they are to be lodged.

G. O. G. C. It appearing that the issue of perambulators and compasses for surveying roads has taken place to an extent far beyond the object of the General Orders of Government of the 12th January, 1804; such articles having been in several instances drawn from the public

stores for the use of corps proceeding by roads so often marched by Troops, and of course so perfectly known, that a re-survey of them can add nothing to geographical knowledge; the Commander in Chief is therefore pleased to restrict future applications for instruments of the above description, or claims for the monthly allowance of Sonat Rupees 100 to such corps or detachments as may proceed by routes, which, from having been little frequented, are imperfectly known or laid down in existing surveys.

Perambulators to be returned to store on the arrival of the corps at its destination.

The instruments for such routes are to be invariably re-delivered into the nearest magazine, on the arrival of the corps or detachment at the place of its destination.

Supply of the requisite instruments for surveying, &c. to be procured from England.

The Governor General in Council approving of Officers employed on surveys being provided with proper instruments to enable them to determine the Latitude and Longitude of principal places, as well as to correct their common measurement by observations of the celestial bodies, is pleased to resolve that a suitable supply of the requisite instruments for these purposes, which will of course remain the property of the Hon'ble Company, shall be obtained by indent on the Hon'ble the Court of Directors.

How to be issued to Officers requiring them;

The Governor General in Council has been pleased to resolve, that in all future cases when surveying instruments are issued from the Arsenal of Fort William, or any of the subordinate Magazines, to Engineer or other Officers, the instruments shall be delivered at the Arsenal or Magazine to the Officer or his agent, and paid for on delivery, and that after such delivery, no allowance shall be made on account of defect or injury, it being entirely at the option of the parties to receive or decline them.

G. O. G. G.

Who are to return them after their Survey may be completed.

On the principle adopted in the resolutions of Government on the 16th ultimo, the Governor General in Council is pleased to authorize a telescope and chronometer to be furnished to Lieutenant White, to be returned into store as soon as he shall have completed the survey on which he is at present engaged.

Appointment of the Superintendent of the Military Road, and regulations for passing the allowances fixed for keeping it in repair.

The Governor General in Council is pleased to appoint Lieutenant D. Macleod, of the Corps of Engineers, to be Superintendent of the Military Road in lieu of Major W. Rankin, of the 1st Regiment Native Infantry, promoted to the Rank of Field Officer Regimentally. Major Rankin will deliver over charge of the Office, and transfer whatever balance of cash and other public property may be in his hands to Lieutenant Macleod, who will proceed to execute the annual repairs of the road.

G. O. G. G.  
15th Sep. 1810

The new road having been originally constructed for Military purposes, the charge for keeping it in repair is to be considered as a Military Disbursement; the sum of Sicca Rupees 17,707 12, being at the rate of Sicca Rupees 40 per mile, for 44 1/2 miles and upwards, is the annual charge allowed by the authority of the Court of Directors and by the resolutions of Government of the 23d July, 1788, in the Revenue Department.

Let. M. S. G.  
6th Aug. 1790

This allowance is not granted for any specific term of years, and being a stated allowance, the actual application of it is not provided for by any obligation on the party to spend the whole.

The Governor General in Council, however, has thought proper to resolve that the advance shall not be made to Lieutenant Rankin in future, without his producing certificates from the several Collectors through whose districts the roads pass and from the Quarter-master General; specifying, from the Collectors, that to the best of their information and belief the road has been kept in a proper state of repair during the preceding year; and from the Quarter-master General that the reports he has received of the state of the road from the Officers passing and repassing in command of detachments, indicate that a proper degree of attention has been paid by the Superintendent in keeping it in repair.

The sum of Sicca Rupees 100 per annum is to be allowed to Captain Rankin, Superintendent of the Military Road, for cutting down the Jungle contiguous to the road.

Let. C. D.  
8th June 1805

The Governor General in Council adverting to the orders of the Hon'ble the Court of Directors, contained in their General Letter in the Public Department, dated 5th June, 1805, respecting the establishment and allowances of Chaplains, observes that the Hon'ble Court, in the 6th Paragraph of that letter, have allowed thirteen Chaplains for the Civil and Military stations under this Presidency. Four of that number are stated to be for the Military stations in the Lower Provinces, including the station of Barrackpore, but exclusive of the Garrison of Fort William, under the supposition that Barrackpore was one of the Military stations, at which a Chaplain was permanently required to be stationed.

The Revd. Claudius Buchanan was appointed by Minutes of Council of the 7th April, 1797, to do duty for the present at Barrackpore ; that temporary appointment continued until the 15th May last, when it ceased, conformably with the Orders of the Hon'ble the Court of Directors ; and as the continuance of a separate Chaplain for the performance of the clerical duties at Barrackpore is unnecessary, such occasional clerical duties as may be required to be performed at Barrackpore will be discharged in future by the Chaplain of the Garrison of Fort William, as a part of his duty as Chaplain to Fort William, the Troops at Barrackpore being considered as a part of that Garrison.

We agree with you in opinion that the Military Station of Barrackpore does not require a separate appointment of Chaplain.

Let. C. D.  
7th Sept. 1805

PARA. 10th—We have appointed the Revd. Thomas Thomason a Chaplain on your establishment ; and as we are informed by your late advices, that a Clergyman is much wanted to officiate at the Church at Calcutta, known by the name of the second Church, we direct that you appoint Mr. Thomason to that special duty, but this is not to be considered as giving him any claim to rank above the Chaplains already on the establishment, according to the gradation laid down in our letter of the 5th June, 1805, as Mr. Thomason's appointment is to be understood as junior Chaplain of your present establishment.

G. O. C. G.  
17th Oct. 1805

The following are the Civil and Military Stations for which Chaplains are allowed :

## CIVIL STATIONS.

For Calcutta

G. O. C. G.  
27th July 1806

G. O. C. C. On the march of his Majesty's 17th Foot from Muttra, the Barrack-master, Chaplain and Chaplain stationed at Meerut.  
13d Sept. 1809 Provost Serjeant are to proceed from Muttra to Meerut, to which latter station they are transferred from that date.

G. O. V. P. The Vice President in Council, with reference to the present disposition of Troops and At Agra  
13th Feb. 1810 Military Stations in the Upper Provinces, is pleased to direct that Agra shall be made the  
Station for a Chaplain instead of Futtighur, and to appoint the Revd. Mr. Corrie to the  
above Station.

G. O. C. C. The Revd. Mr. Henderson is directed to proceed to Danapoor without delay, and after At Ghazee-poor  
29th Dec. 1810 receiving charge of the clerical records and Office appertaining to that Station, the  
Revd. Mr. Henderson will be pleased to proceed to Ghazee-poor and do duty at that  
post until further orders.

The Register and Records of all clerical duties that may be performed by the Revd. Mr. Henderson, within the Division of the Benarus Command, are to be forwarded to the Chaplain of that Division for the purposes prescribed by General Orders under date the 16th June, 1810.

G. O. V. P. 19th Feb. 1810 The duties of Chaplain to the Garrison of Fort William are to be performed by one of the Presidency Chaplains until the state of the establishment shall admit of the appointment of a Chaplain to that special duty.

PROV. V. P. The duties of Chaplain to the Garrison of Fort William will be performed by the Revd.  
27th Feb 1810 Dr. Ward until further Orders.

Proc. G. C. 7th July 1815 His Lordship in Council is pleased to authorize Dr. Ward to draw an extra allowance of Sonat Rupees 493 14 8—per mensem, as a remuneration for his additional duty while he shall continue to officiate as Chaplain of Fort William.

M. C. and April 1799 Resolved, that at the Military Stations where Chaplains are present, a fit person, either a non-commissioned Officer or a Soldier, be appointed to officiate as clerk to the Chaplain, with an allowance of 12 Sonat Rupees a month, to be drawn in the Chaplain's bill.

The person so to officiate is to be selected by the Chaplain, subject to the approval of the commanding Officer of the Station : and his dismissal in case of misconduct or inattention to be by the same authority.

Princ. V. P. The senior Presidency Chaplain is to be instructed, through the Public Department, to  
6th Feb. 1810 take the necessary measures for providing the following books and sacramental plate for  
the use of the Station of Berhampoor, being the same as was allowed for Cawnpore in the  
year, 1806, viz. a quarto Bible and Prayer Book, and a smaller Prayer Book, with large  
print, for the Clerk, a chalice or flaggon of a size sufficient to contain a quart of wine; a  
cup sufficient to contain half a pint; a pater for the bread, and a basin for the collection  
of alms.

The books and plate are to be appropriated to the Station of Berhampoor and to bear the inscription to that effect.

The expence incurred on this account to be charged in a contingent bill, attested in the usual manner.

Ordered, that benches be made up for the Church Barrack at Berhampoor.

Ref. M. B  
8th June 1807

Rent allowed for Quarters for the performance of Divine Service at Danapoor.

Bills by Lieutenant Crowe, Barrack-master at Danapoor, for the hire of a suitable Quarter (Field Officer's) for the performance of Divine Service at that Station, at Sicca Rupees 80 per mensem, are passed by the Vice President in Council.

G. O. V. P.  
18th Nov. 1809

And for a Bungalow for the same purpose at Cawnpoor.

The Vice President in Council approves Mr. Evans's Bungalow being rented for the performance of Divine Worship at Cawnpoor, for 5 years, at a monthly rent of 150 St. Rs.

Proc. V. P.  
30th Jan. 1810

The state of the Chapel to be subject to annual survey and report, the same as the Buildings belonging to Government at the Station.

Establishments allowed for the Church Bungalow at Cawnpoor.

The Governor General in Council sanctions the estimate for making and fixing two Punkahs in the Church Bungalow at Cawnpoor. The Governor General also authorizes the undermentioned establishment to be entertained at that Station.

The Governor General in Council is further pleased to authorize tatties and Behishties for the use of the same Church, at the annual periods, and under the same limitations which exist with regard to the Troops.

Provision of Church plate, books, &c. for the Station of Futtighur, (now Agra)

The Governor General in Council authorizes the Chaplain at Futtighur to provide the articles necessary for the due performance of his clerical functions in the manner proposed, charging for them in a contingent bill, viz.—a Bible and Prayer Book—a silver cup and salver for the administration of the Sacrament,—a reading desk,—a table, and as many benches as may be necessary, alto two surplices.

Proc. G. G.  
18th May 1807

The expence of washing the surplices and of wine for the Sacrament to be charged in a contingent bill.

The apartment allotted for the performance of Divine Service, to be swept by the sweepers attached to the European corps at the Station, for which purpose, if necessary, application may be made to the commanding Officer.—(The station of the Chaplain has been subsequently removed from Futtighur to Agra.)

Building for the performance of Divine Service, &c. constructed at Meerut.

The Commander in Chief has directed a Riding School to be included in the estimates for public buildings at Meerut upon the scale of the Riding Schools at Ghazepoor and Cawnpoor for the double purpose of a place of worship and a Riding School.

Let. Adj. G.  
1st July, 1809  
approved by Government  
15th Aug. 1809

The construction of a cemetery at Meerut of the dimensions recommended by the Military Board. is sanctioned by the Governor General in Council,—viz. an area of a hundred yards, enclosed with a wall seven feet high above ground, and one foot and a half thick.

Proc. G. G.  
15th May 1810

Monthly Returns of plate, books, &c. furnished for the performance of Divine Service to be made to the senior Chaplain at the Presidency.

The Governor General in Council is pleased to direct that the several articles of plate and books furnished for the purposes of Divine Service at the different stations of the Army, the property of Government, shall be regularly reported to the senior Chaplain at the Presidency, which report is to be transmitted monthly with the Registers of Marriages and Baptisms.

G. O. G. G.  
16th June 1810

Regular books to be kept up at Stations where Chaplains are employed.

The Commander in Chief is pleased to direct that in the Garrison of Fort William and at each of the Military Stations where Chaplains are employed, three Register Books for the entry of such Marriages, Baptisms and Burials as occur at their respective Stations, and at the Civil Stations in their neighbourhood, shall be prepared and kept by the Chaplains, according to the form in use for Parish Registers in England.

G. O. C. G.  
12th Nov. 1809

Returns of Marriages, at outposts, how transmitted for record.

Returns of such Marriages, Baptisms and Burials as may occur at Out-posts, that may not be performed by a Chaplain, to be forwarded monthly by the Officer commanding to the Major of Brigade of the Station on which the Post may be dependant, and to be by him transmitted to the Chaplain for record in the Station Register.

Chaplains are to forward in duplicate, half yearly, vizt. on the 1st of January and 1st July, attested copies of their Registers for the preceding six months, one copy to the Vestry Clerk of St. John's Church, Calcutta, to be entered in the Public Register of the Presidency, for ultimate transmission to the Hon'ble the Court of Directors, and the other copy to the Register of the Supreme Court for deposit in that Department.

Duplicate copies of the Registers to be transmitted half yearly for record at the Presidency.

The Registers in question are to be considered as Public Records, belonging to Stations, respectively, and are to be delivered over on occasions of relief in the same manner with other public documents.

All Chaplains are directed to report to Head-quarters through Officers commanding Stations, &c. the date of the dispatch of the Registers required by the foregoing Orders.

Reports of their transmission to be made to Head Quarters.

In the absence of the Chaplain, or in case of a vacancy, the care and keeping of the Register shall devolve on the Major of Brigade, or other Public Staff Officer of the Station, who will be held responsible for its due preservation until the return of the Chaplain, or the arrival of his successor.

In absence of the Chaplain, the charge of the Register devolves on the public Staff Officer at the Station.

The first regular half yearly Registers which are to be furnished under the foregoing directions are to commence on the first day of the ensuing year, and to be transmitted on the 1st July next.

G. O. V. P.  
7th Nov. 1809

The Vice President in Council is pleased to determine that all Registers of Baptisms, Marriages and Burials shall be forwarded by the public mail, free of postage, on the package being superscribed by the Chaplain or commanding Officer of the Station.

All Registers of baptism, &c. transmitted free of Postage.

G. O. C. G.  
3d Dec. 1809

The Commander in Chief, under the sanction and by the direction of the Governor General in Council, is pleased to publish the following orders for the guidance of Military Chaplains belonging to His Majesty's Regiments or in the Service of the Honorable Company serving under this Presidency, and directs that they be considered standing Regulations and strictly conformed to.

Regulations for Chaplains officiating at Stations other than those to which they are appointed.

That no Clergyman, other than the appointed Chaplain of the Station, shall perform the offices of Marriage or Baptism, at any of the Stations of the Army until he shall have obtained from the commanding Officer of the Station, permission in writing to perform the said offices, when he shall be requested to do so;—one copy of such permission to be transmitted by the commanding Officer to the Chaplain of the Station; and another copy to the senior Chaplain at the Presidency.

That such permission may be revoked or renewed at the discretion of the commanding Officer.

That any regular Clergyman of the established Church of England, being in the Service of His Majesty or of the Hon'ble Company, and having obtained the aforesaid permission, may perform the offices of Marriage and Baptism.

That a monthly return of such marriages and baptisms shall be made by the Clergyman; thus permitted to officiate, to the Chaplain of the Station, who shall transmit the same to the senior Chaplain at the Presidency.

That at the Presidency Station such permission may be only granted by the Governor General in Council, and that the original Register of marriages there solemnized, under the same permission, shall be inscribed at the public Marriage Register at the Presidency; and that a monthly return of the baptisms shall be made to the senior Chaplain.

1st. C. D.  
5th June 1805

PARA. 25th.—We have resolved, that henceforward a gradation of rank shall take place in the clerical establishments at our several Presidencies, and that this shall be regulated by seniority of appointment from the lowest to the highest Stations of emolument, unless there shall be some reasonable objection thereto.

Gradation of rank ordered in the clerical establishment.

G. O. C. G.  
17th July 1806

Selection of Chaplains for the several Stations, on what principle to be made.

When the salaries of Stations are the same, the selection for each Station will be made by the Governor General in Council, with the aid of the recommendation of the Commander in Chief, if the Station be a Military one; not being the Station of the Garrison of Fort William.

With a view more effectually to carry into effect the orders and intentions of the Honorable the Court of Directors respecting Chaplains, the Governor General in Council is pleased to determine that all Chaplains of this establishment shall be eligible to be appointed either to the Civil or Military Stations, where Chaplains are permanently allowed, and that they shall be appointed to the Stations to which superior salaries are annexed according to seniority, in all practicable cases, "unless there shall be some reasonable objection thereto," conformably to the principle prescribed in the 25th paragraph of the Honorable Court's letter.

Salaries to Chaplains

PARA. 16th.—We have resolved that the following salaries be allowed to the Chaplains at the Military Stations.

1st. C. D.  
5th June 1803

In the Lower Provinces.

— 17th.—To the Chaplain to the Garrison of Fort William and to each of the Chaplains at the Military Stations within the Provinces—Current Rupees, per annum, 10,000.

In the Upper Provinces.

— 18th.—To the Chaplains at the Military Stations in Oude, each, Current Rupees, per annum, 12,000.

The above, as you will perceive, are higher than the salaries formerly annexed to those Stations.

— 24th.—We therefore positively direct that all additional allowances shall forthwith cease, and that the Chaplains of Stations be restricted to the salaries herein before directed, which salaries are to be in full of all emoluments from the Company.

The Governor General in Council is pleased to determine that the salary of Mr. Thomason shall for the present be fixed at Sicca Rupees 750 15 per month, or 10,000 Current Rupees per annum, agreeably to the scale of salary assigned by the Honorable the Court of Directors to the Chaplain at Fort William, and to the Chaplains at Military Stations within the Provinces.

Proc. G. G.  
20th Feb. 1809

In consequence, however, of Mr. Thomason being appointed to perform the clerical duties of a Civil Station, his Lordship in Council deems it proper that his salary should be paid in the Civil Department.

When Chaplains arrive from Europe, the allowances of the Stations to which they may be appointed on their arrival are to be passed to them from the dates of their arrival.

Proc. G. G.  
20th Nov. 1806

When Chaplains are removed from one Station to another, the allowances of the Station to which they may be appointed are to be passed to them from the dates of their appointment to those Stations.

The Governor General in Council does not consider the Chaplains of this establishment entitled to any allowance on account of quarters, under the late Orders of the Hon'ble the Court of Directors. The Governor General in Council is, however, of opinion, that the allowances fixed by the Hon'ble the Court of Directors, are not intended to repay the

Proc. G. G.

travelling expences of Chaplains, when ordered to proceed from one Station to another, and that, on such occasions, they are therefore entitled to boat allowances.

They are not to draw tentage nor be allowed belittles and sweeteners.

G. O. G. G.  
23d Sept 1807

Chaplains are not to draw tent allowances.

Proc. G. G.  
28th May 1807

The expence of a beehive and sweeper for every Chaplain is provided for by his salary.

Let. C. D. 6th  
June 1798

Having considered the applications of the Chaplains at your Presidency to be allowed the benefits of pay on furlough and retirement from the service, we have resolved that Chaplains be allowed to come home on furlough, for three years, with the full pay of their corresponding rank on the Military establishment,—viz. that of Captain.

Period of Service after which Furlough is granted them on the full pay of their Rank.

That no Chaplain shall be permitted to come home on furlough who has not been resident in India seven years, unless in cases of certified ill health.

That the proportions to come home on furlough be left to the discretion of the respective Governments in India.

Chaplains after eighteen years' service in India, three years for one furlough being included, are allowed to retire from the Service.

Rules under which they are allowed to retire from the service.

The pay to Chaplains so retiring to be the same as that allowed to them when on furlough.

No Chaplain to be allowed to retire on such pay who does not produce ample testimonials of his having discharged his duty as a Clergyman, faithfully and diligently, and also of his conduct and behaviour in general. These testimonials are to be transmitted through the Government under which the Chaplains were serving, with the opinion of such Government thereon.

I. C. D. 7th  
July 1807

PARA. 2137 —Under the Regulations lately established by us, in consequence of a representation from the Government of Fort St. George, the Revd. Mr. Lewis has been permitted to retire from the Service on the pay of Major.

I. C. D. 14th  
Sept 1808

PARA. 1718 —With regard to your recommendation that Chaplains may be admitted to the benefits of pension and furlough after serving the time prescribed by us, whether they shall have been employed the whole of that time at a Military Station, or otherwise, we have to signify our acquiescence in your recommendation.

The indulgence of furlough and retirement on the pension extended to all Chaplains whether employed in the Military or Civil line.

Orders relative  
to the appoint-  
ment of Assis-  
tant Surgeons.

WE observe that you have appointed a great number of Assistant Surgeons in Bengal since the year, 1781, without our permission, this is a practice which we prohibit in future. 1st C D.  
21st Sept 1785

PARA. 14th.—We have appointed Mr. W. Noves in Assistant Surgeon on your Establishment, provided he shall appear, upon examination by your Medical Board, to be qualified for that Station, and that the Governor General in Council shall be satisfied that he is not the son of a Native Indian. 1st C D.  
11th Feb. 1806

The Vice President in Council is pleased to appoint Mr. William Hogg, late Surgeon of the Honorable Company's ship Stratham, to be an Assistant Surgeon on this Establishment until the pleasure of the Honorable the Court of Directors shall be known. (Assistant Surgeons appointed in India are previously examined as to their professional qualifications by the Medical Board.) G. O. V P  
24th Nov 1809

All Assistant Surgeons, arriving at Fort William from Europe with appointments for this Establishment, are, immediately after reporting their arrival in the usual manner, to put themselves under the direction of the Medical Board, until they shall be posted to Corps by the Commander in Chief, or otherwise disposed of. G. O. G G.  
16th Feb 1804

ART. 22d.—All Assistant Surgeons, arriving from Europe with appointments for the Bengal Establishment, shall be required to attend the Hospital at Calcutta, and to do duty under the Surgeon for at least three months, before they can be appointed to any other duty; such of these Assistant Surgeons as can be provided with quarters at the General Hospital must reside there. G O G G.  
28th May 1807  
Medical Regulations

After which they are eligible for any situation in which they may be entitled to. The Governor General in Council is pleased to resolve that every Hospital Mate who shall have discharged his duty in that capacity for eighteen months (now limited to three months) shall be considered as eligible to proceed to any other medical charge his rank may entitle him to hold, without making it necessary that his future progression from M C. 3d  
Dec. 1803

the duty of a Hospital shall be to that of a Regimental Assistant; so that a Hospital Mate, who shall have discharged his duty as such for the period above-mentioned, shall be eligible at once to be appointed to a Native Battalion or to a Civil Station.

M. C. 16th  
July 1787

It is ordered that, from the commencement of the present regulations, the distinction of Hospital, and Regimental Mates be abolished, and the whole corps of Assistant Surgeons be put on the same allowance, (viz. the pay and batta of Lieutenants.)

The allowances of all Military Assistant Surgeons to be the same.

Let. M. S. G.  
30th Dec. 1802

Assistant Surgeons in the medical charge of Regiments are not to be entitled to the batta of the superior rank.

Assistant Surgeons in charge of Regiments are not entitled to superior batta.

M. C. 21st  
June 1796

The Medical Gentlemen attached to the Company's Troops to have the same rank with respect to the army that they now hold, viz.  
(Assistant Surgeons as Lieutenants—Surgeons as Captains.)

Rank assigned to Medical Officers; Commissions granted them and regulations for their employment.

M. C. 24th  
Oct. 1788

All Medical Gentlemen employed in the Company's Service under this Presidency shall be continued in one General List; they shall have Commissions granted them agreeably to their proper Rank as Army Surgeons, and whenever employed in the Civil Line they shall be considered for the time as lent only to that Department of the Service, and liable always to be recalled to their duty as Military Surgeons, under the restrictions and obligations of Service which are annexed to their Military Commissions.

The Establishment of Surgeons and Assistant Surgeons shall be employed, at the pleasure of the Board, either with Collectors of Revenue, Commercial Agents, Embassies, or such other duties as the exigencies of the Service may require.

All Assistant Surgeons; employed at the subordinate Civil Stations upon being entitled to promotion to the rank of full Surgeon, shall either give up their claims to future promotion or quit such Station and assume the duties of the rank to which they are promoted and of the Station to which they may be appointed, either in the Civil or Military Line, in order that there may be no excess hereafter in the Rank of full Surgeons, after the number has been once reduced to the Establishment fixed by the General Regulations.

Regulations for Assistant Surgeons at Civil Stations on becoming entitled to promotion.

Let. M. S. G.  
28th July 1810

In the event of an Assistant Surgeon declining promotion in the Military Line of the Medical Service he must not only forego all the advantages and emoluments of the higher branches of it, but will not be entitled to the pension of his present Rank after he shall have served the stipulated period, neither, in the event of ill health or any other circumstance rendering it necessary for him to proceed to Europe, will he be entitled as an Assistant Surgeon to Furlough, nor to draw during Furlough his allowances as a Military Assistant Surgeon.

M. C. 24th  
June 1796

All applications and recommendations for promotion in the Medical Department to go through the Medical Board to the Governor General in Council.

Applications from Medical Gentlemen in the Military Line are to be transmitted to the Medical Board, with the previous concurrence and consent of Commanding Officers of Stations; the Medical Board to forward them to the Commander in Chief with their remarks: by whom, if necessary, they will be laid before the Governor General in Council.

Recommendations for Promotions and applications from Medical Officers how to be transmitted.

All recommendations for vacancies and promotions in the Military Line to originate with the Medical Board, and to be laid before the Governor General in Council by the Commander in Chief, should he see no objection to the recommendation.

M. C. 24th  
October 1788

In consideration of the importance of a proper discharge of the duties annexed to the Station of a Member of the Hospital Board and of the experience requisite for the charge of a General Hospital, these situations to be always filled up by a selection from the most capable practitioners, without any other regard to seniority on the list of Full Surgeons, than may be derived from equal skill and abilities in their profession; and further that no person be eligible thereto, who has not served two complete years immediately preceding the time to which they may be candidates for such appointments, either as a Presidency Surgeon, a Surgeon to an European Battalion, or the Garrison of Fort William.

Regulations for  
the furlough,  
retirement and  
pension of Me-  
dical Officers.

That the following proportion of the Company's Officers at each Presidency be allowed to be absent on Furlough. Let. C. D. 8th  
January 1796

One fourth of the Surgeons and one sixth of the Assistant Surgeons to the Army.

That the period of Furlough be for three years, reckoning from the day of its date to the return of the Officer to his respective Presidency. (For regulations relative to the Furlough of Medical and Military Officers vide page 153).

As all Medical Practitioners employed in the Civil Line remain to be recalled to their duties as Military Surgeons, under the restrictions and obligations service which are annexed to their Military Commissions, (excepting only those in who under the option left with them have previously resigned all claims to future promotion in the Service) they are equally entitled to the benefits of Furlough and retiring from the Service, which are intended for the Military Surgeons, under the orders of the Court of Directors of the 8th January, 1796.

M. C. 12th  
Sept. 1796

PARA. 135th.—We have resolved that the Pay to the Head Surgeon of a General Hospital (now Superintending Surgeon) when on Furlough, shall be equal to that of Major. Let. C. D. 5th  
July 1797

PARA. 82d.—With respect to your recommendation for allowing the pay of Lieutenant Colonel to Members of the Medical Board when on Furlough, we shall not object to it. Let C. D. 6th  
June 1798

All applications from Medical Gentlemen to proceed to Europe on Furlough must be forwarded through the Commander in Chief. Proc. G. G.  
31st Dec. 1799

All Surgeons and Assistant Surgeons attached to the Military Service are permitted to retire from the Service on the Pay of their Rank, after having served in India not less than 20 years, including three years for one Furlough. Let. C. D. 8th  
January 1796

A Surgeon of a General Hospital (Superintending Surgeon) who shall have served in that situation not less than five years, and whose period of Service shall not be less than twenty years, including three years for one Furlough as above, is to be permitted to retire from the Service and allowed three hundred pounds per annum.

A Member of the Medical Board who shall have been in that situation not less than twenty years in India, including three years for one furlough, shall be permitted to retire from the Service and allowed five hundred pounds per annum.

The Assistant Surgeon at Kalpee to afford medical aid to the Garrison.

M. C. 21th Oct. 1798 Each Collector of the Revenue, whenever the number of Assistant Surgeons upon the Establishment will admit of it, may be allowed an Assistant Surgeon if he applies for one; but the Governor General in Council will reserve to himself the option of complying with the requisition of the Commercial Agents, as the necessity of such appointments will greatly depend on the distance at which they may be placed from medical assistance and the probable frequency of such advice being called for; and where such separate appointments are not allowed, it will be the duty of the Surgeon or Assistant Surgeon at

the nearest station to give his attendance, with the permission of the commanding Officer, should his services at any time be called for.

**Stoppages for the Orphan Fund how to be made from Civil Surgeons.** With a view to facilitate the payment of the monthly contributions of Surgeons or Assistant Surgeons, occasionally on duty at Civil Stations, into the Treasury of the Orphan Institution, the Governor General in Council directs all public Officers from whom the Surgeons or Assistant Surgeons attached to Civil Stations receive their salaries and allowances, to make the authorized stoppage from their monthly allowance, viz.

Six Sonat Rupees from a Full Surgeon.

Three Sonat Rupees from an Assistant Surgeon.

**Application how to be made for the services of Medical Officers at Civil Stations when required by Military Officers.**

The Governor General in Council, with a view to prevent misunderstanding as to the relative situations of Officers commanding Detachments or Corps, and Surgeons and Assistant Surgeons doing duty at Civil Stations, on occasions where the professional services of the latter may be required for Detachments or Corps, considers it to be necessary to notify for general information, that Medical Gentlemen so circumstanced are not to be considered subject to the orders of commanding Officers.

G. O. G. G.  
22d Oct. 1807

On such occasions commanding Officers will apply to the Magistrates of the districts (or at the Cities of Moorshedabad, Dacca, Patna and Benarus, and at the town of Bareilly, to the Judges of the Provincial Courts) who will communicate such applications to the Surgeons with directions to perform such duties as may be required of them conformably to the Regulations of the Service.

In cases where the Detachments or Corps may be stationary, the first application to the Magistrates by commanding Officers, is to be understood as sufficient for the purposes of securing the services of the resident Medical Gentlemen as long as it may be necessary to have recourse to them.

In the event of any commanding Officer conceiving he has just grounds of complaint for neglect of duty against the Civil Surgeon, he must state the case through the regular channel to the Commander in Chief, for the consideration and orders of Government.

**Civil Surgeons attending Troops are not in consequence entitled to Military allowances.**

At every Station where Civil Surgeons may be directed to attend divisions of Troops, the Medicine allowance is to be in full of all charges, and the Surgeons are not to be allowed to receive any thing under the name of Military Pay or Batta.

ART. 2d—The present Head Surgeons of General Hospitals are hereafter to be denominated Superintending Surgeons, and to be vested with the General Superintendence of the Medical Department of all Corps and Troops within the limits of the authority of the General Officers on the Staff, commanding at the Stations or in the districts where the Superintending Surgeons may be stationed.

Superintending Surgeons appointed, and how to be stationed with divisions of the Army.

One Superintending Surgeon will be allowed for each station or district where a General Officer commands upon the Staff, excepting at the Presidency Station, where the Superintending Medical Duties will be performed by the Medical Board.

G. O. G. G. 9th July 1807 ART. 24th—The Superintending duties at the Presidency are to be performed by the junior Member of the Medical Board.

G. O. G. G. 23rd May 1807 ART. 2d—The Superintending Surgeons will be entitled to all the benefits and privileges of Furlough and retiring from the Service, &c. hitherto granted by the Regulations to Head Surgeons of General Hospitals.

The Superintending Surgeons of Stations or Districts are to be regularly relieved at stated periods with the relief of the Staff of Stations, conformably to the established rule and usage of the Service, excepting in special cases wherein the Governor General in Council may think it proper to authorize a deviation from that general rule.

ART. 25th—It will be the particular duty of every Superintending Surgeon to visit each Hospital, European and Native, within the District of which he may have the medical superintendence, as often as may be practicable and necessary, besides making regular quarterly visits to each European Hospital, commencing at such period of time as the commanding Officer of the district shall direct.

Regulations determining the duties of Superintending Surgeons.

All having performed each quarterly visit, the Superintending Surgeon shall report the state of each Hospital to the Commander in Chief, through his commanding Officer, and also direct to the Medical Board for the information of Government.

G. O. G. G. 7th April 1808 Superintending Surgeons will visit the Regimental Hospitals of their respective Districts at the proper periods; they will be careful that the Medical Regulations are in every respect strictly attended to.

They will furnish the Regimental Surgeons with such instructions as they may deem necessary in respect to the medical treatment of the sick; they will carefully inspect the quality and quantity of the diet, and the condition and state of cleanliness of the cloathing, bedding, &c. of the Patients, and regulate, by general directions, every circumstance connected with their management, comfort and attendance.

Superintending Surgeons are likewise enjoined to report on the state of the Buildings appropriated to the purposes of Regimental Hospitals, and submit to General Officers commanding Districts, for the information of the Commander in Chief, all such observations and suggestions as they conceive may tend to the benefit of the sick.

Superintending Surgeons are required to be attentive in transmitting General Returns and Reports of the Sick to the Medical Board, at the period, and agreeably to the forms, which that Board have prescribed to them.

G. O. G. G. 6th Jan. 1808 Whenever Superintending Surgeons shall proceed upon the duty of inspecting the Hospitals of their respective districts, an escort of 1 Havildar, 1 Naick, and 12 Sepoys is directed to be ordered to attend them as a safeguard, subject to the standing orders for relief at each post.

Escort to be furnished them when proceeding on their periodical tour of inspection.

G. O. G. G. 28th May 1807 Medical Regns. ART. 48th—The Superintending Surgeons shall draw, in addition to the established salaries and allowances which the Head Surgeons at present respectively receive at the different Military Stations, the sum of Sonat Rupees 600 per mensem,

ART. 47—The Honorable the Court of Directors having in their General Letters, dated the 11th February, 1801, and the 31st August, 1804, ordered that a plan of Regimental Hospitals shall be instituted at this Presidency, with a view to secure the important objects of preserving the health of the Soldier in all situations, whether in peace or war, and a proper degree of comfortable accommodation for and medical care of the sick, the Governor General in Council directs that the following rules and regulations shall be adopted for carrying the plan into effect.

Regulations vesting the Medical charge of the Troops in the Surgeons of the respective Corps.

ART. 50th—The Regimental Hospitals to continue, as well in war as in time of peace; under the immediate direction of their respective Surgeons, subject to the general direction and controul of the Superintending Surgeons.

(When Corps are serving with the Army in the Field, the sick or wounded Soldiers are transferred to the Field Hospital.)

G. O. 16th  
March 1789

If one more corps shall happen to be without a Regimental Surgeon or Mate, the charge of the sick of such corps shall devolve to the senior Surgeon or Assistant Surgeon belonging to the detachment, who shall be entitled to the established medical allowance for such corps.

ART. 44th—Hospitals and Hospital tents for the reception of the sick shall continue to be provided, as heretofore, by the Company; and the keeping in proper repair the buildings, doors and windows, the plaistering and white washing the walls, painting the beams, doors and windows, when necessary, keeping the drains clean, carrying off the soil and keeping the Area round the Hospital clear of weeds, and other nuisances, are all to be done by the Officers in the Barrack-master's and Quarter-master's Departments, under instructions through the Military Board.

Regulations for the provision and charge of Hospitals and Hospital Tents.

The duty of the Regimental Surgeons in respect to the Hospitals is to be confined to that of keeping them as clean and healthy as possible within, and with that view they are to be at the expence of bellies and sweepers, and fumigating their respective wards, whenever it may be judged necessary by the Superintending Surgeons.

M. C. 26th May  
1784

It is expected that Officers commanding companies will give attention to their sick, which humanity calls upon them to do, independant of its being a particular point of their duty.

Officers commanding Companies enjoined to pay attention to their sick.

G. O. G. G.  
7th April 1808

The Commander in Chief is pleased to direct that the following orders for the Military Regulation of Regimental and Battalion Hospitals be strictly attended to.

Officers commanding fixed Stations, Cantonments and Posts are enjoined frequently to visit the Hospitals of corps under their command, and minutely to investigate the economy and order therein established, to enquire into the state of the patients, their diet, and attendance of every kind, and to enforce the strictest observance of the prescribed Medical Regulations.

Regulations for the inspection of Regimental Hospitals by commanding Officers of Stations, Corps, &c.

Officers commanding Brigades or Detachments of the Army, when in the Field, will, for the same important purposes, be careful to inspect frequently the Hospitals of the Corps composing their respective Brigades and Detachments.

These attentions are required still more in detail from commanding Officers of Regiments and Battalions, who from personal observation have opportunities of checking every abuse, and whose duty it is to extend to the Hospitals the same system of order, regularity and discipline, which should prevail in their Regiments; and the Commanders

in Chief will accordingly hold them immediately responsible for any neglect which may arise on these heads.

Hospitals of Native Corps to be visited twice daily, and reports thereof delivered to the commanding Officers.

The Hospitals of every Native Corps, whether in camp or cantonments, are to be regularly visited twice every day, once in the morning by an European commissioned Officer, and in the evening by a Native commissioned Officer, who are to see that the sick are properly attended and do not suffer from the remissness of the Surgeon or Native Doctor; and that regularity and cleanliness prevail in and about the Hospital. They are also to hear and examine into all complaints. The European Officer to make his report next morning in writing, in the usual manner, after receiving that of the Native Officer.

The Commander in Chief has had occasion to observe, from some circumstances that have come under his notice, that so essential a part of the internal management of a corps, as the regular visiting the Hospitals by the European Officers, is not sufficiently attended to in all the Native Corps of this Army; he therefore directs that commanding Officers of Regiments and Battalions, in which a practice, so indispensibly necessary to the proper care of the sick, may have been hitherto neglected or suffered to fall into disuse, will establish it by giving immediate effect to the foregoing orders, and strictly enforce the constant observance of them in future.

Reports and returns of the sick to be made by the Surgeons &c.

The Surgeon is to make a daily report of the sick to the commanding Officer of the Regiment or Battalion, who will make a weekly report, to the commanding Officer of the Station, of the sick of his Regiment or Battalion.

The Surgeons of Regiments and Corps shall send to the Head Surgeon of the District weekly Returns of the sick, specifying their names, ages, and diseases, the number admitted since last return, and the number discharged. Let. C. D. 27th Sept. 1783.

Regimental Surgeons are held responsible for the proper management of their respective Hospitals.

Regimental Surgeons under the instructions and inspection of their Superintending Surgeons have the immediate direction and management of their respective Hospitals, and will accordingly be held responsible for the order, regularity and cleanliness of these; for the diet, cloathing and care of the patients; and for the proper conduct of the whole Establishment. G. O. C. G. 7th Apr. 1803.

A guard to be furnished to Regimental Hospitals.

A guard is to be constantly furnished to the Hospital, and the Surgeon will signify to the commanding Officer of the Regiment or Battalion the particular orders which he wishes to be given to the commissioned Officer commanding it, and to the Sentry.

Arms &c. of the sick not to be brought to the Hospital.

When a Soldier is sent to the Hospital, his arms and accoutrements are to be left with his Troop or Company; and in no instance is he to take his ammunition with him to the Hospital.

Convalecents not to be sent on public duty.

Convalecents, when discharged from the Hospital, should not be immediately put on public duties, but should be employed for a certain time in Regimental or Battalion Guards, only, where they are not liable to be so much exposed to the weather or to fatigue.

Quarters of the Surgeon to be near the Hospital.

In Cantonments and Barracks the Quarters of the Surgeon must be as near the Hospital as may be practicable; and the Assistant Surgeon's Tent must be pitched in its vicinity in camp.

The regularity and proper management of Regimental Hospitals so materially tend to the good of the service, and so much promote the comfort of the Soldiers, that the Commander in Chief cannot too strongly impress on the minds of all Officers in command, the necessity of giving the most constant attention to these most important objects.

The medical allowances of detachments from corps, to be drawn by the Surgeon in charge.

ART. 13th—In all cases of Detachment; whether from European or Native Corps, the per-diem and other allowances are to be drawn by the Surgeon or Assistant Surgeon actually in charge with the Detachment, whether he does or does not belong to the corps to which the Detachment belongs. G. O. 29th May 1807 Medical Regns.

Parties detached in the vicinity of their corps to be drawn for by the Regimental Surgeons if not in charge of any Medical Co.

The Governor General in Council, in consideration of the circumstance of the sick belonging to detachments formed in situations near the Head-quarters of their corps being usually either left under the care of the Surgeon, or sent to him when they are ill, is pleased to determine that the Surgeons in charge of corps, European as well as Native, shall, with exception to the cases described in article 13 of the Medical Regulations, be entitled to draw the medicine allowances for every man so detached, although unavoidably absent from the corps at the time of muster. ART. 14th—In all cases in which, from the exigencies of the Service, the sick of any of the European or Native corps, or of any European or Native Detachment, shall be left under the care of another Surgeon, the Surgeon under whose care the sick are left, shall be entitled to receive from the Regimental Surgeon, or the Surgeon or Assistant Surgeon who may have medical charge of the Detachment, the amount of his expences incurred bona fide on account of the sick patients.

Expences incurred for the sick of corps left in charge of Surgeons, other than the Regimental Surgeons, how de-  
trayed.

This charge shall be made upon honor and approved by the Superintending Surgeon, or where there is no Superintending Surgeon by the Officer commanding at the Station; and when the sick have been left under the care of a Civil Surgeon, the charge shall be approved by the Magistrate, or where there is no Magistrate by the senior Civil Servant of the Station.

In the cases now stated of sick men being left under the care of another Surgeon, it is to be understood that the Surgeon of the corps, or the Surgeon who may have the medical charge of the detachment from which the sick are left, shall continue to draw for such sick the per-diem allowance, or the established proportion of Medicine allowance, under the head of "sick absent."

ART. 4th—The sick of Battalions of Artillery, Regiments of European Dragoons and of European Infantry, to be attended in the Regimental Hospitals by the Regimental Surgeons and to be under their immediate care and management, subject to the orders and directions of the Superintending Surgeons and to the general controul of the Medical Board.

The sick of European corps to be attended in their Regimental Hospitals by the Surgeons of the corps.

ART. 16th—The sick of European Corps, newly arrived from Europe, shall be received into the General Hospital, at Calcutta, until the Regimental Surgeons shall be able completely to provide themselves with every thing required for taking the management of the sick in their Regimental Hospital, and during that time the Regimental Surgeons shall only be allowed to draw the sum formerly granted to Surgeons of European Regiments under the head of Regimental Allowances, viz. Sonat Rupees three hundred and eighty per mensm.

The medical charge of corps arriving from Europe vested in the Surgeon of the General Hospital until the Regimental Surgeons have provided the requisite equipment.

The Member of the Medical Board, who may be Superintending Surgeon at the Presidency Station, shall be the Judge when the Regimental Surgeons of corps arriving from Europe, are properly provided for taking charge, and by a certificate from the Superintending Surgeon, the allowance to be drawn by the Surgeon of the General Hospital and the Regimental Surgeons, for the time during which they may respectively have had charge of the sick, shall be regulated.

ART. 5th—The Surgeons of European corps becoming the contractors for the whole expence of the sick shall be entitled to draw from the Hon'ble Company, for every European, sick or well, borne present on the muster rolls, including commissioned Officers, the sum of Sonat Pie 17½ per diem, which sum being exclusive of the stoppages, averaged at Sonat Pie 6½, the usual stoppages from the pay of such Europeans are therefore to be drawn by the Regimental Surgeons.

The indulgences hereby granted to Regimental Surgeons, in respect to the conveyance of the Hospital cloathing and bedding, is strictly confined to the case of Troops employed on actual service, and in no case applicable to Corps marching from one Station to another, in time of peace, with respect to which last, the 6th article of the regulations is to be strictly attended to.

Bills for the expence of conveying the Hospital bedding and cloathing of Troops employed on actual service, are to be transmitted, attested in the usual form and accompanied by the authority under which the charge may have been incurred, to the Paymaster of Extraordinaries, in order to their being submitted, in due course, for the sanction of Government.

The Vice President in Council is pleased to notify for general information, that carriage for the conveyance of Hospital cloathes and bedding will only be allowed in the proportion of three camels, or, when that description of cattle cannot be procured, of one hackery for from one hundred to three hundred Europeans.

28th June 1804

The regulation granting an allowance of Sonat Rupees 2-8 per mensem for each European embarked on ship-board, (for the supply of Europe medicines, instruments and necessaries for the sick) is not intended to be applied to Detachments of European Troops arriving in Bengal from the other Presidencies, which must have been embarked there under some regulation or order with respect to medicines, &c. for the sick. (As in the case of H. M. 75th Regiment, transferred from the Presidency of Bombay to that of Bengal.)

This allowance not applicable to the case of European Detachments arriving from other Presidencies.

No allowances to be drawn for the establishment of Native Troops.

The Governor General in Council, observing that the intention of Government in fixing the Medicine allowances established by the 9th Article of the Medical Regulations, has, in some instances, been misunderstood by the Surgeons, he deems it proper to determine that as the division of the former allowances for Medicines to the Surgeons of Native Corps, as directed in that Article, has not caused any reduction of them, no separate allowance for the people of the Quarter-master's Filial Elements, for Doolie Bearers, or other followers attached to Native corps, can be considered to be admissible, and they are understood, as formerly, to be provided for by the Medicine allowance which has been authorized to be drawn for the commissioned and non-commissioned Officers, Drummers and Privates of each corps borne present on the Muster Rolls.

G. O. G. G.  
16th May 1877

The Assistant Surgeon when detached on duty with any part of the Regiment shall draw medical allowance in proportion to the strength of such detachment.

When one or more Companies are detached from the Head quarters of a Regiment, or from either of the Battalions, and under circumstances where the mode of drawing for them is not provided for by the Regulations, nor by the following Articles, the Surgeon of the Regiment to draw the medicine allowance for such Companies.

When one or more Companies of a detached Battalion with which an Assistant Surgeon is present shall be sent on duty to any Post or Out station depending on the Head quarters or such Battalion, or when the Battalion shall depend on a Station different from that, under which the Surgeon of the Regiment is doing duty, then the Assistant Surgeon attached to that Battalion, or doing duty with it, shall draw the medicine allowance for all companies so detached.

In the absence of the Surgeon of a Regiment of Native Infantry, the senior Assistant Surgeon belonging to it is to succeed to the temporary medical charge of the whole Regiment; and is to draw the medical allowance for both Battalions in situations where it would be drawn by the Surgeon were he present.

The Governor General in Council is pleased to resolve that two Native Doctors, instead of one, be allowed to each Regular Battalion of Native Infantry on this Establishment, and further that an additional Native Doctor be allowed to be entertained for every Troop or more of Cavalry that may be detached from the Head-quarters of their corps, whenever there shall be a prospect of service or of being a month or more absent, (of which the Officer commanding the Station from which the Detachment proceeds shall be the judge) and for which no European Medical Staff can be furnished.

Proportion of Native Doctors for Battalions of Native Infantry, and Detachments of Native Cavalry.

Native Doctors thus occasionally employed will be allowed pay from the date of their being entertained until the return of the Detachment to a station where medical assistance may be otherwise provided for, of which periods the requisite certificates will be furnished to the Pay Department.—(The allowances fixed for Native Doctors are, Pay, per month, Sonat Rupes 10—Full Batta.... 24th Sep. 1808

The Commander in Chief having remarked that frequent charges have been preferred for extra carriage hire for the conveyance of the sick of Battalions of Native Infantry, on occasions of Ordinary Periodical Reliefs, when no necessity existed for the sick immediately accompanying the Battalions to which they belong, and when arrangements might have been made for the accommodation and care of the sick, until they were sufficiently recovered to be enabled to proceed and join their corps by easy marches, under charge of one or more careful non-commissioned Officers left with them for the purpose; he thinks proper to declare that no such charges will be in future admitted, except in cases of a peculiar nature, such as can rarely occur.

No charges for extra carriage hire to be incurred by Native corps marching, for the conveyance of the sick, who are to remain, until recovered, at the station the corps may have quitted.

Corps marching on a Special or General Relief must, when the number of their sick unable to march exceeds the established means of conveyance, leave them at the nearest Civil or Military Station, under the care of the Surgeon or Assistant Surgeon having medical charge at the place, with a steady Native commissioned or non-commissioned Officer, until they shall recover sufficiently to enable them to follow the corps.

In order to remedy the inconvenience which is felt, respecting the payment of the sick of Native corps of the Army, left in Hospital, the Commander in Chief is pleased to lay down the following Regulations.

Regulation for the Payment of the sick left in Hospital by Native corps serving with the Army, or marching at the relief.

*First.*—When men are sent into the Hospital from the Army, their arrears due to the first of the current month are to be paid by the Paymaster, upon the receipts of Officers in charge of Companies, and accounted for in abstract.

*Second.*—Pay and allowances for months subsequent to this date, are to be drawn in abstract and the amount is to be left in the Paymaster's hand, who is directed to remit the same to the Officer commanding the Fort or Station where the sick may be, who, upon receiving the money, will direct it to be issued to the men, respectively.

*Third.*—Commanding Officers of corps will, on the first of each month, furnish the Paymaster with a list of the sick, absent from their respective corps, specifying the places at which they are,

**Fourth.**—When the Paymaster remits the pay of the sick he is to send with it, for the information and guidance of the Officer commanding at the place, a list of the names of the men and to specify the corps to which they belong.

**Fifth.**—When sick are sent from the Army, each man is to be furnished with a certificate of the date to which he is paid, signed by the Adjutant of the corps.

**Sixth.**—When sick are discharged the Hospital and ordered to rejoin their corps, the Staff Officer of the Fort or Station is to report the same to the Paymaster, who will thereupon discontinue any further remittances on their account.

Medicine allowances for Independent Corps and Detachments from them; & how to be drawn.

Let. S. G.  
20th Feb. 1804

The Governor General in Council has been pleased to authorize Officers commanding Provincial Battalions at Stations where there is no Surgeon present to include the pay of the Native Doctor attached to the Battalions in their abstracts, and in like manner the commanding Officers have been authorized to draw contingent charges for doolies, until the appointment of a Surgeon.

In the absence of the Surgeon, the medical allowances, Native Doctors, &c. how to be drawn for.

The established allowance for medicine is not to be drawn until a Surgeon be appointed to the Station, but the Native Doctor of the Battalion is to draw a bill for whatever charges may be actually incurred by him on that account, which the commanding Officer will submit for audit through the usual channel.

Let. S. G.  
16th Aug. 1804

The Governor General in Council does not think proper to admit any permanent charge in future on account of doolies for Provincial Battalions.

Doolies to Provincial Battalions under what circumstances allowed, and how to be charged.

Whenever a necessity may arise for employing doolies, it is to be reported to the Magistrate, and the actual expence charged, as a contingency, subject to the rules established for auditing and passing other contingent disbursements.

Proc. G. G.  
30th Oct. 1806

In all cases in which Magistrates may authorize doolies being entertained for the Provincial Corps, they are to specify the nature of the service on which the Troops may have proceeded, which renders the employment of doolies necessary.

Proc. G. G.  
15th May 1810

In order to afford medical aid to the Corps of Irregular Horse commanded by Captain Skinner, the Governor General in Council is pleased to resolve that the senior Surgeon or Assistant Surgeon of the post where that Corps may be stationed; or the Surgeon or Assistant Surgeon of a Detachment with which that Corps, or any part of it, may be acting, shall afford medical aid to the sick or wounded of Captain Skinner's Corps; and that the Surgeon or Assistant Surgeon so employed shall be allowed to draw at the rate of Sonat Rupees 22 - 8 per month, for every hundred men present, but no stoppage is to be made from the men of this Corps on that account.

Medical allowances for the Corps of Irregular Cavalry under Captain Skinner and Gardner.

The Governor General in Council is pleased to authorize two additional Native Doctors for the Corps commanded by Captain Skinner.

Proc. G. G.  
Jud. Dep. 18th  
May 1809

That an allowance be granted to the Assistant Surgeon attached to the Civil Station of Futrukabad (now Mynpoory) for the medical care of the Officers and men of the Corps of Irregular Horse, under command of Captain Gardner, at the rate of Rupees 22 - 8 per hundred men, to be discharged by and entered on the disbursements of the Deputy Paymaster at Futrighur, (now Meerut) and transferred in the usual course to the Civil Department, together with the other expences of the Corps.

M. G. 20th  
Oct. 1786

Agreed, that the allowance of Rupees 200 per mensen to Mr. James Nasmyth, Assistant Surgeon, to defray the expence of medicines for the use of the Children of the Non-commissioned and Privates under the care of the Orphan Society, be continued to him, or to the Surgeon for the time being attending upon the children.

Salary fixed for the Assistant Surgeon in charge of the Lower Orphan School.

Agreed, that the sum of 100 Rupees per mensem be paid in future to the Surgeon of the Orphan House, in addition to his present allowance, for supplying Medicines for the Children on that establishment. M. C. 311  
May 1788

Mr. J. Fullarton, Assistant Surgeon to the Lower Orphan School, is allowed extra batta in consideration of his providing his own quarters. Proc. G. G.  
15th Sep. 1807

(For the allowances for the medical charge of the Cadet Company, and the Honorable Company's Stud at Poona, vide pages 221 and 278.)

Medical allow-  
ances for Artifi-  
cers, &c. of Ma-  
gazine establish-  
ments,

No arrangement having been made for securing regular medical attendance to the people belonging to the Magazine and Arsenal Establishments at the Stations hereafter specified, the Vice President in Council is pleased to determine that the medical charge of the people of that description at Cuttack, Berhampoor, Danapoor, Fultighur and Dehli, shall be entrusted to the senior Surgeon of the Native Corps at those Stations respectively. G. O. V. P.  
19th Sep. 1809

The people attached to the Magazine and Arsenal Establishments at Cawnpoor are to receive medical attendance from the Surgeon in charge of the Depot at that Station.

The same medical allowances are to be drawn by the Surgeons for the people above described, as is established for Gun Lascars, viz: Sonat Rupees 16 per mensem, for every hundred men.

Allowance for  
Medical atten-  
dance on the  
Staff Officers,  
&c. of Stations,  
by whom to be  
drawn, and at  
what Stations  
allowed.

Ordered, that the medical aid required by the Staff Officers of Stations, and for other individuals for whom no provision is specially made by the new medical regulations, shall be furnished by the senior Regimental Surgeon actually present, and that he be allowed Sonat Rupees 100 per mensem, for the expense incidental to this extra duty. G. O. G. G.  
21st Sept. 1807

The subject of the allowance for medical attendance on Staff Officers of Stations having been lately brought under the particular consideration of Government, in consequence of the different claims to it by Surgeons not holding any medical charge, nor employed in any situation entitling them to draw this allowance, his Lordship in Council, with the view to prevent the recurrence of claims of this nature, as well as to remove any doubts that may be entertained with regard to the operation of the rules established on this subject, by General Orders of the 21st September, 1807, is pleased to resolve that the allowance granted by these orders, is intended to provide for medical attendance on Staff Officers at the principal Army Stations of Berhampoor, Danapoor, Chunar (now Benarus,) Cawnpoor and Muttra (now Meerut,) and will therefore be confined to the senior Surgeons of the Native Regiments at those Stations respectively. G. O. G. G.  
10th Oct. 1808

The Governor General in Council is further pleased to resolve that the allowance in question shall cease on the march of the Troops from any of those Stations.

The Vice President in Council is pleased to direct that the medical assistance required by the existing regulations to be afforded by the Garrison Surgeon of Chunar to the Station Staff and to Officers and men who may occasionally reside, or be in attendance on duty or otherwise, at the Head-quarters of the district, be hereafter afforded by the senior Surgeon present with the Native Troops at Secrole, who is permitted to draw the allowance of Sonat Rupees 100 per mensem on that account. G. O. V. P.  
29th Aug 1809

The Governor General in Council is pleased to direct that the Surgeon in charge of the Medical Depot at Cawnpoor shall afford medical assistance to the General Staff at the Station, and to Officers not attached to Corps. The medical allowance of Sonat Rupees 100 per month, established by the regulations on account of this duty, will in consequence be hereafter drawn by the Depot Surgeon at Cawnpoor, and not by the senior Surgeon of the Native Corps at that Station, as sanctioned by General Orders of the 10th October last. G. O. G. G.  
10th Feb. 1809

Regulations for  
the control  
and manage-  
ment of Gen-  
eral and Field  
Hospitals;

The Head Surgeon of every Hospital shall assign the several parts of duty to the inferior Surgeons and others employed at his Hospital, and direct that the sick be conveniently lodged in wholesome wards, having a free circulation of air, that they be kept clean and not crowded in their apartments, and are regularly subsisted, agreeably to the diet tables established for that purpose; they are also empowered to dismiss such of the nurses, servants, or attendants, as they shall find negligent or ill qualified for the business of the Hospital. Let. C. D. 21st  
September 1785  
M. C. 22d  
May 1786

Non-commissioned Officers, Drummers and Privates shall only be admitted into General Hospitals, on their producing an order, signed by the commanding Officers of the corps to which they belong, specifying their names, rank, and the number of their Company and Regiment; this order to have a certificate from the Surgeon or the Surgeon's mate of their respective Regiments, annexed to it, setting forth their age, distemper or wounds, and the day of their being sent to the Hospital, to which the Head Surgeon of the Hospital shall attach the initials of his name, with the day of the month on which the patient was received; he is also to record in a book, to be kept for that purpose, the names of the Patients received, their ages, disorders, &c.; and when they are dismissed from the Hospital they are to be sent to their respective Regiments, accompanied with a discharge from the Head Surgeon, mentioning their names and rank, the time they were in the Hospital, and the day on which they were discharged, recording the same in the Hospital Day-book, already mentioned.

And for the admission and discharge of Patients.

The Chief Surgeon of each Hospital shall be responsible that such of the non-commissioned Officers, Drummers and Privates as are admitted into their respective Hospitals be regularly supplied with a clean cot, a large pillow, fresh bed cloathes, fresh gown, cap, shirt and long drawers, and that those, whose cases may require it, shall have a fresh shift of cloaths, a bed and a small pillow, or two, if necessary; he is also to take particular care that no person belonging to the Hospital shall receive any reward or emolument from the Patients in the Hospitals, and to dismiss all such as may attempt advantages of that nature.

No medicine shall be applied for or administered in the Hospital, without the Order of the Head Surgeon, of which medicines an exact account is to be taken and stated in a Journal kept for the purpose, as a voucher against embezzlement and misapplication.

Medicine how to be administered.

The General Hospital shall at all times be supplied with a Guard and it to be regularly visited by the Officer of the day, who is to report to the commanding Officer the daily state of the Hospital.

The Hospitals to be supplied with a Guard, and to be visited by the Officer on duty.

The Head Surgeon, or in his absence the first mate of the Hospital, is to accompany the Officer of the day in his rounds at the Hospital, and to answer such enquiries as he may have occasion to offer, for the purpose of obtaining every necessary satisfaction, respecting the situation and treatment of the sick.

M. C. 10th  
August 1793.

Resolved, that every Surgeon, or Assistant Surgeon attending a Hospital, or having charge of any particular division or ward, shall keep a Diary, expressing the names of the Patients under his care, the nature of their disorders, when admitted, daily state of the patients and copies of all the prescriptions; that this Diary be examined by the Head Surgeons, and that the dates of discharges or casualties, and every alteration of treatment ordered by the Head Surgeon be particularly noticed.

Forms to be observed in the Diary to be kept by all Surgeons appointed to Hospitals, &c.

Copies of these books, signed by the respective Surgeons or Assistant Surgeons and countersigned by the Head Surgeons, are to be sent quarterly to the Medical Board, and the original Books are to remain always in the Hospitals.

G. O. C. G.  
21<sup>st</sup> ... 1794

The foregoing Medical Regulation not being intended to extend to trivial cases, the Medical Board will be pleased to circulate instructions describing the nature of the cases in which they deem it necessary to require the degree of attention of the Surgeons, and the reports of the cases and treatment of the Patients, prescribed in the said Regulation.

ST. C. 16th  
July 1787.

The duty of Hospital Stewards shall be serving out the provisions and wine, taking care of cots and cloathing, and that the people are properly shifted, agreeably to the Regulations, and the Hospital kept clean and in good order.

Determining the duties of Hospital Stewards.

G. O. 1<sup>st</sup>  
March 1787.

The Head Surgeon of every General Hospital is, on the first of every month, to deliver to the Paymaster at the Station a Return, signed by himself, and countersigned by the commanding Officer, for the month preceding, wherein is to be entered his own name and that of the mates attached to the Hospital under his charge, pointing out all casualties, with their dates, and distinguishing also those present and absent.

Returns to be given in by Surgeons in charge of Hospitals of the Assistant Surgeons doing duty under them.

Medical Regns.

The Apothecary and Steward to be appointed by the Surgeon, with the approbation of the Medical Board.

Certificates of the admission and discharge of patients how to be furnished.

Considerable inconvenience and delay in the adjustment of the charges on account of Military patients received into the General Hospital at the Presidency, having frequently occurred in consequence of the difficulty experienced by the Surgeons in procuring the necessary vouchers for them, from the proper Officers or Departments; the Governor General in Council, with the view of facilitating the audit of charges of this description, is pleased to direct that all Officers at the head of Departments, or in charge or command of Corps, having occasion to send patients to the General Hospital at the Presidency, shall furnish to the Surgeon, for the information and guidance of the Military Auditor General, certificates, specifying the Corps or Department to which the men belong, &c. and the dates of their admission and discharge from the General Hospital.

G. O. G. G.  
14th Nov. 1808

Whenever, in consequence of the departure of the Officer from the Presidency, or any other cause, certificate of the discharge of the patients cannot conveniently be furnished by the same Officer who sent them to the General Hospital, the proper attestation on that point will, in such cases, be supplied by the Superintending Surgeon at the Presidency.

G. O. G. The Governor General in Council directs that, on all future occasions, the charge for  
6th Feb. 1809 interring the remains of paupers who may die at the General Hospital, may be restricted to Sonat Rupees 8 9 10 per man, in conformity to the regulations on that subject. ART. 52<sup>d</sup>—The Field Hospitals to be under the immediate charge of Field Surgeons, subject to the controul of the Superintending Surgeons.

ART. 65<sup>th</sup>—In consideration of the great trust to be reposed in the Field Hospital Surgeon, he will be allowed to draw, exclusive of the established allowance on account of the patients, Sonat Rupees Six Hundred per mensem, during the time he may be actually in charge of a Field Hospital, in addition to the pay, full batta and gratuity of his rank, which is to be in lieu of all claims whatever, and also as a remuneration for his superintendence and care of the medicines and instruments which may be placed under his charge.

Allowances for Field Hospital Surgeons.

ART. 63<sup>d</sup>—To each Field Hospital there shall be attached three or more Assistant Surgeons, as may be required to do the duty of the Hospital, under the immediate orders of the Field Hospital Surgeon.

Number of Assistant Surgeons to be appointed.

ART. 64<sup>th</sup>—To each Field Hospital there shall also be attached an European Steward with the pay of Sonat Rupees fifty per mensem, and an European or Portuguese Compounder with the pay of Sonat Rupees thirty per mensem; but all the other servants required for assisting in the Dispensary, and in fomenting and dressing the wounded men, are to be furnished by the Field Surgeon.

An European Steward and Compounder & two Native Doctors, allowed; all other servants to be supplied by the Field Hospital Surgeon.

ART. 71<sup>st</sup>—To each Field Hospital there shall be attached a Native Hindoo Doctor, and a Native Mussulman Doctor, at Sonat Rupees twenty, each, per month, to be paid by Government; but all the other servants required for the Native Division of the Hospital shall be furnished by the Field Surgeon.

ART. 72<sup>d</sup>—The European and Native Divisions of the Hospital, with their respective establishments of servants, to be carefully kept separate and not allowed to interfere with each other.

The European and Native Divisions to be kept separate.

ART. 53<sup>d</sup>—The Regimental Surgeons (of European corps) are to continue to draw the general per-diem allowance, and to receive the regulated stoppages from the pay of each man of their corps, who may be sent into the Field Hospital, and who are to be returned under the head "Sick in the Field Hospital."—(For G. O. G. G. 9th July 1807 prohibiting stoppages being made from the pay of wounded Soldiers, and fixing compensation in lieu thereof to the Surgeons, *vide page 315*.)

The medical allowances for men in the Field Hospitals to be drawn by the Regimental Surgeons, by whom the charges of the Field Surgeon are to be defrayed.

ART. 54<sup>th</sup>—The Field Surgeons to be allowed one Rupee per diem for every European Soldier under their charge, which expence is to be defrayed by the Surgeons of the corps to which the men belong, and to be deducted from their general per-diem allowance and stoppages, conformably to returns properly vouched, as in the manner following, and transmitted to the Paymaster by the Field Surgeons.

ART. 55<sup>th</sup>—The Field Hospital Surgeon's monthly charge against each Regimental Surgeon, accompanied by a roll of the names of the patients, specifying the Company to which they belong, is to be certified by the commanding Officer of the Corps, as corresponding with the number of Sick, and the number of days they were in Hospital, and to be then sent to the Paymaster in order that the amount may be deducted from the abstracts of these Surgeons, respectively.

Charges of the Field Surgeon how to be certified and paid.

ART. 56<sup>th</sup>—For the sick of His Majesty's Regiments, the Field Hospital Surgeon shall transmit his bill, certified as before directed by the commanding Officer, to the Paymaster of such Regiment, who will take the same measures for receiving the amount from the

Regimental Surgeon, and draw a bill for such amount on the Paymaster of His Majesty's Troops, in favor of the Field Hospital Surgeon.

If the charges exceed two thirds of the allowance drawn for any Corps, the excess will be defrayed by Government.

Provision of diet, clothing, servants, &c. for the Patients to be made by the Field Surgeon.

ART. 57th—In the event of so many men being sent into the General Field Hospital, from any particular Corps, that the allowance to the Field Surgeon of one Rupee per diem for each man will amount to more than two thirds of the general per-diem allowance and stoppages for the Regiment, the excess is to be defrayed by Government.

ART. 58th—For the above-mentioned allowance of one Rupee per diem, for each European Soldier, the Field Surgeon shall provide the patients with diet, Hospital clothing and bedding, servants to attend them, wine, Bazar medicines, spirits, materials for poultices and fomentations, lint, bandage cloth, and every other article required for the sick and wounded men, Europe medicines and instruments excepted.

#### DOOLIES.

Doolies for the Sick of the Army how to be provided.

ART. 40th—The Doolies for the use of the Sick of the Army are to be provided at the expence of the Hon'ble Company, and are to be constructed under the superintendence and direction of the Barrack-master at the station, and of the senior Quartermaster where there is no Barrack-master.

The Doolies are to be provided on estimates to be previously submitted to Government,

through the Military Board, and to be constructed conformably to a pattern that will be approved by a Committee of the Military and Medical Boards.

Ref. M. B.  
21st Mar. 1809

With a view to the deposit of an approved pattern Dooly at each of the principal Stations, as has recently been done with respect to barrack coats, agreed, that the Executive Officer be requested immediately to construct six more Doolies, corresponding in every respect with that lately made by him, after the distribution of which to the several stations, the wants of the public service may, as they arise, be provided for at a short notice by contract or agency, as Government may be pleased to determine.

A pattern Dooly to be deposited at each of the principal Stations.

G. O. V. P.  
21st May 1812

It having been reported to Government that great inconvenience is experienced from the practice which prevails of keeping Doolies in the Verandas of Hospitals, the Vice President in Council prohibits more than one Doolie, which is always required to be in readiness for immediate use, being in future lodged there; and authorizes an extension of the store rooms of corps by the addition of 30 feet to the store room of a Regiment of European Infantry—20 feet to that of a Regiment of Dragoons,—10 feet to that of a Battalion of Native Infantry,—and 8 feet to that of a Regiment of Native Cavalry, expressly for the purpose of affording cover for the Doolies, not in constant use at the Hospital of each corps.

Doolies delivered to corps to be kept in the Regimental store room and included in the Quarterly Returns.

G. O. C. C.  
21st Feb. 1819

The Commander in Chief directs that the number of Doolies, the property of Government, which have been or may hereafter be received by corps of His Majesty's or the Hon'ble Company's Service, be regularly reported every quarter to the Military Board, and the condition of them at the date of the report to be particularly described.

A separate Report is for this purpose to be forwarded quarterly from His Majesty's Regiments; and the Quarterly Returns and Annual Survey Reports from corps of the Hon'ble Company's Service, are to describe the number of Doolies and their condition, in the manner prescribed for other articles of Military Stores.

Ref. M. B.  
6th June 1809

Barrack-masters are directed to send Quarterly Returns of the Doolies under their respective custody.

G. O. G. G.  
21st May 1807  
Medical Regns.

ART. 40th.—One Sonat Rupee per month is to be drawn by the Adjutants of Battalions or Regiments for the occasional petty repair of each Doolie attached thereto.

ART. 41st.—When the Doolies are delivered over to corps, the Officers drawing the monthly allowance for repairs are to be responsible for due care being taken of them, and any petty repairs which the Doolies may require, are to be made at their expence; but in the event of any of the Doolies becoming unserviceable, which is to be ascertained by a Committee of Officers, to be nominated for the purpose by the commanding Officer of the Station, the Surgeons are to transmit indents for new Doolies to the Military Board, through the commanding Officer, who will forward the indents to that Board, accompanied by the Report of the Committee which surveyed the old Doolies, and an estimate is to be prepared by the Barrack-master, or senior Quarter-master, of the expence of constructing the required number of new Doolies, which will be provided by contract, or otherwise, according to circumstances.

Doolies how to be reported and renewed when becoming unserviceable.

ART. 39th.—The present Cantonment and Field proportion of Doolies for European and Native Corps, to be continued.—(For the Table of Proportions of Doolies for the different corps, departments, &c. of the Army, vide Form No. 2.)

Proportion of Doolies in the Field and in cantonments for the several corps.

G. O. 13d  
July 1787

The Field establishment of Doolies is only to be allowed when actually marching, commencing the day on which the Troops begin their march, and ceasing the day on which they arrive at their station.

Field establishment when to be entertained.

G. O. G. G.  
19th Oct. 1807

The Governor General in Council is pleased to determine that the proportion of Doolies for European Troops, serving under this Presidency, when employed on Field Service or marching, shall be regulated according to the actual strength of Corps, allowing one Dooly for every ten men.

Proportion of Doolies for European corps when in the Field.

Ref. M. B.  
28th Oct. 1808

Agreed, to request Major General Clarke will give orders for the distribution of the remaining Army Doolies to Corps, as and dependant on Danapoor, in the proportion of

Number of Doolies allotted to each Battalion of Native Infantry.

eleven for each Battalion of Native Infantry, one of which is to be used for the conveyance of the sick from their lines to the Hospital in Cantonments, and ten to be reserved for Field Service; the whole to be brought on the returns of Corps and regularly accounted for.

to detach-  
ments of Na-  
tive Troops  
when march-  
ing, or in the  
Field.

When a Detachment of Native Infantry is ordered upon duty from any fixed Station, when they shall be actually marching, one Dooly for each company will be allowed, according to the strength of such detachment, to commence the day of their march, and to cease the day of their return to the Head-quarters of the Battalion from which such detachment is made.

G. O. 23d  
July 1787

When more than half a Company of Sepoys is detached, one Dooly is allowed for them, whilst marching, so long as they are not at any Station at which temporary buildings are erected or have been ordered to be erected.

Additional pro-  
portion allow-  
ed to Native  
Troops detach-  
ed on distant  
service by land.

#### HOSPITAL WAGGONS.

Order for the  
construction of  
Hospital wag-  
gons and pro-  
portion allotted  
to the several  
corps.

The Commander in Chief is of opinion that the Cart made up under the direction of Colonel Horsford, for the conveyance of sick and wounded Soldiers, is extremely well calculated to answer the very important object for which it is intended, and will comfortably accommodate ten men with their arms:

Ext. Let Adj  
Gen. 15th Mar.  
1810

His Excellency, therefore, recommends that carts of that pattern may be established for the Service of this Presidency, in the following proportions:

Three for each Regiment of European Dragoons .... 6

ART. 35th—Europe medicines and instruments shall be supplied to the Surgeons of European Corps from the Honorable Company's Dispensary as formerly.

Europe medi-  
and  
struments how  
to be supplied  
to the Surgeons  
and indents for  
them how to  
be prepared.

ART. 36th—All indents for Europe medicines and instruments from Regimental Surgeons at the several Stations of the Army, having been first countersigned by the Superintending Surgeons, are to be transmitted to the Medical Board, by whom, when proved, they will be sent to the Dispensary.

The Medical Board will transmit to each of the Superintending Surgeons an invoice of the medicines to be used in the Hospitals; to the articles specified in which, it is expected that the Regimental Surgeons will confine their practice.

In case of any articles being indented for which are not contained in the invoice, the indent is to be accompanied with an explanation of the reason for such requisition.

6th Feb. 1809

The Governor General in Council having had under his consideration the expediency of Depôts of Medical Stores and Instruments being established in the Upper Provinces, on the principle, as well of affording a more prompt supply for demands in the ordinary course of the Service, as of providing for the possible exigencies of a distant frontier; was pleased on the 15th February, 1808, to determine that a Depôt of this description should be maintained at each of the principal Stations of Cawnpore and Agra.

Depôts of Me-  
dical Stores &  
instruments es-  
tablished at  
Cawnpore and  
Agra.

Let. Sec. Med.  
2nd Board 25th  
May 1808

Government have resolved, that the quantities of medicines to be deposited in the Depôts of Medical Stores, established at the Stations of Cawnpore and Agra, should at least be equal to the consumption of the Regimental Hospitals for twelve months.

Proportion of  
medicines to be  
deposited in  
the Depôts.

G. O. G. C.  
6th Feb 1809

The following list of the establishment to be entertained at those Stations, respectively, or at such other Stations as circumstances may eventually render it expedient that one or both of those Depôts should be transferred to, being sanctioned by his Lordship in Council, is now directed to be published in General Orders.

Allowances &  
establishments  
fixed for the  
Surgeons in  
charge.
